## PART I—Section 2.

### GENERAL.

*No. G. 1458, dated 28th October 1903.*

The following paragraphs 1 and 2 from the Proceedings of the Government of India in the Home Department (Public) dated 8th December 1899, No. 2831—42, published in the *Mysore Gazette* with Notification No. 8134—Mis. 2321, dated the 17th January 1900, regarding the desirability of Indian students and others visiting in England, providing themselves, before their departure from India, with an authoritative certificate of identity in the form appended, is republished for general information :—

No. 2831—42.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

### RESOLUTION.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country, and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England, the desirability of providing themselves before their departure from India with an authoritative certificate of identity, in the form appended to this resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

### FORM OF CERTIFICATE OF IDENTITY.

1. Name of applicant.
2. Father's name and caste.
3. Residence.
4. Age of applicant.
5. \*Nationality of applicant.
6. Social and pecuniary status of father (or guardian).
7. Date and probable departure of applicant from India.
8. Object of applicant's visit to England (Europe).

*Dated*

\* i.e., Whether a British subject by birth or by naturalization (or a subject of a Native State).  
Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges.

*No. G. 292—G. M. 51-11-1, dated 13th July 1914.*

It is hereby notified for general information that applications for appointments in the State Service should be drawn up on printed copies of the form appended below. Applications not complying with this requirement are liable to be overlooked.

### APPLICATION FOR APPOINTMENT.

SIR,

I beg to tender this my application for appointment and state the following particulars. Specimens of my handwriting in English and Kanarese, on half sheets of paper, foolscap size, are annexed hereto together with copies of my testimonials.

NOTIFICATION.

COMMERCE AND TRADE.

*Delhi, the 4th December 1915.*

Whereas, by paragraph 5 of the Trading with the Enemy Proclamation, No. 2, dated 9th September 1914, as amended and extended by the Proclamation dated the 5th November 1914 and by the Proclamation dated 16th October 1915, trade and financial or commercial transactions between British subjects and persons or bodies of persons resident in the territories of the German Empire or in the Dual Monarchy of Austria-Hungary or in the respective colonies and dependencies thereof, or in the territories of the Sultan of Turkey (other than Egypt, or any territory in the occupation of the British Government or its Allies), or in the territories of the King of the Bulgarians in this license and in the said Proclamations referred to as "enemy country" are prohibited; and

Whereas, by paragraph 1 of Trading with the Enemy (China, Siam, Persia, and Morocco) Proclamation, 1915, it is provided that the said Proclamations shall apply to persons or bodies of persons of enemy nationality resident or carrying on business in China, Siam, Persia or Morocco, in the same manner as they apply to persons or bodies of persons resident or carrying on business in an enemy country; and, by paragraph 2 of the said Proclamation, it is provided that nothing in the Proclamation shall be taken to prohibit anything which may be specially permitted by license granted by or on behalf of the Crown; and

Whereas, by paragraph 3 of Proclamation dated 8th October 1914, power to grant such licenses on behalf of the Crown may be exercised in India by the Governor-General;

Now, therefore, I, Charles, Baron Hardinge of Penshurst, hereby authorize all British subjects residing, being or carrying on business in British India, to trade or carry on business with the persons or bodies of persons of enemy nationality resident or carrying on business in Persia who are named in the schedule hereto attached, and with such other persons or bodies of persons so resident as may hereafter be declared by a notification of the Governor-General in Council in the *Gazette of India* to be well disposed towards the British Government.

2. This license may be cited as the Trading license (Persia), 1915.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## GENERAL.

No. G. 9530—G. M. 142-15-17, dated 6th January 1916.

In continuation of Government Notification No. G. 7850—G. M. 142-15-15, dated 16th December 1915, the following Press Communiqué dated the 9th December 1915, issued by the Government of India, Department of Commerce and Industry, publishing the text of the Italian Prize Court Regulations, is hereby republished for general information:—

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

PRESS COMMUNIQUE.

Delhi, the 9th December 1915.

The following Extract from the *London Gazette* is published for general information:—

## ITALIAN PRIZE COURT REGULATIONS.

FOREIGN OFFICE,

October 27, 1915.

With reference to the notification which appeared in the *London Gazette* of June 22 last, His Majesty's Secretary of State for Foreign Affairs has received from His Majesty's Ambassador at Rome the following translations of Decrees and Regulations which have been issued with regard to the Italian Prize Court.

In this connection reference is also made to the Regulations published in the *London Gazette* of the 19th instant.

(1)

(Decree of May 30, 1915, No. 807.)

(Translation.)

Thomas, Duke of Genoa, Lieutenant-General of His Majesty Victor Emmanuel III, etc.

In virtue of the authority delegated to us;

In view of Article 225 of the Code for the Mercantile Marine;

In view of the state of war existing between the Kingdom of Italy and other European Powers, after consultation with the Council of Ministers;

On the proposal of the Minister of Marine, in concert with the Minister of Foreign Affairs, of Colonies, of Justice and Worship, we have decreed and we decree:—

Article 1.—The Prize Court provided for in Article 225 of the Mercantile Marine Code will have its seat in Rome, and will have authority also for the colonies.

Article 2.—The Prize Court will be presided over by a first president of the Court of Appeal, active or retired, or by a president of a section of the Court of Cassation, active or retired.

It will be composed of the following ordinary and supplementary members:—

Ordinary members—

- (a) An admiral.
- (b) A member of the "contentieux diplomatique."
- (c) A Counsellor of State.
- (d) The Director-General of the Mercantile Marine.

(e) The inspector of the port captaincies.

(f) A magistrate of the legal profession having rank not inferior to that of a Counsellor of Court of Appeal.

In categories (a), (b), (c) and (f) a supplementary member will be selected.

Article 3.—A Government commissioner will initiate the proceedings in the name of the Government, and will record his opinions. A magistrate of the public ministry of a rank not inferior to a King's procurator will act as Government commissioner. In case of absence or other impediment another magistrate of the public ministry will take his place.

The Government commissioner and the supplementary commissioner when the latter is taking the former's place have no voice in the discussions, and no vote.

Article 4.—The Prize Court will be attended by a secretary, having no vote, selected from among the officials at the Admiralty, of a rank not inferior to that of commander.

The secretary will be assisted by a vice-secretary, who replaces him in case of temporary absence.

The vice-secretary will be selected from among the officials of the Ministries of Foreign Affairs, Marine and Grace, Justice, and Worship of a rank not inferior to that of first secretary.

Article 5.—The president, the ordinary and supplementary members of the Prize Court, the Government commissioners and the supplementary commissioners, and the secretary will be appointed by decree on the recommendation of the Ministers of Marine, Foreign Affairs, and Justice.

The vice-secretary is appointed by decree of these Ministers.

Article 6.—The Prize Court will draw up, at its first sitting, rules of procedure for its future guidance. These rules will be published in the Official Gazette.

Article 7.—Five members constitute a quorum, including the president or his substitute.

The president or his substitute will have the casting vote.

Article 8.—Interested parties may present written memorials direct to the president of the Court.

Article 9.—The representatives of Foreign Powers accredited to the Italian Government may address to the Government commissioner any observations which they may think advisable in the interests of their nationals.

Article 10.—The decisions of the Court will include an exposition of the grounds on which they are based (*sono motivate*). They are not subject to appeal, opposition, or revocation except when taken to the Supreme Court of Cassation in the terms and conditions laid down in Article 3 of the law of 31st March, 1877, No. 3761 (series 2).

Article 11.—The decisions of the Prize Court will be communicated to the Ministries of Foreign Affairs and Marine within eight days of their pronouncement.

Article 12.\*—The expenses of the secretariat and other incidental expenses for the working and service of the Prize Court will be charged to the extraordinary funds placed at the disposal of the Ministry of Marine in consequence of the international situation.

We order that the present decrees sealed with the seal of State shall be inserted among the laws and decrees of the Kingdom of Italy, commanding all concerned to obey it and cause it to be obeyed.

Given at Rome, May 30th 1915.

THOMAS OF SAVOY.

(2)

(Decree of August 1, No. 1234).

(Translation.)

Article 1.—The Prize Court established by our decree No. 807 of 30th May, 1915, is empowered to deal with all claims for compensation for losses presented against the State for matters pertaining to the exercise of the prize law during the present state of war.

The proceedings leading up to a decision by the Court in such cases shall begin by the presentation of the claim to the Ministry of Marine, and shall follow the course laid down in the rules to be drawn up for this purpose in the administrative regulations of the Prize Court.

\* See amended version in (2).

Article 2.—The following text shall be substituted for Article 12 of our decree No. 807 of the 30th May, 1915:—

“Article 12.—The amounts of the indemnities and salaries to be paid to those constituting the Prize Court and to the secretary and vice-secretary shall be fixed by decrees of the Ministry of Marine to be registered at the Audit Office under the heading of ‘War Expenditure,’ in the budget of the Ministry of Marine.”

Article 3.—The present decree comes into force from the 30th May, 1915, the date on which the Prize Court was established in accordance with our decree of the 30th May 1915, No. 807.

(3)

*Regulations laid down by the Italian Prize Court, September, 13, 1915.*

(Translation.)

Article 1.—The application to exercise the right of action for obtaining compensation for losses, provided for by Article 1 of the Decree of His Majesty's Lieutenant of August 1, 1915, No. 1234, must contain:

(a) The Christian and surname, or trading name, nationality, and residence or domicile of the claimant.

(b) A summary of the circumstances on which the claim for compensation is based.

(c) A statement of the amount of payment claimed.

(d) The domicile elected in Rome indicating the person with whom or office where domicile has been elected.

(e) A list of the documents produced in support of the application, and a declaration of the evidence which the claimant considers necessary.

(f) The signature of a lawyer practising at a Royal Court of Appeal furnished with a special power of attorney.

In case of non-election of domicile notifications to the claimant are made by depositing them in the office of the secretary of the Prize Court.

Article 2.—The Ministry of Marine transmits the application with all documents in support to the Government commissioner on the Prize Court, notifying the President of the fact.

The Government commissioner expresses his opinion on the application and, when necessary, submits documents and suggests means for obtaining further evidence.

Article 3.—Judgment on the application is given in the form laid down by the Internal Regulations of the Prize Court for the judgment of legality of capture, approved at the sitting of June 26,\* with the following exceptions:—

\*See Regulations published in the *London Gazette* of October 19, 1915.

(A) The Presidential Decree referred to in Article 6 of the Internal Regulations is not published in the Official Gazette, nor communicated to the Diplomatic Agents, but is immediately notified to the claimant at his elected domicile.

(B) The period laid down in Article 7 of the Internal Regulations counts from the date of such notification.

(C) The order referred to in Article 11 of the Internal Regulations is not published in the Official Gazette.

Article 4.—When an application for compensation has relation to facts connected with the judgment on the legality of capture sought for or pending, and the period provided by Article 7 of the Internal Regulations has terminated, the President is authorized, after consultation with the Government commissioner, to order the co-ordination of the two judges by means of a notice to be communicated to the parties interested.

When the application is presented after the preliminary examination into the legality of capture has been closed the co-ordination of the judgments can only take place on application from the party interested. The latter, however, in this case is not allowed to put forward proofs.

When the application for compensation for losses has been presented after the fifth day from the closing of the preliminary examination, the order for the fusion of judgments may only be given on the application of the parties already constituted in the action regarding legality of capture.

Article 5.—When the Court decides that compensation for loss is due, it can order the parties to submit to an ordinary judge the decision of questions relating to the distribution of the sums awarded by the Court and the existence or non-existence of debts claimed by those who are entitled to the aforesaid sums.

Article 6.—The application, the power of attorney and the documents produced by the claimant, as also the acts submitted by him to judgment are subjected to the provisions of the laws regarding stamps and registration. The provisions and deliberations of the Prize Court respecting compensation for

loss are also subject to the provisions of such laws, provided the judgment on compensation is not co-ordinated with that on the legality of capture.

On presenting his application the claimant should deposit with the Secretary of the Prize Court the sheets of stamped paper required for the acts to be submitted to the Court at his request. When the judgment on compensation for losses is not co-ordinated with that on the legality of capture, the claimant should also deposit the sheets of stamped paper necessary for the provisions and deliberations of the Court. The claimant must, in presenting his application, deposit with the Secretary the presumed amount of the registration fee to which the deliberations of the Court are liable.

The claimant should, finally, deposit with the Secretary the sum which the latter shall judge necessary for the execution of the acts of the preliminary examination required of him.

Article 7.—In case of non-fulfilment of the provisions of the last paragraph of the proceeding Article, the commission passes judgment on the Acts as they stand: in case of non-compliance with the other provisions of the aforesaid Article and those of Article 1, the Court sitting in the Chamber of Council suspends judgment until this has been rectified.

The declaration of suspension is notified to the claimant at his elected domicile.

Article 8.—The Court, even in cases in which it accepts the demand for compensation, is empowered to allow costs wholly or in part.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most-expeditiously.

*Financial Secretary.*

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a

suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

*Financial Secretary.*

## FINANCIAL.

No. FL 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

In continuation of Government Notification No. G. 5401—G. M. 76-15-128, dated 27th October 1915, the following Press Communique dated the 6th January 1916, issued by the Government of India in the Department of Commerce and Industry is hereby republished for general information.

“GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

PRESS COMMUNIQUE.

Delhi, the 6th January 1916.

In modification of the Press Communique, dated the 25th September 1915, it is notified for general information that export of coal or coke from British India to the Dutch East Indies will be permitted under licenses subject to the following conditions or restrictions:—

1. Exports will be allowed only to certain firms approved by His Britannic Majesty's Consul-General, Batavia. The names of such firms may be ascertained from the Collectors of Customs.

2. Exporters will receive and will be required to communicate to the importers with each consignment of coal or coke despatched, the following statement of stipulations, namely:—

(i) that no coal or coke of any kind or origin is furnished directly or indirectly (a) to any vessel belonging to the enemy countries, (b) to any vessel known to trade with the enemy countries and (c) to any vessel or firm the name of which is specially notified;

(ii) that no coal or coke is used in the production of goods or by products of distillation of military value which are furnished directly or indirectly to enemy countries;

(iii) that no coal or coke is sold by one importer to another without the express authority of the Government of India which should be obtained through the Collector of Customs at the port of shipment; and

(iv) that the importers should give an undertaking to His Britannic Majesty's Consul-General, Batavia, that they will observe the above conditions.

3. Shippers should furnish to the Collector of Customs at the port of shipment a bond in respect of each consignment that they will produce, within a reasonable period, a certificate given to the importers by His Britannic Majesty's Consul-General, Batavia, to the effect that the foregoing stipulations have been or will be complied with. Infringement of any of the above conditions or restrictions will involve refusal of further licenses.”

In continuation of Government Notification No. G. 6667—G. M. 76-15-137, dated 27th November 1915, the following letter No. R. & S. 1077, dated 5th March 1915, from the India Office and its enclosures are hereby republished for general information.

INDIA OFFICE,

R. & S. 1077.

London S. W.,

5th March 1915.

MY DEAR LOW,

With reference to the letter from this Department R. and S. 173, of the 25th February,

From Mr. Willis, dated 26th February, with enclosure.

From Messrs. Cowie Bros. & Company, dated 22nd February:

To Messrs. Cowie Bros. & Company R. and S. 1077, dated 4th March.

I enclose copies of further papers regarding the importation into India of goods of Belgian origin.

In order to make clear to you the view on which the letter to Messrs. Cowie Brothers was based, I also send a copy of an explanatory note submitted in this Department.

Yours sincerely,

FRANCIS C. DRAKE,

Secretary Revenue and Statistics Department.

C. E. Low, Esq., C.I.E.,

Secretary to the Government of India,

Commerce and Industry Department.

BOARD OF TRADE,  
GWYDYR HOUSE,  
Whitehall, S. W.,  
26th February 1915.

DEAR DRAKE,

I enclose copy of a stock form of reply settled with Sir Arthur Thring which we are using in connection with applications to import goods from Belgium.

You may care to have this by you in connection with any questions that may arise as to the importation of Belgian goods into India.

A license to the Bank to allow the account to be operated upon would only be given in exceptional cases in which satisfactory guarantees could be obtained from the Belgian manufacturer to ensure that money only entered Belgium for the purpose of, say, paying a week's wages to the work people employed.

Yours, etc.,  
J. J. WILLIS.

F. C. Drake, Esq.,  
India Office.

(Draft—Settled with Sir A. Thring)  
C.

SIR,  
GENTLEMEN,

With reference to your application for permission to import into this country goods of Belgian origin, I am directed by the Board of Trade to draw your attention to the Proclamation of the 16th February, extending the provisions of the Trading with the Enemy Proclamation of the 9th September to all territory in the effective military occupation of an enemy, from which you will see that you are prohibited from trading with or paying money to or for the benefit of firms situated in the occupied part of Belgium without the express permission of His Majesty's Government.

The Board are, however, prepared to authorise you to import into this country goods of Belgian origin provided that payment is deferred until the enemy occupation has ceased, or that payment is made into an account in a Bank in this country, and an undertaking is obtained from the Bank that the money cannot be withdrawn except under license.

Before delivery can be taken of any particular consignment of goods of Belgian origin it will be necessary for you to furnish to the Customs Authorities an undertaking that the above conditions as regards payment will be duly observed, and also a certificate granted by a British Consular Officer to the effect that he is satisfied from documentary evidence that has been put before him that the goods are in fact of Belgian origin. This authority must also be produced at the same time.

I am to add that in those cases in which certificates of origin are not required for goods imported from Holland they will not be required for goods of Belgian origin.

I am, etc.,

20 BLYTHSWOOD SQUARE,  
GLASGOW,  
22nd February 1915.

The Secretary,  
Board of Trade,  
London,

*Trading with Belgium.*

Referring to the revision to the Proclamation regarding trading with the enemy, as amended by the Proclamation of 16th February, we had placed with Messrs. Ste. Ame. Clouterie and Trefilerie des Flandres, Gentbrugge, several orders for nails, before the issue of the Proclamation, and we shall be obliged by your saying on what conditions we may have a permit enabling us to receive delivery of these orders, which are to be delivered f. o. b. Rotterdam for shipment to Rangoon. We are also in treaty with Messrs. Ste. Ame. Liegeoise d'Estampage, Sclessin near Liege for some lots of Expanded Metal and Lathing for shipment to the same destination, for which a permit will also be necessary.

On 6th February 1915 Messrs. Ste. Ame. Etablissements Brepols Turnhout, invoiced to us 12 cases Playing Cards, and as the goods were forwarded before the issue of the Proclamation, we ask your authority to have same transhipped to Rangoon on arrival in Birkenhead. There are also several other deliveries to make of the same order, and we shall be obliged by permit to ship the same to Rangoon.

We may add that all our payments against above goods will be made to the credit of the respective firms with the Banque Belge pour l'Etranger, 2 Bishopsgate Street, London, E. C., where all our payments have been made on behalf of Belgian manufacturers since the outbreak of the war.

Yours, etc.,  
Cowie Bros. & Co.,  
(Sd.) W. GOVAN.

Revenue

R. & S. 1077.

4th March 1915.

GENTLEMEN,

In reply to your letter of the 22nd February, I am directed to inform you that the Government of India are prepared to permit importation into India of goods of Belgian origin, previously imported into the United Kingdom under special or general license granted by the Board of Trade, on production to the Indian customs authorities of the original license or of a certified copy.

In the case of such goods not previously imported into the United Kingdom, but transhipped in British ports, or imported direct into India, it would be necessary for you to produce to the Indian Customs authorities the original or a certified copy of the license from the Board of Trade authorising you to procure the goods from Belgium, together with an undertaking that the Board's requirements as regards payment for the goods will be complied with, and also a certificate granted by a British Consular Officer to the effect that he is satisfied from documentary evidence laid before him that the goods are in fact of Belgian origin.

I am,  
Gentlemen,  
Your obedient Servant,  
(Sd.) E. J. TURNER.

Messrs. Cowie Bros. & Co.,  
20, Blythswood Square,  
Glasgow.

The Board of Trade, in consultation with the Parliamentary Counsel (who is now entrusted with 'Trading with the enemy' questions), have arranged a policy of granting what amounts to a general license to procure Belgian goods on certain conditions and to import them into the United Kingdom.

There is no reason to doubt that the Government of India, who have already expressed their willingness to admit into India Belgian goods, already imported into the United Kingdom under special license, on production of the original license at the Indian port, will be ready to follow the present lead of the Board of Trade. So far as concerns firms established in India they could act on these lines on their own account. But the more usual cases will be those in which firms in the United Kingdom wish to send Belgian goods from Holland to India either *via* the United Kingdom or direct.

If sent *via* the United Kingdom, *i.e.*, if they are first landed here, they would be covered by the Government of India's decision already expressed (see above). If only transhipped in the United Kingdom, or if sent direct to India, the issue of a license, in the case of a British firm, would present difficulties, since neither this Office nor the Government of India would be in a position to know the status of a British firm or its *bona fides*, which knowledge would be necessary before a license should be given. Therefore it seems best to adhere *in the case of British firms*, to the principle already adopted, that import into India should only be permitted if the goods have been procured from Belgium under a license (special or general) granted by the Board of Trade.

The Parliamentary Counsel's Office have undertaken orally to inform this Office of any general licenses so granted, and we can inform India. It will then be sufficient for the firm to produce to the Indian Customs, on import into India, a certified copy of their license granted by the Board, together with the undertaking and the certificate referred to in the penultimate paragraph of the model form of letter sent over by the Board (below).

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

In continuation of Government Notification No. G. 10213—G. M. 76-15-202, dated 18th January 1916, the following Notification No. 309-W., dated 15th January 1916, issued by the Government of India, in the Department of Commerce and Industry, amending the list of prohibited and restricted exports from the United Kingdom, is hereby republished for general information.

“No. 309-W.—The following Order in Council is published for general information:—

AT THE COUNCIL CHAMBER, WHITEHALL.

*The 13th day of December 1915.*

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 28th day of July 1915, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 28th day of July 1915, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the same:—

- (1) That the exportation of the following goods should be prohibited to all destinations:—

Magnesite, caustic or lightly calcined, and dead burnt magnesite:  
Magnesium and its alloys.

(2) That the exportation of the following goods should be prohibited to all destinations abroad other than British Possessions and Protectorates:—

Beeswax.

(3) That the heading “ Coal, all kinds, and coke made in gas works, but not including coal allowed by the Commissioners of Customs and Excise to be shipped as bunker coal ” in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading “ Coal, all kinds, and coke, but not including coal allowed by the Commissioners of Customs and Excise to be shipped as bunker coal.”

(4) That the following heading should be included in the list of goods the exportation of which is prohibited to all foreign contries in Europe and on the Mediterranean and Black Seas, other than France, Russia (except through Baltic Ports), Italy, Spain and Portugal:—

“ All articles which are wholly or mainly manufactured of copper or its alloys and which are not at present prohibited to be exported to any destination.”

(5) That the exportation of the following articles should be prohibited to all foreign contries in Europe and on the Mediterranean and Black Seas, other than France, Russia (except through Baltic ports), Italy, Spain and Portugal:—

Silica bricks.

Now, THEREFORE, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty’s Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

ALMERIC FITZROY.”

## FINANCIAL.

*No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.*

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

- (2) that Messrs, M. Basava Iya, B.A., B.L., B. Narasinga Rao, M. Karnick Krishnamurthi Rao and C. Narasimhaiya, B.A., B.L. took their seats as additional members of the Council to-day.

### Questions and Answers.

1. **Mr. M. Chengiah Chetty, B.A., asked.**—Do not Government consider it desirable to encourage the study of the Ayurvedic and Unani systems of medicine by granting scholarships to some of the medical graduates having the necessary aptitude for the same, so that they may be of great service to such of the public as are unable to pay for English medicines?

**Mr. M. Kantaraj Urs, B.A., C.S.I., replied.**—The poor are not required to pay any fees in Hospitals and Dispensaries, the levy of small fees being limited to the rich only in the cities of Bangalore and Mysore. Applications from graduates in medicine for scholarships to study Ayurvedic and Unani systems of medicine will receive due consideration.

2. **Mr. M. Karnick Krishnamurthi Rao, asked.**—(a) Are Government aware of the memorial submitted to His Highness the Maharaja by Mr. T. R. Venkataswami Naidu, late Circle Inspector?

(b) Has any endorsement been given to him?

(c) Is he still on leave and, if so, on what kind of leave?

(d) Will Government be pleased to place the connected papers on the table?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied:—**(a) Yes.

(b) Yes.

(c) He was granted extension of furlough until the 6th May 1914, from which date he was permitted to retire from the service.

(d) Government do not consider that it will serve any useful purpose to place the papers on the table.

**Mr. M. Karnick Krishnamurthi Rao then asked.**—What was the nature of leave granted to Mr. Venkatasami Naidu just before his retirement?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied.**—He was first given privilege leave. At the end of that period, as his health was bad, he was subjected to a medical examination. Thereafter, he was granted furlough till he was entitled to pension. On considerations of health and other considerations, he was then ordered to retire.

**3. Mr. M. Karnick Krishnamurthi Rao asked.**—(a) Are Government aware that the M. & S. M. Railway authorities have issued standing passes to Christian Missionaries and will Government be good enough to arrange for similar facilities to Missionaries of Hindu and Mahomedan faiths?

(b) Is there any definite rule in regard to the grant of free passes and will Government be pleased to say who are entitled to get such passes?

**Mr. D. M. Narasinga Rao, B.A., B.L., replied.**—Yes; but it is likely that such concessions will be abolished in future.

There are no definite rules in regard to complimentary free passes, the matter being left to the discretion of the Chief Engineer and Agent of each Railway Company.

**4. Mr. B. Narasinga Rao asked.**—(a) Has the attention of Government been drawn to a paragraph in the local news column of the *Vrithantha Patrika* dated 28th October 1915, wherein it is alleged that a certain Engineer in the Cauvery Reservoir Works has misappropriated Government money and that Government have been checking the accounts concerned?

(b) Are the allegations contained in the said paragraph substantially true?

(c) If so, will Government be pleased to inform this Council the result of the enquiry?

**Mr. D. M. Narasinga Rao, B.A., B.L., replied.**—(a) Yes.

(b) and (c) The matter is under investigation.

**5. Mr. Gulam Ahmad Kalami asked.**—As the non-official members of this Legislative Council have only limited powers of interpellation and cannot move resolutions and otherwise make effective representations on public matters as in the Imperial and the Provincial Legislative Councils in British India, will Government be pleased to state whether they contemplate the grant of any further powers to the non-official members of this Council, and, if so, in what directions?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied.**—An order has recently been passed allowing members to ask supplementary questions. In view of the powers exercised by the Representative Assembly, Government do not contemplate for the present the grant of any further powers to the Legislative Council.

**6. Mr. B. V. Ramaswami Chetty, B.A., asked.**—Under Section 82 of the Mysore Municipal Regulation, 1906, every bill shall specify the time within which an appeal may be preferred against the claim and notice of demand shall issue in the form prescribed in Schedule V unless payment is made within fifteen days of the presentation of the bill. Under Section 86 of the Regulation an appeal against the claim should be brought within fifteen days next after service of the notice of demand. A bill is at present apt to be mistaken for notice of demand leading to a

premature appeal. The time within which an appeal may be filed should be specified in the notice of demand rather than in the bill.

Will Government in the above circumstances be pleased to consider the necessity for amending Section 82 and Schedule V of the Regulation?

**Mr. M. Kantaraj Urs, B.A., C.S.I., replied.**—The suggestion will be duly considered by Government.

**7. Mr. B. V. Ramaswami Chetty, B.A., asked.**—As by the acquisition of a large number of gardens for the extension of the Cubbon Park in the Bangalore City, many Thigalars have lost their means of livelihood, will Government be pleased to provide these people with lands near the Sunnakal tank or in some other suitable locality, either free of cost or at very moderate prices?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied.**—Liberal compensation has been awarded for the lands concerned. No lands are available near the Government Sunnakal tank farm. Any representation which the Thigalars may wish to make in the matter will receive due consideration by Government, and lands, if available in a suitable locality, will be granted to them at reasonable prices.

**8. Mr. K. Shankaranarayana Rao, M.A., B.L., asked.**—(a) Will Government be pleased to state the number of cases dealt with under the Mysore Newspapers Regulation?

(b) Do not the figures show that there is no real necessity for continuing the Regulation on the Statute Book?

**Mr. D. M. Narasinga Rao, B.A., B.L., replied.**—(a) In seven cases warnings were conveyed to the editors concerned.

(b) Not necessarily. It has also its preventive value.

**9. Mr. S. Venkatesaiya, B.A., B.L., asked.**—Will Government be pleased to state the various areas in which elementary education has been made compulsory under the Regulation together with the following information with reference to each of such areas:—

- (a) date of notification;
- (b) number of children of school-going (compulsory) age;
- (c) number of such children already attending school at the time of notification;
- (d) number of such children who have joined school subsequent to the date of the notification;
- (e) number of exemptions granted;
- (f) number of new schools established; and
- (g) the source from which the additional expenditure has been met?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied.**—A statement\* showing the required particulars is placed on the table.

**10. Mr. S. Venkatesaiya, B.A., B.L., asked.**—(a) With reference to the recent Government Notification about the levy of fees for medical relief, has the attention of Government been drawn to the proceedings of a meeting of the City Municipal Council of Bangalore, where it was stated that Government servants were not affected by the Notification and that they would still continue to get free medical relief?

(b) If the statement is correct, will Government be pleased to state the action they propose to take in the matter?

**Mr. M. Kantaraj Urs, B.A., C.S.I., replied.**—(a) Yes.

(b) The matter is under the consideration of Government.

**11. Mr. H. Narasinga Rao asked.**—(a) Will Government be pleased to state whether the standing order of Government in the matter of imparting religious and moral instruction in schools and colleges in the State, is being given effect to so as to produce appreciable results?

(b) If not, is it not time to secure expert advice in the matter and lay down a definite policy for the moral and spiritual progress of our youths?

(c) Is it not practicable to get text books written by experts in the different systems of faith for easy instruction of youths of the respective communities or to organize the delivery of weekly lectures by such experts for the said purpose?

(d) Is it not practicable to compel a student to undergo an examination in the religion in which he is born or which he has adopted, before he is entitled to promotion to the next higher class in any scholastic institution or to appear for a University Examination?

**Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., replied.—**

(a) The results are not inappreciable. A brief note by the Inspector-General of Education on the working of the system is placed on the table.\*

(b) It is not at present considered necessary to go beyond the present arrangements:

(c) Co-operation on the part of competent, leading non-officials would be welcome.

(d) Not desirable.

**12. Mr. B. Venkatasamanna, B.A., B.L., asked.—**(a) Will Government be pleased to state—

(a) the further steps taken in the matter of water-supply to the Tumkur town; and

(b) the extent to which they would assist the Municipality by way of contribution and loan?

**Mr. M. Kantaraj Urs, B.A., C.S.I., replied.—**The project is under the consideration of the Municipal Council of Tumkur.

### **A Bill to amend the Mysore Tramways Regulation, 1906.**

**Rajamantrapravina Mr. H. V. Nanjundayya.—**SIR,—The Mysore Tramways Regulation, 1906, has been enacted chiefly with reference to cases of construction by private individuals or companies. Therefore the portions of the Regulation that relate exclusively to such individuals or companies will be found unsuitable when any tramway is worked by Government. Accordingly power has to be reserved in the Regulation to exempt Government from the operations of such sections as may be found unsuitable. This is proposed to be done by this amending Bill.

I therefore beg to move that leave be granted to introduce the Bill.

**Rajasabhabhushana Dewan Bahadur Mr. K. P. Puttanna Chetty.—**SIR,—I beg to second the proposition put forward by the learned mover. The framers of laws have always the privilege of exempting themselves from the operation of those laws. The Mysore Tramways Regulation unduly restricts the liberty of Government to undertake construction of tramways on their own account. This Council therefore need not have any hesitation in exempting Government from the operation of that Regulation.

The motion was put to vote and carried unanimously.

### **A Bill to amend the Law relating to Government and other Provident Funds.**

**Rajamantrapravina Mr. H. V. Nanjundayya.—**SIR,—Since the State has commenced to work Railways whether owned by the State or District Boards, it is deemed necessary to start a Provident Fund Institution for the benefit of those employed on working Railways or in the offices. It is proposed to exempt the

person entitled according to the rules of the Fund, to the sum to the credit of a subscriber at his death, or his nominee, from the production of a probate or succession certificate and thereby enable him to receive the amount without the trouble and expense involved in obtaining such authority. In other cases exemption is allowed only when the amount does not exceed one thousand rupees. As the Fund is intended mainly for the benefit of the family of the subscriber it is also considered necessary to protect the money from attachment. Power is also taken for extending the provisions to other Provident Funds. The Bill is drawn up on the lines of the British Indian Act.

I beg that leave be granted to introduce the Bill.

**Rajamantrapravina Dewan Bahadur Mr. J. S. Chakravarti.**—SIR,—I have great pleasure in seconding the motion. The Bill is intended chiefly to protect the interests of the widows and orphans of the deceased subscribers. Suppose a subscriber to the Provident Fund dies suddenly. He is the bread winner of the family and the widow and the orphans are left helpless and destitute. With great hope the widow applies for her husband's provident fund money. Imagine, Sir, her keen disappointment and dismay when she hears from the Fund authorities that the money cannot be sent to her because it has already been paid to a Court of Law in satisfaction of some decrees of certain creditors. Again, even supposing that the money is sent to her by the Fund, what will be her feelings and position if next day an agent from a Court comes with a warrant of attachment and says that she must pay up the money to the Court. Again, take the case of the Comptroller who would be the administrator so far as the Government Provident Fund is concerned. When a subscriber dies and the widow applies for the Provident Fund money which is intended for her support what should he do? If protection is not given as contemplated in this Bill, only two courses will be open to the Comptroller—and this applies to the administrators of other Provident Funds as well—i.e., he must either ask the party to take out a certificate of succession or he must take the responsibility upon himself to pay the money to her immediately. In the first case it will mean great hardship to the widow because you all know that it is not easy for a helpless widow to get a court certificate promptly. In the second case i.e., if the administrator takes the responsibility and pays the money to the widow, then, he is sure to be favored by the attention of his lawyer friends the next day. They will ask him to quote the Regulation and the section under which the money was paid to the widow while there was a rightful owner in the shape of his client distant cousin or uncle of the deceased. Of course the provisions of this Bill are intended only to apply to honest Provident Funds. I say "honest" because the expression Provident Fund has been much abused of late in India. Many concerns have been started under the name of Provident Fund to bring profit to some people at the expense of those who reposed trust in them. Therefore the term Provident Fund has been very carefully defined in the Bill. Such Provident Funds will be of several classes. The first class is illustrated by the Mysore State Provident Fund for Government Officers. It has now already 1,800 members on the rolls though it was started only a year ago and the monthly subscription come to Rs. 6,000. This Bill has not therefore come too soon. This is the first class which receives deposits, allows compound interest on the amount paid and repays to the subscriber or his nominee the full amount at the end of his service. The next class is exemplified by the proposed railway Provident Fund which is mentioned in the Objects and Reasons. Here a subscriber pays a certain percentage of his pay regularly and a certain amount is also added on his behalf by the employer say 50 or 75 per cent on his own contribution. Here the contribution made by the individual himself may be regarded as a sort of insurance for provision in old age and the contribution made by the employer is in lieu of pension. In commercial concerns, they have to discharge the liabilities attaching to a period within the period to arrive at a true measure of profit or loss. Instead of pension system they have therefore a Provident Fund system. The employee's own contribution to the Provident Fund money is of the nature of insurance money and the other part paid by the employer is in lieu of pension. Members of this Council are aware that both insurance and pension money are under the Civil Procedure Code, exempt from attachment and are not liable for the debts incurred by the subscriber. Hence, the Provident Fund money also which takes the place of insurance and

pension under certain circumstances should enjoy similar protection. There are other kinds of Provident Fund which may come into existence in Mysore hereafter, that is, Provident Funds in which not only the employees and the employers but also the Government contribute. Such funds are common in western countries where industrial organisation has been perfected. But whatever the nature of the Provident Fund it is clear that unless protection contemplated in this Bill is given the very object of starting Provident Funds will be frustrated and the benefits will not reach the parties for whom they are intended without delay and difficulty. In fact if the Provident Fund system should be worked satisfactorily, a piece of legislation like this is not only necessary but indispensable.

I have therefore great pleasure in seconding this motion and I hope it will meet with the unanimous approval of the Council.

**Rajasabhabhushana Dewan Bahadur Mr. K. P. Puttanna Chetty.**—SIR,—I have great pleasure in supporting this motion. From the last speaker we have heard how this Bill is intended to benefit the widows and orphans of deceased subscribers. I am glad to observe that the beneficent provisions of the Bill will also apply to institutions like the Bank of Mysore which intends to open a Provident Fund for the benefit of its employees. Taken all things together this Bill would be a great blessing both to the officials and private institutions which come under it.

The motion was put to vote and passed.

### **A Bill to amend the Tank Panchayet Regulation, 1911.**

**Mr. M. Kantaraj Urs.**—SIR,—I beg leave of the Council to introduce a Bill for amending the Tank Panchayet Regulation, 1911. This and the next Bill for which also I shall ask your leave are very short measures and will not engage the attention of the Council long. They are the outcome of the recent orders of Government regarding the restoration of minor tanks and the maintenance of tanks in general. The question of the revision of the rules for the restoration of minor tanks was discussed at the meetings of the Dasara Representative Assembly for a number of years past and it was after very careful consideration that Government passed the order referred to above, in December 1914 and also issued a revised set of rules. Under the old Rules a distinction has been drawn between tanks yielding a revenue of over Rs. 300 a year called major tanks, and those yielding a revenue of Rs. 300 and under, called minor tanks. In the case of the latter, Government undertook to do the required stone and masonry work while the raiyats carried out the earthwork. After the restoration, the tanks were handed over to the raiyats for up-keep. It was on the basis of these long-recognised principles that certain provisions of the Tank Panchayet Regulation were framed. In fact, it was never intended that the liabilities of the raiyats in this respect should in any way be affected by this Regulation. Provision is made in the Regulations for entrusting the raiyats' share of the work, *viz.*, earthwork, as also the stone and masonry work, to the Panchayet.

The main provisions of the revised scheme as embodied in the Government Order of December 1914 are:—

1. That the raiyats will be required to contribute one-third of the total cost of restoration including earthwork and stone or masonry work, the other two-thirds being met by Government; and
- 2., that the actual execution of the work will be entrusted to the villagers themselves subject, of course, to the condition that the work done for the tank should be checked and measured by a responsible Government agency before it is paid for.

Thus, as the basis on which Section 16 of the Regulation was framed has been changed, corresponding amendments have to be made therein. This is the main point on which it is proposed to amend the Regulation.

This opportunity is also taken to remove a slight discrepancy between the Regulation and the Rules, regarding the definition of major and minor tanks.

Under the Rules, a tank yielding a revenue of over Rs. 300 is classed as major tank, whereas under the Regulation a tank yielding not less than Rs. 300 is classed as major.

These are the only points on which it is proposed to amend the Regulation, and I request that leave may be granted to introduce the Bill.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second the motion. As observed by the learned mover the object of the Bill is to harmonize the Tank Panchayet Regulation with the rules issued by Government from time to time. The Bill consists of two clauses. The first relates to the meaning of the term 'major tank.' Under the Regulation, all tanks having a revenue of Rs. 300 and upwards are treated as major, whereas according to the rules a tank with a revenue of Rs. 300 is treated as a minor one. It is, therefore, necessary to amend either the Regulation or the Rules, so as to bring the two into harmony with each other. Whether the Regulation should be changed to bring it into conformity with the Rules or the Rules modified to harmonize with the Regulation is, however, a point for consideration; and this may be considered later on when the Bill is read in Council. The second clause of the Bill only relates to a slight amendment in the wording of Section 16 (i) of the Regulation, necessitated by the recent rules issued by Government for the restoration of minor tanks.

I therefore beg to commend the motion for the acceptance of the Council.

The motion was put to vote and carried unanimously.

### A Minor Tank Restoration Bill.

**Mr. M. Kantaraj Urs.**—SIR,—I have already stated that the previous Bill and this Bill have to be introduced in consequence of the scheme recently sanctioned by Government in regard to the restoration of the minor tanks. The scheme was discussed in great detail by the members of the Dasara Representative Assembly during the session of 1914 and they expressed themselves in favour of the main principles underlying the rules. Rule 17 runs thus:—"When the holders of at least two-thirds of the area of irrigable land under a tank agree to the restoration of the tank and to contribute their share, such consent shall be binding also on the holders of the remaining irrigable area below the tank who will then become liable to pay their share of the contribution. In default of such payment, the contribution will be recovered from them as a revenue demand."

It is in regard to the two principles enunciated in this rule, *viz.*, the binding effect of the consent of the majority on the minority, and the recovery of the amount of contribution as an arrear of land revenue, that legislation is considered necessary.

The necessity for such provision is obvious, and in its absence it is not possible to give effect to a scheme which has been sanctioned by Government after careful deliberation for a number of years and with the approval of the members of the Representative Assembly. It is an every day experience that there is a lamentable lack of co-operation among the raiyats and though the majority of raiyats may be ready and willing to do their part of the work, schemes fall through owing to the obstructive attitude of a few raiyats. The proportion of two-thirds was fixed on the analogy of Section 16 of the Tank Panchayet Regulation. The scheme should not be rendered unworkable by raising the proportion very high. Considering that the scheme sanctioned by the Government affects the welfare and prosperity of a very large portion of the raiyat population, and that for its successful execution, legislative sanction is necessary in regard to the two important provisions mentioned above, I request that leave may be granted for introducing the Bill. I may mention here that sufficient provision has been made in the Bill for the consent being recorded in writing before an officer not lower in rank than a Deputy Amildar, for the notice thereof being personally served on the holders who withhold their consent, and for an appeal to the Deputy Commissioner and for revision by the Revenue Commissioner in cases of gross illegality.

Thus, it will be seen that all possible safeguards have been provided in the Regulation to prevent anything like high-handedness in giving effect to the scheme.

I therefore, request that leave be granted to introduce the Bill.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second the motion. Every officer who is entrusted with the duty of carrying out the minor tank restoration rules is aware of the difficulty that is experienced on account of the absence of a provision like the one proposed in the Bill to enforce against the minority the consent of the majority of the landholders under any tank in respect of the payment of the prescribed contribution. In many cases for the restoration of the tank a large number of the landholders are prepared to pay the contribution; but the work cannot be undertaken either because the minority do not co-operate with them or because the presence of some of them cannot be secured and their consent obtained; and the result is that the willing majority of landholders have to bear the whole burden themselves or the work has to be abandoned on account of the indifferent or obstructive attitude of a few persons. In these circumstances a bill like the one proposed making the consent of the majority binding on the minority is a measure of real and urgent necessity whether the majority whose will and consent should prevail should be two-thirds as proposed in the Bill or fixed somewhat higher is a point on which there may be difference of opinion; but this is a matter of detail that will no doubt receive due consideration when the Bill comes to be discussed in detail. As regards the principle of the Bill itself, I believe there can be no objection from anybody; and I therefore beg to second the motion.

**Mr. M. Karnick Krishnamurthi Rao.**—SIR,—Either in the previous Bill or in this there is no provision for tanks in inam villages. There are about 2,000 such tanks which are in a neglected condition. I therefore beg to suggest that this aspect of the question may also be considered.

The motion was put to vote and carried unanimously.

### A Bill to amend the Law relating to the Transfer of Property by Act of Parties.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—Property may be transferred from one person to another in a variety of ways. It may be by operation of law or by the voluntary acts of parties. Property descends to the heirs of a man according to the laws of inheritance, the rules of Hindu Law being applied to Hindus and Mahomedan Law to Mahomedans. There are certain Acts of the Legislature such as the Indian Succession Act which also deal with this topic. Certain provisions of this Act have been incorporated in the Probate and Administration Laws and have been applied to Hindus. Property may be transferred also by wills which operate after the death of the testator.

The measure now to be placed before the Council has nothing to do with this class of transfers. It deals with what are known in law as transfers *inter vivos* or by acts of parties. These transactions generally fall under the designation of Contracts, and the Contract Act which has been in force contains a large number of general rules which are applicable to these cases also. The special contracts which are dealt with in this Act all relate to moveable property.

As for transfers of immoveable property, there is no consolidated enactment in force. Some transactions such as leases are provided for to some extent in our Revenue Code, and in the Registration and other minor laws. The transfers to be dealt with in the Transfer of Property Bill are sales, mortgages, leases, gifts and exchanges. Till now the law applied was derived from what is known as equity and good conscience, where there was no positive law. The general rules deduced out of case law, and English text books were being applied and many important points have been practically settled without much inconvenience to the Courts or any hardship to litigants. But the necessity for a consolidated Regulation has been urged upon Government from various quarters.

The Bill is based as usual on the Transfer of Property Act in force in British India. As the measure will go before a Select Committee, it is needless at this

stage to do more than indicate the particulars in which it has been considered necessary to make more than the necessary verbal alterations. The first important change relates to the provision in clause 59 about equitable mortgages. It has been represented to Government that the recognition of such mortgages would be very useful for banking transactions especially where as in Bangalore, the new Bank of Mysore has been recently carrying on a flourishing business. The section of the Indian Act assumes that such mortgages are valid in certain Presidency and other towns, independently of the Act. It is doubtful whether at present such mortgages can be validly created here and whether as a matter of fact, they are in ordinary use. The clause has therefore been altered so as to make such equitable mortgages valid when they are made, in places to which Government may extend the provision.

Section 69 of the Act which refers to powers of sale by the mortgagee is omitted, as such a power is not given to any mortgagee at present, and as it is not considered desirable to create it in favour of mortgagees.

Certain portions of the Act relating to procedure in respect of mortgage suits (Sections 85-99, except 91, 93 and 98 which are of the nature of substantive law) are now transferred to the Code of Civil Procedure, in British India. They have been incorporated in our Civil Procedure Code also as far as necessary.

The only other matters worth noting is the effect of the new Bill in regard to the making of contracts of transfer of property. Where the value of the property is one hundred rupees and above, or where the property is a reversion or other intangible thing, the transfer can be made only by means of a registered deed; and no oral sale by mere delivery of possession or transfer of pattas will be of any validity. Registration will be compulsory of all deeds even less than Rs. 100 in value. In the case of gifts of immovable property, the recognised rule of law requiring actual delivery will be abrogated where (as is necessary) the deed of gift has been registered.

There are a few other provisions, the applicability of which to local conditions is either doubtful or has to be further examined. They will no doubt receive further consideration before the final passing of the Bill. It is unnecessary to enter into further details of the measure at this stage.

I beg that leave to introduce the Bill be granted.

**Mr. H. Narasinga Rao.**—SIR,—I beg to second the motion and wish to add that our Honourable Chief Court has followed the principles of the Transfer of Property Act of British India in nine cases reported in the Mysore Chief Court Reports and in five other cases reported in the same Reports, they have declined to follow the Act. In this state of the case law, it is difficult to know exactly in what cases our Courts are going to follow the Transfer of Property Act and in what cases they do not. I therefore submit that the introduction of the Transfer of Property Act into Mysore is absolutely necessary both in the interests of our Law Courts and the litigant public.

**Mr. B. Narasinga Rao.**—SIR,—In supporting the motion for leave to introduce the Bill relating to the transfer of properties, I may be permitted to make a few observations.

It is true there is no definite and codified law in our State to govern sales, mortgages, leases and so forth. Representations were now and then being made in the Representative Assembly to bring into force the Transfer of Property Act and I was one of those who was opposing the introduction of the Act into our State. But in the light of the subsequent events, I consider that we are to have a clearly defined law on the subjects coming within its purview. Order 34 of the Civil Procedure Code, 1911, contains the adjective law relating to mortgage suits and decrees as found in the Transfer of Property Act, but the substantive law relating to the mortgages has not been brought into force here. The Hon'ble Judges of our Chief Court sometimes follow the provisions of the Transfer of Property Act on the ground that they were based on equitable principles and at other times they declined to follow the provisions of the Transfer of Property Act on the ground that the Act was not in force here and that they could not follow the provisions unless they were based on a rule of equity independent of the Act. Sometimes decisions are based on what is known as the ancient law of India. What is

ancient law on the subject or which provision of the Transfer of Property Act is based on a rule of equity, it is difficult to understand. To avoid all these confusions it is advisable to pass a law on a definite basis.

But the question is whether the Transfer of Property Act as it now stands would remedy all these defects and place the law beyond doubt. In his law of mortgages (preface to 3rd edition) that erudite lawyer and eminent jurist Dr. Sir Rash Behari Ghose has said "I speak within compass when I say that there is scarcely a single section in the chapter on mortgages in the Transfer of Property Act on which conflicting rulings cannot be found many of which, not doomed to a not very distant oblivion, the lawyer would willingly let die." I may be permitted to quote an instance to show how the said Act has worked a hardship. Under the Transfer of Property Act a mortgage deed is required to be a registered instrument attested by at least two witnesses. When the witness attested the deed on the acknowledgment of the execution by the executant and the document registered, it was held by the Privy Council that the document was not duly attested as required by law, since the attesting witness did not actually see the mortgagor signing the document and as such, invalid. The Council can conceive the hardship of the parties specially when they remember that the subject matter of the case to go before the Privy Council, must necessarily have been more than Rs. 10,000. The Indian Legislature having realized the hardship, have now introduced a Bill No. 17 of 1915, which is now on the Legislative anvil of the Imperial Council. The Bill has given a definition of the word "attest" as including the signing, by the witnesses even on the acknowledgment of execution by the executant. The Bill further proposes to give retrospective effect to the amendment, from the date of the Privy Council judgment.

In our country there are no professional conveyancers nor does the system of family lawyers to transact the business prevail. The conveyancing business is generally being done by any literate villager or a paid school master. Under these circumstances perfection in the art of conveyancing with the solemnities required by the Act cannot possibly be expected. Since the details of the provisions of the Bill are not before the Council, it is not possible now to say how it has been drafted. I humbly venture to suggest that the Bill may be so drafted as to be free from defects and avoidable technicalities, with a simple procedure suited to the condition of the State and the intelligence of the population. One more point in connection with this suggests itself to me. Order 34 of the Civil Procedure Code, 1911, containing the procedure to be followed in passing decrees on mortgage suits, requires some modifications. The Courts are required to pass two kinds of decrees "preliminary" and "final." This procedure involves loss of time and additional cost to the parties. Since the object of the preliminary decree is to give sufficient time to the debtor to repay the debt and save his property from sale, the provisions of Order 34 may be so amended as to enable the courts to pass once for all, a combined decree so that after the expiry of the time allowed in the decree it may become executable without any further application to pass another decree.

With these observations I beg to support the motion for leave being granted to introduce the Transfer of Property Bill.

**Mr. M. Chengiah Chetty.**—SIR,—The primary object of the Bill seems to be to complete the Contract Law with regard to immoveable property.

At present there is no statutory law to regulate the mortgages, sales, leases and gifts of immoveable property. The case law with regard to these transactions is in an unsatisfactory condition. The volume of transactions is increasing rapidly owing to the increase of economic activities in the State in various directions. Hence there is urgent necessity for the introduction of the Transfer of Property Act.

We want some legislative enactment which would clearly define what immoveable property is, what properties are transferable and what properties are not transferable; by whom properties can be transferred and to whom and under what conditions; how sales, mortgages, leases and gifts of immoveable property are to be effected; what the rights and liabilities of vendors, mortgagors, mortgagees, lessors and lessees are; what gifts are valid and what gifts are invalid, etc.

The Bill under consideration meets our requirements and sets at rest all uncertainties which hamper our courts and the litigant public.

It may be urged against the Bill that it contains unnecessary and undesirable provisions. It may be left to the Select Committee to consider the retention or the omission of such provisions and recommend the same to the Council for final decision. This objection affords no good ground for not introducing the Bill itself. I therefore heartily support the introduction of the Bill and hope it will become law as early as possible.

**Rajasabhabhushana Dewan Bahadur Mr. K. P. Puttanna Chetty.**—SIR,—The learned mover has exhaustively and lucidly explained the reasons for the introduction of the Bill which is long overdue. The Bank of Mysore is particularly interested in the provision relating to equitable mortgage by deposit of title-deeds as it will enhance the value of securities offered by the Bank's constituents. The details will be discussed in the select committee stage. I beg heartily to support the motion.

The motion was put vote and carried unanimously.

### **A Bill to amend the law relating to the registration, surveillance and control of Criminal Tribes.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—The question of settling the criminal tribes was raised and discussed at the last meeting of the Representative Assembly. Under the gang rules in force, the movements of the gangs are watched and supervised by the regular and the village police force. These rules are found inadequate to prevent their escape and committing depredations. To bring these gangs under effective observation and control, and to bring the law into harmony with that in British India, it is considered necessary to have a Regulation based on the lines of the British Indian Act. The provisions are permissive only, and are intended to give power to declare a tribe as criminal, to register their members, to give finger prints and generally put the tribe under observation.

The provisions of the measure no doubt bear hard on the innocent members that may exist in these gangs, and even those who are not innocent are subject to such exceptional treatment as would not be either just or tolerable if applied to ordinary subjects of His Highness. But these provisions are required to ensure general safety from the depredations of men who have made crime their habitual calling in life. Restraints on their liberty are to a smaller or larger extent now imposed on them; and this measure is meant to give a legal basis to this department of highly necessary police functions and to regulate it under a proper system of rules.

**Dewan Bahadur Mr. C. Srikantesvara Aiyar.**—SIR,—The subject has been very lucidly placed before you by the learned First Member of Council. The main object of the Bill is to give adequate power to the Police to control the criminal gangs and take care that they do not stop in our territory and commit depredations. The Regulation will prevent such gangs from coming and settling here on the impression that the law here is not so severe as in British India. I beg to second the motion.

The motion was put to vote and carried unanimously.

### **A Bill to amend the law relating to Trading Companies and other Associations.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—The law in force concerning companies in Mysore is Regulation III of 1895, which was based on the British Indian Act (VI of 1882) then in force. Many new and important provisions have been since introduced in British India by Acts VII of 1913 and Act XI of 1914. It is desirable to bring the law here into conformity with that in British India, as the subject of company law is eminently one of a class in which there should be as little diversity as possible between the law here and that in the surrounding territory of British India. The subject is one of more than ordinary complexity

and requires a careful study by the Members of this Council. I do not know if there will be much use in going through the details of the measure or in mentioning all the important points in which innovations will be introduced by the new measure.

It has not been considered necessary to make many more than the required verbal changes in adopting the British Indian Act for our purpose. Certain provisions concerning the opening of branches of companies registered in the United Kingdom are provisionally proposed to be omitted, as being unworkable.

Certain provisions of the Old Companies Regulation relating to arbitration, would be necessary to be repeated in the Bill, as they have been removed from the British Indian Act and embodied in a separate Act, as they found the provisions of the Specific Relief Act, the Contract Act and Civil Procedure Code in this respect inadequate. But this has not been done as it is also under contemplation to introduce an Arbitration Regulation here separately. Accordingly, clause 152 (3) contains a reference to Arbitration Regulation though it has yet to come into existence. Certain other matters of considerable importance, such for example as the provision to require accounts of all Companies (no matter what the value of their assets) to be subject to expensive annual audit by duly qualified and registered auditors, require to be carefully examined as to their effects on the Companies of Mysore, very few of which are rich enough to pay for such services.

The Bill will however receive adequate consideration in its further stages and so I need not take more time of this honourable Council.

I therefore beg to move that leave be granted to introduce the bill.

**Mr. C. S. Dorasami Iyer.**—SIR,—I beg to second the motion, and in doing so, I wish to say a few words.

The commercial prosperity of to-day is due mainly to joint stock enterprise as protected by the Companies Acts. If an association of individuals in any commercial enterprise desires to limit the extent of the liability of each of them it was necessary that there should be some statute to enable them to do so, as otherwise each individual member will be liable for the whole of the debts of the Company. By the Act of 1855 in England, the liability of the shareholder to the Company's creditors was limited to the amount, if any, not yet paid up upon his shares. In 1862 the Company's Act was passed in England which formed the basis in British India of the Act of 1882 till recently in force there, and which in its turn was the basis of our Regulation III of 1895 that is in force now.

In England upon the Act of 1862 have been grafted the Acts of 1890, 1900 and 1907 and the Consolidation Act of 1908 has taken the place of all these. With the growth of commercial activities in British India within the last thirty years it was found necessary to amend and recast the Act of 1882, on the lines of the English Consolidation Act of 1908, with the result that Act VII of 1913 was passed. We in Mysore ought not to lag behind if the new Act is aimed to further the commercial progress of the country and it is therefore time that in Mysore a Regulation is passed to achieve the same object. That as a matter of fact the success of commercial enterprise is helped by the Company's Act there could be no doubt whatever. In 1885 the number of Registered Companies was 9,341 with a paid up capital of £494,909,000, in 1900 when the Act was amended, in fifteen years these figures had trebled and when the Consolidation Act was passed the figures rose by leaps and bounds. The Act no doubt contains so many details of a somewhat seemingly formidable appearance, exercising perhaps a discouraging influence on the average traders and would-be-Directors and Secretaries. But in reality, however, it is simple and will no doubt promote all kinds of healthy trading and the establishment of mutual credit of a firm and lasting character.

With these observations I beg permission to second the Bill.

The motion was put to vote and carried unanimously.

### **The Bill further to amend the Mysore Land Revenue Code, 1888.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill further to amend the Mysore Land Revenue of 1888 be read in Council.

It is meant to introduce a slight modification in Section 54 of the Land Revenue Code. The present section reads thus—

“54. Arrears of Land Revenue due on account of land by any landholder shall be a paramount charge on the holding and every part thereof, failure in payment of which shall make the occupancy or alienated holding, together with all rights of the occupant or holder over all trees, crops, buildings and things attached to the land, or permanently fastened to anything attached to the land, liable to forfeiture, whereupon the Deputy Commissioner may levy all sums in arrear by sale of the occupancy or alienated holding, freed from all tenures, encumbrances and rights created by the occupant or holder or any of his predecessors in title, or in anywise subsisting as against such occupant or holder or may otherwise dispose of such occupancy or alienated holding under rules or orders made in this behalf under Section 233.”

The modified section reads as follows :—

“54. Arrears of land revenue due on account of land by any landholder shall be a paramount charge on the holding and every part thereof, failure in payment of which shall make the occupancy or alienated holding, together with all rights of the occupant or holder over all trees, crops, buildings and things attached to the land, or permanently fastened to anything attached to the land, liable to forfeiture, whereupon the Deputy Commissioner may levy all sums in arrear by sale of the occupancy or alienated holding, or may otherwise dispose of such occupancy or alienated holding under rules or orders made in this behalf under Section 233, and such occupancy or alienated holding when disposed of, *whether by sale as aforesaid, or by transfer to another person or otherwise howsoever, except by restoration to the defaulter*, shall, unless the Deputy Commissioner otherwise directs, be deemed to be freed from all tenures, rights, encumbrances and equities theretofore created in favour of any person other than Government in respect of such occupancy or holding.”

The amendment corresponds to Section 56 of the Bombay Land Revenue Code as amended. We have introduced one necessary qualification. When the land is restored to the defaulter concerned, it is considered unjust to free the land from all encumbrances.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second the motion.

The motion was put to vote and passed unanimously.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I now beg to move that the Bill be referred to a Select Committee consisting of Messrs. M. Kantaraj Urs, K. S. Dorasami Iyer, K. R. Srinivasiengar, K. P. Puttanna Chetty, B. Narasinga Rao and myself.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second the motion.

The motion was put to vote and carried unanimously.

### The Bill to amend the Mysore Land Acquisition Regulation, 1894.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill to amend the Mysore Land Acquisition Regulation, 1894, be read in Council. It is meant to avoid the necessity of either the Deputy Commissioner himself attending to all the proceedings in case of acquisition of even small sites or else the Government specially appointing another officer by notification as the Deputy Commissioner for each such case. The difficulty is removed by including an Assistant Commissioner in charge of a Revenue Sub-Division, under the definition of “Deputy Commissioner” in Section 3 of the Regulation.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second it.

**Rajasabhabhushana Dewan Bahadur Mr. K. P. Puttanna Chetty.**—SIR,—On the last occasion, I had the honor to say that “the Vice-President of the Bangalore City Municipality” or some such expression should be mentioned in the Bill. The Senior Vice-President of the Municipality is a general officer entrusted

with land acquisition in the Municipality and the provision of the Bill should be worded so as to include that officer also. I believe that the learned Mover seemed to accept my proposition then.

**Dewan.**—If he is not a Revenue Officer can he be empowered?

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—Under the new enactment, the Sub-Division Officer may do all acts now done by the Deputy Commissioner, without special notification. In other cases, Government may specially appoint.

The motion was put to vote and carried unanimously.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—As that is a non-contentious measure, I beg to move that it be not referred to a Select Committee.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second this motion: but before doing so, I should like to have some doubt cleared about the provisions of the Bill. As has been explained by the learned member in charge by the Bill, it is intended to relieve the Deputy Commissioner of a number of petty cases under the Land Acquisition Regulation, which could easily and conveniently be disposed of by the Assistant Commissioner. But as the Bill is now worded, its effect will be not merely to leave the disposal of petty cases to Assistant Commissioners, but to leave it to them to dispose of all cases of whatever value and without any limit as to maximum arising in the taluks under their charge. I do not know if this is the object of Government and if it is not, the point is worth consideration; and I would suggest its being considered by a Select Committee, particularly as the Bill is not one of urgent importance.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—Since a doubt is raised, I beg to move that the Bill be referred to a Select Committee consisting of Messrs. M. Kantaraj Urs, K. R. Srinivasiengar, C. S. Doraswamy Iyer, H. Narasinga Rao and myself.

**Mr. K. R. Srinivasiengar.**—SIR,—I second it.

The motion was put to vote and carried unanimously.

### **The Bill further to amend the Mysore Stamp Regulation, 1900.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill further to amend the Mysore Stamp Regulation be read in Council.

**Rajamantrapravina Dewan Bahadur Mr. J. S. Chakravarti.**—SIR,—I beg to second it.

The motion was put to vote and carried unanimously.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—This is a simple measure. We want to make the duties on documents the same as in British India. I therefore beg to move that the Bill be not referred to a Select Committee, that the rules of business be suspended to allow of the Bill being considered in Council and that the Bill be so considered.

**Rajamantrapravina Dewan Bahadur Mr. J. S. Chakravarti.**—SIR,—I beg to second the motion. I am ordinarily against suspending the rules of business and dispensing with any of the processes through which Bills must undergo before becoming law. But there are certain cases in which it is necessary or unobjectionable to depart from the usual procedure. In this case it would be mere waste of time to follow it. In cases where the Bill is absolutely of non-contentious nature there is no use of going through all the stages prescribed and we may usefully omit one or two stages and get the Bill passed somewhat earlier. If any member feels any doubt on any point in the Bill and thinks that something can be gained by referring it to the Select Committee, by all means it should be so referred. But I do not think that there can be any conceivable difference of opinion about this Bill and it seems therefore unnecessary to appoint a Select Committee over this measure. I beg therefore to second the motion. If it is carried, this desirable amendment of law may be placed on the Statute Book as early as possible.

The motion was put to vote and carried unanimously.

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill be taken up and passed at a subsequent meeting of the Council.

**Rajamantrapravina Dewan Bahadur Mr. J. S. Chakravarti.**—SIR,—I beg to second the motion.

**The Bill further to amend the Mysore Land Revenue Code, 1888.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill further to amend the Mysore Land Revenue Code, 1888, which was introduced into Council on the 10th February 1915, be passed.

**Mr. K. R. Srinivasiengar.**—SIR,—I beg to second the motion.

The motion was put to vote and carried unanimously.

**The Bill to consolidate and amend the law relating to Lunacy.**

**Rajamantrapravina Mr. H. V. Nanjundayya.**—SIR,—I beg to move that the Bill to consolidate and amend the law relating to Lunacy be passed.

**Mr. C. S. Doraswamy Iyer.**—SIR,—I beg to second the motion.

The motion was put to vote and carried unanimously.

The meeting was adjourned *sine die*.

By Order,

G. SREENIVASA IYER,

*Secretary, Mysore Legislative Council.*

## APPENDIX B.

## QUESTION No. 11.

A SHORT NOTE ON THE WORKING OF THE SYSTEM OF RELIGIOUS AND MORAL INSTRUCTION INTRODUCED INTO THE GOVERNMENT INSTITUTIONS OF THE MYSORE STATE FROM 1ST NOVEMBER 1908.

In the month of November 1908, Religious and Moral Instruction was introduced in all the schools of the State which were maintained entirely from the public funds. His Highness' Government observed in their Order, Edn. 422-07-3, dated 28th September 1908, that the tendency of the system of Education then in vogue (without moral and religious instruction), especially in the Government institutions, was to devote exclusive attention to the training of the intellect, and to leave the character of the pupils to be formed and moulded in an indirect manner, by the personal example of the teachers, the literary teaching included in the school curriculum, and the nature of the discipline maintained in the institution, and that the result, as judged from experience and observation, could not be considered to be altogether satisfactory. Accordingly all the Government Educational Institutions were ordered to devote five periods in the week—each period consisting of the first thirty minutes after the roll-call—to moral and religious instruction, the moral teaching being imparted on Mondays, Wednesdays and Fridays, the religious instructions on Tuesdays and Thursdays.

In conformity with the Government Order, the Education Department issued several circulars to the different Schools and Colleges defining the courses of instruction for different classes, recommending certain books to be used as text-books and some others for purposes of reference.

The following course of religious instruction was adopted for Hindu boys based on the curriculum of the Benares Hindu College:—

Class					Subject
Infant and Vernacular I and II ...					Pictures and stories suitable for young children.
Anglo-Vernacular Class I or Vernacular III ...					Stories and easy stotras, suitable for young children, chiefly taken from Hindu sacred books.
Do	do	II or	do	IV ...	Sanathana Dharma Catechism, Part III.
Do	do	III or	do	V ...	Do do Part II.
Do	do	IV	...	...	Do do Part I.
Do	do	V	...	...	Sanathana Dharma Elementary Text-book, Part III, cc. 8 to 11.
Form IV	...	...	...	...	Sanathana Dharma Elementary Text-book, Part III, cc. 1 to 7.
Do V	...	...	...	...	Sanathana Dharma Elementary Text-book, Part II.
Do VI	..	...	...	...	Sanathana Dharma Elementary Text-book, Part I, omitting cc. I and II.

For Mahomedan pupils reading in Colleges and Schools, the curriculum adopted was purely non-sectarian (*vide* Circular C. No. 25 of 1908-09). For want of suitable text-books it was found impracticable to separate moral from religious instruction from the IV Hindustani Class upwards. The teaching of both subjects is therefore combined in the higher classes in the same lessons.

The subject of direct moral instruction being very difficult for untrained teachers to handle, the Department was only able to suggest the names of suitable text-books for the use of teachers and indicate the general lines on which moral instruction was to be conducted.

In the primary classes (Infant and Vernacular I, II and III classes, as also the Anglo-Vernacular I class) moral and religious instructions were to be combined, it being difficult to separate the two at such an early age. Simple stories were to be narrated to them illustrated by pictures, and moral lessons were to be inferred from the stories. In the Anglo-Vernacular Classes II to V, as also in the High Schools, certain text-books like Reid's Manual of Moral Instruction, Hackwood's Notes of Moral Lessons, Nitichintamani (a Kanarese story-book illustrating moral precepts), etc., were recommended to be used for teaching morals. The teachers were cautioned against regarding the instruction contained in the text-book as the all-in-all of their teaching, the book being only a guide to them, a pivot on which to centre their teaching. They were also instructed to correlate moral instruction, as far as possible, with literature or history read in school or with the actual incidents of school life, with a view to make it far more impressive than unconnected or abstract lessons.

A number of important schools situated at District and Taluk Headquarters were furnished with coloured wall pictures of Puranic incidents and hand-books of stories written in simple language bearing on the pictures. A compilation was made of short prayers and moral verses on the common duties of daily life for use in the primary classes. A collection of suitable devotional songs for use in Anglo-Vernacular classes was also prepared. A revised edition of Mr. M. S. Puttanna's Nitichintamani written in homely Kannada was published. These are only a few of the facilities afforded by Government for furthering the cause of Moral and Religious Instruction in schools. Many teachers and public spirited writers and journalists also have done much by way of publishing suitable story-books, book-lets, on the conduct of life and moral precepts and songs.

The scheme came into force on November 1st, 1908, and by the commencement of 1909, all the schools began to carry out the Government Order in accordance with the instructions issued by the Education Department. It has thus been in actual operation for five years and ten months. The mode of its working in the different kinds of institutions is briefly indicated below:—

#### VILLAGE ELEMENTARY SCHOOLS.

Many Headmasters of these Schools could not make proper arrangements for the recitation of stories illustrated by pictures, and accordingly they were content with the recitation of a short prayer in Kannada at the commencement and close of the school. The morning prayer was followed by some verses relating to daily conduct which all the boys repeated after the teacher. The repetition of prayers and devotional songs has its own value in impressing upon the minds of the young pupils a due sense of reverence to God and in implanting the other virtues that go with it. The children in these schools have taken kindly and cheerfully to the system.

#### ANGLO-VERNACULAR AND TALUK VERNACULAR SCHOOLS.

The Anglo-Vernacular Schools and some Taluk Vernacular Schools had however, more ambitious programme. A number of wall pictures illustrating some stories from the sacred books of the Hindus were supplied to them and with the help of these and other pictures the teachers of the lower classes were able to narrate a number of stories containing moral precepts.

In the higher classes of the Anglo-Vernacular Schools, moral teaching was given in separate class-rooms or in a central hall and was generally based on an English text-book, although the pupils were taught in Kanarese. Though some of the teachers made no effort to make the teaching interesting and instructive, many tried to carry out the intentions of Government in the best manner possible, by teaching the morals contained in the text-books and illustrating them by stories from Ramayana and Mahabharata, history, fables, folk-lore, etc.

The religious instruction based on the Sanathana Dharma series has not produced satisfactory results, because of the incompetency of the teachers to handle the subject and because of the text-books not being written in popular language.

## HIGH SCHOOLS.

There were two different methods employed in imparting moral instruction to the boys. The Education Department had issued a circular that "wherever it was convenient to do so, boys of different forms like those of the VI and V Forms who were able to understand the same kind of moral instruction should be brought together for the moral discourse; that the Fourth Form boys might be separately taught or with the Sixth and Fifth Forms as might be necessary. Some Government High Schools arranged for the moral discourses to be delivered in a central hall common to all the High School classes, while others arranged for the moral instruction to be given in the separate class rooms. In the case of the former schools the teachers had to address a large number of pupils (as many as 400) and could not of course use a text-book. The strain involved in addressing such a large assembly being too much, it had to be given up and recourse had to the class room teaching, which enables the teachers to handle the boys more readily, to find out by questioning how far the pupils had followed their teaching, and to adjust their instruction according to the capacities of the different classes of boys. In spite of difficulties, most of the teachers in High Schools have done their best to make the discourse as interesting and instructive as possible.

In regard to religious teaching, High Schools also have not made appreciable strides.

## COLLEGES.

In Colleges the half-hour religious and moral lessons which tended to make the instruction chiefly religious and metaphysical were given up for weekly lectures by the Professors and Pandits on religious and ethical subjects.

The progress achieved so far is not inappreciable. Three things are, however, essential for the complete success of the scheme. General observations. First, the personality of the teacher, second, the equipment of the teacher and third, the existence of suitable text-books. The first requisite is not easy to find, but time may remedy this defect. The second can be provided by opening a special class for the training of teachers in Ethics and Theology. The third condition can be met by entrusting to capable scholars the writing of a graduated series of text-books in Kannada and English suited to the capacities of pupils in the different grades of institutions.

No. G. 11525—G. M. 98-15-38, dated 14th February 1916.

The following rules for the use and occupation of the Government Bungalows on the Nandi Hill during the hot season of the year 1916, are published for general information:—

All the bungalows on the Hill will be available for occupation by visitors during the season.

(a) Cunningham Bungalow.—This contains six blocks (four large and two small) which may be reserved on payment of an annual fee. (*Vide* clause 7.)

In the case of the larger blocks, a fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free. Half the above rates will be charged for the smaller blocks.

(b) Cubbon Bungalow.—This contains eight blocks (single and double). A fee of one rupee and a half per day will be levied from the occupier of any of the double rooms and 8 annas for every additional member of his family or party occupying the same block, children under five years being free. The rates for the single rooms will be 1 rupee per room per day and 8 annas for every additional occupant, excepting children under five years.

(c) Glentilt.—This bungalow contains three blocks.

A fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free.

(d) Brown's Bungalow (former travellers' bungalow).

(e) The Lodge (former inspection lodge).

(f) Krishnama Naidu's Bungalow.

These three bungalows contain three blocks each, and a fee of Re. 1 per block per day will be levied from the occupying visitors besides 8 annas for every additional member of the same family occupying the same block, children under five years of age being free.

(g) Sankey's Bungalow.—This contains five large rooms with two cook rooms. The rooms are furnished to accommodate four visitors each.

The fee for each occupant is 4 annas per diem, children under five years of age being admitted free.

2. The peons and servants of visitors will be permitted to occupy servants' rooms, free of charge, if accommodation can be spared.

3. Applications for accommodation in the bungalows exceeding three days must be made to the Superintendent, Government Gardens, Lal-Bagh, Bangalore.

4. Visitors going up for a shorter period than three days need not give notice, but in that case accommodation cannot be guaranteed.

5. Visitors occupying a bungalow between sunrise and sunset only are subject to half fee.

6. Applications for accommodation for periods of more than five days during the months of April and May cannot be definitely replied to till the first week of March preceding, nor will it be possible during those months to guarantee accommodation for more than fifteen days. Visitors desiring to stay longer must renew their applications before the expiry of the fifteen days.

7. The rooms in the Cunningham Bungalow may, with Government sanction, be reserved for the season on payment of a reserving fee of Rs. 50 per block which ensures that the room will be at the reserver's disposal at all times during the season subject to the rules in force.

8. When not required, these rooms may be let to other visitors on the understanding that they will vacate them immediately when asked to do so.

9. The rent of each room in the motor sheds\* is 8 annas per day.

10. Rickshaws and chairs† can be had for ascending the Hill by previous arrangement with the Hill staff or on intimation while booking at Bangalore. The hire for a rickshaw is 8 annas for a trip up or down, or 12 annas if occupied by two persons and the hire for a chair is 4 annas.

11. The wages for each rickshaw and chair cooly are 6 annas per single trip or 9 annas for return trip on the same day. Four to six coolies are required in each case.

12. Coolies' wages for carrying baggage are 4 annas per cooly per trip for a heavy load and 3 annas for a light load.

13. All coolies' wages must be paid by the visitors on discharging the coolies.

14. In every room will be placed an inventory of furniture and other Government property placed at the disposal of the visitors for the time being, as also a list of charges and a set of house rules which regulate the use of kitchens and out-houses, loan of crockery and the services and duties of the staff attached to the building.

Visitors will be held responsible for damage done by themselves or their servants to the bungalow or furniture or other articles. All articles injured or broken must be paid for prior to the visitors' departure according to the scale fixed by the Superintendent, Government Gardens.

15. At all the bungalows, visitors can make their own arrangement for food. A Brahmin cook is attached to the Sankey's Bungalow, and arrangements can be made here for vegetarian Indian meals.

16. The Hill staff will assist, if required, in securing food supplies on cash payment. Indian and European stores are kept for sale in the Cubbon Bungalow.

17. The quantity of water required will, as far as possible, be supplied at the house at 3 pies per pot.

18. There are two tennis courts in the fort which may be secured for the morning or evening by booking a day previous, the charges (which are payable in advance) being 8 annas per period, inclusive of the use of the net.

19. All fees and demands in accordance with the rules must be paid by the visitors before leaving the Hill and proper receipt obtained. Any charges considered irregular or exorbitant can be paid on protest and refund claimed from the Superintendent, Government Gardens, whose decision will be final in this case.

\* There are two motor sheds—one at Sultanpet and the other on the Bangalore side of the Hill.

† From the Nandi Station there is a short cut (1½ miles with 1,775 steps) *via* Sultanpet. On this trip only chairs can be used.

20. All officials in the service of Government are subject to the fees and rules as herein laid down.

21. Every visitor should sign the arrival and departure books and any complaints or remarks may be recorded in the latter.

22. Visitors should see to the proper observance of the rules by themselves and their servants and should insist on the latter behaving in a decent and orderly manner.

23. The above rules apply only to this season and are subject to such changes as may be deemed necessary.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

## PART I—Section 2.

### GENERAL.

No. G. 11525—G. M. 98-15-38, dated 14th February 1916.

The following rules for the use and occupation of the Government Bungalows on the Nandi Hill during the hot season of the year 1916, are published for general information:—

All the bungalows on the Hill will be available for occupation by visitors during the season.

- (a) Cunningham Bungalow.—This contains six blocks (four large and two small) which may be reserved on payment of an annual fee. (*Vide* clause 7.)

In the case of the larger blocks, a fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free. Half the above rates will be charged for the smaller blocks.

- (b) Cubbon Bungalow.—This contains eight blocks (single and double). A fee of one rupee and a half per day will be levied from the occupier of any of the double rooms and 8 annas for every additional member of his family or party occupying the same block, children under five years being free. The rates for the single rooms will be 1 rupee per room per day and 8 annas for every additional occupant, excepting children under five years.

- (c) Glentilt.—This bungalow contains three blocks.

A fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free.

- (d) Brown's Bungalow (former travellers' bungalow).

- (e) The Lodge (former inspection lodge).

- (f) Krishnama Naidu's Bungalow.

• These three bungalows contain three blocks each, and a fee of Re. 1 per block per day will be levied from the occupying visitors besides 8 annas for every additional member of the same family occupying the same block, children under five years of age being free.

- (g) Sankey's Bungalow.—This contains five large rooms with two cook rooms. The rooms are furnished to accommodate four visitors each.

The fee for each occupant is 4 annas per diem, children under five years of age being admitted free.

2. The peons and seryants of visitors will be permitted to occupy servants' rooms, free of charge, if accommodation can be spared.

3. Applications for accommodation in the bungalows exceeding three days must be made to the Superintendent, Government Gardens, Lal-Bagh, Bangalore.

4. Visitors going up for a shorter period than three days need not give notice, but in that case accommodation cannot be guaranteed.

5. Visitors occupying a bungalow between sunrise and sunset only are subject to half fee.

6. Applications for accommodation for periods of more than five days during the months of April and May cannot be definitely replied to till the first week of March preceding, nor will it be possible during those months to guarantee accommodation for more than fifteen days. Visitors desiring to stay longer, must renew their applications before the expiry of the fifteen days.

7. The rooms in the Cunningham Bungalow may, with Government sanction, be reserved for the season on payment of a reserving fee of Rs. 50 per block which ensures that the room will be at the reserver's disposal at all times during the season subject to the rules in force.

8. When not required, these rooms may be let to other visitors on the understanding that they will vacate them immediately when asked to do so.

9. The rent of each room in the motor sheds\* is 8 annas per day.

10. Rickshaws and chairs† can be had for ascending the Hill by previous arrangement with the Hill staff or on intimation while booking at Bangalore. The hire for a rickshaw is 8 annas for a trip up or down, or 12 annas if occupied by two persons and the hire for a chair is 4 annas.

11. The wages for each rickshaw and chair cooly are 6 annas per single trip or 9 annas for return trip on the same day. Four to six coolies are required in each case.

12. Coolies' wages for carrying baggage are 4 annas per cooly per trip for a heavy load and 3 annas for a light load.

13. All coolies' wages must be paid by the visitors on discharging the coolies.

14. In every room will be placed an inventory of furniture and other Government property placed at the disposal of the visitors for the time being, as also a list of charges and a set of house rules which regulate the use of kitchens and out-houses, loan of crockery and the services and duties of the staff attached to the building.

• Visitors will be held responsible for damage done by themselves or their servants to the bungalow or furniture or other articles. All articles injured or broken must be paid for prior to the visitors' departure according to the scale fixed by the Superintendent, Government Gardens.

15. At all the bungalows, visitors can make their own arrangement for food. A Brahmin cook is attached to the Sankey's Bungalow, and arrangements can be made here for vegetarian Indian meals.

16. The Hill staff will assist, if required, in securing food supplies on cash payment. Indian and European stores are kept for sale in the Cubbon Bungalow.

17. The quantity of water required will, as far as possible, be supplied at the house at 3 pies per pot.

18. There are two tennis courts in the fort which may be secured for the morning or evening by booking a day previous, the charges (which are payable in advance) being 8 annas per period, inclusive of the use of the net.

19. All fees and demands in accordance with the rules must be paid by the visitors before leaving the Hill and proper receipt obtained. Any charges considered irregular or exorbitant can be paid on protest and refund claimed from the Superintendent, Government Gardens, whose decision will be final in this case.

20. All officials in the service of Government are subject to the fees and rules as herein laid down.

21. Every visitor should sign the arrival and departure books and any complaints or remarks may be recorded in the latter.

22. Visitors should see to the proper observance of the rules by themselves and their servants and should insist on the latter behaving in a decent and orderly manner.

23. The above rules apply only to this season and are subject to such changes as may be deemed necessary.

No. G. 11714—G. M. 76-15-224, dated 21st February 1916.

In continuation of Government Notification No. G. 11052—G. M. 76-15-217, dated 4th February 1916, the following Notification No. 678-W., dated 29th January 1916, issued by the Government of India, in the Department of Commerce and Industry, amending the list of

## No. 6159—San. 17-15-63, dated 23rd February 1916.

The following notifications of the Madras Government are republished for general information.

## I.

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Mahanandi in the Nandyal Taluk of the Kurnool District, if persons from the infected portions of the Bellary District, the Bombay Presidency, the Mysore and Hyderabad States and other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing Mahasivaratri festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act of 1897, the Governor in Council prohibits the attendance at the said festival from the 27th February to 5th March 1916, inclusive, of persons from the said parts.

All persons proceeding to the said festival in contravention of this notification will be turned back.

## II.

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Kurugodu in the Bellary Taluk of the Bellary District, if persons from the infected portions of the Bellary District and other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing Dodda Basaveswaraswami festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act of 1897, the Governor in Council prohibits the attendance at the said festival, from the 15th to 21st March 1916, inclusive, of persons from the said parts and further directs that between the said dates no tickets to travel by railway shall be sold at the station of Hospet on the Madras and Southern Maharatta Railway for the station of Kudatini on the same railway to any person intending or believed to be intending to be present at the said festival.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

In pursuance of Rule 21 of the Rules made by the Government of Mysore, under Section II (3) of the Mysore Government Securities Regulation, IX of 1894, the following security of the Mysore 5 per cent Railway Debenture Loan of 1882, which was lost and in respect of which a duplicate debenture has been issued and subsequently discharged by payment of principal and interest due on the bond, is hereby advertised. All persons, other than the claimant named below, who have any claim upon this debenture, should communicate immediately with the Comptroller to the Government of His Highness the Maharaja of Mysore.

*N.B.*—Under Section 12 of the said Regulation, the Government will be discharged from all liability in respect of this original debenture after the lapse of six years from the 10th March 1910, the date on which the Notification No. Fl. 6171—Fl. 4-08, dated the 19th February 1910, was published.

Number of the note and name of the loan—No. 912; 5 per cent Mysore Railway Debenture of 1882.

Value—Rs. 500.

In whose name issued—Aligay Gunapaiya Naik.

From what date bearing interest—February 14, 1883.

Name of claimant for duplicate—Niggimakki Venkatakrishnappa of Hariharpur, Koppa Taluk.

Number and date of Comptroller's Order—7573-B. and R. 1265, dated 23rd June 1909.

Date of publication under Section 11 (3) of the Mysore Government Securities Regulation, IX of 1894—10th March 1910.

## PART I—Section 2.

### GENERAL.

No. G. 11525—G. M. 98-15-38, dated 14th February 1916.

The following rules for the use and occupation of the Government Bungalows on the Nandi Hill during the hot season of the year 1916, are published for general information:—

All the bungalows on the Hill will be available for occupation by visitors during the season.

(a) Cunningham Bungalow.—This contains six blocks (four large and two small) which may be reserved on payment of an annual fee. (*Vide* clause 7.)

In the case of the larger blocks, a fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free. Half the above rates will be charged for the smaller blocks.

(b) Cubbon Bungalow.—This contains eight blocks (single and double). A fee of one rupee and a half per day will be levied from the occupier of any of the double rooms and 8 annas for every additional member of his family or party occupying the same block, children under five years being free. The rates for the single rooms will be 1 rupee per room per day and 8 annas for every additional occupant, excepting children under five years.

(c) Glentilt.—This bungalow contains three blocks.

A fee of Re. 1 per block per day will be levied from the occupier besides 8 annas for every additional member of his family or party occupying the same block, children under five years of age being free.

(d) Brown's Bungalow (former travellers' bungalow).

(e) The Lodge (former inspection lodge).

(f) Krishnama Naidu's Bungalow.

These three bungalows contain three blocks each, and a fee of Re. 1 per block per day will be levied from the occupying visitors besides 8 annas for every additional member of the same family occupying the same block, children under five years of age being free.

(g) Sankey's Bungalow.—This contains five large rooms with two cook rooms. The rooms are furnished to accommodate four visitors each.

The fee for each occupant is 4 annas per diem, children under five years of age being admitted free.

2. The peons and servants of visitors will be permitted to occupy servants' rooms, free of charge, if accommodation can be spared.

3. Applications for accommodation in the bungalows exceeding three days must be made to the Superintendent, Government Gardens, Lal-Bagh, Bangalore.

4. Visitors going up for a shorter period than three days need not give notice, but in that case accommodation cannot be guaranteed.

5. Visitors occupying a bungalow between sunrise and sunset only are subject to half fee.

6. Applications for accommodation for periods of more than five days during the months of April and May cannot be definitely replied to till the first week of March preceding, nor will it be possible during those months to guarantee accommodation for more than fifteen days. Visitors desiring to stay longer must renew their applications before the expiry of the fifteen days.

7. The rooms in the Cunningham Bungalow may, with Government sanction, be reserved for the season on payment of a reserving fee of Rs. 50 per block which ensures that the room will be at the reserver's disposal at all times during the season subject to the rules in force.

8. When not required, these rooms may be let to other visitors on the understanding that they will vacate them immediately when asked to do so.

9. The rent of each room in the motor sheds\* is 8 annas per day.

10. Rickshaws and chairs† can be had for ascending the Hill by previous arrangement with the Hill staff or on intimation while booking at Bangalore. The hire for a rickshaw is 8 annas for a trip up or down, or 12 annas if occupied by two persons and the hire for a chair is 4 annas.

\* There are two motor sheds—one at Sultanpet and the other on the Bangalore side of the Hill.

† From the Nandi Station there is a short cut (1½ miles with 1,775 steps) *via* Sultanpet. On this trip only chairs can be used.

11. The wages for each rickshaw and chair cooly are 6 annas per single trip or 9 annas for return trip on the same day. Four to six coolies are required in each case.
12. Coolies' wages for carrying baggage are 4 annas per cooly per trip for a heavy load and 3 annas for a light load.
13. All coolies' wages must be paid by the visitors on discharging the coolies.
14. In every room will be placed an inventory of furniture and other Government property placed at the disposal of the visitors for the time being, as also a list of charges and a set of house rules which regulate the use of kitchens and out-houses, loan of crockery and the services and duties of the staff attached to the building.

Visitors will be held responsible for damage done by themselves or their servants to the bungalow or furniture or other articles. All articles injured or broken must be paid for prior to the visitors' departure according to the scale fixed by the Superintendent, Government Gardens.
15. At all the bungalows, visitors can make their own arrangement for food. A Brahmin cook is attached to the Sankey's Bungalow, and arrangements can be made here for vegetarian Indian meals.
16. The Hill staff will assist, if required, in securing food supplies on cash payment. Indian and European stores are kept for sale in the Cubbon Bungalow.
17. The quantity of water required will, as far as possible, be supplied at the house at 3 pies per pot.
18. There are two tennis courts in the fort which may be secured for the morning or evening by booking a day previous, the charges (which are payable in advance) being 8 annas per period, inclusive of the use of the net.
19. All fees and demands in accordance with the rules must be paid by the visitors before leaving the Hill and proper receipt obtained. Any charges considered irregular or exorbitant can be paid on protest and refund claimed from the Superintendent, Government Gardens, whose decision will be final in this case.
20. All officials in the service of Government are subject to the fees and rules as herein laid down.
21. Every visitor should sign the arrival and departure books and any complaints or remarks may be recorded in the latter.
22. Visitors should see to the proper observance of the rules by themselves and their servants and should insist on the latter behaving in a decent and orderly manner.
23. The above rules apply only to this season and are subject to such changes as may be deemed necessary.

No. G. 11930—G. M. 76-15-227, dated 25th February 1916.

In continuation of Government Notification No. G. 11714—G. M. 76-15-224, dated 21st February 1916, the following Notification No. 869-W., dated the 5th February 1916, issued by the Government of India, in the Department of Commerce and Industry, amending the list of prohibited and restricted exports from the United Kingdom, is hereby republished for general information:—

### NOTIFICATION.

(CUSTOMS.)

*The 5th February 1916.*

"No. 869-W.—The following Order in Council is published for general information:—

AT THE COUNCIL CHAMBER, WHITEHALL.

*The 20th day of December 1915.*

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 28th day of July 1915, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 28th day of July 1915, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the same:—

- (1) That the heading "Iron, Hæmatite pig" in the list of goods the exportation of which is prohibited to all foreign countries in Europe and on the Mediterranean and Black Seas, other than France, Russia (except through Baltic Ports), Italy, Spain and Portugal, should be deleted, and that the exportation of "Hæmatite pig iron" should be prohibited to all destinations.
- (2) That the exportation of "Iron and steel smelting scrap" should be prohibited to all destinations.
- (3) That the exportation of the following goods should be prohibited to all destinations abroad other than British Possessions and Protectorates:—

Bichromate of soda;  
Bladders, casings and sausage skins;  
Colchicum and its preparations;  
Solid drawn steel tubes;  
Wireless Telegraphs, material for.

Some difficulties having arisen in the working of the rules contained in Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901, regarding the settlement of Inamdars' claims to the excise revenue from toddy of their villages during the tree-tax period, it is proposed to revise them as indicated below and to apply the modified rules for dealing with all cases during the tree-tax period.

(1) To substitute the following Rules for Rules 9 to 15 :—

9 (i) The proprietor of an alienated village who is entitled to excise revenue from toddy shall get only the *revenue actually accruing in his village*, whether in the shape of rent for the shop or shops situated therein, or the tree-tax on the trees tapped in his village (irrespective of the location of the shop for which they are tapped) or both, *minus* the local cess thereon and establishment charges at 6 per cent of the revenue or such other rate as may be fixed from time to time.

(ii) The shop rent payable under the foregoing rule from 1915-16, onwards shall be the amount realised as such in any year subject to the condition that it shall not exceed at any time the average realization from this item in respect of the particular Inam shop during the three official years preceding 1915-16.

(iii) Similarly the tree tax from 1915-16, onwards shall be calculated at the marginally noted rates on the number of trees actually tapped within the limits of the Inam village during each year subject to the condition that if the rate is reduced by Government at any future date, payment shall be made only at such reduced rate for the time being.

Date	...	Rs. a. p.	1 8 0

(2) To read for "reasonable.....above" in existing Rule 24 "compensation equal to 20 times the average annual amount actually paid in respect of that shop during the preceding three years." This will apply only to cases in which shops belonging to or situated in alienated villages are closed *permanently*.

(3) To substitute for Rule 25 the following :—

"Whenever an Inamdar entitled to excise revenue from toddy is willing to compound his right to shop rent, Government will be prepared to sanction an immediate payment of 20 times the average annual amount actually received by him in respect of that shop during the preceding three years."

2. Before finally passing the modifications, Government will be glad to receive within a period of three months from this date the views and suggestions, if any, of the public thereon.

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings for the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all

particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

Some difficulties having arisen in the working of the rules contained in Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901, regarding the settlement of Inamdars' claims to the excise revenue from toddy of their villages during the tree-tax period, it is proposed to revise them as indicated below and to apply the modified rules for dealing with all cases during the tree-tax period.

(1) To substitute the following Rules for Rules 9 to 15 :—

9 (i) The proprietor of an alienated village who is entitled to excise revenue from toddy shall get only the *revenue actually accruing in his village*, whether in the shape of rent for the shop or shops situated therein, or the tree-tax on the trees tapped in his village (irrespective of the location of the shop for which they are tapped) or both, *minus* the local cess thereon and establishment charges at 6 per cent of the revenue or such other rate as may be fixed from time to time.

(ii) The shop rent payable under the foregoing rule from 1915-16, onwards shall be the amount realised as such in any year subject to the condition that it shall not exceed at any time the average realization from this item in respect of the particular Inam shop during the three official years preceding 1915-16.

(iii) Similarly the tree-tax from 1915-16, onwards shall be calculated at the marginally noted rates on the number of trees actually tapped within the limits of the Inam village during each year subject to the condition that if the rate is reduced by Government at any future date, payment shall be made only at such reduced rate for the time being.

Date	Rs.	a.	p.
Cocoanut	1	8	0
Palmyra	2	6	0
Bagani	1	12	0
	2	0	0

(2) To read for "reasonable.....above" in existing Rule 24 "compensation equal to 20 times the average annual amount actually paid in respect of that shop during the preceding three years." This will apply only to cases in which shops belonging to or situated in alienated villages are closed *permanently*.

(3) To substitute for Rule 25 the following :—

"Whenever an Inamdar entitled to excise revenue from toddy is willing to compound his right to shop rent, Government will be prepared to sanction an immediate payment of 20 times the average annual amount actually received by him in respect of that shop during the preceding three years."

2. Before finally passing the modifications, Government will be glad to receive within a period of three months from this date the views and suggestions, if any, of the public thereon.

## RAILWAYS.

No. 2393—94, dated 3rd March 1916.

Whereas the Government of His Highness the Maharaja of Mysore have decided to make a survey for the construction of a line of Tramway from Mysore to Kakankote, it is hereby notified under the provisions of Section 4 of the Mysore Land Acquisition Regulation No. VII of 1894, that certain lands in the Mysore District, through which the line will pass are likely to be needed for a public purpose, *viz.*, the construction of the said tramway; and Government are therefore pleased to authorize, under Section 38 of the same Regulation, the Officer in charge of the Survey Party to exercise the powers conferred by Section 4.

By Order,  
K. KRISHNAIENGAR,  
Offg. Secretary for Railways,  
Government of Mysore.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings for the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## REVENUE.

No. Fl. 4182—S. R. 94-14-1, dated 28th February 1916.

Some difficulties having arisen in the working of the rules contained in Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901, regarding the settlement of Inamdars' claims to the excise revenue from toddy of their villages during the tree-tax period, it is proposed to revise them as indicated below and to apply the modified rules for dealing with all cases during the tree-tax period.

(1) To substitute the following Rules for Rules 9 to 15:—

9 (i) The proprietor of an alienated village who is entitled to excise revenue from toddy shall get only the *revenue actually accruing in his village*, whether in the shape of rent for the shop or shops situated therein, or the tree-tax on the trees tapped in his village (irrespective of the location of the shop for which they are tapped) or both, *minus* the local cess thereon and establishment charges at 6 per cent of the revenue or such other rate as may be fixed from time to time.

(ii) The shop rent payable under the foregoing rule from 1915-16, onwards shall be the amount realised as such in any year subject to the condition that it shall not exceed at any time the average realization from this item in respect of the particular Inam shop during the three official years preceding 1915-16.

(iii) Similarly the tree-tax from 1915-16, onwards shall be calculated at the marginally noted rates on the number of trees actually tapped within the limits of the Inam village during each year subject to the condition that if the rate is reduced by Government at any future date, payment shall be made only at such reduced rate for the time being.

Date	Rs.	a.	p.
Cocanut.	1	8	0
Palmyra	2	6	0
Bagani	1	12	0
	2	0	0

(2) To read for "reasonable.....above" in existing Rule 24 "compensation equal to 20 times the average annual amount actually paid in respect of that shop during the preceding three years." This will apply only to cases in which shops belonging to or situated in alienated villages are closed *permanently*.

(3) To substitute for Rule 25 the following:—

"Whenever an Inamdar entitled to excise revenue from toddy is willing to compound his right to shop rent, Government will be prepared to sanction an immediate payment of 20 times the average annual amount actually received by him in respect of that shop during the preceding three years."

2. Before finally passing the modifications, Government will be glad to receive within a period of three months from this date the views and suggestions, if any, of the public thereon.

No. R. 8731—Ft. 27-15-5, dated 11th March 1916.

The Government of His Highness the Maharaja of Mysore are pleased to declare under the provisions of Sections 33 and 4 of the Mysore Forest Regulation (XI of 1900), that it is proposed to constitute the areas the boundaries of which are described in the schedule below, as Village Forests under the provisions of the said Regulation:—

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Māharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per. cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

No. Fl. 4866—S. R. 115-15-2, dated 22nd March 1916.

Tenders are hereby invited for the exclusive privilege of establishing Bonded Depôts at the localities specified in Appendix A and transporting thereto arrack and other country spirits from the Bangalore Government Central Distillery *under bond*, and thereat distributing it to the respective arrack shop-keepers attached to the said depôts during the next three years beginning with 1st July 1916 and ending with 30th June 1919.

2. The privilege for which tenders are now invited will be conceded subject to the conditions specified in Appendices S (i) and S (ii) (hereto annexed) of the rules published under Notification No. 11387—Ex. F. 3-1901, dated 8th January 1902, and which are hereby slightly modified and the Excise Laws and Rules now in force, or which may from time to time be passed by Government or by the Excise Commissioner in virtue of the powers delegated to him.

3. The quantity of arrack and other country spirits conveyed from the Government Central Distillery to each Bonded Depôt during the past three years is mentioned in Appendix A.

4. Tenderers must specify the lowest rate of remuneration per fifty gallons of spirits to be carried from the distillery at which they would take up the contract. They must specify one rate for the Bangalore City Depôt and another rate for the depôts in all the other places. The rates, thus tendered and accepted by Government, shall be the rates at which remuneration shall be calculated on the actual quantity carried in each case and be payable to the successful tenderer who shall be called, "Government Contractor for the carriage of spirits to Bonded Depôts," during the currency of the contract granted under this notification. The rates tendered will be deemed to include the carriage of ganja to the several Taluk Treasuries for which no separate remuneration will be given.

5. Each tender must be accompanied by a deposit of Rs. 100 for the Bangalore City Depôt and Rs. 500 for the mofussil depôts specified in Appendix A, and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of establishing Bonded Depôts, and carrying spirits thereto from the Bangalore Government Central Distillery and distributing the same to separate shops" and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on Monday the 10th April 1916 after which date no tender will be received. The tenders will be opened by the Excise Commissioner at his office at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest, subject to the approval of Government, with the Excise Commissioner who reserves to himself full power to reject any or all of the tenders without assigning any reason, and power to accept separate tenders for the Bangalore supply, and for supply in the rest of the State. The deposits made by the applicants whose tenders are rejected will be immediately returned to them by the Excise Commissioner.

6. The applicant whose tender may be accepted by the Excise Commissioner, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash or in Government Securities duly endorsed in favor of the Dewan of Mysore, for the time being, to make, with the deposits previously made, a sum of Rs. 1,000 for the Bangalore City Depot, and Rs. 6,000 for the aforesaid mofussil depôts, and shall execute an agreement in the prescribed appended Form S (i) for the Bangalore City Depôt and S (ii) for the said mofussil depôts on proper stamps, binding himself to conform to the conditions therein set forth; and if he fails or refuses to sign the agreement, or to make the deposit required, the deposits already made will be forfeited to Government, and the contract otherwise disposed of.

7. No tender proposing any modification of any of the terms of this notification will be considered.

8. The contract shall not be transferable except with the previous sanction of the Excise Commissioner subject to the approval of Government.

9. The depôts shall be opened by the contractor in buildings approved by the Deputy Commissioner of the district concerned. Where Government buildings are made available for use as depôts, the contractor shall be bound to use them, paying such fair rent as may be charged by the Deputy Commissioner.

## APPENDIX S (i).

FORM OF CONTRACT BOND TO BE EXECUTED BY THE GOVERNMENT  
CONTRACTOR FOR CARRIAGE OF ARRACK AND OTHER COUNTRY  
SPIRITS TO THE BANGALORE CITY BONDED DEPOT.

WHEREAS I, \_\_\_\_\_, have been granted by the Government of His Highness the Maharaja of Mysore for the period of three years beginning with the 1st of July 1916, and ending with the 30th of June 1919, the right of conveying arrack and other country spirits from the Central Distillery *under bond* to the Depôt in the City of Bangalore, in quantities sufficient to meet the demand of the separate shops dependent on such Depôt, and whereas the said Government has agreed to pay me the remuneration hereinafter described, I the said \_\_\_\_\_, for myself, my heirs, legal representatives, and assigns, hereby agree and bind himself to all the terms and conditions hereinafter set forth:—

- (1) that I hold myself responsible to Government for the correct delivery of the requisite supplies of arrack at 30° under-proof to the separate shop-keepers in the said Bonded Depôt at the City of Bangalore, on production of Treasury receipts in proof of prepayment of duty and price of such arrack;
- (2) that in special cases sanctioned by the Deputy Commissioner, I shall be bound to carry the requisite supply of arrack to any altered locality of the existing Depôt provided the expense to me is not likely to be greater than supplying the present Depôt;
- (3) that I shall be bound to carry the requisite supplies of Ganja to the Taluk Treasury for issue to licensed vendors of the drug;
- (4) that as remuneration for my contract, the Government shall pay me, at the end of each month, an amount calculated at the rate of \_\_\_\_\_ for every gallon of arrack conveyed by me from the Central Distillery to the Depôt, and shall allow me no wastage under any circumstances whatsoever; nor shall any separate remuneration be claimed for the Ganja carried by me;
- (5) that the usual establishment required for such Depôt and the house rent shall be paid for by myself; and that I shall be bound to get the previous approval of the Excise Commissioner to the terms of the *Mutchalika* to be executed as between myself and Depôt Mutsaddis so that the interest of Government may not be prejudicially affected by the said *Mutchalikas*;
- (6) that the establishment at the Depôt shall keep such accounts and be furnished with and use such seals for sealing the sample bottle and the bulk of liquor issued to shop-keeper as may be prescribed by the Excise Commissioner, and shall be under the control and orders of myself, and regard themselves as my servants;
- (7) that I shall conform to the Excise Laws and Rules now in force, and which may from time to time be issued by Government, and also to such rules of practice as may be prescribed by the Excise Commissioner;
- (8) that for the due fulfilment of the terms of this contract, I hereby deposit in the Bangalore District Treasury the sum of rupees one thousand in cash (or Government Securities duly enclosed in favour of the Dewan);
- (9) that I equally with the Depôt-keeper shall be bound by the conditions of the Depôt license, Appendix R of Arrack Rules;
- (10) that I shall be bound to dismiss or transfer any of my servants on the requisition of the Excise Commissioner or the Deputy Commissioner of the Bangalore District whenever transfers of an individual mutsaddi from or to a place are deemed desirable or necessary in Government interests, and that I shall appoint qualified men in place of dismissed men without delay, that Depôt Mutsaddis once dismissed for bad behaviour, etc., shall not be posted to other places without the previous sanction of the Excise Commissioner;
- (11) that I shall be bound to make good the loss accruing to Government and the separate shop-keepers by short stock or no stock in the said Depôt, or by my neglect or carelessness in not conveying the necessary supplies of arrack to the Depôt in due time;
- (12) that as the liability of the manufacturers ceases on delivery by them of arrack to me at the Distillery, and of the Distillery Officer on delivery of the ganja

consignments at the said place, all further liability or responsibility to account for the whole quantity of such arrack and ganja thenceforth, shall rest with me, and any diminution from any cause whatever, (Acts of God and the State's enemies and robbery by *vis major* excepted), shall be made good by me at the prescribed rate of duty and price per gallon of arrack of 30° under-proof, and proportionately for higher or lower strengths and per seer of 80 tolas of ganja, respectively;

- (13) that in case of any breach of the laws and rules or of the aforesaid conditions, or in case of any attempt at fraud by my servants, agents or employees, it shall be competent to the Excise Commissioner to impose upon them, or upon myself in the event of my neglect, a fine not exceeding Rs. 50 for every such breach or neglect, or, at the option of the Excise Commissioner to declare the money deposited by me forfeited; and to cancel the contract with previous sanction of Government;
- (14) that the imposition of a fine or the forfeiture of the deposit, or the cancelment of the contract, shall not be held to prevent prosecution for any offence committed under any law for the time being in force; and
- (15) that this contract shall not be transferable except with the consent of the Excise Commissioner subject to the approval of Government.

No. Fl. 4867—S. R. 100-15-3, dated 22nd March 1916.

Tenders in the form hereunto appended are hereby invited for the exclusive privilege of the Manufacture of Arrack and other Country Spirits for the territories of Mysore, inclusive of the Civil and Military Station of Bangalore, for a period of three years from 1st July 1916 to 30th June 1919.

2. The contract for the Civil and Military Station of Bangalore is included in this Notification with the permission of the Hon'ble the Resident in Mysore.

3. The privilege for which tenders are now invited will be conceded subject to the conditions specified in para 8 of this Notification, and to the Excise Laws passed by the Government of Mysore, and to the Excise Law in force for the time being within the Civil and Military Station of Bangalore. It will not include the manufacture or sale of Toddy, or of "Foreign Spirits and Foreign Fermented Liquors," or of Country Beer.

4. The quantity of Arrack required is estimated at between 39,000 and 40,000 gallons a month, the quantity actually issued from the Bangalore Distillery in the year 1913-14 having been 578,729 gallons. No quantity is, however, guaranteed to the manufacturer, who is bound by actual requirements, be the same more or less than the estimated quantity.

5. Tenderers must specify the lowest rate per gallon of 30° U. P., separately for sugar-cane jaggory arrack, palmyra jaggory arrack, and for molasses arrack, as also per gallon of 20° U. P., of the marginally noted kinds of special liquors, at which they offer to supply during the whole period of the contract. The price thus tendered for and approved by Government shall be the price at which arrack of 30° U. P. and special liquors of 20° U. P. will be supplied by the Manufacturer to Government for issue to separate shop-keepers during the currency of the contract granted under this Notification. The manufacturer shall, on the requisition of Government, manufacture and supply double distilled or rectified spirits and other special liquors of greater or less strength than 30° U. P. in bottles of 8½ drams (6 bottles to a gallon) or pints (12 bottles to a gallon), for issue to the persons licensed to vend the same at such rates of bottling as are approved of by the Excise Commissioner; but for single distilled spirits of greater or less strength than 30° U. P., the price chargeable will be according to such strength proportionately on the rate fixed for arrack 30° U. P.; in case of spirit which shall be of not less than 50° O. P. to which denaturants will be added in prescribed quantities, only such additional cost for the denaturants as are employed, will be allowed.

Brandy.  
Whisky.  
Gin.  
Rum.  
Milk Punch.

NOTE.—Sugar-cane jaggory arrack shall also be supplied in bottles, if required by the Excise Commissioner, who will fix the rates of bottling charges.

6. Each tender must be accompanied by a deposit of Rs. 5,000 in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of the Manufacture of Arrack," and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on the 10th April 1916, after which date no tender will be received. The tenders will be opened by the Excise Commissioner at the office in Bangalore at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest with the Government, who reserve to themselves full power to reject any or all of the tenders without assigning any reason. The deposits made by the applicants whose tenders are rejected, will be returned to them on their application.

7. The applicant whose tender may be finally accepted by the Government, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," to make up with the deposit previously made, the sum of Fifty Thousand Rupees, and shall execute an agreement, in the form presented on proper stamp, offering as additional security all his apparatus and stock and block in the Distillery, and binding himself to conform to the conditions hereinafter set forth, and if he fails or refuses to either make the deposit or sign the agreement required, within such period, the deposit already made by him will be forfeited to Government, and the contract otherwise disposed of.

8. The contract for which tenders are now invited shall be subject to the following conditions, namely:—

I. The contractor will be required to manufacture arrack and other country spirits within the enclosure of the Government Distillery near Bangalore, or at such other place as may be approved by the Government. For the use of the Distillery buildings near Bangalore and the arrangements existing in connection with the water-supply, the contractor shall pay rent to Government at

Rs. 757-8-0 *per mensem*. Such improvement or addition to the said buildings or water-supply as may be approved by the Government will be carried out at Government cost, subject to the payment by the contractor of such additional rent or rate as may be fixed by Government; and such repairs to the Distillery buildings and channels as may be pointed out by the Executive Engineer, shall also be promptly executed by the contractor, provided the annual cost of such repairs does not exceed 50 rupees.

II. The contractor will be required to keep in store at the Central Distillery, ordinarily, a supply sufficient for a month's consumption (40,000 gallons at the present rate of consumption) and *never less* than 25,000 gallons of admissible spirits in terms of 30° under-proof.

III. The contractor will be allowed to purchase arrack and other country spirits from any Sugar Factory which may be established in Mysore, and which may be authorized by Government to distill arrack and other country spirits. Should the contractor himself establish a Sugar Factory and distill arrack and other country spirits therein, with the permission of the Government, he will be bound to keep in stock at such factory such quantities of arrack and other country spirits, as may be fixed by Government.

IV. The spirits manufactured shall be of good quality, and Hessarghatta filtered water or distilled water shall be invariably used at the Distillery under the supervision of the Senior Officer in charge of the Distillery for reducing strong spirits to the authorized strength. The articles used in distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special liquor after it has been manufactured. The spirits manufactured shall not be adulterated or diluted, save by addition of Hessarghatta filtered water or distilled water for the purpose of reducing strength to the authorized degree.

V. In outlying tracts where, owing to small consumption or other causes, there is reason to suspect illicit distillation, Government will be at liberty to establish out-stills, after giving the contractor the first refusal of so doing.

VI. (1) The contractor shall issue at the Government Distillery or other place where he may be allowed to manufacture the same to the Senior Government Officer in charge thereof, such quantity of arrack and other spirits as may be indented for by him for supply—

1st. To such Bonded Depôts as Government may from time to time, establish and maintain. After the issues are made, the Distillery Officer shall issue a cheque on the Treasury Officer, Bangalore District, to the contractor and in his favor for the value of arrack and other spirits issued.

2nd. To the Government Excise Depôt in the Civil and Military Station of Bangalore in compliance with indents received from the Superintendent of Excise, Civil and Military Station. Arrack supplied to the Civil and Military Station will not be paid for in advance but once a fortnight on receipt of bills from the contractor to be submitted to the Collector, Civil and Military Station, through the said Superintendent of Excise.

3rd. To such other places and persons as may be directed by the Excise Commissioner.

(2) The contractor shall have no interest in the retail vend of Arrack. Nor shall he employ as agent or in any other capacity in the Distillery any person having such interest.

(3) The contractor shall sell double distilled and other special liquors manufactured by him to the licensees for the vend of special liquors. He shall also sell the same to Bonded Depôts and to Hospitals and other public institutions, on the Excise Commissioner's requisition. These shall be issued in uniform sized bottles (6 qts. or 12 pints to a gallon) and at such rates of bottling charges as may be fixed from time to time by the Excise Commissioner.

No spirit shall be allowed to be removed from the Government Distillery, or other authorized place of manufacture, except for issue to Bonded Depôts, unless the purchaser produces a Treasury receipt for the amount of duty paid therefor.

NOTE. 1.—This condition does not apply to removal of arrack for the supply of the Government Excise Depot in the Civil and Military Station, for which no Treasury receipt will be required.

NOTE 2.—Should the contractor be permitted with the approval of Government at any time during the tenure of his contract to supply country spirits manufactured in the Central

Distillery to Coorg, or any other place outside the limits of Mysore State, such proportionate cost towards the Distillery Establishment as may be fixed by the Excise Commissioner shall be paid for by the manufacturer.

- VII. The contractor shall be bound to conform to the provisions of the Excise Laws for the time being in force in the Territories of Mysore and in the Civil and Military Station of Bangalore; and he shall see that all his employees give full effect to them.
- VIII. The outgoing contractor shall give and the in-coming contractor shall take over, any arrack or other country spirits and special liquors not exceeding a month's supply which may remain as stock in hand on the last day of the expiring contract, the latter paying the former for the same such value as may be fixed by the Excise Commissioner.
- IX. Should the in-coming contractor or the Excise Commissioner so require by at least one week's previous notice in writing, the out-going contractor shall cease preparing "Wash" during the last month of the expiring contract, and vacate the buildings so as to admit of the in-coming contractor commencing operations. Should no such notice be given, the out-going contractor may continue distilling till the end of his contract, after which further distillation by him must cease. The in-coming contractor shall issue arrack and other country spirits and other special liquors from the Distillery to Bonded Depôts, if so required by the Excise Commissioner in sufficient time (not exceeding two weeks prior to the commencement of his contract) to have his supply ready in all Bonded Depôts for issue from the 1st July of the first year of his contract.
- X. The out-going contractor shall sell, and the in-coming contractor shall buy, all apparatus and stock and block belonging to the former at the Government Distillery near Bangalore, or other authorised place of distillation for a fair and equitable price to be fixed by the Excise Commissioner, calculating the original cost and deducting therefrom such portion of it on account of depreciation as may be considered reasonable. The present valuation comes to Rs. 89,140-10-4 as per list attached.
- XI. Improvements of a permanent nature shall be retained and shall not be disturbed except with the approval of the Executive Engineer.
- XII. In case of a breach of any of the above conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the contractor and all his apparatus and stock and block, forfeited, and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.
- XIII. The contract shall not be transferable except with the consent of the Government of His Highness the Maharaja of Mysore.

9. The following items of information are appended :—

NOTE 1.—Table showing the annnal quantity of arrack issued from the Distillery since 1910-11 up to 1914-15 :—

NOTE 2.—The still-head duty payable to Government for arrack of 30° under-proof by shop-keepers is Rs. 5-4-0 per gallon, and the retail price thereof payable to the latter by the consuming public is Rs. 7-7-0 per gallon or two annas 4 pies per dram, which is equal to  $\frac{1}{5}$ th part of a gallon. The rates of still-head duty and retail price of single-distilled spirits of greater or less strength than 30° under-proof, will be calculated proportionately upon the rates for 30° under-proof. Government reserve to themselves the power of altering the rates of duty and price, it being distinctly understood that the manufacturing contractor shall not be entitled to claim any compensation for loss on account of such alteration. When any liquor other than ordinary arrack manufactured in pursuance of this privilege or any liquor falling within the definition of foreign liquor is supplied by the contractor for sale within the Civil and Military Station, the duty chargeable thereon shall be assessed at the rates leviable for similar liquor of similar strength under the tariff rates in force in that area.

NOTE 3.—For double distilled or rectified spirits of all strengths the rates of still head duty will be calculated proportionately upon the rate for 30° under-proof. The price that would be chargeable on these spirits as well as for other special liquors manufactured at the Government Central Distillery, Bangalore, or other place approved by Government, both by the manufacturer and the licensed vendor will be that approved by the Excise Commissioner.

NOTE 4.—The present contractors are reported to have, up to the end of January 1916, incurred an expenditure of Rs. 89,140-10-4, on account of plant put up.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

*Financial Secretary.*

The following letter No. 1733-W, dated 3rd March 1916, from the Government of India, Department of Commerce and Industry, to all Chambers of Commerce, with its enclosure, is hereby republished for general information:—

No. 1723-W.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

From—S. H. Slater, Esq., I.C.S., Under Secretary to the Government of India,  
To—All Chambers of Commerce.

Delhi, the 3rd March 1916.

Sir,—(I am directed to refer to the letter from the Government of India, No. 8977-W., dated the 15th June 1915).\*

(I am directed to forward a copy of the correspondence noted in the margin)† and to say that the Government of India have been informed that the Home Government think it desirable to pursue a more rigid policy in regard to restrictions on exports to neutral European countries; and have accordingly decided that when any new prohibition is imposed in respect of such exports, no general reservation will ordinarily be made in favour of existing commitments. The Government of India have hitherto, when imposing such new restrictions, by the postponement of the issue of the statutory notification or otherwise done all that was possible to save existing commitment. His Majesty's Government have drawn attention to the fact that a prohibition is imposed because there is reason to believe that the commodity has been passing into enemy countries, and it is desirable even at the expense of some dislocation of trade to shut off enemy supplies at the earliest possible moment. The period of such postponement will in future have to be reduced to a minimum and it will ordinarily be impossible to respect existing and forward commitments to neutral European countries.

I have the honour to be,

Sir,

Your most obedient Servant,

S. H. SLATER,

Under Secretary to the Government of India.

\* To Bombay Chamber only.

† To the rest.

A copy is forwarded to all Local Governments and Administrations for information with the request that those mercantile associations not addressed by the Government of India direct may be informed.

A copy is also forwarded to the Director General of Commercial Intelligence.

By order, etc.,

S. H. SLATER,

Under Secretary to the Government of India.

No. 802, dated Bombay, the 22nd April 1915.

From—T. W. Birkett, Esq., Chairman, Bombay Chamber of Commerce;

To—The Secretary to the Government of India, Department of Commerce and Industry.

I have the honour to address you on the subject of the issue of Notifications prohibiting exports from India.

2. As you are no doubt aware, my Committee discussed this matter with the Hon'ble Mr. Clark on his recent visit to Bombay, and I am now desired by my Committee to submit for the consideration of Government the following proposals with a view to arriving at some arrangement whereby the hardships devolving on merchants owing to prohibitions of exports may be minimised.

3. In the first place my Committee realise that it is impossible either for this Chamber or for the individual merchants, or probably for the Collectors of Customs, to know what latitude Government can allow in each case. In fact, it is obvious that the Government of India alone can determine on what date and in what manner each Notification must come into force and how it must be applied.

4. On the other hand, when Government issue a Notification they are probably in a position to know what latitude can be granted, and my Committee would therefore submit that Government should draw out a scale in which the various degrees of urgency are classed under separate clauses in the manner suggested below. This scale could be communicated to the Collectors and the clause applying could be notified to them in each particular case when the Notification is issued.

5. In this connection my Committee would suggest that a scale of somewhat the following nature be prepared:—

- (a) In cases where Government can give no latitude, Collectors should receive notice that all shipments should be stopped and cargo loaded in steamers in port should be unloaded.
- (b) Where Government can only give the minimum amount of latitude, Collectors should receive notice that all cargo actually loaded should be allowed to go forward.
- (c) Collectors should receive notice to accept all cargo that has been shipped and is alongside steamers awaiting shipment.
- (d) Collectors should receive notice to accept all cargoes for which Customs passes have been taken out (provided the manner of taking out Customs passes in other parts is the same as in Bombay).
- (e) Collectors should receive notice that not only cargo that has been loaded or is alongside the steamers awaiting shipment or for which Customs passes have been obtained should be accepted but that all forward contracts, that are proved to the satisfaction of Collectors to have been made prior to the issue of the Notification, may be completed.

6. My Committee have reason to believe that Collectors of Customs could control the arrangement under clause (c) of the above through the Port Trustees at each port, who could inform them as to what cargo was alongside and awaiting shipment and who would be prepared to take instructions to receive nothing further on to the wharf or in the sheds.

7. With regard to clause (d), if the custom of export passes that obtains in Bombay is not the same in other ports, my Committee have no doubt that arrangements could be made suitable to each port.

8. My Committee are not in favour of giving Collectors of Customs discretion as to how the Notification should be applied, as many merchants ship from several ports, and if such discretion were more liberally applied at one port than at another my Committee are of opinion it might lead to representations and comparisons which it is desirable to avoid.

9. With regard to the suggestion put forward on the occasion of the recent meeting with the Hon'ble Mr. Clark, that before sending out a Notification Government should consult the Collectors at the various ports as to the most suitable date on which the Notification should take effect and that the latest date sent in be taken, my Committee are afraid that if this were done advantage might be taken to ship cargo not previously intended for shipment, for, as Government are aware, Bombay merchants generally enter into freight contracts which allow them the option of shipping cotton, wheat or seeds, etc.

10. My Committee trust that the above proposal will be favourably considered by Government, and that some scheme of the nature suggested may be brought into force at an early date.

*Copy of remarks, dated 29th April 1915, made by the Collector of Customs, Bombay.*

The Chairman of the Chamber of Commerce consulted me unofficially with regard to his suggestions, which, I think, are fairly suitable for adoption in the event of the Government of India finding it possible to discriminate between urgent and less urgent Notifications.

As regards scale "D," there would be no difficulty in Bombay in applying this scale with the co-operation of the Bombay Port Trust, whose officials are responsible for seeing that cargo entering the docks is covered by the Customs shipping bills. It is just possible that the suggestion might be found difficult to apply at other ports. The suggestion was made in Calcutta a few years ago that certain classes of goods should be allowed to be shipped in anticipation of the presentation of the Customs shipping bills, the shipping bills to be taken out within five days of the departure of the vessel. Even if these proposals were sanctioned, it is possible, however, that they have not been introduced in view of the war and of the necessity of exercising control over exports.

As regards scale "E," I may observe that the frequent application of this scale would throw a considerable amount of extra work on the Customs House in verifying exporters' statements as to their forward contracts. I should, therefore, like to see this scale applied very sparingly.

As regards paragraph 9 of the Chamber's letter, I may say that in two or three instances already the Government of India have adopted the suggestion of calling on Collectors at the various ports to report the most suitable date in their opinion for giving effect to a contemplated Notification. I do not know whether the procedure has been found to act very satisfactorily. But the Government of India have perhaps already had sufficient experience to decide whether to continue the practice or not. The procedure is open to the same objection from the Customs point of view as scale "E," viz., that it throws on the Customs Department additional work in ascertaining the commitments of intending shippers. In the case of some commodities, this work would be trifling, as regular shippers would be very few in number. But in the case of other commodities there may be a large number of regular shippers who would have to be addressed to ascertain their intended shipments. There is, moreover, no guarantee that regular shippers only have made commitments; and it would be difficult, if not impossible, for the Custom House to get into communication with all sundry exporters. A further objection is that the fact that enquiries as to commitments are being made is probably a sufficient indication to the trade that a prohibition on export is under the consideration of Government.

No. 1052, dated Bombay, the 24th May 1915.

From—N. Wilkinson, Esq., Acting Secretary, Bombay Chamber of Commerce,

To—The Secretary to the Government of India, Department of Commerce and Industry.

I have the honour to address you under instructions from my Committee on the subject of the issue of executive orders prohibiting or restricting exports of certain commodities from British India.

2. My Committee would respectfully submit that considerable uncertainty and confusion is likely to arise from the present method of issuing such orders. Thus in the recent case of the S. S. "Jeddah," these difficulties were very acutely felt. Although doubtless actual shippers of cotton by this steamer were notified immediately by the Collector of Customs or by the agent of the steamer, the matter was one of great importance to a large section of the Bombay commercial community, by whom the exact scope and meaning of the orders could not at once be ascertained.

3. This being so, I am to enquire whether it would not be possible for Government in future to advise this Chamber, simultaneously with the Collector of Customs in this port, of the general terms of any executive orders prohibiting or restricting exports from British India that may from time to time be issued.

No. 8977-W., dated Simla, the 15th June 1915.

From—S. H. Slater, Esq., I. C. S., Under Secretary to the Government of India,

Department of Commerce and Industry.

To—The Chairman, Chamber of Commerce, Bombay.

Your letter No. 802, dated the 22nd April last, and Mr. Wilkinson's letter of the 24th May, No. 1052, on the subject of the inconvenience caused to the commercial community by the present mode of issuing and enforcing notifications and orders restricting export, have received the careful consideration of the Government of India, who have for some time been endeavouring to devise means of working export prohibitions with the minimum of inconvenience to the mercantile community.

2. The suggestions contained in your letter of the 22nd April rest upon the assumption that the Government of India are in a position to say what degree of urgency should be ascribed to each of the various prohibitions. This, however, is seldom the case. The Government of India act upon instructions received from the Secretary of State, who in turn is guided by the recommendation of the Restriction Committee, whose views on each particular case are not invariably communicated to the Government of India, and are seldom received before the prohibition has to be put in force. Some cases may be manifestly and notoriously of special urgency, as, for instance, that of cotton, of which the Government of India, had information that large quantities destined for Germany and Austria were lying on the wharves of ports in Italy.

As a general rule, however, it is necessary, for practical purposes, to regard all prohibitory orders as of equal urgency.

3. For this reason, therefore, and on account of the variations in practice at the different ports in India, it appears impossible to adopt the somewhat elaborate system described in your letter.

4. Mr. Wilkinson's letter of the 24th May has been understood as referring to the same subject. It should be explained, however, that prohibitions and restrictions are almost invariably imposed by statutory notification, not by executive order. Where the statutory notification is absolute and no discretion is allowed, the intention of the Government of India to introduce it is communicated confidentially to the Collector, in order to fix a date which will be least inconvenient to all concerned. To communicate in the same way with the Chamber would defeat the object in view, which is to choose a time when there are as few commitments as possible outstanding. When the date has once been fixed, the Government of India have no objection to communicating it at once to the Chamber: indeed, it is always publicly notified. If, however, the letter refers to cases where discretion is given to the Collector, in accordance with certain instructions conveyed to him, to admit exceptions to a statutory Notification, I am to explain that the object of allowing the Collector a wide discretion is to mitigate possible cases of hardship to the commercial community which an undue rigidity of orders might tend to produce. It would obviously, the Chamber will perhaps admit, be impossible to communicate discretionary instructions of the above nature simultaneously to the Collector and the Chamber, as it might lead the latter to question the Collector's discretion, a position which would hardly tend to smoothness of working. The Government must leave the interpretation and execution of their orders to the unfettered discretion of Collectors, who have instructions, however, to intimate at once to those concerned the general purport of the orders under which they are acting.

5. I am to add that the Hon'ble Sir William Clark will be visiting Bombay about the 24th of this month, and will be glad to discuss the matter with the Chamber, if they so desire.

## REVENUE.

No. R. 8988—L. R. 422-15-4, dated 20th March 1916.

The following notification of the Government of India is republished for general information:—

“GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

SALT.

The 1st March 1916.

No. 1545-Exc.—In exercise of the powers conferred by Section 7 of the Indian Salt Act, 1882 (XII of 1882), and in supersession of the Notification of the Government of India in the Finance Department, No. 1748-Exc.—dated the 20th March 1907, the Governor-General in Council is pleased to direct that, on and after the 1st March 1916, the duty to be paid on salt manufactured in, or imported by land into, British India shall be as follows:—

- (a) in the case of salt manufactured in any part of British India other than Aden and of salt (other than salt manufactured at the salt-sources of Sambhar, Didwana, or Pachbhadra in the Rajputana Agency, on which a duty has been imposed by the Notification of the Government of India in the Foreign and Political Department No. 833-D, of this date) imported by land into any part of British India, one rupee and four annas for each maund of 82½ pounds avoirdupois; and
- (b) in the case of salt manufactured in Aden and intended for local consumption in that settlement, or for export to ports or places on the Arabian littoral situated between latitude eleven and latitude twenty north and longitude thirty-nine and longitude forty-five east, one rupee for each 140 pounds avoirdupois.

II. The foregoing order shall not affect the orders contained in any notification of the Government of India not herein before expressly mentioned.”

No. R. 8973—Ft. 118-15-5, dated 18th March 1916.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900), that, from 1st May 1916, the area, the boundaries of which are set forth in the Schedule annexed to this Notification, shall be deemed to be a “State Forest,” subject to the exercise of rights specified at foot thereof:—

#### *Remarks.*

A. The following rights of way are admitted in the block throughout the year :—

1. Foot-path from Karakuchi to Yerebile, 6 feet wide and about 147 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 32 chains south from the north-east corner of Survey No. 57 of Karakuchi, runs east through Survey Nos. 59 and 58 and quits the forest in its northern boundary at a point about 3 chains north-west from the north-east corner of Survey No. 58.

2. Foot-path from Gangigere to Gopala, 6 feet wide and about 70 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 30 chains east from the south-east corner of Survey No. 60 of Karakuchi, runs north-west through Survey No. 59 and quits the forest in its northern boundary at a point about 3 chains east from the north-east corner of Survey No. 57.

3. Foot-path from Gangigere to Busenahalli, 6 feet wide and about 65 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 13 chains south-east from the north-west corner of Survey No. 6 of Bhavikere, runs north-east through Survey No. 6 of the said village and Survey No. 58 of Karakuchi and quits the forest in its northern boundary at a point about 44 chains north-west from the north-east corner of Survey No. 58 of Karakuchi.

4. High road from Narasimharajapura to Tarikere, 3 chains long, open for the public as usual. It enters the forest in its western boundary at a point about 20 chains north-west

from the north-west corner of Survey No. 18 of Arsikere, runs south-east through the enclosure in the said village, and between Survey Nos. 16 and 17 and quits the forest in its eastern boundary at the south-east corner of Survey No. 16.

5. Cart-track from Lakvalli to Tarikere, 15 feet wide and about 46 chains long, open for men, cattle and carts. It enters the forest in its western boundary at a point about 20 chains west from the north-west corner of Survey No. 6 of Arsikere, runs south-east through Survey No. 4 of the said village and reaches the enclosure, and again it begins in the said enclosure at a point about 5 chains north-east from the north-east corner of Survey No. 3, runs west through Survey No. 4 and Jampadamma temple enclosure, and Survey No. 39 of Duggalapur and quits the forest in its eastern boundary at a point about 10 chains north-east from the easternmost corner of Survey No. 4 of Arsikere.

6. Foot-path branching from the above and leading to Malleswara temple, 6 feet wide and about 4 chains long, open for men and cattle. It begins in the enclosure in the Arsikere village at a point about 11 chains south from the south-west corner of Survey No. 3 of Arsikere, runs south through Survey No. 4 to the temple.

7. Cart-track from Santapur to Thyagadabage State Forest, 15 feet wide and about 109 chains long, open for men, cattle and carts. It enters the forest in its western boundary at a point about 13 chains south from the north-west corner of Survey No. 18 of Siddarahalli, runs east and south-east through Survey No. 24 of Santapur and Survey No. 18 of Siddarahalli and quits the forest in its eastern boundary at a point about 21 chains north-east from the north-west corner of Survey No. 19 of Siddarahalli.

8. Cart-track branching from the above and leading to Duggalapur, 15 feet wide and about 82 chains long, open for men, cattle and carts. It branches in Survey No. 18 of Siddarahalli, runs north-east through the said Survey No. 18 of Siddarahalli and Survey No. 139 of Duggalapur and joins cart-track No. 5 *supra*.

9. Foot-path from Santapur to Thyagadabage 6 feet wide and about 100 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 23 chains south-east from the south-east corner of Survey No. 33 of Santapur, runs south-east through Survey Nos. 26 and 25 and quits the forest in its eastern boundary at a point about 33 chains south-west from the north-east corner of Survey No. 25.

10. Cart-track from Santapur to Vaddarabiranahalli *via* Gurpur 15 feet wide and about 85 chains long, open for men, cattle and carts. It enters the forest in its western boundary at a point about 26 chains north-east from the north-west corner of Survey No. 25 of Santapur, runs south-west through Survey Nos. 26 and 25 of Santapur and Survey No. 9 of Gurpur and reaches the enclosure in the said village, then again it begins in the said enclosure at a point about 13 chains south-east from the south-east corner of Survey No. 9 of Gurpur, runs south through Survey No. 3 of Vaddarabiranahalli, and quits the forest in its eastern boundary at a point about 2 chains south-west from the northernmost corner of Survey No. 17 of the said village.

11. Foot-path branching from the above and leading to Haruvanahalli 6 feet wide and about 14 chains long, open for men and cattle. It begins in the enclosure in the Gurpur village at a point about 7 chains west from the north-west corner of Survey No. 4 of Gurpur, runs south-west through Survey No. 31 of Haruvanahalli and joins foot-path No. 12 *supra*.

12. Foot-path from Haruvanahalli to Guddibirahalli, 6 feet wide and about 77 chains long, open for men and cattle. It enters the forest in its western boundary at a point about 5 chains south from the south-west corner of Survey No. 11 of Haruvanahalli, runs south-east through Survey No. 31 and quits the forest in its western boundary at a point about 6 chains west from the south-east corner of Survey No. 31 of the said village.

13. Cart-track from Haruvanahalli to Kundur kaval, 15 feet wide and about 23 chains long, open for men, cattle and carts. It enters the forest in its western boundary at a point about 18 chains south-west from the south-west corner of Survey No. 11 of Haruvanahalli, runs south-west through Survey No. 31 of the said village and quits the forest in its western boundary at a point about 33 chains north-west from the south-west corner of Survey No. 31.

B. The undermentioned concessions are admitted in the block.

(i) Survey Nos. 9, 10, 11, 12, 13, 14, 15 and the tank close to it, and Survey No. 18 in the Arsikere village are clubbed together and treated as an enclosure having the following boundary:—

Starting from a point on the Narasimharajpura-Tarikere high road, about 20 chains north-west from the north-west corner of Survey No. 18 of Arsikere, the line runs north-east for about 40 chains through Survey No. 16 to a point about 15 chains north from the

north-east corner of Survey No. 9, then east for 30 chains to a point about 15 chains north from the north-east corner of Survey No. 15, then south-east for about 18 chains to a point about 10 chains east from the aforesaid north-east corner of Survey No. 15, then south for 40 chains meeting the said high road at a point about 5 chains west from the south-east corner of Survey No. 16, then across the said road, then south-west through Survey No. 17 for about 30 chains to a point about 20 chains south from the south-east corner of Survey No. 18 and then west for 35 chains so as to meet the demarcation line at a point about 23 chains south-west from the north-west corner of the said survey number.

(ii) Survey Nos. 1, 2, 3, 5, 6, 7, 8 and the tank situated to the north-east corner of the last mentioned survey number in the Arsikere village, are clubbed together and treated as an enclosure with the following boundary:—

Starting from the common bandhs of Basavanahalli and Ranganahalli, the line runs south-east along the south side of Survey No. 49 of Ranganahalli to its south-east corner, then south-east through Survey No. 4 of Arsikere for about 12 chains so as to meet the south-east corner of the tank, then south for 14 chains to a point about 5 chains south-east from the south-east corner of Survey No. 3, then south-west for 12 chains to a point about 10 chains south from its south-west corner, then north-west for 19 chains to a point about 10 chains south-west from the south-west corner of Survey No. 8, then north-west for 29 chains so as to meet the western boundary of Survey No. 4 where a bandh is located and then north-east for about 22 chains to meet the starting point.

(iii) The temple of Jampadamma and Malleswara are treated as enclosures with a margin of 3 chains all round. Access to the former will be by means of a foot-path No. 5 *supra*, and to the latter by means of foot-path No. 6 *supra*.

(iv) The Police Ookad abutting on the Narasimharajapura-Tarikere high road is treated as an enclosure with a margin of a chain all round.

(v) The cultivated survey numbers in the Gurpur village are clubbed together and treated as an enclosure with the following boundary:—

Starting from a point on the Holoroyenahalla about 29 chains west from the north-west corner of Survey No. 1 of Gurpur, the line runs north-east for about 29 chains through Survey No. 9 to meet a small halla at a point about 18 chains north-east from the north-west corner of Survey No. 1, then east through Survey No. 9 for about 45 chains to meet its east side at a point about 27 chains north-east from the north-east corner of Survey No. 8, then south through Survey No. 9 for 42 chains to meet its south side at a point about 26 chains south-east from the south-east corner of Survey No. 8, then west along the south side of Survey No. 9 for about 40 chains to meet the aforesaid Holoroyenahalla and then along the said halla to the starting point.

(vi) Right to use the water of Holoroyenahalla in the Gurpur village is admitted for men and cattle.

(vii) Right to worship the Muneswara in Survey No. 4 of Arsikere is admitted. Access to it will be by means of foot-path branching from cart-track No. 7 *supra*.

No. Fl. 4866—S. R. 115-15-2, dated 22nd March 1916.

Tenders are hereby invited for the exclusive privilege of establishing Bonded Depôts at the localities specified in Appendix A and transporting thereto arrack and other country spirits from the Bangalore Government Central Distillery *under bond*, and thereat distributing it to the respective arrack shop-keepers attached to the said depôts during the next three years beginning with 1st July 1916 and ending with 30th June 1919.

2. The privilege for which tenders are now invited will be conceded subject to the conditions specified in Appendices S (i) and S (ii) (hereto annexed) of the rules published under Notification No. 11387—Ex. F. 3-1901, dated 8th January 1902, and which are hereby slightly modified and the Excise Laws and Rules now in force, or which may from time to time be passed by Government or by the Excise Commissioner in virtue of the powers delegated to him.

3. The quantity of arrack and other country spirits conveyed from the Government Central Distillery to each Bonded Depôt during the past three years is mentioned in Appendix A.

4. Tenderers must specify the lowest rate of remuneration per fifty gallons of spirits to be carried from the distillery at which they would take up the contract. They must specify one rate for the Bangalore City Depôt and another rate for the depôts in all the other places. The rates, thus tendered and accepted by Government, shall be the rates at which remuneration shall be calculated on the actual quantity carried in each case and be payable to the successful tenderer who shall be called, "Government Contractor for the carriage of spirits to Bonded Depôts," during the currency of the contract granted under this notification. The rates tendered will be deemed to include the carriage of ganja to the several Taluk Treasuries for which no separate remuneration will be given.

5. Each tender must be accompanied by a deposit of Rs. 100 for the Bangalore City Depôt and Rs. 500 for the mofussil depôts specified in Appendix A, and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of establishing Bonded Depôts, and carrying spirits thereto from the Bangalore Government Central Distillery and distributing the same to separate shops" and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on Monday the 10th April 1916 after which date no tender will be received. The tenders will be opened by the Excise Commissioner at his office at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest, subject to the approval of Government, with the Excise Commissioner who reserves to himself full power to reject any or all of the tenders without assigning any reason, and power to accept separate tenders for the Bangalore supply, and for supply in the rest of the State. The deposits made by the applicants whose tenders are rejected will be immediately returned to them by the Excise Commissioner.

6. The applicant whose tender may be accepted by the Excise Commissioner, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash or in Government Securities duly endorsed in favor of the Dewan of Mysore, for the time being, to make, with the deposits previously made, a sum of Rs. 1,000 for the Bangalore City Depôt, and Rs. 6,000 for the aforesaid mofussil depôts, and shall execute an agreement in the prescribed appended Form S (i) for the Bangalore City Depôt and S (ii) for the said mofussil depôts on proper stamps, binding himself to conform to the conditions therein set forth; and if he fails or refuses to sign the agreement, or to make the deposit required, the deposits already made will be forfeited to Government, and the contract otherwise disposed of.

7. No tender proposing any modification of any of the terms of this notification will be considered.

8. The contract shall not be transferable except with the previous sanction of the Excise Commissioner subject to the approval of Government.

9. The depôts shall be opened by the contractor in buildings approved by the Deputy Commissioner of the district concerned. Where Government buildings are made available for use as depôts, the contractor shall be bound to use them, paying such fair rent as may be charged by the Deputy Commissioner.

## APPENDIX S (i).

FORM OF CONTRACT BOND TO BE EXECUTED BY THE GOVERNMENT  
CONTRACTOR FOR CARRIAGE OF ARRACK AND OTHER COUNTRY  
SPIRITS TO THE BANGALORE CITY BONDED DEPOT.

WHEREAS I, \_\_\_\_\_, have been granted by the Government of His Highness the Maharaja of Mysore for the period of three years beginning with the 1st of July 1916, and ending with the 30th of June 1919, the right of conveying arrack and other country spirits from the Central Distillery *under bond* to the Depot in the City of Bangalore, in quantities sufficient to meet the demand of the separate shops dependent on such Depot, and whereas the said Government has agreed to pay me the remuneration hereinafter described, I the said \_\_\_\_\_, for myself, my heirs, legal representatives, and assigns, hereby agree and bind himself to all the terms and conditions hereinafter set forth :—

- (1) that I hold myself responsible to Government for the correct delivery of the requisite supplies of arrack at 30° under-proof to the separate shop-keepers in the said Bonded Depot at the City of Bangalore, on production of Treasury receipts in proof of prepayment of duty and price of such arrack;
- (2) that in special cases sanctioned by the Deputy Commissioner, I shall be bound to carry the requisite supply of arrack to any altered locality of the existing Depot provided the expense to me is not likely to be greater than supplying the present Depot;
- (3) that I shall be bound to carry the requisite supplies of Ganja to the Taluk Treasury for issue to licensed vendors of the drug;
- (4) that as remuneration for my contract, the Government shall pay me, at the end of each month, an amount calculated at the rate of \_\_\_\_\_ for every gallon of arrack conveyed by me from the Central Distillery to the Depot, and shall allow me no wastage under any circumstances whatsoever; nor shall any separate remuneration be claimed for the Ganja carried by me;
- (5) that the usual establishment required for such Depot and the house rent shall be paid for by myself; and that I shall be bound to get the previous approval of the Excise Commissioner to the terms of the *Mutchalika* to be executed as between myself and Depot Mutsaddis so that the interest of Government may not be prejudicially affected by the said *Mutchalikas*;
- (6) that the establishment at the Depot shall keep such accounts and be furnished with and use such seals for sealing the sample bottle and the bulk of liquor issued to shop-keeper as may be prescribed by the Excise Commissioner, and shall be under the control and orders of myself, and regard themselves as my servants;
- (7) that I shall conform to the Excise Laws and Rules now in force, and which may from time to time be issued by Government, and also to such rules of practice as may be prescribed by the Excise Commissioner;
- (8) that for the due fulfilment of the terms of this contract, I hereby deposit in the Bangalore District Treasury the sum of rupees one thousand in cash (or Government Securities duly enclosed in favour of the Dewan);
- (9) that I equally with the Depot-keeper shall be bound by the conditions of the Depot license, Appendix R of Arrack Rules;
- (10) that I shall be bound to dismiss or transfer any of my servants on the requisition of the Excise Commissioner or the Deputy Commissioner of the Bangalore District, whenever transfers of an individual mutsaddi from or to a place are deemed desirable or necessary in Government interests, and that I shall appoint qualified men in place of dismissed men without delay, that Depot Mutsaddis once dismissed for bad behaviour, etc., shall not be posted to other places without the previous sanction of the Excise Commissioner;
- (11) that I shall be bound to make good the loss accruing to Government and the separate shop-keepers by short stock or no stock in the said Depot, or by my neglect or carelessness in not conveying the necessary supplies of arrack to the Depot in due time;
- (12) that as the liability of the manufacturers ceases on delivery by them of arrack to me at the Distillery, and of the Distillery Officer on delivery of the ganja

consignments at the said place, all further liability or responsibility to account for the whole quantity of such arrack and ganja thenceforth, shall rest with me, and any diminution from any cause whatever, (Acts of God and the State's enemies and robbery by *vis major* excepted), shall be made good by me at the prescribed rate of duty and price per gallon of arrack of 30° under-proof, and proportionately for higher or lower strengths and per seer of 80 tolas of ganja, respectively;

- (13) that in case of any breach of the laws and rules or of the aforesaid conditions, or in case of any attempt at fraud by my servants, agents or employees, it shall be competent to the Excise Commissioner to impose upon them, or upon myself in the event of my neglect, a fine not exceeding Rs. 50 for every such breach or neglect, or, at the option of the Excise Commissioner to declare the money deposited by me forfeited; and to cancel the contract with previous sanction of Government;
- (14) that the imposition of a fine or the forfeiture of the deposit, or the cancelment of the contract, shall not be held to prevent prosecution for any offence committed under any law for the time being in force; and
- (15) that this contract shall not be transferable except with the consent of the Excise Commissioner subject to the approval of Government.

In witness whereof I, \_\_\_\_\_, hereunto set my  
hand and seal this day of \_\_\_\_\_ 191 .

No. Fl. 4867—S. R. 100-15-3, dated 22nd March 1916.

Tenders in the form hereunto appended are hereby invited for the exclusive privilege of the Manufacture of Arrack and other Country Spirits for the territories of Mysore, inclusive of the Civil and Military Station of Bangalore, for a period of three years from 1st July 1916 to 30th June 1919.

2. The contract for the Civil and Military Station of Bangalore is included in this Notification with the permission of the Hon'ble the Resident in Mysore.

3. The privilege for which tenders are now invited will be conceded subject to the conditions specified in para 8 of this Notification, and to the Excise Laws passed by the Government of Mysore, and to the Excise Law in force for the time being within the Civil and Military Station of Bangalore. It will not include the manufacture or sale of Toddy, or of "Foreign Spirits and Foreign Fermented Liquors," or of Country Beer.

4. The quantity of Arrack required is estimated at between 39,000 and 40,000 gallons a month, the quantity actually issued from the Bangalore Distillery in the year 1913-14 having been 578,729 gallons. No quantity is, however, guaranteed to the manufacturer, who is bound by actual requirements, be the same more or less than the estimated quantity.

5. Tenderers must specify the lowest rate per gallon of 30° U. P., separately for sugar-cane jaggory arrack, palmyra jaggory arrack, and for molasses arrack, as also per gallon of 20° U. P., of the marginally noted kinds of special liquors, at which they offer to supply

Brandy. Whisky. Gin. Rum. Milk Punch.	during the whole period of the contract. The price thus tendered for and approved by Government shall be the price at which arrack of 30° U. P. and special liquors of 20° U. P. will be supplied by the Manufacturer to Government for issue to separate shop-keepers during the currency of the contract granted under this Notification. The manufacturer shall, on the requisition of Government, manufacture and supply double distilled or rectified spirits and other special liquors of greater or less strength than 30° U. P. in bottles of 8½ drams (6 bottles to a gallon) or pints (12 bottles to a gallon), for issue to the persons licensed to vend the same at such rates of bottling as are approved of by the Excise Commissioner; but for single distilled spirits of greater or less strength than 30° U. P., the price chargeable will be according to such strength proportionately on the rate fixed for arrack 30° U. P.; in case of spirit which shall be of not less than 50° O. P. to which denaturants will be added in prescribed quantities, only such additional cost for the denaturants as are employed, will be allowed.
---	---

NOTE.—Sugar-cane jaggory arrack shall also be supplied in bottles, if required by the Excise Commissioner, who will fix the rates of bottling charges.

6. Each tender must be accompanied by a deposit of Rs. 5,000 in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of the Manufacture of Arrack," and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on the 10th April 1916, after which date no tender will be received. The tenders will be opened by the Excise Commissioner at the office in Bangalore at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest with the Government, who reserve to themselves full power to reject any or all of the tenders without assigning any reason. The deposits made by the applicants whose tenders are rejected, will be returned to them on their application.

7. The applicant whose tender may be finally accepted by the Government, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," to make up with the deposit previously made, the sum of Fifty Thousand Rupees, and shall execute an agreement, in the form presented on proper stamp, offering as additional security all his apparatus and stock and block in the Distillery, and binding himself to conform to the conditions hereinafter set forth, and if he fails or refuses to either make the deposit or sign the agreement required within such period, the deposit already made by him will be forfeited to Government, and the contract otherwise disposed of.

8. The contract for which tenders are now invited shall be subject to the following conditions, namely:—

- I. The contractor will be required to manufacture arrack and other country spirits within the enclosure of the Government Distillery near Bangalore, or at such other place as may be approved by the Government. For the use of the Distillery buildings near Bangalore and the arrangements existing in connection with the water-supply, the contractor shall pay rent to Government at

Rs. 757-8-0 *per mensem*. Such improvement or addition to the said buildings or water-supply as may be approved by the Government will be carried out at Government cost, subject to the payment by the contractor of such additional rent or rate as may be fixed by Government; and such repairs to the Distillery buildings and channels as may be pointed out by the Executive Engineer, shall also be promptly executed by the contractor, provided the annual cost of such repairs does not exceed 50 rupees.

- II. The contractor will be required to keep in store at the Central Distillery, ordinarily, a supply sufficient for a month's consumption (40,000 gallons at the present rate of consumption) and *never less* than 25,000 gallons of admissible spirits in terms of 30° under-proof.
- III. The contractor will be allowed to purchase arrack and other country spirits from any Sugar Factory which may be established in Mysore, and which may be authorized by Government to distill arrack and other country spirits. Should the contractor himself establish a Sugar Factory and distill arrack and other country spirits therein, with the permission of the Government, he will be bound to keep in stock at such factory such quantities of arrack and other country spirits, as may be fixed by Government.
- IV. The spirits manufactured shall be of good quality, and Hessarghatta filtered water or distilled water shall be invariably used at the Distillery under the supervision of the Senior Officer in charge of the Distillery for reducing strong spirits to the authorized strength. The articles used in distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special liquor after it has been manufactured. The spirits manufactured shall not be adulterated or diluted, save by addition of Hessarghatta filtered water or distilled water for the purpose of reducing strength to the authorized degree.
- V. In outlying tracts where, owing to small consumption or other causes, there is reason to suspect illicit distillation, Government will be at liberty to establish out-stills, after giving the contractor the first refusal of so doing.
- VI. (1) The contractor shall issue at the Government Distillery or other place where he may be allowed to manufacture the same to the Senior Government Officer in charge thereof, such quantity of arrack and other spirits as may be indented for by him for supply—
  - 1st. To such Bonded Depôts as Government may from time to time, establish and maintain. After the issues are made, the Distillery Officer shall issue a cheque on the Treasury Officer, Bangalore District, to the contractor and in his favor for the value of arrack and other spirits issued.
  - 2nd. To the Government Excise Depôt in the Civil and Military Station of Bangalore in compliance with indents received from the Superintendent of Excise, Civil and Military Station. Arrack supplied to the Civil and Military Station will not be paid for in advance but once a fortnight on receipt of bills from the contractor to be submitted to the Collector, Civil and Military Station, through the said Superintendent of Excise.
  - 3rd. To such other places and persons as may be directed by the Excise Commissioner.
- (2) The contractor shall have no interest in the retail vend of Arrack. Nor shall he employ as agent or in any other capacity in the Distillery any person having such interest.
- (3) The contractor shall sell double distilled and other special liquors manufactured by him to the licensees for the vend of special liquors. He shall also sell the same to Bonded Depôts and to Hospitals and other public institutions, on the Excise Commissioner's requisition. These shall be issued in uniform sized bottles (6 qts. or 12 pints to a gallon) and at such rates of bottling charges as may be fixed from time to time by the Excise Commissioner.

No spirit shall be allowed to be removed from the Government Distillery, or other authorized place of manufacture, except for issue to Bonded Depôts, unless the purchaser produces a Treasury receipt for the amount of duty paid therefor.

NOTE. 1—This condition does not apply to removal of arrack for the supply of the Government Excise Depot in the Civil and Military Station, for which no Treasury receipt will be required.

NOTE 2.—Should the contractor be permitted with the approval of Government at any time during the tenure of his contract to supply country spirits manufactured in the Central

Distillery, to Coorg, or any other place outside the limits of Mysore State, such proportionate cost towards the Distillery Establishment as may be fixed by the Excise Commissioner, shall be paid for by the manufacturer.

VII. The contractor shall be bound to conform to the provisions of the Excise Laws for the time being in force in the Territories of Mysore and in the Civil and Military Station of Bangalore; and he shall see that all his employees give full effect to them.

VIII. The outgoing contractor shall give and the in-coming contractor shall take over, any arrack or other country spirits and special liquors not exceeding a month's supply which may remain as stock in hand on the last day of the expiring contract, the latter paying the former for the same such value as may be fixed by the Excise Commissioner.

IX. Should the in-coming contractor or the Excise Commissioner so require by at least one week's previous notice in writing, the out-going contractor shall cease preparing "Wash" during the last month of the expiring contract, and vacate the buildings so as to admit of the in-coming contractor commencing operations. Should no such notice be given, the out-going contractor may continue distilling till the end of his contract, after which further distillation by him must cease. The in-coming contractor shall issue arrack and other country spirits and other special liquors from the Distillery to Bonded Depôts, if so required by the Excise Commissioner in sufficient time (not exceeding two weeks prior to the commencement of his contract) to have his supply ready in all Bonded Depôts for issue from the 1st July of the first year of his contract.

X. The out-going contractor shall sell, and the in-coming contractor shall buy, all apparatus and stock and block belonging to the former at the Government Distillery near Bangalore, or other authorised place of distillation for a fair and equitable price to be fixed by the Excise Commissioner, calculating the original cost and deducting therefrom such portion of it on account of depreciation as may be considered reasonable. The present valuation comes to Rs. 89,140-10-4 as per list attached.

XI. Improvements of a permanent nature shall be retained and shall not be disturbed except with the approval of the Executive Engineer.

XII. In case of a breach of any of the above conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the contractor and all his apparatus and stock and block, forfeited, and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.

XIII. The contract shall not be transferable except with the consent of the Government of His Highness the Maharaja of Mysore.

9. The following items of information are appended :—

NOTE 1.—Table showing the annual quantity of arrack issued from the Distillery since 1910-11 up to 1914-15 :—

	1910-11 Gallons	1911-12 Gallons	1912-13 Gallons	1913-14 Gallons	1914-15 Gallons
Mysore	388,505	394,236	444,515	483,830	395,242
Civil and Military Station, Bangalore.	85,499	84,360	89,353	94,897	68,360
Total	474,004	478,596	533,868	578,727	463,602

NOTE 2.—The still-head duty payable to Government for arrack of 30° under-proof by shop-keepers is Rs. 5-4-0 per gallon, and the retail price thereof payable to the latter by the consuming public is Rs. 7-7-0 per gallon or two annas four pies per dram, which is equal to  $\frac{1}{5}$  part of a gallon. The rates of still-head duty and retail price of single-distilled spirits of greater or less strength than 30° under-proof, will be calculated proportionately upon the rates for 30° under-proof. Government reserve to themselves the power of altering the rates of duty and price, it being distinctly understood that the manufacturing contractor shall not be entitled to claim any compensation for loss on account of such alteration. When any liquor other than ordinary arrack manufactured in pursuance of this privilege or any liquor falling within the definition of foreign liquor is supplied by the contractor for sale within the Civil and Military Station, the duty chargeable thereon shall be assessed at the rates leviable for similar liquor of similar strength under the tariff rates in force in that area.

NOTE 3.—For double distilled or rectified spirits of all strengths the rates of still head duty will be calculated proportionately upon the rate for 30° under-proof. The price that would be chargeable on these spirits as well as for other special liquors manufactured at the Government Central Distillery, Bangalore, or other place approved by Government, both by the manufacturer and the licensed vendor will be that approved by the Excise Commissioner.

NOTE 4.—The present contractors are reported to have, up to the end of January 1916, incurred an expenditure of Rs. 89,140-10-4, on account of plant put up.

APPENDIX.

No. R. 9048—Ft. 43-14-14, dated 22nd March 1916.

The Government of His Highness the Maharaja of Mysore are pleased to direct that the following be substituted for Rule 9 of the rules issued with Government Order No. R. 10775-6—Ft. 81-08-5, dated 21st June 1909, for the conduct of prospecting and mining operations in State Forests and the District Forests.

Rule 9. The licensee or lessee shall :—

(a) pay a lump sum compensation for damage and disfigurement of the surface on all areas operated upon or cleared, at the following rates :—

- |  |   |  |
|--|---|--|
| (1) In State Forests, reserved lands or in District Forests which have been specially brought within the scope of these rules. | } | (i) Rs. 100 per acre for high and pole forests.<br>(ii) Other forests including scrub Rs. 50 per acre. |
|--|---|--|

(2) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates.

(3) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile.

(b) undertake not to cut sandalwood except with the permission of the Forest Department and on payment of an extra charge to be fixed by Conservator, and

(c) make over to the Forest Department all the trees felled in the area operated upon.

N.B.—The decision of the Conservator of Forests as to whether any particular forest is high, pole or scrub shall be final.

No. R. 9102—L. R. 46-15-9, dated 23rd March 1916.

Under Section 11 of the Land Revenue Code, 1888, Mr. T. Narasinga Rao, Deputy Amildar, attached to the Hiriya Taluk, for special duty in connection with the Block System of Irrigation under the Marikanave Reservoir, is invested with the powers of an Amildar in respect of the following matters within the local limits of the Marikanave Channels Hobli and he will continue to exercise them so long as he remains on special duty.

1. Entertainment and disposal of darkhasts, vargavargis, rajinamas, etc., of the forty-one villages of the Marikanave Channel Hobli.

2. Maintenance of all the usual registers of darkhasts, vargavargis, rajinamas, etc., and of all account matters in his office.

3. Maintaining separately such accounts as may be necessary for the purpose of showing the extent of channel lands under holding, extent available for cultivation, demand, collection and balance of land revenue assessment and water-rate separately for channel lands.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that

he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

No. G. 13793—G. M. 442-15-4, dated 4th April 1916.

His Highness the Maharaja desires to place on record his high appreciation of the services rendered by Rajamantrapravina Mr. H. V. Nanjundayya, M.A., M.L., C.I.E., who retires from the State service after the expiry of three months' privilege leave granted to him as a special case from 1st April 1916.

Mr. Nanjundayya entered the Judicial service of the State as a Munsiff in 1885 and was soon after appointed an Assistant Commissioner. After serving with credit in various capacities in the Revenue and Judicial Departments, he became a Judge of the Chief Court in 1904. In 1907, he was appointed to officiate as Chief Judge and in 1909, His Highness the Maharaja was pleased to appoint him a Member of His Highness' Council.

During a long and distinguished career of 31 years, Mr. Nanjundayya's service was marked by high integrity, patriotism and independence of judgment, and his ripe and varied experience was of great value to the administration. In appreciation of his services, His Highness the Maharaja was pleased to confer on him the distinction of *Rajamantrapravina* in the Dasara Durbar of 1913 and, in January 1914, he received the decoration of Companion of the Indian Empire from the Imperial Government. Mr. Nanjundayya carries with him the best wishes of His Highness the Maharaja and his hope that he may be able to render yet further useful service to his country in his retirement.

No. G. 292—G. M. 51-11-1, dated 13th July 1914.

It is hereby notified for general information that applications for appointments in the State Service should be drawn up on printed copies of the form appended below. Applications not complying with this requirement are liable to be overlooked.

No. FL 4866—S. R. 115-15-2, dated 22nd March 1916.

Tenders are hereby invited for the exclusive privilege of establishing Bonded Dépôts at the localities specified in Appendix A and transporting thereto arrack and other country spirits from the Bangalore Government Central Distillery *under bond*, and thereat distributing it to the respective arrack shop-keepers attached to the said depôts during the next three years beginning with 1st July 1916 and ending with 30th June 1919.

2. The privilege for which tenders are now invited will be conceded subject to the conditions specified in Appendices S (i) and S (ii) (hereto annexed) of the rules published under Notification No. 11387—Ex. F. 3-1901, dated 8th January 1902, and which are hereby slightly modified and the Excise Laws and Rules now in force, or which may from time to time be passed by Government or by the Excise Commissioner in virtue of the powers delegated to him.

3. The quantity of arrack and other country spirits conveyed from the Government Central Distillery to each Bonded Dépôt during the past three years is mentioned in Appendix A.

4. Tenderers must specify the lowest rate of remuneration per fifty gallons of spirits to be carried from the distillery at which they would take up the contract. They must specify one rate for the Bangalore City Dépôt and another rate for the depôts in all the other places. The rates, thus tendered and accepted by Government, shall be the rates at which remuneration shall be calculated on the actual quantity carried in each case and be payable to the successful tenderer who shall be called, "Government Contractor for the carriage of spirits to Bonded Dépôts," during the currency of the contract granted under this notification. The rates tendered will be deemed to include the carriage of ganja to the several Taluk Treasuries for which no separate remuneration will be given.

5. Each tender must be accompanied by a deposit of Rs. 100 for the Bangalore City Dépôt and Rs. 500 for the mofussil depôts specified in Appendix A, and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of establishing Bonded Dépôts, and carrying spirits thereto from the Bangalore Government Central Distillery and distributing the same to separate shops" and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on Monday the 10th April 1916 after which date no tender will be received. The tenders will be opened by the Excise Commissioner at his office at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest, subject to the approval of Government, with the Excise Commissioner who reserves to himself full power to reject any or all of the tenders without assigning any reason, and power to accept separate tenders for the Bangalore supply, and for supply in the rest of the State. The deposits made by the applicants whose tenders are rejected will be immediately returned to them by the Excise Commissioner.

6. The applicant whose tender may be accepted by the Excise Commissioner, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash or in Government Securities duly endorsed in favor of the Dewan of Mysore, for the time being, to make, with the deposits previously made, a sum of Rs. 1,000 for the Bangalore City Dépôt, and Rs. 6,000 for the aforesaid mofussil depôts, and shall execute an agreement in the prescribed appended Form S (i) for the Bangalore City Dépôt and S (ii) for the said mofussil depôts on proper stamps, binding himself to conform to the conditions therein set forth; and if he fails or refuses to sign the agreement, or to make the deposit required, the deposits already made will be forfeited to Government, and the contract otherwise disposed of.

7. No tender proposing any modification of any of the terms of this notification will be considered.

8. The contract shall not be transferable except with the previous sanction of the Excise Commissioner subject to the approval of Government.

9. The depôts shall be opened by the contractor in buildings approved by the Deputy Commissioner of the district concerned. Where Government buildings are made available for use as depôts, the contractor shall be bound to use them, paying such fair rent as may be charged by the Deputy Commissioner.

## APPENDIX S (i).

FORM OF CONTRACT BOND TO BE EXECUTED BY THE GOVERNMENT  
CONTRACTOR FOR CARRIAGE OF ARRACK AND OTHER COUNTRY  
SPIRITS TO THE BANGALORE CITY BONDED DEPOT.

WHEREAS I, \_\_\_\_\_, have been granted by the Government of His Highness the Maharaja of Mysore for the period of three years beginning with the 1st of July 1916, and ending with the 30th of June 1919, the right of conveying arrack and other country spirits from the Central Distillery *under bond* to the Depôt in the City of Bangalore, in quantities sufficient to meet the demand of the separate shops dependent on such Depôt, and whereas the said Government has agreed to pay me the remuneration hereinafter described, I the said \_\_\_\_\_, for myself, my heirs, legal representatives, and assigns, hereby agree and bind himself to all the terms and conditions hereinafter set forth :—

- (1) that I hold myself responsible to Government for the correct delivery of the requisite supplies of arrack at 30° under-proof to the separate shop-keepers in the said Bonded Depôt at the City of Bangalore, on production of Treasury receipts in proof of prepayment of duty and price of such arrack;
- (2) that in special cases sanctioned by the Deputy Commissioner, I shall be bound to carry the requisite supply of arrack to any altered locality of the existing Depôt provided the expense to me is not likely to be greater than supplying the present Depôt;
- (3) that I shall be bound to carry the requisite supplies of Ganja to the Taluk Treasury for issue to licensed vendors of the drug;
- (4) that as remuneration for my contract, the Government shall pay me, at the end of each month, an amount calculated at the rate of \_\_\_\_\_ for every gallon of arrack conveyed by me from the Central Distillery to the Depôt, and shall allow me no wastage under any circumstances whatsoever; nor shall any separate remuneration be claimed for the Ganja carried by me;
- (5) that the usual establishment required for such Depôt and the house rent shall be paid for by myself; and that I shall be bound to get the previous approval of the Excise Commissioner to the terms of the *Mutchalika* to be executed as between myself and Depôt Mutsaddis so that the interest of Government may not be prejudicially affected by the said *Mutchalikas*;
- (6) that the establishment at the Depôt shall keep such accounts and be furnished with and use such seals for sealing the sample bottle and the bulk of liquor issued to shop-keeper as may be prescribed by the Excise Commissioner, and shall be under the control and orders of myself, and regard themselves as my servants;
- (7) that I shall conform to the Excise Laws and Rules now in force, and which may from time to time be issued by Government, and also to such rules of practice as may be prescribed by the Excise Commissioner;
- (8) that for the due fulfilment of the terms of this contract, I hereby deposit in the Bangalore District Treasury the sum of rupees one thousand in cash (or Government Securities duly enclosed in favour of the Dewan);
- (9) that I equally with the Depôt-keeper shall be bound by the conditions of the Depôt license, Appendix R of Arrack Rules;
- (10) that I shall be bound to dismiss or transfer any of my servants on the requisition of the Excise Commissioner or the Deputy Commissioner of the Bangalore District, whenever transfers of an individual mutsaddi from or to a place are deemed desirable or necessary in Government interests, and that I shall appoint qualified men in place of dismissed men without delay, that Depôt Mutsaddis once dismissed for bad behaviour, etc., shall not be posted to other places without the previous sanction of the Excise Commissioner;
- (11) that I shall be bound to make good the loss accruing to Government and the separate shop-keepers by short stock or no stock in the said Depôt, or by my neglect or carelessness in not conveying the necessary supplies of arrack to the Depôt in due time;
- (12) that as the liability of the manufacturers ceases on delivery by them of arrack to me at the Distillery, and of the Distillery Officer on delivery of the ganja

consignments at the said place, all further liability or responsibility to account for the whole quantity of such arrack and ganja thenceforth, shall rest with me, and any diminution from any cause whatever, (Acts of God and the State's enemies and robbery, by *vis major* excepted), shall be made good by me at the prescribed rate of duty and price per gallon of arrack of 30° under-proof, and proportionately for higher or lower strengths and per seer of 80 tolas of ganja, respectively;

- (13) that in case of any breach of the laws and rules or of the aforesaid conditions, or in case of any attempt at fraud by my servants, agents or employees, it shall be competent to the Excise Commissioner to impose upon them, or upon myself in the event of my neglect, a fine not exceeding Rs. 50 for every such breach or neglect, or, at the option of the Excise Commissioner to declare the money deposited by me forfeited; and to cancel the contract with previous sanction of Government;
- (14) that the imposition of a fine or the forfeiture of the deposit, or the cancelment of the contract, shall not be held to prevent prosecution for any offence committed under any law for the time being in force; and
- (15) that this contract shall not be transferable except with the consent of the Excise Commissioner subject to the approval of Government.

No. Fl. 4867—S. R. 100-15-3, dated 22nd March 1916.

Tenders in the form hereunto appended are hereby invited for the exclusive privilege of the Manufacture of Arrack and other Country Spirits for the territories of Mysore, inclusive of the Civil and Military Station of Bangalore, for a period of three years from 1st July 1916 to 30th June 1919.

2. The contract for the Civil and Military Station of Bangalore is included in this Notification with the permission of the Hon'ble the Resident in Mysore.

3. The privilege for which tenders are now invited will be conceded subject to the conditions specified in para 8 of this Notification, and to the Excise Laws passed by the Government of Mysore, and to the Excise Law in force for the time being within the Civil and Military Station of Bangalore. It will not include the manufacture or sale of Toddy, or of "Foreign Spirits and Foreign Fermented Liquors," or of Country Beer.

4. The quantity of Arrack required is estimated at between 39,000 and 40,000 gallons a month, the quantity actually issued from the Bangalore Distillery in the year 1913-14 having been 578,729 gallons. No quantity is, however, guaranteed to the manufacturer, who is bound by actual requirements, be the same more or less than the estimated quantity.

5. Tenderers must specify the lowest rate per gallon of 30° U. P., separately for sugar-cane jaggory arrack, palmyra jaggory arrack, and for molasses arrack, as also per gallon of 20° U. P., of the marginally noted kinds of special liquors, at which they offer to supply during the whole period of the contract. The price thus tendered for and approved by Government shall be the price at which arrack of 30° U. P. and special liquors of 20° U. P. will be supplied by the Manufacturer to Government for issue to separate shop-keepers during the currency of the contract granted under this Notification. The manufacturer shall, on the requisition of Government, manufacture and supply double distilled or rectified spirits and other special liquors of greater or less strength than 30° U. P. in bottles of 8½ drams (6 bottles to a gallon) or pints (12 bottles to a gallon), for issue to the persons licensed to vend the same at such rates of bottling as are approved of by the Excise Commissioner; but for single distilled spirits of greater or less strength than 30° U. P., the price chargeable will be according to such strength proportionately on the rate fixed for arrack 30° U. P.; in case of spirit which shall be of not less than 50° O. P. to which denaturants will be added in prescribed quantities, only such additional cost for the denaturants as are employed, will be allowed.

NOTE.—Sugar-cane jaggory arrack shall also be supplied in bottles, if required by the Excise Commissioner, who will fix the rates of bottling charges.

6. Each tender must be accompanied by a deposit of Rs. 5,000 in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," and enclosed in a cover superscribed with the words "Tender for the exclusive privilege of the Manufacture of Arrack," and must be sent to the Excise Commissioner at Bangalore so as to reach him before noon on the 10th April, 1916, after which date no tender will be received. The tenders will be opened by the Excise Commissioner at the office in Bangalore at 12 o'clock noon on the 10th April 1916, in the presence of such of the applicants as may be present. The final disposal of the tenders will rest with the Government, who reserve to themselves full power to reject any or all of the tenders without assigning any reason. The deposits made by the applicants whose tenders are rejected, will be returned to them on their application.

7. The applicant whose tender may be finally accepted by the Government, shall, within eight days of the acceptance of his tender being communicated to him, deposit at the District Treasury, Bangalore, a further sum in cash, or in Government securities, duly endorsed in favor of "The Dewan of Mysore," to make up with the deposit previously made, the sum of Fifty Thousand Rupees, and shall execute an agreement, in the form presented on proper stamp, offering as additional security all his apparatus and stock and block in the Distillery, and binding himself to conform to the conditions hereinafter set forth, and if he fails or refuses to either make the deposit or sign the agreement required within such period, the deposit already made by him will be forfeited to Government, and the contract otherwise disposed of.

8. The contract for which tenders are now invited shall be subject to the following conditions, namely:—

I. The contractor will be required to manufacture arrack and other country spirits within the enclosure of the Government Distillery near Bangalore, or at such other place as may be approved by the Government. For the use of the Distillery buildings near Bangalore and the arrangements existing in connection with the water-supply, the contractor shall pay rent to Government at

Rs. 757-8-0 *per mensem*. Such improvement or addition to the said buildings or water-supply as may be approved by the Government will be carried out at Government cost, subject to the payment by the contractor of such additional rent or rate as may be fixed by Government; and such repairs to the Distillery buildings and channels as may be pointed out by the Executive Engineer, shall also be promptly executed by the contractor, provided the annual cost of such repairs does not exceed 50 rupees.

II. The contractor will be required to keep in store at the Central Distillery, ordinarily, a supply sufficient for a month's consumption (40,000 gallons at the present rate of consumption) and *never less* than 25,000 gallons of admissible spirits in terms of 30° under-proof.

III. The contractor will be allowed to purchase arrack and other country spirits from any Sugar Factory which may be established in Mysore, and which may be authorized by Government to distill arrack and other country spirits. Should the contractor himself establish a Sugar Factory and distill arrack and other country spirits therein, with the permission of the Government, he will be bound to keep in stock at such factory such quantities of arrack and other country spirits, as may be fixed by Government.

IV. The spirits manufactured shall be of good quality, and Hessarghatta filtered water or distilled water shall be invariably used at the Distillery under the supervision of the Senior Officer in charge of the Distillery for reducing strong spirits to the authorized strength. The articles used in distilling shall be approved by the said officer. No ingredients obnoxious to health shall be used in distilling or put into the arrack or other country spirit or special liquor after it has been manufactured. The spirits manufactured shall not be adulterated or diluted, save by addition of Hessarghatta filtered water or distilled water for the purpose of reducing strength to the authorized degree.

V. In outlying tracts where, owing to small consumption or other causes, there is reason to suspect illicit distillation, Government will be at liberty to establish out-stills, after giving the contractor the first refusal of so doing.

VI. (1) The contractor shall issue at the Government Distillery or other place where he may be allowed to manufacture the same to the Senior Government Officer in charge thereof, such quantity of arrack and other spirits as may be indented for by him for supply—

1st. To such Bonded Depôts as Government may from time to time, establish and maintain. After the issues are made, the Distillery Officer shall issue a cheque on the Treasury Officer, Bangalore District, to the contractor and in his favor for the value of arrack and other spirits issued.

2nd. To the Government Excise Depôt in the Civil and Military Station of Bangalore in compliance with indents received from the Superintendent of Excise, Civil and Military Station. Arrack supplied to the Civil and Military Station will not be paid for in advance but once a fortnight on receipt of bills from the contractor to be submitted to the Collector, Civil and Military Station, through the said Superintendent of Excise.

3rd. To such other places and persons as may be directed by the Excise Commissioner.

(2) The contractor shall have no interest in the retail vend of Arrack. Nor shall he employ as agent or in any other capacity in the Distillery any person having such interest.

(3) The contractor shall sell double distilled and other special liquors manufactured by him to the licensees for the vend of special liquors. He shall also sell the same to Bonded Depôts and to Hospitals and other public institutions, on the Excise Commissioner's requisition. These shall be issued in uniform sized bottles (6 qts. or 12 pints to a gallon) and at such rates of bottling charges as may be fixed from time to time by the Excise Commissioner.

No spirit shall be allowed to be removed from the Government Distillery, or other authorized place of manufacture, except for issue to Bonded Depôts, unless the purchaser produces a Treasury receipt for the amount of duty paid therefor.

NOTE. 1—This condition does not apply to removal of arrack for the supply of the Government Excise Depot in the Civil and Military Station, for which no Treasury receipt will be required.

NOTE 2.—Should the contractor be permitted with the approval of Government at any time during the tenure of his contract to supply country spirits manufactured in the Central

Distillery to Coorg, or any other place outside the limits of Mysore State, such proportionate cost towards the Distillery Establishment as may be fixed by the Excise Commissioner shall be paid for by the manufacturer.

- VII. The contractor shall be bound to conform to the provisions of the Excise Laws for the time being in force in the Territories of Mysore and in the Civil and Military Station of Bangalore; and he shall see that all his employees give full effect to them.
- VIII. The outgoing contractor shall give and the in-coming contractor shall take over, any arrack or other country spirits and special liquors not exceeding a month's supply which may remain as stock in hand on the last day of the expiring contract, the latter paying the former for the same such value as may be fixed by the Excise Commissioner.
- IX. Should the in-coming contractor or the Excise Commissioner so require by at least one week's previous notice in writing, the out-going contractor shall cease preparing "Wash" during the last month of the expiring contract, and vacate the buildings so as to admit of the in-coming contractor commencing operations. Should no such notice be given, the out-going contractor may continue distilling till the end of his contract, after which further distillation by him must cease. The in-coming contractor shall issue arrack and other country spirits and other special liquors from the Distillery to Bonded Depôts, if so required by the Excise Commissioner in sufficient time (not exceeding two weeks prior to the commencement of his contract) to have his supply ready in all Bonded Depôts for issue from the 1st July of the first year of his contract.
- X. The out-going contractor shall sell, and the in-coming contractor shall buy, all apparatus and stock and block belonging to the former at the Government Distillery near Bangalore, or other authorised place of distillation for a fair and equitable price to be fixed by the Excise Commissioner, calculating the original cost and deducting therefrom such portion of it on account of depreciation as may be considered reasonable. The present valuation comes to Rs. 89,140-10-4 as per list attached.
- XI. Improvements of a permanent nature shall be retained and shall not be disturbed except with the approval of the Executive Engineer.
- XII. In case of a breach of any of the above conditions, Government will be at liberty to cancel the contract and to declare the deposit made by the contractor, and all his apparatus and stock and block, forfeited, and also to recover from the defaulting contractor such further loss as may be occasioned by such breach.
- XIII. The contract shall not be transferable except with the consent of the Government of His Highness the Maharaja of Mysore.

9. The following items of information are appended :—

NOTE 1.—Table showing the annnal quantity of arrack issued from the Distillery since 1910-11 up to 1914-15 :—

	1910-11 Gallons	1911-12 Gallons	1912-13 Gallons	1913-14 Gallons	1914-15 Gallons

Total . . . . .	474,004	478,596	533,868	578,727	463,602

NOTE 2.—The still-head duty payable to Government for arrack of 30° under-proof by shop-keepers is Rs. 5-4-0 per gallon, and the retail price thereof payable to the latter by the consuming public is Rs. 7-7-0 per gallon or two annas four pies per dram, which is equal to  $\frac{1}{5}$ th part of a gallon. The rates of still-head duty and retail price of single-distilled spirits of greater or less strength than 30° under-proof, will be calculated proportionately upon the rates for 30° under-proof. Government reserve to themselves the power of altering the rates of duty and price, it being distinctly understood that the manufacturing contractor shall not be entitled to claim any compensation for loss on account of such alteration. When any liquor other than ordinary arrack manufactured in pursuance of this privilege or any liquor falling within the definition of foreign liquor is supplied by the contractor for sale within the Civil and Military Station, the duty chargeable thereon shall be assessed at the rates leviable for similar liquor of similar strength under the tariff rates in force in that area.

NOTE 3.—For double distilled or rectified spirits of all strengths the rates of still head duty will be calculated proportionately upon the rate for 30° under-proof. The price that would be chargeable on these spirits as well as for other special liquors manufactured at the Government Central Distillery, Bangalore, or other place approved by Government, both by the manufacturer and the licensed vendor will be that approved by the Excise Commissioner.

NOTE 4.—The present contractors are reported to have, up to the end of January 1916, incurred an expenditure of Rs. 89,140-10-4, on account of plant put up.

## FINANCIAL.

No. FL. 1118—*G. F. 28-14-2, dated 7th September 1914.*

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that

he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

*Financial Secretary.*

## DEPARTMENT OF COMMERCE AND INDUSTRY.

## NOTIFICATION.

(CUSTOMS.)

The 16th March 1916.

"No. 2121-W.—The following Order in Council is published for general information:—

AT THE COUNCIL CHAMBER, WHITEHALL.

The 12th day of February 1916.

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 28th day of July 1915, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 28th day of July 1915, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the same:—

- (1) That the exportation of the following goods should be prohibited to all destinations:—

Carbon electrodes for electric furnaces,  
Petroleum coke.

*No. G. 14125—G. M.—479-15-2, dated 10th April 1916.*

The following copy of an India Army Order regarding the enlistment into the British Army, for the duration of the War, of men of the domiciled Anglo-Indian Community, is hereby republished for general information :—

#### INDIA ARMY ORDER.

*Recruiting—British Army—Enlistments in the Regular Army.*—It has been decided that enlistment into the regular British Army will be opened in India to suitable members of the domiciled Anglo-Indian Community who are anxious to serve their country during the continuance of the present war.

Sanctioned in Army Department letter No. H. 1935, dated the 15th March 1916.

Enlistments will be—

- (1) For General service (with British troops).
- (2) For the duration of the war. At the conclusion of the war men will be discharged with all convenient speed.
- (3) After six months' training, if their services are not required in an active capacity, non-commissioned officers and men will be liable to be transferred to the Army Reserve, with further liability to recall to the colours at any time while the war continues should their services be required.
- (4) Age 18 to 35 years.
- (5) Standards of height, weight and chest measurement as laid down in Recruiting Regulations, Appendix II.
- (6) The European parentage qualification, as defined in Army Regulations, India, Volume II, Definitions, as required for enlistment in British units, is waived. The recommendation on the subjoined form of an Officer Commanding, a Volunteer Unit or of the

accredited local representative of the Anglo-Indian Empire League or Anglo-Indian Association as to the man's general suitability will be accepted in lieu.

(7) Candidates in Government or Railway employment will only be accepted if they have permission to enlist from their official superiors. They will be entitled to the concessions admissible under India Army Order No. 62, dated 31st January 1916.

(8) The pay, allowances, privileges, pensions and concessions of officers, non-commissioned officers and men will be identical with those of British troops serving in India, with the colours or reserve as the case may be, according to the arm in which they are serving.

(9) Officers will receive an outfit allowance of Rs. 600.

(10) General Officers Commanding Divisions and Areas concerned will, after consultation with the representatives of the Anglo-Indian Empire League and Associations, and Officers Commanding Volunteer Units, submit their recommendations to the Military Secretary to His Excellency the Commander-in-Chief of gentlemen recommended for commissions. Preference will be given to those with volunteer experience.

(11) Non-commissioned officers will be selected by the officer commanding the unit to which attached, according to their capabilities.

(12) Dress.

I.—Officers:—

(a) *Khaki uniform*.—Of the pattern worn in the arm of the service to which attached, i.e., British Cavalry, Royal Field Artillery or British Infantry of the Line (other than Highland, Scottish or Rifle Regiments). Instead of the badges and devices or shoulder titles peculiar to the corps to which attached the letters A. I. F.\* will be worn, on the shoulder straps below, and of the same material as the badges of rank. All buttons will be plain full dome.

(b) *Mess dress*.—Evening dress (short jacket) will be worn in lieu of the prescribed mess dress. The provision of summer mess dress is optional.

In the event of summer mess dress being provided, it will be of the following description for all branches:—

*Mess jacket*.—White drill without braid or buttons; roll collar; shoulder straps of the same material with a small button at top (plain full dome) one inside breast pocket. Sleeves cut plain, with pointed cuffs 5 inches high at point and 2½ inches behind. Badges of rank—metal.

*Trousers*.—White drill, with black leather foot-straps.

*Kamarband*.—Red silk.

*Boots*.—Wellington-mounted officers, box spurs.

II.—Rank and file:—

As laid down in Army Department letter No. H. S.-594, dated 17th March 1915, for the arm of the service to which attached, i.e., Cavalry, Royal Field Artillery or Infantry ("other infantry").

Instead of the badges and devices or shoulder titles peculiar to the corps to which attached, the letters A. I. F. will be worn on shoulder straps. Buttons will be of universal pattern.

(13) In the first instance it is the intention to raise the following units:—

2 field troops—cavalry—each 1 Second Lieutenant and 30 non-commissioned officers and men.

1 section-field artillery—1 Second Lieutenant and 70 non-commissioned officers and men.

16 platoons—Infantry—each 1 Second Lieutenant and 60 non-commissioned officers and men.

(14) The cavalry and field artillery will be recruited throughout India. The infantry will be raised, as far as possible, on a territorial basis, as follows:—

4 Platoons from Bengal, Orissa, Bihar and Assam.

2 " " " Burma.

4 Platoons from Madras (including Mysore and Hyderabad).

2 „ „ Bombay, Scinde, and Baluchistan.

2 „ „ United Provinces.

1 „ „ platoon from Punjab, North-West Frontier Province and Kashmir.

1 „ „ Central Provinces, Central India, and Rajputana.

(15) These units will be attached for training as follows :—

Field troops to a British Cavalry Regiment.

Field artillery section—to a battery of Regular Royal Field Artillery.

Infantry platoons to regular battalions of British infantry serving in India.

(16) After completion of training, any of the above units, or any portion of them will be liable to be sent to any British unit of the same arm, regular or territorial, serving in India or on active service.

(17) Attestations will be carried out on Army Form B-2505 (modified) the notice paper being Army Form B-2505A (modified).

Instructions with regard to the modification of these forms will be issued separately.

(18) A candidate in possession of the recommendation referred to in paragraph 6 may present himself at the headquarters of any military station, or to the civil surgeon at a civil station, for preliminary medical examination. If passed fit he will be entitled to a refund of his travelling expenses (at 2nd class fare) on presenting himself at the nearest military centre at which enlistments are carried out, and return fare to his home in the event of rejection.

(19) The final enlistment of recruits will be carried out under the orders of General Officers Commanding Divisions and Areas; at the following centres :—

Peshawar.	Meerut.
Rawalpindi.	*Mussoorie.
*Murree.	Lucknow.
Lahore.	*Darjeeling.
*Jutogh.	Allahabad.
Quetta.	Calcutta.
Karachi.	Secunderabad.
Mhow.	Wellington.
Jhansi.	Bangalore.
Jubbulpore.	Madras.
Poona.	Rangoon.
Bombay.	Mandalay.

\* Note.—During summer months only.

(20) Recruits will be enlisted for general service, appointed to a corps of which a unit is serving in India, and posted to a unit of that corps serving in India.

(21) Recruits will be attested by the Officer Commanding a regular British Unit, the Officer Commanding a military station, a magistrate or justice of the peace.

(22) The final approval of recruits will be carried out by the Officer Commanding a regular unit, or the Officer Commanding a military station.

(23) Married men, or widowers with children, will not ordinarily be eligible for enlistment, but, in special cases, applications for the enlistment of the above will be considered on their merits.

(24) Applications for authority for special enlistment, on Army Form B-203, will be submitted to the Adjutant General, India.

(25) Men enlisted as above will be entitled to free conveyance by sea, rail or river to their homes in India on transfer to the Army Reserve or final discharge.

## FINANCIAL.

*No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.*

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912:

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

*Financial Secretary.*

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

## RAILWAYS.

*No. 2785-6 dated 13th April 1916.*

Whereas the Railway Board with the Government of India have accorded sanction to a reconnaissance survey being carried out with the object of framing a scheme of railway extension for

(i) the provision of railway communication between a port on the West Coast of India and the hinterland, including Coorg and the adjacent parts of Mysore and the British territory, and

(ii) the opening out of the District of Coorg,

it is hereby notified under the provisions of Section 4 of the Mysore Land Acquisition Regulation, No. VII of 1894, that lands in Mysore territory through which the line will have to pass are likely to be needed for a public purpose, *viz.*, the construction of the said railway: and that the Government of His Highness the Maharaja of Mysore are therefore pleased to authorize the Engineer-in-Chief, Mysore and West Coast Railway Surveys and his Assistants, etc., to enter upon lands in the Mysore territory and make the necessary surveys.

By Order,

K. KRISHNIENGAR,

*Officiating Secretary for Railways,*

*Government of Mysore.*

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

*Financial Secretary.**Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

Financial Secretary.

## EDUCATION AND AGRICULTURE.

No. 6299—Edn. 48-15-7, dated 2nd May 1916.

The District Economic Superintendent, Chitaldrug, is appointed as an additional member of the Committee constituted for the supervision of the Government Kannada Girls' School, Chitaldrug, in Notification No. 3728—Edn. 50-14-11, dated 4th April 1915.

No. 6308—A. & I. 184-15-4, dated 2nd May 1916.

The Government of His Highness the Maharaja of Mysore are pleased to issue the following rules as supplementary to those issued with Notification No. 5065—A. & I. 147-14-3, dated the 25th May 1915, for the grant of loans for sericultural improvement.

### RULES.

1. Loans referred to in Government Notification No. 5065—A. & I. 147-14-3, dated 25th May 1915, for setting up a rearing house and raising mulberry plantation shall also include the following:—

- (a) Mulberry cultivation including preparation of land, provision of irrigation facilities, purchase of cuttings, manure, etc.
- (b) Purchase of silkworm seed and rearing appliances.
- (c) Construction or repair of rearing houses.
- (d) Repairs and purchase of reeling machines.

2. The following officers shall be competent to sanction loans not exceeding the sums specified against them on each individual application:—

	Rs.
Amildars	100
Sub-Division Assistant Commissioners	250
Deputy Commissioners	500

3. Applications shall, in the first instance, be made to the Amildar of the Taluk or to the Shekdar of the hobli. The application shall, after local enquiry, be disposed of by the Amildar, if it is within his powers of sanction, otherwise shall be submitted without unnecessary delay with his recommendation and the record of enquiry to the officer competent to dispose of it.

4. In regard to the security offered, the bonds to be executed, the rate of interest, the period of repayment of the loan and other details, the rules for the grant of loans for sericultural improvement issued with the notification referred to in Rule 1 shall govern these loans also.

By Order,

P. G. D'SOUZA,

Offg. Secretary to Government,  
Departments of Education and Agriculture.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore

State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

## RAILWAYS.

No. 2927-28, dated 27th April 1916.

Under Section 31 of the Mysore Railway Regulation, 1894, the Government of His Highness the Maharaja of Mysore sanction the adoption, on the Railways over which they have jurisdiction, of the amendments in Rule 247 (b), Chapter XV, Part I, and in Schedule I, Chapter III, Part II, of the General Rules for working open lines of Railway, referred to in the Notification of the Government of India, Railway Department (Railway Board) Nos. 206 and 147-T., dated the 8th July 1915 and 23rd February 1916, respectively, published in Part I of the *Gazette of India*.

The amendments as sanctioned above are published for general information.

The 8th July 1915.

No. 206.—The following is published for general information:—

No. 886-T., dated the 24th June 1915.

RESOLUTION—By the Railway Board.

*Amendments in Rule 247 (b), Chapter XV, Part I, and in Schedule I, Chapter III, Part II, of the General Rules for working open lines of Railway.*

RESOLUTION.—It has been represented that the second part of Rule 247 (b) of the General Rules for working open lines of railway, as it stands at present, if strictly observed, would interfere with shunting operations inasmuch as it requires the locking of all facing points for the passage of "trains" which expression, according to the definition given in rule I (35), would include engines engaged on shunting operations, whereas the intention of the second part of rule 247 (b) is that locking of facing points should be required before the passage of "running trains" only, *vide* definition in rule 1 (27).

2. Moreover, since the issue of Railway Board's Resolution No. 1555-T., dated the 5th October 1914, certain further amendments have become necessary in the revised rules regulating the packing and carriage by railway in India of dangerous goods, other than explosives, which were promulgated with Railway Board's Resolution No. 1025—R. T., dated the 10th June 1912.

3. In exercise, therefore, of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, the Railway Board sanction under section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), the adoption by the administrations of all lines of railway in British India administered by the Government and for the time being used for the public carriage of passengers, animals and goods, of the amendments specified in the annexure hereto, to the General Rules of 1906 for working open lines of railway.

4. The Railway Board also desire that the said amendments may be brought to the notice of the administrations of the several railways not administered by the Government and that the Agents of those railways may be invited to submit a formal application for the adoption of the said amendments on their respective lines.

ORDER.—Ordered that this Resolution, with the accompanying amendments, be published under a notification in

## SCHEDULE VI.

No. 706-39.

GOVERNMENT OF INDIA,

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATION.

EXPLOSIVES.

*Delhi, the 30th January 1915.*

In supersession of the Home Department Notification No. 3291—(Public), dated the 7th December 1900 and this Department Notification No. 370-39, dated the 13th January 1912, and in exercise of the powers conferred by Sections 17 and 6 of the Indian Explosives Act, 1884 (IV of 1884):—

1. The Governor General in Council is pleased hereby to declare that acetylene, when liquid or when subject to a pressure above that of the atmosphere capable of supporting a

column of water exceeding two hundred and fifty inches in height, and whether or not in admixture with other substances, or when in admixture with atmospheric air or with oxygen gas in whatever proportion and at whatever pressure, and whether or not in admixture with other substances, shall be deemed to be an explosive within the meaning of the said Act, subject to the following exception; that if it be shown to the satisfaction of the Governor General in Council that acetylene declared to be an explosive by this Notification when in admixture with any substance, or in any form or condition, is not possessed of explosive properties, the Governor General in Council may, by order, exempt such acetylene from being deemed to be an explosive within the meaning of the said Act.

Provided that nothing in this Notification shall apply to acetylene in admixture with air when such admixture takes place only in a burner or contrivance in which the mixture is intended to be burnt:

Provided also, that nothing in this Notification shall be held to apply to an admixture of acetylene and air which may unavoidably occur in the first use or recharging of an apparatus, properly designed and constructed with a view to the production of pure acetylene:

Provided also, that, subject to the conditions hereinafter specified, acetylene, when in admixture with oil-gas (that is to say, a gas manufactured from mineral oil), shall not be deemed to be an explosive within the meaning of the said Act, when under compression—

- (1) The acetylene shall be generated only by the Atkins Dry Process.
- (2) The proportion of acetylene shall not exceed fifty parts by volume in every one hundred parts of the mixture of acetylene and oil-gas.
- (3) The acetylene and oil-gas shall be mixed together in a chamber or vessel before the gases are subjected to compression,
- (4) The mixture shall not be compressed to a pressure exceeding one hundred and fifty pounds per square inch.

Provided also that, subject to the conditions hereinafter specified, acetylene, when contained in a homogeneous porous substance, with or without acetone, shall not be deemed to be an explosive within the meaning of the said Act—

- (1) The pressure shall not exceed one hundred and fifty pounds to the square inch.
- (2) The porous substance shall fill, as completely as possible, the cylinder or other vessel into which the acetylene is compressed, and the porosity of the substance shall not exceed eighty per cent.
- (3) Every cylinder or other vessel into which acetylene is to be compressed shall be thoroughly tested to a pressure of not less than double that to which the vessel is to be subjected in use, and shall be fitted with a fusible plug designed to act at or below a temperature of 212° F.
- (4) Every cylinder or vessel in which acetylene is compressed shall be permanently and conspicuously marked with the name of the manufacturer and the words—  
“Acetylene compressed into porous substance exempted by Government of India, Department of Commerce and Industry, Notification No. 706-39, dated the 30th January 1915,” and shall bear a label giving the date when it was last filled together with the name and address of the filler.
- (5) When acetone is used for absorbing the acetylene due precaution shall be taken that the quantity of acetone is such that when fully charged with acetylene it does not completely fill the porosity of the porous substance.

When the operation of compressing the acetylene is carried out in British India:—

- (6) The apparatus by means of which the acetylene is compressed into a porous substance shall be fitted with a safety valve designed to act at a pressure of 200 lbs. per square inch, and shall be surrounded by rope mantlets in such a manner as efficiently to protect the operators.

II. The Governor General in Council is pleased to prohibit absolutely the manufacture, possession and importation of such acetylene as is declared by paragraph I of this Notification to be an explosive.

All persons proceeding to the said festival or fair in contravention of this notification will be turned back.

By Order,  
D. M. NARASINGA RAO,  
Secretary to Government,  
General Department.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore

State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## PART I—Section 2.

## GENERAL.

No. G. 15502—G. M.—76-15-260, dated 13th May 1916.

The following Press Communiqué dated the 13th April 1916, issued by the Government of India, Department of Commerce and Industry, is hereby republished for general information:—

With a view to minimising the possibility of the enemy obtaining jute manufactures, which are essential for the transport of supplies, His Majesty's Foreign Office have under consideration a scheme for controlling imports of raw jute and jute manufactures from British Possessions into all Neutral countries. Arrangements for the working of this scheme have been completed as regards the United States of America (excluding however the Sandwich Islands), and the export of raw jute from British India to that country has accordingly been prohibited in Government Notification No. 1765-W., of 13th April 1916. The exports of jute manufactures have been already prohibited under Notification No. 15190-W, dated the 27th September 1915, and the export of either commodity to the United States of America will henceforth only be allowed under the terms of the Foreign Office scheme. This scheme follows the general lines of the wool agreement. Goods must be consigned to the President of the Textile Alliance or to an approved bank for the account of the Textile Alliance. Collectors of Customs have accordingly been instructed to issue licenses for export of raw and manufactured jute to the United States of America only in cases where the parties in America, for whom the consignments are intended, have been approved by the President of the Textile Alliance. It is to be clearly understood that this arrangement supplements, rather than replaces the existing conditions of export of manufactured jute to the United States of America.

In order to avoid inconvenience to the trade, Collectors have been further authorised to issue licenses in the cases of existing commitments which do not qualify for permission under the above scheme, for which freight has been booked up to the 27th April.

With regard to all other countries, (including the Sandwich Islands) export will be allowed as at present, until the necessary arrangements have been completed.

No. G. 15577—G. M. 76-15-263, dated 16th May 1916.

In continuation of Notification No. G. 14500—G. M. 76-15-246, dated 19th April 1916, the following Notification No. 2059-90-W., dated 22nd April 1916, issued by the Government of India, in the Department of Commerce and Industry, amending the list of prohibited and restricted exports from the United Kingdom is hereby republished for general information:—

## CUSTOMS.

The 22nd April, 1916.

No. 2059-90-W.—The following Order in Council is published for general information:—

AT THE COUNCIL CHAMBER, WHITEHALL,

The 16th day of March, 1916.

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL:

Whereas it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

    - Strontium sulphate;
    - Glucose and malt sugar;
    - Salt, rock and white, except table salt.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

ALMERIC FITZROY."

No. G. 15578—G. M. 76-15-264, dated 16th May 1916.

In continuation of Notification No. G. 5401—G. M. 76-15-128, dated 27th October 1915, the following Notification No. 2103-W., dated the 22nd April 1916, issued by the Government of India in the Department of Commerce and Industry, modifying the proviso to their Notification No. 15127-W., dated 25th September 1915, is hereby republished for general information:

"In exercise of the powers conferred by Section 19 of the Sea Customs Act, 1878 (VIII of 1878) as amended by Act XII of 1914, the Governor-General in Council is pleased to direct that the following shall be substituted for the proviso to this Department's Notification (Customs) No. 15127-W., dated the 25th September 1915:—

Provided that nothing in this Notification shall apply to—

- (i) Goods shipped by, or for the use of the Crown;

Offg. Secretary to Government,  
Departments of Education and Agriculture.

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which, by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

#### PRESS COMMUNIQUE.

The following extract from the *London Gazette* is published for general information:—

#### REVISION OF RUSSIAN LIST OF CONTRABAND.

FOREIGN OFFICE,

March 13, 1916.

The Secretary of State for Foreign Affairs has received from His Majesty's Ambassador at Petrograd the following memorandum, prepared by the Commercial Attache to His Majesty's Embassy:—

The "Official Messenger" of Petrograd, of to-day's date, publishes an Imperial Ukase of January 24th—February 6th, replacing the contraband lists given in the Imperial Decree of August 10—23rd, 1915, and reported in Sir G. Buchanan's despatch, No. 152 Commercial, of August 29th, 1915, by new revised lists of absolute and conditional contraband. The new Russian revised list of absolute contraband (Items Nos. 1-42) is identical with the list (Schedule I, Items 1-42), given in the King's Proclamation of October 14th, 1915, with the following slight differences:—

In Item 8: At end, between the Russian equivalents for *urea* and *cyanamide*, the Russian list includes *carbamide*.

In Item 28: The English list has: "Mineral oils, including benzine and motor spirit." The Russian list has: "Mineral oils, including benzine and other liquid fuel for intenal combustion."

In Item 32: After the word *Lubricants*, the Russian text adds "including castor oil."

In Item 42: The following words in the English text, "on a scale of four miles to one inch or any larger scale," are thus converted in the Russian: "on a scale of more than  $\frac{1}{250000}$ ."

The new Russian conditional list, Items Nos. 1-14, is identical with the list (Schedule II, Items 1-14) given in the King's Proclamation of October 14th, 1915.

The Royal Proclamation of the 14th October 1915, referred to was published in the *Gazette of India* under Notification No. 39-W., dated the 6th November 1915.

*N.B.*—The Russian Decree relating to contraband of war, was published on the 12th June 1915.

No. G. 15986—G. M. 521-15-2, dated 24th May 1916.

The following Notification of the Government of India, Home Department No. 253, dated the 13th April 1916, directing certain changes in Rule IV of the Rules regarding the use of uniform by officers in civil employ (published under Notification No. G. 2185—G. M. 80-11-106, dated the 16th October 1911, as amended by Notification No. G. 5168—G. M. 230-13-2, dated the 12th January 1914) is hereby republished for general information:—

"The Governor-General in Council directs that the following amendments shall be made in Rule IV of the Rules regarding the use of uniform by officers in civil employ which were published with the Home Department Notification No. 3580, dated the 6th September 1911, as amended by the Home Department Notification No. 2470, dated the 29th November 1913.

1. In the exception to sub-rule (a) after the words "Royal Engineer Officers" the words "and officers of the Indian Medical Service" shall be inserted.

2. In the exception to sub-rule (b) after the words "officers of" the words "the Indian Medical Service and" shall be inserted."

By Order,

D. M. NARASINGA RAO,

Secretary to Government,

General Department.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also

be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

No. 3251-2, dated 18th May 1916.

Under Section 31 of the Mysore Railway Regulation, 1894, the Government of His Highness the Maharaja of Mysore sanction the adoption on the Railways over which they have jurisdiction of the amendment in the note to Rule 64, Chapter III, Part I, of the General Rules for working the Open Lines of Railway, referred to in the Notifications of the Government of India, Railway Department (Railway Board) Nos. 278 and 46-T. 16, dated the 8th October 1915 and 27th March 1916, respectively, published in Part I of the *Gazette of India*.

The amendment as sanctioned above is published for general information.

By Order,

K. KRISHNAIENGAR,

*Officiating Secretary for Railways, Government of Mysore.*

No. 278.—The following is published for general information :—

No. 1382-T., dated the 20th September 1915.

RESOLUTION—By the Railway Board.

Amendment in the note to Rule 64, Chapter III, Part I, of the General Rules for working Open Lines of Railway.

It has been brought to the notice of the Railway Board that Rule 64 of the General Rules for working open lines of Railway is not consistent with Rule 5 (c) of the revised rules for the use of automatic vacuum brake on passenger and goods trains, inasmuch as while the former implies that in the case of passenger or mixed trains composed entirely of vacuum braked vehicles, sufficient vacuum should always be maintained for the purpose of working the apparatus provided for communicating with every passenger carriage in the train, the latter permits, under certain circumstances, the working of such trains with hand brakes only. The Railway Board consider that the note to Rule 64 should be modified so as to provide for this exception to the general rule.

2. In exercise, therefore, of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, the Railway Board sanction under Section 47, Sub-Section (3) of the Indian Railways Act, 1890 (IX of 1890) the adoption by the administrations of all lines of railway in British India administered by the Government and for the time being used for the public carriage of passengers, animals and goods, of the amendment, specified in the annexure hereto, to the General Rules of 1906 for working open lines of railway.

3. The Railway Board also desire that the said amendment may be brought to the notice of the administrations of the several railways not administered by the Government and that the Agents of those railways may be invited to submit a formal application for the adoption of the said amendment on their respective lines.

ORDER.—Ordered that this Resolution, with the accompanying amendment, be published under a notification in

[Enclosure to Railway Department (Railway Board) Resolution No. 1382-T., dated 20th September 1915.]

Amendment in the note to Rule 64, Chapter III, Part I, of the General  
Rules for working open lines of Railway.

For the existing note substitute the following:—

NOTE.—“In the case of a mixed train when an unpiped vehicle intervenes between the engine and any vacuum-braked coaching stock, or in the case of a passenger or mixed train worked with hand brakes for want of the required amount of vacuum in the rear brake van, this rule will not apply.”

### GENERAL.

*No. G. 15933—G. M. 517-15-2, dated 22nd May 1916.*

The following Notification No. 29, dated the 15th May 1916, of the Hon'ble the Resident in Mysore regarding the scheme for the registration of claims of British and British Indian subjects against enemy subjects and enemy Governments is hereby republished for general information:—

The Hon'ble the Resident in Mysore.

*Notification No. 29, dated 15th May 1916.*

The following papers regarding the scheme for the registration of claims of British and British Indian subjects against enemy subjects and enemy Governments are published for general information:—

Telegram, dated the 24th September 1915.

From—The Secretary of State for India,

To—His Excellency the Viceroy (Home Department).

Your telegram dated the 26th August. Foreign Claims Office. Foreign Office request that Government of India should receive and examine claims from British India against enemy Government following same procedure as Foreign Claims Office here and should from time to time forward accepted cases for final registration in that office; as regards claims against enemy subjects same course should be adopted, except that the claims should be eventually sent to Public Trustee and not to Foreign Claims Office. I agree with Foreign Office. Copies of instructions and forms used this country are being sent by mail to Home Secretary for guidance of your Government.

INDIA OFFICE,

*28th September 1915.*

Sir,

I am to say that Mr. Chamberlain will be glad to receive your suggestions as to the form and scope of the *questionnaire* to be adopted for the purpose of obtaining information regarding:—

- (i) Debts from persons in enemy territory due to British subjects in India;
- (ii) Property in enemy territory held by British subjects in India.

LONDON, W. C.,  
*1st October 1915.*

Sir,

Trading with the Enemy.

Your letter of the 28th ultimo (your reference R. and S. 5970-15).

It may be of some use if I make a few remarks on the purpose of the various forms.

*Returns of British property in enemy countries and occupied territories.*—Registration Order "G" is used by persons resident or carrying on business in the United Kingdom, to make a return of debts due to them by enemy debtors and bank balances held for them by enemy banks. In practice it is found that the public concerned have little difficulty in filling up this form, except that they sometimes overlook the fact that unpaid dividends due to them from enemy countries are debts.

Registration Order "H" is used for the purpose of making a return of all other property except personal luggage, held in enemy or occupied territories on behalf of persons resident or carrying on business in the United Kingdom. In practice, the minor difficulties that have arisen have been (1) that the public sometimes have a difficulty in apprehending that, if they are holding, say, Prussian bonds, the third column of the Form "H" which asks for the full name and address of the enemy person or firm, should have the entry "Prussian Government" written in it; (2) considerable difficulty arises in obtaining from those who are filling up the forms the necessary information for column 2, "approximate value of property held." The usual thing is to find this column filled with the nominal value of the shares or securities recorded in the first column, and it was considered desirable to have the actual values. It was necessary in a very large number of cases to send out to the persons who had filled in a Registration Order "H," the attached circular (X-28). Even so, however, this circular very frequently comes back with a statement that it was impossible to obtain the particulars desired.

Registration Order "J," is not in practice of very great importance; and no difficulty is found in getting it filled up with the necessary particulars.

I am, etc.,

E. K. ALLEN,

*Assistant Public Trustee,  
Custodian for England and Wales.*

FORM X-28.

"TRADING WITH THE ENEMY."

*Registration Order H.*

DEAR SIR (OR MADAM),

In reference to the Registration Order filed by you with this Department I desire to call your attention to the fact that you have only given the nominal value of the securities held for you by enemy firms or persons. The objects in view when the Return was asked for cannot, however, be attained unless the actual market value, as distinct from the nominal face value, of all securities is recorded.

It will be readily understood that it does not come within the province of the Public Trustee to accept any responsibility for the realisation after the war of the actual values recorded, while, on the other hand, the person making the return is not pledged to abide by his own valuation of it should it turn out in fact to be less than can be realised when the markets are again working under normal conditions.

In recording the actual values the following rules should be observed:—

1. In all cases where sales in the securities are now taking place, or have taken place since the War began, the prices realised at such sales should be taken as the basis of the valuation.
2. In other cases where no such sales have been made, the value should be the value on the 1st August, 1914, or on the latest date previous to the 1st August, 1914, on which a price was recorded.
3. In cases where lands, houses, or leases are included in the Return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

Please return this letter with the particulars asked for on the annexed sheet (or sheets) duly filled in.

I am, dear Sir (or Madam),  
Yours faithfully,  
C. J. STEWART,  
Public Trustee,  
Custodian for England and Wales.

MEMORANDUM OF INSTRUCTIONS AS TO REGISTRATION OF CLAIMS AGAINST ENEMY SUBJECTS AND ENEMY GOVERNMENTS.

The following instructions are issued for the guidance of persons who wish to register their claims against enemy subjects and enemy Governments, with reference to the Press Communique, dated the 27th April 1916 :—

CLAIMS AGAINST ENEMY SUBJECTS.

1. The forms prescribed for the purpose of recording claims against enemy subjects are given in the annexed Schedule.
2. *Registration Order "G"* should be used by persons or firms residing or carrying on business in India to make a return of :—
  - (1) Debts owing to them by enemy persons or firms including unpaid dividends and uncashed coupons and unpresented bills accepted by and unpresented cheques drawn by enemy firms or persons.
  - (2) Bank balances held for them by Banks situated in enemy territory.
  - (3) Interest which has accrued on items recorded on *Registration Order "H."*

It should be noted that unpaid dividends and uncashed coupons and unpresented bills or cheques are debts and should be recorded on this form.
3. *Registration Order "H"* should be used for the purpose of making a return of property other than debts, Bank balances and personal luggage—held by enemy persons or firms for persons or firms residing or carrying on business in India.

This form should also be used to record claims against enemy Governments and Municipalities in respect of public securities of those Governments and Municipalities held by the persons making the return. The enemy Government or Municipality is, from this point of view, the debtor, and the fact that the paper or other documentary evidence of title is held in this country makes no difference.

This form should not be used for making other claims against enemy Governments, *e.g.*, in respect of goods or property requisitioned, sequestered or destroyed by those Governments. The procedure in regard to the registration of such claims is laid down in paras 6-13 *infra*.

It is essential that the actual value of the property held and not merely its face value should be recorded and in estimating these values the following rules should be observed:—

(a) In all cases where sales in the securities are now taking place, or have taken place since the war began, the prices realised at such sales should be taken as the basis of the valuation.

(b) In other cases where no such sales have been made, the value should be the value on the 1st August 1914, or on the latest date previous to the 1st August 1914, on which a price was recorded.

(c) In cases where lands, houses or leases are included in the return, the value recorded should be the estimated capital value as on the 1st August 1914, less the estimated capital value of any charges on the same.

4. *Registration Order "F"* should be used to make a return of personal luggage left behind in the enemy country by His Majesty's subjects when travelling home before or since the outbreak of war. Great care should be taken to indicate whether the luggage was given into the charge of some one (*e.g.*, a railway official or hotel-keeper) or was detained against the will of the traveller.

5. Returns in reference to occupied territory should be made on precisely the same forms as those referred to above, except that they will be issued stamped with a rubber stamp with the words "Occupied territory."

#### CLAIMS AGAINST ENEMY GOVERNMENTS.

6. Claims against enemy Governments in respect of public securities of those Governments should be recorded in *Registration Order "H"* as indicated in paragraph 3 *ante*. As regards other claims against enemy Governments, such as those in respect of property requisitioned, sequestered or destroyed by those Governments, a statutory declaration verifying the claim should be sent. The declaration must be in the form prescribed under section 7 of the Indian Oaths Act, 1873.

7. If the claimant was born within His Majesty's dominions, the declaration should state the date and place of his birth. If the claimant was born outside His Majesty's dominions but derives British nationality from his father or grand-father, the declaration should state the date and place of birth of such father or grand-father.

If the claimant is a naturalized subject of His Majesty the declaration should state the date of his naturalisation and his previous nationality.

8. If the claimant is a Company incorporated under any law for the time being in force in any part of the British Empire, the declaration should state the date of incorporation.

If all the persons holding shares or otherwise interested in the Company are subjects of His Majesty the declaration should state that fact.

If some of the persons holding shares or otherwise interested in the Company are aliens, the declaration should state the nationality of those persons and the nature of their interest in the Company.

9. Full particulars of the property in respect of which the claim is made should be set out in the declaration or in a schedule attached thereto.

10. The declaration should state the value of the property and the amount of the claim.

Where the value of the property can be proved by documentary evidence, copies of those documents should be attached to the declaration.

Where documentary evidence of the value of the property cannot be adduced, the evidence of the claimant should, so far as it is possible to do so, be corroborated by that of other persons.

11. The declaration should state the facts with regard to the requisitioning, sequestration, or destruction of the property so far as they are known to the claimant.

13. If the claimant, or any person on his behalf, has received any payment in respect of the property, particulars thereof should be set out in the declaration.

**FINANCIAL.**No. FL. 1118—*G. F. 28-14-2, dated 7th September 1914.*

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such

securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

Financial Secretary.

### GENERAL.

No. G. 16298—G. M. 76-15-282, dated 1st June 1916.

In continuation of Government Notification No. G. 10819—G. M. 76-15-215, the following endorsement No. 2280-W., dated the 29th April 1916 of the Government of India, Department of Commerce and Industry and its enclosure are hereby republished for general information:—

No. 2279-W.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

FROM

THE HONOURABLE MR. C. E. LOW, C.I.E., I.C.S.,

*Secretary to the Government of India.*

TO

THE GOVERNMENTS OF BENGAL, BOMBAY, MADRAS AND BURMA,  
THE COMMISSIONER IN SIND AND THE POLITICAL RESIDENT  
AT ADEN.

*Simla, the 29th April 1916.*

SIR,

With reference to the correspondence ending with the endorsement from this Department, No. 3419-3437-W., dated the 5th April 1915, I am directed to state, for the information of His Excellency the Governor in Council,  
His Honour the Lieutenant-Governor, that the Government of India have decided <sup>your information</sup> that the following procedure shall, in future, be observed in regard to the admission into British India of goods of Belgian origin.

2. The Board of Trade issues, under certain conditions, licenses to firms in the United Kingdom to obtain and re-export to overseas ports, goods of Belgian origin. The importation of such goods from the United Kingdom may be allowed on production to the Indian customs authorities of a certified copy of the license granted by the Board of Trade.

3. Goods of Belgian origin not previously imported into the United Kingdom, but transhipped in British ports, or imported direct into British India, may be imported through the intervention of a firm in the United Kingdom, provided the firm has been reported by the India Office to the Collectors of Customs as a licensee, and provided further, that the importer furnishes to the Collector of Customs (i) an undertaking to pay the purchase price to the firm in the United Kingdom through whose intervention the goods have been obtained, and to produce evidence of such payment within a reasonable period after the importation, if called on to do so: and (ii) a certificate granted by a British Consular Officer, in Holland to the effect that he is satisfied that the goods are in fact of Belgian origin, or that less than twenty-five per cent of their value is due to enemy (other than Belgian) labour or material. The India Office will communicate direct to Collectors of Customs the names of persons who are granted licenses by the Board of Trade for export to India.

4. The Government of India have also issued a general license for the importation into British India of goods of Belgian origin without the intervention of a firm in the United Kingdom. I am to enclose a copy of the general license as published with the Notification of the Government of India, No. 2281-W., dated the 29th April 1916. It will be observed that goods manufactured in Holland which owe less than twenty-five per cent of their value to enemy labour or material, but include also a Belgian element raising the proportion to more than twenty-five per cent, are to be treated in the same way as goods of Belgian origin. All such goods will be admitted on production of a certificate from a Consular Officer to the effect that the goods are in fact of Belgian origin, or that less than twenty-five per cent of their value is due to enemy (other than Belgian) labour or material.

5. I am to add that transshipment at Indian ports of Belgian goods to British Oversea ports may be permitted without any restriction. Transshipment for neutral ports will only be allowed in the case of goods obtained by firms in the United Kingdom to which special shipment permits have been granted by the Board of Trade. In such cases transshipment should be permitted on production of the Board of Trade shipment permit. The orders

conveyed in my letter No. 11730-11737, dated the 19th July 1915, should be modified accordingly.

I have the honor to be,

Sir,

Your most obedient servant,

C. E. LOW,

*Secretary to the Government of India.*

No. 2280-W.

A copy, with a copy of the notification referred to, is forwarded to all other Local Governments and Administrations, to the Army and Foreign and Political Departments, to the Director-General of Commercial Intelligence, for information, in continuation of the endorsement from this Department No. 3419-3437-W., dated the 5th April 1915.

A copy is also forwarded to all Collectors of Customs and to the Director of Statistics, for information.

By Order, etc.,

G. S. HARDY,

*Offg. Under Secretary to the Government of India.*

No. 2281-W.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

*Simla, the 29th April 1916.*

NOTIFICATION.

1. Whereas by paragraph 5 (7) of the Trading with the Enemy Proclamation No. 2, dated the 9th day of September 1914, as amended and extended by the Proclamation dated the 5th day of November 1914 and by the Proclamation dated the 16th day of October 1915, the obtaining of any goods, wares or merchandise from the territories of the German Empire or of the Dual Monarchy of Austria-Hungary, together with all the Colonies and Dependencies thereof, or from the territories of the Sultan of Turkey (other than Egypt or any territory in the occupation of the British Government, or its Allies), or from the territories of the King of the Bulgarians in this license and in the said Proclamation referred to as "enemy country," is forbidden; and

Whereas by paragraph 1 of the Trading with the Enemy (Occupied Territory) Proclamation 1915 it is provided that the said Proclamations shall apply to the territory of an Allied State in hostile occupation as they apply to an enemy country; and by paragraph 4 of the said Proclamation, it is provided that nothing in that Proclamation shall be taken to prohibit anything which may be expressly permitted by a license granted by or on behalf of the Crown; and

Whereas by paragraph 3 of the Proclamation dated the 8th day of October 1914, power to grant such license on behalf of the Crown may be exercised in India by the Governor-General;

Now therefore I, Frederic John Napier Thesiger, Baron Chelmsford hereby authorise all persons freely residing, being, or carrying on business in British India, to obtain goods, wares or merchandise from the Territory of Belgium in hostile occupation without the intervention of a firm in the United Kingdom, on the condition that the person importing such goods, wares or merchandise, shall produce before the customs officer at the port of import

- (i) an undertaking that he will pay the purchase money into a special account, in the name of the exporter, in a bank in British India or United Kingdom and will, when called upon to do so, furnish evidence of such payment within a reasonable period after the importation of the goods, wares or merchandise;
- (ii) an undertaking by the Bank that, so long as the enemy occupation of Belgium continues, no money will be allowed to be withdrawn from such special account, except under license from the Governor-General, and that no charge on the account will be allowed or recognised without such license; and
- (iii) a certificate from a British Consular Officer to the effect that the goods are in fact of Belgian origin.

*Explanation.*—Goods manufactured in Holland which owe less than twenty-five per cent of their value to enemy (other than Belgian) labour or material but include also a Belgian element which raises the proportion to more than twenty-five per cent are considered for the purpose of this license as goods of Belgian origin.

2. This license may be cited as the Trading License (Belgium) 1916.

CHELMSFORD,

*Viceroy and Governor-General of India.*

No. G. 16299—G. M. 76-15-281, dated 1st June 1916.

In continuation of Notification No. G. 5516—G. M. 76-15-131, dated 30th October 1915, the following letter No. 2449-W., dated 1st May 1916, from the Officiating Secretary to the Government of India, Department of Commerce and Industry, to the Hon'ble the Resident in Mysore explaining the intention of the Royal Proclamation, dated the 14th September 1915, is hereby republished for general information.

"With reference to this Department's letter No. 15678-W., dated the 11th October 1915, I am directed to say, for your information, that intimation has been received from the India Office that the intention of the Royal Proclamation, dated the 14th September 1915 was to bring the law for companies into line with that which applies to firms under the Royal Proclamation of the 9th September 1914 and that the Proclamation should not be interpreted so as to prevent trading with a firm or company incorporated or otherwise established and having its principal place of business in neutral territory merely because such firm or company trades in enemy territory by means of branches or agencies, although in such cases it is necessary that every precaution should be taken to secure that business transactions with such a firm or company are not in any way for the benefit of an enemy."

No. G. 16482—G. M. 76-15-285, dated 5th June 1916.

In continuation of Government Notification No. G. 15578—G. M. 76-15-264, dated 16th May 1916, the following Notification No. 2411-W, dated 29th April 1916, issued by the Government of India, Department of Commerce and Industry, modifying the proviso to their notification No. 15127-W., dated 25th September 1915, is hereby republished for general information.

"In exercise of the powers conferred by Section 19 of the Sea Customs Act, 1878 (VIII of 1878), as amended by Act XII of 1914, and in supression of this Department's Notification (Customs) No. 15127-W., dated the 25th September 1915, as amended by Notification (Customs) No. 2103-W., dated the 22nd April 1916, the Governor-General in Council is pleased to prohibit the export of coal (other than Welsh coal) and coke from British India except to the United Kingdom, British Possessions and protectorates.

Provided that nothing in this Notification shall apply to:—

- (i) Goods shipped by, or for the use of, the Crown;
- (ii) Goods shipped to any Indian port;
- (iii) Goods required for use or consumption in—
  - (a) French or Portuguese Possessions in India, or
  - (b) Native States in India;
- (iv) Goods shipped for use or consumption during voyage."

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant, Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

#### CUSTOMS.

*The 6th May 1916.*

"No. 2570-90-W.—The following Order in Council is published for general information:—

#### AT THE COUNCIL CHAMBER, WHITEHALL.

*The 30th day of March 1916.*

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 28th day of July 1915, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 28th day of July 1915, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the same:—

- (1) That the exportation of the following goods should be prohibited to all destinations:—

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount

sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

*No. G. 17248—G. M. 76-15-301, dated 28th June 1916.*

In continuation of Government Notification No. G. 16298—G. M. 76-15-282, dated 1st June 1916, the following letter from the Government of India, Department of Commerce and Industry, to certain Local Governments, is hereby republished for general information:—

Letter No. 3625-W.—II, dated the 25th May 1916, from the Government of India, Department of Commerce and Industry, to certain Local Governments.

I am directed to refer to paragraph 3 of my letter No. 2279-W, dated the 29th April 1916, prescribing the procedure to be observed in regard to the admission into British India of goods of Belgian origin not previously imported into the United Kingdom but obtained through the intervention of a firm in the United Kingdom.

2. It appears that a firm originally procuring goods under license from the Board of Trade sometimes finds it convenient to sell to a third party who thus appears as the shipper to India. In such cases, I am to say that the India Office will notify Collectors of Customs of the names of the purchasers and the importer will be required to undertake to pay the purchase price to the purchaser and not to the original licensee.

3. I am to request that the cases referred to in the enclosed copy of letter from the India Office, No. R. & S. 1529-16, dated the 20th April 1916, and enclosures may be disposed of in accordance with these orders.

3. To Bengal and Burma only.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## EDUCATION AND AGRICULTURE.

Notification No. 7672—Edn. 10-15-31, dated 29th June 1916.

The following revised rules for the award of Secondary School-Leaving Certificates sanctioned by Government are published for general information:—

### RULES.

I. *To whom awarded.*—These certificates may be awarded on the completion of their school course to boys or girls who—

- (1) have attended one or more recognized secondary schools from at least the fourth form upwards;
- (2) have attended each of the fourth, fifth and sixth forms either for not less than sixty per cent of the number of working days in each term and for not less than 120 working days in each school year, or for not less than 150 working days in each school year, unless specially exempted by the Board, such exemption being, however, granted only in the case of candidates who have attended the school regularly, but whose attendance falls short of the required minimum by only a few days.

II. *By whom awarded.*—

- (1) The certificate shall be awarded by a Board consisting of the Inspector-General of Education as *Ex-officio* President, six officers of the Government Educational service and six others and the Secretary.
- (2) The members of the Board shall be appointed for a period of three years and shall be eligible for reappointment.
- (3) The Members and the Secretary of the Board shall be appointed by Government.
- (4) The Board shall arrange for the award of the certificate in accordance with the provisions of the scheme.

III. *Scope of the certificate.*—The certificate shall take into account the school work done by the pupil from the fourth form upwards and shall also contain the final marks as moderated by the Board. It shall show exactly what subjects pupils have studied and discriminate fairly between one pupil and another as to the benefits each has received from the school course.

The subjects of study will be those specified in Group A and at least two to be selected out of Groups B and C; provided that in the case of candidates wishing to take up a collegiate course, both the electives are from Group B. It is open to a candidate to take a supplemental course in any number to gain a supplemental certificate.

### A. COMPULSORY.

IV. *Preparation of certificate.*—(1) The certificate shall be in the form shown in the appendix to this scheme. Every pupil on entering a fourth form shall be provided with a blank certificate to be kept in the custody of the school so long as he remains there, the entries in the certificate for each term being made in due course by the Headmaster.

(2) The results of school work done shall be entered against each subject taught in the school in the form of the number of marks gained out of a maximum of 100 for each subject, except in the case of athletics and games and sloyd or drawing where a brief remark will be entered.

(3) The school work of a year in which the pupil is not promoted to a higher form shall not be taken into account; and no term certificate shall be accepted which is not gained in one and the same school, except by special permission of the Board.

V. *The public examination.*—(1) Towards the end of the course in the sixth form, the Headmaster shall forward to the Secretary to the Board not later than the 20th December preceding the examination applications in the prescribed form, of such of his pupils as wish to complete the certificates by appearing for the public examination conducted by the Board and as are, in his opinion, competent to appear for that examination.

(2) The application of no pupil shall thus be forwarded whose age is less than fifteen years unless the pupil will complete the age of fifteen years on or before the 30th June in the year in which the examination is to be held.

(3) A fee of Rs. 12 shall be sent along with each pupil's application.

(4) The public examination will be a written examination conducted by the Board and will include:—

- A. English.
- B. Second language.
- C. Elementary Mathematics.
- D. At least two of the optional subjects.

(5) It will be held at such places and on such dates as may, from time to time, be notified.

(6) The Board shall be competent to moderate the marks obtained in the school and at the public examination. Only the final marks obtained after such moderation shall be entered by the Board in the certificate book.

VI. *Award of the certificate.*—(1) The certificates thus filled in and completed shall be returned by the Board to the Headmaster of each school for delivery to those who are leaving the school.

(2) The certificate of a pupil who is not, in the opinion of the Headmaster, competent to appear for the public examination shall, if he is leaving the school, be endorsed to that

effect over the Headmaster's signature on the page relating to the term, column III, and then forwarded to the Secretary to the Board for inspection. When it is returned to the Headmaster, it shall be handed over to the pupil.

VII. *Supplementary certificates.*—(1) If a pupil wishes to improve the certificate thus awarded to him, whether in regard to its quality in one or more subjects already brought up or by bringing up additional subjects under list B or C, he may go back to the same or any other recognized school and appear at a succeeding examination conducted by the Board in any subject or subjects in which the examination is held.

(2) There shall be no limit to the number of times which a pupil may thus be re-examined.

(3) The fee for the re-examination shall be Rs. 3 for each subject (new or old) brought up, subject to a maximum of Rs. 12.

(4) In either case, a further endorsement shall be made on the pupil's original certificate with regard to his progress in a manner similar to that laid down for the entries in the original certificate.

VIII. *Subsidiary rules.*—The Board shall be competent to frame such subsidiary rules as it thinks fit for the estimate of school work done, the conduct of the public examination and other matters connected with the award of certificates subject to the provisions of this scheme. Such rules will be notified from time to time by the Inspector-General.

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

# PUBLIC WORKS.

No. 1282—6128, dated 23rd June 1916.

Under Section 6 of the Land Acquisition Regulation, VII of 1894, it is hereby declared that the lands described hereunder are required for a public purpose, viz., for Cauvery Reservoir Bed; and under Sections 7 and 3 (c) of the said Regulation, the Senior Assistant Commissioner and Special Land Acquisition Officer, Mr. L. ## PART I—Section 2.

### GENERAL.

*Notification by the Government of His Highness the Maharaja of Mysore.*

*No. G. 15407—Geological 5-15-5, dated 12th May 1916.*

In supersession of Government Notification (Geological) No. 800, dated 29th October 1910, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the State.

2. The revised rules will come into force from this date.

### Rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the State of Mysore.

1. In these rules.—

“*The Government*” means the Government of His Highness the Maharaja of Mysore.

“*Person*” includes any Persons, Syndicate, Partnership or Company.

2. Exploring, Prospecting or Mining for minerals shall not be carried on within the State of Mysore except under licenses or leases granted under these rules or with the special sanction of the Government.

### I. EXPLORING LICENSES.

3. Persons desirous of exploring for minerals within the State of Mysore may obtain an Exploring License on application to the Director, Department of Mines and Geology, by whom any license granted shall be signed on behalf of the Government.

4. Each application shall be accompanied by a fee of Rs. 10.

5. The application shall state the District in which it is desired to explore and each license granted shall ordinarily be valid for one District only. Government may refuse to grant a license to any person, in which event the fee shall be returned, or may, at their discretion, limit the area to which the license shall apply or specifically exclude any mineral from the license.

6. Such license shall not authorise the licensee to mine or quarry, but he may turn up the surface of the land, dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may permit.

7. No private or occupied lands and no lands over which exclusive mineral rights have been granted or may at any time during the currency of this license be granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

8. Every license shall be in Form No. 1 hereto appended and shall be valid for one year. Such license shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an Exploring License.

9. Under exceptional circumstances, the Government of Mysore may confer on a licensee special protection in regard to any specified mineral or minerals during the whole or any portion of the term of his license. Such special protection shall be designed to secure to a *bona fide* worker a fair and reasonable area over which he shall be entitled to obtain a prospecting license or a mining lease as provided for hereunder and shall be conferred only in cases in which, in the opinion of Government, it would be unreasonable or undesirable to insist on the area for a prospecting license or a mining lease being selected at once.

10. The licensee shall be at liberty, subject to such restrictions as the Government may from time to time impose, to remove specimens or samples of minerals in reasonable quantities for purpose of testing, but not for sale.

## II. PROSPECTING LICENSES.

11. Applications for licenses to prospect for minerals within the territories of Mysore shall be made to the Director, Department of Mines and Geology, in Form No. II hereto appended.
12. Each application shall be in respect of a specified block of land not exceeding ten square miles in area, which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.
13. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.
14. Every prospecting license granted under these rules will be in Form No. III, appended hereto and will be valid for one year, but the Government may at their discretion sanction the renewal of any license from year to year on payment, in advance, of an annual rent which may be determined upon separately for each period of renewal.
15. Every application must be accompanied by—
- (a) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (Scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.
  - (b) A schedule giving the names of the villages included (either wholly or partly) in the prospecting block together with the Taluk and District in which they are situated and stating the area of the block in square miles.
  - (c) A schedule stating the mineral or minerals in respect of which the license is applied for.
  - (d) A fee of Rs. 10 per square mile or a portion of a square mile of the area applied for.
16. On receipt of any application, the Director, Department of Mines and Geology, will, if the Government decide to grant a license, inform the applicant of the amount of the rent and the deposit due thereon and of any special terms which they may consider desirable to impose. Within such time as may be fixed in each case the applicant shall pay the amount of the rent and deposit specified and such payment shall be held to involve the acceptance of any special terms of which the applicant has been informed.
17. The rent payable in respect of a license shall be not less than one anna and not more than one rupee per acre of the area granted.
18. The deposit payable in respect of a license shall be at the rate of Rs. 100 per square mile or portion thereof of the area granted. This deposit shall be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license.
19. The block of land over which the prospecting license is granted need not be surveyed and demarcated; but, in the event of any doubt or dispute arising as to the boundaries of the block or whenever in the opinion of the Director, Department of Mines and Geology a survey is necessary or desirable he shall order the survey and demarcation of the block to be made either with or without an application for the same from the licensee, and the licensee shall pay the expenses of the survey and demarcation. The boundaries of the block of land for which a prospecting license has been granted shall be marked on the map attached to the license and the decision of the Director, Department of Mines and Geology in regard to the boundaries and demarcation of the block shall be final.
20. Until the license is signed by the Director, Department of Mines and Geology, the applicant shall not be entitled to exercise any of the privileges of a licensee.
21. If the applicant neglects to comply with the preceding rules or fails to pay the rent and deposit within the time prescribed under Rule 16 or declines to accept a license which has been offered to him under Rule 16, his application shall be cancelled and the fee paid therewith forfeited to Government except as provided under Rule 23.
22. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 15 shall be forfeited to Government.
23. If the license is refused under Rule 13 or if the applicant within such time as may be fixed under Rule 16 declines to accept any special terms of which he has been informed, his application shall be cancelled and the fee received therewith shall be returned to him.

24. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile in length, within the area specified in his license, and to obtain a mining lease of the block so selected in respect of any mineral or minerals (with the exception of precious stones and alluvial minerals) specified in his license in accordance with and subject to the provisions of the rules contained herein. Provided that a licensee shall not be entitled to obtain mining leases over a total area of more than ten square miles. In the case of precious stones and alluvial minerals, the holder of a prospecting license will be entitled to a mining lease upon the special terms (if any) provided in his license; and in the event of there being no such special provisions, to the first refusal of such mining lease as the Government may decide to grant.

As soon as a mining lease has been granted under this rule the prospecting license shall immediately cease and determine.

25. If the licensee discovers any mineral of value within the area specified in his license, he shall immediately report the discovery to the Director, Department of Mines and Geology. Failure to comply with this provision will render the license liable to be cancelled and the deposit forfeited. If the mineral so reported is not one of those in respect of which the license has been granted, the licensee may apply to the Director, Department of Mines and Geology, to have the said mineral added to those already specified in his license and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

26. A prospecting license shall not be assigned nor any right or interest thereunder transferred without the consent in writing of the Government. The application for such consent must be made by the licensee himself or by his legal representative and the license itself must be forwarded to the Director, Department of Mines and Geology, with the application together with a draft or document setting forth fully and clearly the terms of the proposed assignment or transfer. If Government decide to consent to the transfer, the Director, Department of Mines and Geology, shall inform the licensee to that effect and the licensee shall, within such period as may be specified by the Director, Department of Mines and Geology, have the document duly stamped and registered and shall forward a certified copy of the same to the Director, Department of Mines and Geology, who shall thereupon endorse upon the license the consent of Government to the transfer and return the license to the licensee. Until the license has been so endorsed no assignment or transfer of rights shall be valid.

Failure to comply with the provisions of this rule will render the license liable to be cancelled and the deposit forfeited.

27. If the licensee desires the renewal of a prospecting license, he shall apply for a renewal and shall forward the license together with the amount of the rent payable for one year to the Director, Department of Mines and Geology, not less than seven days before the date on which the license terminates.

28. Within three months after the date on which a license has expired the licensee shall forward the license to the Director, Department of Mines and Geology, and shall, at the same time, apply for the refund of the deposit, failing which the deposit will be liable to be forfeited.

### III. MINING LEASES.

29. Applications for mining leases within the territories of Mysore shall be made to the Director, Department of Mines and Geology in Form No. IV appended hereto.

30. Every application shall be in respect of a specified block of land not exceeding one square mile in area. The block shall be in the shape of a rectangle of which the length must not under ordinary circumstances exceed four times the breadth. The boundaries of the mining block shall be considered to run vertically downward towards the centre of the earth.

In the case of precious stones or alluvial deposits the area to be granted under a mining lease will be determined in each case by the Government.

31. Every mining lease granted under these rules will be for a period not exceeding thirty years and will be in Form No. V appended hereto.

32. Every application must be accompanied by:—

(a) A fee of Rs. 100.

(b) A sheet, extract or correct tracing of the Topographical Survey map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the Taluk and District in which each is situated.

(d) A schedule specifying the mineral or minerals in respect of which the mining lease is applied for.

33. On receipt of any application the Director, Department of Mines and Geology, will, if the Government decide to grant a lease, inform the applicant of their decision and of the special terms, if any, which they may consider desirable to impose and the applicant shall, within one month of receiving this information, deposit with the Director, Department of Mines and Geology a sum of Rs. 1,000 as security for the due fulfilment of the provisions of these Rules and of the terms of the lease. Subject to any deductions in these respects the deposit will be returnable to the lessee after the termination of the lease.

If Government decline to grant a lease or if the applicant declines to accept any special terms which may be imposed, the fee of Rs. 100 paid with the application will be returned.

34. The applicant shall point out to an officer deputed for the purpose by the Director, Department of Mines and Geology, the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect or within such longer period as may be fixed by the Director, Department of Mines and Geology and the officer so deputed shall thereupon survey the block and erect or cause to be erected such boundary marks as may be requisite.

35. If from any cause the completion of the survey and demarcation of a mining block is likely to be unduly delayed, the Government may grant the lease in respect of a block of land shown on an extract from the Topographical Survey Map of Mysore which shall be attached to the lease. On subsequent survey and demarcation, the boundaries of the block of land to which the lease refers shall be determined by Government and their decision shall be final and shall be accepted by the lessee who shall, on demand, pay the cost of the survey and demarcation.

36. After the completion of survey and all necessary enquiries, a form of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore the lease executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

37. The applicant's title to the land applied for will not be complete until the lease is actually executed by the Dewan.

38. The lease shall, after execution, be registered by both parties under the law for the time being in force for the registration of assurances, and shall within one month of the date of registration, be forwarded by the lessee for information and record to the Director, Department of Mines and Geology, who will return it to the lessee after noting its contents.

39. If the lessee discovers any mineral of value within the area specified in his lease, he shall immediately report the discovery to the Director, Department of Mines and Geology. If the mineral so reported is not one of those in respect of which the lease has been granted, the lessee may apply to the Director, Department of Mines and Geology, to have the said mineral added to those already specified in his lease and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

Provided that if any mineral of value is known to occur on or within the mining block Government may give the lessee the option of having such mineral added to those specified in the schedule to his lease and in the event of the lessee declining to exercise the option upon the terms offered, Government shall have power to grant a prospecting license or mining lease in respect of such mineral to any other person.

40. The lessee shall not assign his lease or transfer any right or interest thereunder to a person except with the previous consent of the Government in writing.

The lessee shall in applying to Government for permission to transfer or assign the lease report to Government the name and financial position of the assignee and also submit for approval a draft of the proposed deed of assignment. When the Government has communicated its assent to the transfer and to the deed of assignment, the deed of assignment or

document of transfer shall be duly stamped and registered in accordance with the laws in force in the State of Mysore at the time and a certified copy thereof deposited with the Director, Department of Mines and Geology, within three months of the date of execution thereof.

41. Failure to comply with the preceding rules will render the application or lease liable to be cancelled and the deposit forfeited.

#### IV. GENERAL.

42. The royalties payable to Government in respect of minerals worked under a prospecting license or mining lease are set forth in the schedule hereto. The rates are liable to alteration from time to time, due notice of which will be published in the official Gazette.

43. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

44. Topo sheets of Mysore marked with areas granted for prospecting and mining are kept at the office of the Department of Mines and Geology and may be inspected by the public on payment of a fee of one rupee per sheet.

45. Persons desirous of having their own topo sheets or other maps of Mysore marked with areas granted for prospecting and mining may apply to the Director, Department of Mines and Geology, for the same. A fee of four annas will be charged for each block marked.

46. A licensee desirous of securing a copy of his prospecting license may apply to the Director, Department of Mines and Geology, for the same stating the purpose for which the copy is required. The Director may, if satisfied with the reasons assigned, issue a duplicate copy of the license on payment of a fee of Rs. 10.

47. The rules for the conduct of prospecting and mining operations in forest lands are printed for information in the appendix hereto.

#### SCHEDULE.

##### ROYALTIES.

*(Subject to alteration by notification in the Mysore Gazette.)*

##### *(a) Royalty on Gold and Silver.*

(1) No royalty shall be paid so long as the operations in connection with the mining block do not result in any net profits to the lessee.

(2) For each calendar year in which the operations result in a balance of net profit to the lessee, the rate of royalty shall be 5 per cent of the gross sale value of the gold and silver.

(3) For each calendar year for which the net profits exceed the sum of £25,000, the lessee shall pay an additional royalty of 5 per cent of all net profits in excess of £25,000.

Provided that in the case of the lessee being a duly registered Company, the words "Divisible profits" may at the discretion of the lessors be substituted for "Net profits" in this clause.

##### *(b) Royalty on Manganese Ore.*

(1) The royalty shall be payable quarterly.

(2) On all ore despatched during any quarter the royalty shall be paid within thirty days of the close of the quarter and shall be calculated on the average market rate (in London) for 50 per cent ore during the quarter in accordance with the following scale:—

Scale.		Royalty.
Average market rate per unit for 50 per cent ore		
9d. and under	...	... One anna per ton.
Over 9d. and up to 10d.	...	... Two annas per ton.
For each additional 1d. per unit or portion thereof	...	... An additional two annas per ton.

NOTE.—The decision as to the average market rate and the rate of royalty payable for the quarter will rest with the Government of His Highness the Maharaja of Mysore whose decision shall be final.

(c) *Royalty on Chrome Ore.*

- (1) The royalty shall be payable quarterly.
- (2) On all ore despatched during any quarter the royalty shall be paid within thirty days of the close of the quarter and shall be calculated on the average market rate in London during the quarter according to the following scale:—
  - (a) A royalty of 6 annas per ton when the market rate does not exceed 9d. per unit.
  - (b) For each increase of  $\frac{1}{2}$ d. or portion thereof per unit an additional royalty of one anna per ton.

(d) *Royalty on Precious Stones.*

Thirty per cent on the net profits of each year taken separately.

(e) *Royalty on all other minerals not Specified above.*

Five per cent on the sale value at the pit's mouth or on surface of the dressed ore or metal, convertible at the option of the lessors to an equivalent charge per ton to be fixed annually or for a term.

NOTE.—“*Net Profits*” shall be taken to mean the excess of the revenue which is wholly derived from the sale of the mineral or minerals specified over expenditure, after all costs and expenses chargeable to the actual working and management of the mine shall have been included. But neither depreciation, nor amortization, nor Director's fees, nor any revenue or expenditure obtained or incurred on account of share or capital transactions, or by trading, shall be brought into account, provided that the fees of such Director or Directors as may actually direct technical operations and are specifically denoted as Managing Director or Directors may be included in the expenditure.

*Divisible profits* shall be declared dividends and bonuses or other payments made out of net profits to or on behalf of the shareholders and interest on debentures.

## APPENDIX.

Rules for the Conduct of Prospecting and Mining Operations in forest lands.

*Notification by the Government of His Highness the Maharaja of Mysore,  
General and Revenue Departments.*

No. R. 10777—Ft. 81-08-6, dated 21st June 1909.

## EXPLORING LICENSES.

1. The holder of an exploring license shall obtain from the District Forest Officer permission to enter upon and explore for minerals in any forest lands within the area to which the license applies.
2. Such permission will ordinarily be freely granted, but will not entitle the licensee to cut or injure any forest growth or to dig or turn up the surface of the land to a greater depth than three feet and the licensee must, before leaving the locality, fill up any excavations which he may have made, to the satisfaction of the District Forest Officer.
3. Should the licensee desire to make trenches or sink pits to a depth greater than three feet, he must obtain the sanction of the District Forest Officer in each case and pay compensation at the rate provided hereunder for any forest growth which may be injured or destroyed and shall undertake to fill up all excavations to the satisfaction of the District Forest Officer.

## PROSPECTING LICENSES AND MINING LEASES.

4. No prospecting license or mining lease shall ordinarily be granted in forest lands except with the sanction of the Conservator of Forests.

Prospecting and mining operations will generally not be permitted in plantations, coupes which have been worked over and in tracts containing specially valuable growth of sandal, teak or other species of trees.

5. Before commencing any prospecting or mining operation in any forest lands, the licensee or lessee or his duly authorized agent or representative shall give notice to the District Forest Officer of his intention so to do, and shall, at the same time, forward to the District Forest Officer a statement of the area or areas proposed to be operated upon and their dimensions and a sketch map on a suitable scale showing the said area or areas and

their relative positions and shall deposit with the District Forest Officer the amount of compensation due on the said area or areas calculated in accordance with Rule 9. Each area to be operated upon, except such as may be required for a railway, tramway, road or foot-path, shall be in the form of a rectangle, of which no side shall be less than 10 yards long, and shall be defined by cairns of stones. Each area shall be distinguished by a letter of the alphabet in the abovementioned statement and map.

A consolidated statement and a complete map shall be maintained up to date and kept on the prospecting or mining block by the person in charge of the operations.

6. In any prospecting or mining block, the total area which may be operated upon or cleared of forest shall not exceed 25 acres except with the permission in writing of the District Forest Officer, and no railway, tramway, road or foot-path shall be made without such permission. Such permission will be granted from time to time in each case for an area not exceeding 25 acres on the application of the licensee or lessee, provided that the additional area is required for the *bona fide* extension of prospecting or mining operations.

The areas operated upon shall include all those the surfaces of which have been opened up by means of pits, trenches or other excavations or covered with earth, stones, debris, machinery, buildings, etc., or upon which the forest growth has been injured or destroyed, or over which any railway, tramway, road or foot-path has been made.

7. In the case of all buildings, machinery or other structures erected upon the block and in the case of every place where fire or lights are used at any time or round any working or dwelling place where the District Forest Officer considers it to be necessary for safety, the forest growth shall be cleared for a distance of 10 feet round the limits of such structure or place to such extent as the District Forest Officer may require.

8. As soon as possible after the receipt of the statement and map referred to in Rule 5, the District Forest Officer shall prepare a bill for the amount of compensation due at the rates specified hereunder and after crediting the amount deposited under Rule 5 shall adjust or require the licensee or lessee to adjust any balance as may be necessary. In default of payment the District Forest Officer may, at his discretion, stop all further operations and take steps to recover the amount due as a revenue demand.

In the event of any area not included in the map and statement required by Rule 5, being found to have been operated upon, the District Forest Officer may, at his discretion, stop all further operations and recover compensation for the same at double the rates provided hereunder.

9. The licensee or lessee shall—

(a) pay a lump sum for the value of forest growth and for damage and disfigurement to the surface on all areas operated upon or cleared, at the following rates:—

- |  |  |
|--|--|
| (1) In State Forests or reserved lands.  | { High and pole forests, Rs. 100 per acre.<br>Other forests, including scrub, Rs. 50 per acre. |
| (2) In District Forests which have been specially brought within the scope of these rules. | { High and pole forests, Rs. 50 per acre.<br>Other forests, including scrub, Rs. 25 per acre.  |

(3) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates.

(4) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile.

(b) undertake not to cut sandalwood except with permission of the Forest Department and on payment of an extra charge to be fixed by the Conservator.

N.B.— The decision of the Conservator of Forests as to whether any particular forest is high, pole or scrub shall be final.

10. The licensee or lessee shall not fell, girdle or lop any tree outside the area or areas shown and described in the map and statement referred to in Rule 5.

11. Nothing in the foregoing rules shall be taken to exempt the licensee or lessee or his employees from liability in respect of any forest offence punishable under the Mysore Forest Regulation, 1900.

## EXPLORING LICENSE.

*(Under the Rules published with Notification No. G. 15407—Geol. 5-15-5,  
dated 12th May 1916.)*

EXPLORING LICENSE granted this \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_, by the Government of His Highness the Maharaja of Mysore, to hereinafter called the licensee.

WHEREAS the licensee has applied in accordance with the rules published under Notification No. G. 15407—Geol. 5-15-5, dated 12th May 1916, for a license to explore for minerals in the area described in the Schedule hereto and has paid the prescribed fee of Rs. 10:—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the Licensee, subject to the restrictions, conditions and provisos hereinafter contained, license and liberty to enter upon the lands within the area aforesaid and to explore and search the surface of the same for minerals, stones or rocks for a period of one year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may from time to time impose, to remove any specimen or samples thereof found by the licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State Forest or land under special protection included in the land described in the schedule hereto, without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may under any general or special order of Government prescribe.

3. This license is subject to any vested interests and to any rights and liberties which have been granted or which may be granted at any time during the currency of the license by Government in the said area, or in the minerals, stones or rocks therein contained.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall be at liberty to turn up the surface and to dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water-courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred.

10. The licensee may with the permission of the Deputy Commissioner remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall within ten days of the discovery by him, his servants, workmen or agents, of any and all precious stone or stones upon the said lands, report the discovery to the Director, Department of Mines and Geology and shall produce the stones when called upon to do so and shall pay to Government by way of Royalty fifteen per cent of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and, if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed hereunder shall absolutely cease and determine.

## PROSPECTING LICENSE.

(Under the Rules published with Notification No. G. 15407—Geol. 5-15-5,  
dated 12th May 1916.)

PROSPECTING LICENSE granted this \_\_\_\_\_ day of \_\_\_\_\_  
19\_\_\_\_, by the Government of His Highness the Maharaja of Mysore  
to \_\_\_\_\_  
hereinafter called the licensee, which expression shall be taken to mean the said.....  
his successors and assigns except where the context requires another or different meaning.

WHEREAS the licensee has applied in accordance with the rules published under Notification No. G. 15407—Geol. 5-15-5, dated 12th May 1916, for a license to prospect for minerals in the area described in schedule A hereto, delineated in the plan hereto annexed and containing

\_\_\_\_\_ square miles or thereabouts, and has paid the sum of Rs. \_\_\_\_\_ being the deposit  
required in respect of the license together with the sum of Rs. \_\_\_\_\_ being the rent for  
one year in respect of the said area:—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the licensee for a period of one year from the date hereof, license and liberty to prospect for such minerals as are generally or particularly described in Schedule B and to work, win, and carry away, as and for his own use any or all of the minerals aforesaid, subject to the payment of the royalties specified in Schedule C hereto.

2. This license and any lease granted hereunder is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area, or in the gold, minerals, stones or rocks therein contained, prior to the date of the grant hereof.

3. The licensee shall forthwith thoroughly and vigorously prospect and examine the said area, and make, dig and carry out all necessary trenches, pits and other works as are necessary or proper for the efficient prospecting thereof.

4. All operations under this license shall be conducted under such supervision and in accordance with such regulations as the Government may, from time to time, prescribe.

5. The licensee shall, within six months next after the determination of the license or the date of the abandonment of the undertaking, whichever shall first occur, securely plug any bores and fill up or fence any holes or excavations that he may have made in the land, to such extent as the Deputy Commissioner may require, and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting; provided that this clause shall not apply to any land held under a mining lease.

6. The licensee shall keep proper accounts and plans, and furnish to the Director, Department of Mines and Geology, full and correct information as to all minerals, stones and rocks found or mined and raised in the course of operations under this license and as to the treatment, preparation and disposal of the same.

7. The licensee shall afford any other information in connection with the said area and the works carried on there, and furnish any samples which the Government may ask for. The licensee shall give every facility to the Government in inspecting the work carried on in the said area and in taking samples of minerals, stones, and rocks found, mined, raised or being in or on the same area and any products obtained or prepared therefrom. The Government will pay a fair price for any samples of intrinsic value.

8. In the course of prospecting operations no occupied or private lands shall be entered upon or disfigured except under agreement in writing with the occupant or owner thereof.

9. The licensee shall not enter upon or commence prospecting in any State Forest or land under special protection comprised in the said area, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777—Ft. 81-08-6, dated 21st June 1909.

10. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves, burial grounds, village sites for houses or grazing lands, which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages, houses or other private property whether in the said area or adjoining thereto.

11. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

12. The licensee shall not without the permission in writing of the Deputy Commissioner cut or injure any trees or timber on unoccupied and unreserved lands other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted.

13. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.

14. If prospecting work is not commenced within six calendar months from the date hereof and carried on to the reasonable satisfaction of Government, or if there shall be any other breach by the licensee of any provision in this license contained, the license may be summarily revoked by Government and thereupon all rights conferred hereby or enjoyed hereunder shall cease.

15. The licensee shall be at liberty at any time during the term of this license to select for mining purposes a block of land not exceeding one square mile in area and not more than one mile from end to end in any direction within the area to which this license applies and shall be entitled to the grant of a mining lease in respect of the block so selected in accordance with the Rules for the grant of mining leases published under Notification No. G. 15407—Geol. 5-15-5, dated 12th May 1916. Provided that the total area held by a licensee under mining leases shall not exceed ten square miles. When such mining lease has been granted to the licensee, this license shall immediately cease and determine.

16. Whenever a *bona fide* application is received for the grant for purposes of cultivation of any assessed unoccupied land comprised in the area covered by this license, the licensee will be given the option of keeping the land for his benefit if he pays the assessment on the land for the year for which the license is granted and if at the end of that year the licensee wishes further to retain the land he will be permitted to do so on payment of such price for the occupancy as may be demanded from him in addition to the assessment. Otherwise the land will be disposed of under the darkhast rules.

Local cesses, taxes or rates.

8. AND YIELDING AND PAYING within the times set forth in the covenant by the lessee in this behalf hereinafter contained a royalty at the rates set forth in Schedule C hereto annexed on all minerals removed from the mining block or on all intermediate or finished products obtained or prepared therefrom without any deduction for the cost of the processes employed;

Royalties.

9. AND YIELDING AND PAYING such dead rent not exceeding a rate of rupees five per annum per acre of the whole or of any portion of the mining block as the lessors may, in the event of their being not satisfied with the operations conducted under the lease or with the results thereof, decide to levy for any particular years of the said term after the expiration of the first two years of it, provided that both royalty and dead rent shall not be paid by the lessee but only such one of them as may be of the greater amount;

A dead rent.

And it is hereby declared that the expression "the liabilities under this lease" shall hereafter include all the cesses, taxes, rates, royalties, rents, compensation, indemnities and other payments in this lease reserved and made payable by the lessee;

10. AND THE LESSEE HEREBY COVENANTS WITH THE LESSORS THAT THE LESSEE WILL, within the space of one year from the commencement of this lease, start mining operations throughout the mining block to the reasonable satisfaction of the lessors;

Covenants by lessee. To start mining operations within one year.

11. AND WILL, at all times during the said term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search for and mine and raise all specified minerals on or in the mining block and obtain or prepare therefrom intermediate or finished products of a saleable nature;

To prosecute operations without intermission.

12. AND WILL, throughout the said term, keep all mines, buildings, pits, shafts, ladders, plats, sollars, timber, ropes, water-courses, air-gates, engines, machines, and other mining and metallurgical plant on or in the mining block in good repair, working order and condition;

To keep all mines, buildings, machinery, etc., in good order.

13. AND WILL, if required and before the sale thereof, deliver to or permit to be taken by the lessors, or their agents, a sample or samples of all minerals found or mined and raised and all intermediate and finished products sold or intended for sale, all such samples so taken when of intrinsic value being paid for by the lessors at the current market rate;

To deliver to, or permit to be taken by, lessors samples of minerals and products.

14. AND WILL, immediately after any sale of minerals or intermediate or finished products, give to the lessors or their agents a return of the prices for which the same, respectively, have been sold and, if required, the names of the purchasers thereof;

To make return of prices to lessors.

15. AND WILL, within the times specified in Schedule C, pay to the lessors the royalties hereinbefore and in Schedule C hereto provided;

To pay royalties within specified times.

16. AND WILL pay all other liabilities under this lease as and when they respectively become payable ;  
To pay other liabilities under lease.

17. AND WILL afford to the lessors every information concerning the mines and buildings and mining and metallurgical plant in or on the mining block, the mode in which operations are carried on, the minerals found or mined and raised on or in the mining block, the intermediate or finished products obtained or prepared therefrom, the persons employed by the lessee, and all other information connected with the mining block or the provisions of this lease as the lessors may require ;  
To afford every information connected with the mining block or the provisions of this lease.

18. AND WILL furnish, in such manner and to such persons as the lessors may from time to time direct, samples of all stones and rocks met with on or in the mining block with full details as to the locality and mode in which the same respectively were discovered and the dates of discovery ;  
To furnish samples of rocks, etc., met with in the mining block, with details as to mode of occurrence, etc.

19. AND WILL not assign or under-let or part with the possession of all or any of the rights, liberties, licenses and premises by these presents demised and granted, or any interest or share therein without the consent, in writing, previously obtained, of the lessors ;  
Not to assign without previous consent of lessors.

20. AND WILL deliver to the lessors a copy of every assignment or under-lease of all or any of the rights, liberties, licenses and premises by these presents demised and granted or any interest or share therein within three calendar months after the date of the execution of such assignment or under-lease ;  
To deliver to lessors copies of all assignments.

21. AND WILL, throughout the said term, make and keep in some convenient place on the mining block and so that the lessors or their agents can have, at all times, free access thereto, proper books of accounts in such form as the lessors may approve, giving full and accurate particulars of the working and yield of all mines and mining and metallurgical plant in or on the mining block and the costs thereof and of the disposal of the minerals and intermediate and finished products found, mined, raised, obtained or prepared on, in or from the mining block with all particulars of quantities, dates and other facts and circumstances necessary or proper for ascertaining the exact value of such finished products and the finished products which can be obtained or prepared from such minerals and intermediate products and also correct maps, plans and sections of the mining block and of the mines and mining and metallurgical plant therein or thereon upon such scale or scales and in such manner as the lessors may from time to time direct showing as well the pits, shafts, drives, cross-cuts, winzes, rises, stopes and other excavations, operations and works which have been carried on, as also all beds and veins and all faults and other disturbances which have been observed and encountered therein ;  
To keep proper books of accounts, plans, etc.

22. AND WILL, at his own cost, when required by the lessors or their agents, give to them copies of all or any entries in the said books and of every such map, plan and section as aforesaid ;  
To give copies thereof.

23. AND WILL, at his own cost, when required by the lessors or their agents, furnish to them true and correct abstracts of all or any such accounts as aforesaid ;  
To furnish abstracts thereof.

24. AND WILL, at all reasonable times, allow such officers and persons as the lessors may in that behalf appoint to enter into and have free access to the place or places where the said books, maps, plans and sections may be kept in order to examine and inspect them, take copies thereof and make extracts therefrom ;  
To allow free access to places where such books, plans, etc., may be kept.

25. AND WILL, at the end or sooner determination of the said term, give up to the lessors the said books, maps, plans and sections in good and perfect condition ;  
To give up to lessors books and plans at end of term.

26. AND WILL, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require ;  
To erect boundary marks.

27. AND WILL, well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft ;  
To secure pits and shafts.

28. AND WILL NOT, until the license, in writing, of the lessors or their agents be obtained, willfully close, fill up or choke any mine or shaft ;  
Not to fill up shafts or mines.

29. AND WILL, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe ;

To enforce sanitary rules.

30. AND WILL, at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and other works for water-power or water-supply, hospitals, sanitary works, Government offices, Police stations and other buildings or works of public utility which are in the opinion of the lessors desirable or required for or in connection with the persons employed by the lessee or in work under or in connection with any contract made by the lessee or who are engaged in supplying the wants of those so employed and the families and dependants of such persons or in connection with the inspection of the mines or the prevention of crime ; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon ;

To set apart land for public purposes.

31. AND WILL, permit the lessors and their agents, servants and workmen, throughout the said term, to enter upon any part of the mining block above or below ground and inspect and examine the state and condition thereof and of the mines and buildings and mining and metallurgical plant therein or thereon and the mode in which operations are carried on and will further, with proper persons employed by the lessee, and acquainted with mining and metallurgical operations and with the engines, machinery and apparatus and other mining and metallurgical plant upon or within the mining block, effectually assist in the conduct of every such inspection and examination, affording all information required therefor ;

To permit lessors to inspect mines, etc.

32. AND WILL from time to time, and at all times during the said term hereby granted conform to and observe all orders and regulations which the lessors, or their agents, duly authorized in this behalf may, from time to time, see fit to issue and prescribe for the proper carrying on of all mining work and other operations within the mining block or for the preservation and security of any railway, reservoir, tank, canal or other public works or buildings or in the interests of the health, well-being and safety of persons employed by the lessee or who may be on the mining block or in its neighbourhood, and also will without delay send to such officers as may be named for this purpose by the lessors, a report of any accident which may at any time occur in connection with any mining or metallurgical operations in or on the mining block ;

To conform to mining regulations and report accidents.

33. AND WILL in the exercise of the license and liberties hereby granted, abstain from entering upon the surface of any occupied Government land or of any Inam land comprised within the mining block without previously purchasing the rights or obtaining the consent of the occupant, holder or tenant of such land, by an instrument, in writing, duly registered, and if any damage or injury be caused to the surface of any such land by any operations carried on under this lease, will duly compensate the occupant, holder or tenant thereof, for all such damage or injury ;

To abstain from entering occupied land and compensate for injury to surface.

34. AND WILL keep open and in no way obstruct any road, path or by-way of any kind whatsoever now existing or which may hereafter be made on the mining block ;

Not to obstruct roads, etc.

35. AND WILL permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways and railways for all purposes and as occasion shall require ; and will when required by the lessors so to do set apart and appropriate for free use by the lessors or other persons authorized by them in that behalf such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for the objects above mentioned ; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining

To permit lessors to make roads, tramways, railways, etc.

operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for monies expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

36. AND WILL abstain from all interference with and allow to the public and the lessors the free use of any tanks, water-courses, places of worship, sacred groves, burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as hereinbefore provided on the mining block;

To allow free use of tanks, water-courses, etc., to the public and the lessors.

37. AND WILL NOT cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

Not to use the land for other purposes.

38. AND WILL NOT, without the express sanction of the Deputy Commissioner for the time being of the District, cut down or injure any trees or timber on unoccupied and unreserved lands other than brush-wood or under-growth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted;

Not to cut trees, etc.

39. AND WILL NOT, enter upon or commence any mining operations in any State Forest or land under special protection comprised in the mining block, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777—Ft. 81-08-6, dated 21st June 1909;

Not to enter upon or commence operations in State Forests, etc.

40. AND WILL NOT, so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to village communities or to individuals in any part of the mining block;

Not to interfere with grazing rights.

41. AND WILL, from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against all claims, demands, and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

42. AND WILL NOT, without the express sanction of the Deputy Commissioner for the time being of the District, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner as to injure or deteriorate any source of water power or supply or so as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

To respect water right and not injure adjoining property.

43. AND WILL, at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition, and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained the mining block and all mines and buildings and all pits, shafts, ladders, plats, sollars, timber, ropes, water-courses, air-gates, engines, machines, and other mining and metallurgical plant below and above ground which are, in the nature of fixtures, necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they the lessors do not intend to take over any of such buildings, engines and machinery, plant and other things, in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

To deliver to lessors mines, buildings, etc., on expiration of term.

44. AND WILL, at all times, have at the mining block a duly accredited Superintendent or Agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

45. AND WILL, at all times, keep the lessors duly informed of the name and address of the Superintendent or Agent aforesaid and of any temporary or permanent alteration of such name or address;

46. PROVIDED ALWAYS that, if and whenever any part of the liabilities under this lease shall be in arrear for the space of sixty days after the expiration of the time prescribed by these presents for payment thereof, the lessors shall be at liberty to seize all minerals and intermediate and finished products in or about the mines or pits opened, worked or carried on by the lessee in the mining block, and any engines, machinery or other property found in the mining block and the lessors may sell or otherwise dispose of and deal with the property thus seized and from the monies produced thereby may deduct and retain all liabilities under this lease and all expenses incurred in or about any such seizure and sale;

47. PROVIDED ALSO, and these presents are upon this express condition, that if and whenever any part of the liabilities under this lease shall be in arrear for the space of six calendar months next after any of the days whereon the same ought to be paid as herein provided, whether the same have been legally demanded or not, or if the lessee, or the lessee's workmen shall cause any obstruction or annoyance to the officers of the lessors or to the people of the country or if the lessee shall cease to carry on the regular working of the mines or shall refuse to afford information to the lessors, or if there shall be any other breach of any of the covenants and agreements herein contained and on the part of the lessee to be performed and observed, then and in any such case it shall be lawful for the lessors or their agents duly empowered in that behalf, although they may not have taken advantage of some previous default of a like nature, to re-enter upon any part of the mining block or of the mines, buildings or mining or metallurgical plant or other operations or works in or on the mining block in the name of the whole and thereupon the said term of the thirty years shall absolutely determine and the said deposit of Rs. 1,000 hereinbefore referred to shall be retained by the lessors as and for their own property;

48. PROVIDED ALSO, and it is hereby agreed and declared, that if the lessee shall be desirous of determining the said term of thirty years hereby granted at the expiration of any year of the said term and of such desire shall give to the lessors six calendar months' previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of such year, then and in such case upon the expiration of such year the term hereby granted shall absolutely cease and determine;

49. PROVIDED ALSO, and it is hereby agreed and declared, that if the said term of thirty years hereby granted shall not, prior to the termination thereof by lapse of time, have been determined under the provisions hereinbefore contained, and if the lessee shall be desirous of obtaining a renewed lease of the licenses, rights and liberties hereby granted for a further term of thirty years from the expiration of the term hereby granted and of such desire shall give to the lessors one year's previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of the term hereby granted, then and in such case the lessors will, upon the request and at the expense of the lessee, execute and deliver to the lessee a renewed lease of the said premises for a further term of thirty years in such form and subject to such royalty and other payments and such covenants, agreements and conditions, as the lessors may prescribe.

50. PROVIDED ALSO that should any question or dispute arise regarding the lease or any matter or thing connected with the mines and minerals leased or the working or non-working thereof, or the amount or payment of the royalty or rent reserved or made payable by the lessee, the matter in difference shall be decided by the Government of His Highness the Maharaja of Mysore whose decision thereon shall be final.

The following revised rules regulating the admission into and the loan of books, etc., from the General and Revenue Secretariat (New) Library are issued for guidance.

#### RULES REGULATING ADMISSION, LOAN OF BOOKS, ETC.

1. The Library shall be open from 11 A.M. to 5 P.M.
2. Admission shall be restricted to Gazetted Officers, Members of the Legislative Council and the Economic Conference.
3. Books should not be lent out of the Library unless duplicate copies are available. Requisitions for books should be on a printed form prescribed for the purpose.
4. The time allowed for retention of books shall be one week.
5. The officials of the General and Revenue Secretariat not lower in rank than First Division Clerks may likewise have the loan of the books when they are required for official reference.
6. The Librarian should open a register in the prescribed form and duly fill up the columns therein before a requisition is complied with, the serial number of the entry in the register being the same as that noted on the requisition slip.
7. A list of books lent out and not returned within the prescribed time should be prepared by the Librarian and submitted to the Registrar on the 5th of every month and orders be obtained for their recall.
8. The borrower shall be responsible for the value of the books lent out to him if they have been lost or mislaid or otherwise cannot be returned to the Library after such recall. The presence of the voucher with the Librarian shall be considered sufficient proof of such non-return.
9. A printed copy of these rules shall be pasted on to the inner face of the cover of every book in the Library.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public, that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such

securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

## RAILWAYS.

No. 125-126, dated 8th July 1916.

In continuation of Government Notification No. G. 121—G. M. 76-15-304, dated 4th July 1916, the following Notification No. 4183-90-W-11, dated the 10th June 1916 issued by the Government of India in the Department of Commerce and Industry, publishing a consolidated list of prohibited and restricted exports from the United Kingdom, is hereby republished for general information.

*The 10th June, 1916.*

No. 4183-90-W.-II.—The following Royal Proclamation is published for general information:—

BY THE KING.

A PROCLAMATION.

PROHIBITING, UNDER SECTION 8 OF "THE CUSTOMS AND INLAND REVENUE ACT, 1879," AND SECTION 1, OF "THE EXPORTATION OF ARMS ACT, 1900," AND SECTION 1 OF "THE CUSTOMS (EXPORTATION PROHIBITION) ACT, 1914," AND SECTION 1 OF "THE CUSTOMS (EXPORTATION RESTRICTION) ACT, 1914," THE EXPORTATION FROM THE UNITED KINGDOM OF CERTAIN ARTICLES.

GEORGE R. I.

Whereas by Section 8 of "The Customs and Inland Revenue Act, 1879," it is enacted that the exportation of arms, ammunition, and gunpowder, military and naval stores, and any articles which We shall judge capable of being converted into or made useful in increasing the quantity of military or naval stores, provisions, or any sort of victual which may be used as food for man may be prohibited by Proclamation:

And whereas by Section 1 of "The Exportation of Arms Act, 1900," it is enacted that We may by Proclamation prohibit the exportation of all or any of the following articles, namely, arms, ammunition, military and naval stores, and any article which We shall judge capable of being converted into or made useful in increasing the quantity of arms, ammunition, or military or naval stores, to any country or place therein named whenever We shall judge such prohibition to be expedient in order to prevent such arms, ammunition, military or naval stores, being used against Our subjects or forces or against any forces engaged or which may be engaged in military or naval operations in co-operation with Our forces:

And whereas by Section 1 of "The Customs (Exportation Prohibition) Act, 1914," it is enacted that Section 8 of the aforesaid Customs and Inland Revenue Act, 1879, shall have effect whilst a state of war in which We are engaged exists as if in addition to the articles therein mentioned there were included all other articles of every description:

And whereas it is further enacted by Section 2 of "The Customs (Exportation Prohibition) Act, 1914," that any Proclamation or Order in Council made under Section 8, as so amended, of "The Customs and Inland Revenue Act, 1879," may whilst a state of war exists be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by Section 1 of "The Customs (Exportation restriction) Act 1914," it is enacted that Section 1 of "The Exportation of Arms Act, 1900," shall have effect whilst a state of war in which We are engaged exists as if, in addition to the articles therein mentioned, there were included all other articles of every description:

And whereas it is further enacted by Section 2 of "The Customs (Exportation Restriction) Act, 1914," that any Proclamation made under Section 1 of "The Exportation of Arms Act, 1900," may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas a Proclamation dated the 28th July, 1915, and various Orders dated respectively the 30th July, the 3rd and the 12th August, the 16th September, the 4th, the 13th and the 19th October, the 3rd and the 24th November, the 13th, the 20th, and the 28th December, 1915, the 28th January, the 12th and the 23rd February, the 16th and the 30th March, and the 14th April, 1916, prohibiting the exportation of certain articles therein referred to from the United Kingdom to certain or all destinations, have been issued in pursuance of the aforesaid powers:

And whereas it is expedient that the said Proclamation and Orders should be consolidated, with amendments and additions, and that such Proclamation and Orders should be revoked :

And whereas We have deemed it expedient to prohibit the exportation of the articles hereinafter enumerated :

Now, THEREFORE, We have thought fit by and with the advice of Our Privy Council, to issue this Our Royal Proclamation, declaring, and it is hereby declared, that the abovementioned Proclamation and Orders be and the same are hereby revoked :

And We have further thought fit, by and with the advice aforesaid, and in virtue and in exercise of the powers aforesaid, further to declare, and it is hereby declared, as follows :—

That the exportation of the goods mentioned in the Schedule hereto be prohibited as follows :—

- (1) Goods marked (A), to all destinations ;

- (C) Charcoal;
- Chemicals, drugs, dyes and dye stuffs, medicinal and pharmaceutical preparations and tanning extracts, the following:—
  - (B) Acetanilide;
  - (A) Acetates, all metallic;
  - (A) Acetic acid;
  - (A) Aceto-celluloses;
  - (A) Acetone and its compounds and preparations;
  - (A) Acetylsalicylic acid (aspirin) and its preparations;
  - (A) Alcohol, absolute;
  - (A) Alcohol, methylic;
  - (A) Aluminium nitrate;
  - (B) Aluminium, oxides of, and mixtures containing aluminium oxides;
  - (C) Aluminium, salts of (except aluminium nitrate and sulphate; aluminio-ferric and ammonium alum);
  - (B) Aluminium sulphate;
  - (B) Aluminio-ferric;
  - (A) Amidol and mixtures containing amidol;
  - (A) Amidopyrine;
  - (B) Ammonia and its salts, whether simple or compound (except ammonium nitrate, perchlorate and sulphocyanide);
  - (B) Ammonia, liquefied;
  - (B) Ammonia liquor;
  - (B) Ammonium alum;
  - (A) Ammonium nitrate, perchlorate and sulphocyanide;
  - (A) Amyl acetate;
  - (A) Anthracene oil;
  - (C) Antimony, compounds of (except sulphides and oxides of antimony);
  - (B) Antimony, sulphides and oxides of;
  - (A) Antipyrine (phenazone) and its preparations;
  - (A) Anti-tetanus serum;
  - (C) Arsenic, compounds of arsenic, and mixtures containing arsenic;
  - (B) Barium sulphate;
  - (A) Belladonna and its preparations;
  - (A) Belladonna alkaloids, and their salts and preparations;
  - (B) Benzoic acid (synthetic) and benzoates;
  - (A) Benzol and its compounds and preparations;
  - (C) Bismuth and its salts (except bismuth nitrate);
  - (A) Bismuth nitrate;
  - (C) Bleaching powder;
  - (C) Borax and mixtures containing borax;
  - (C) Boric acid;
  - (C) Boron compounds;
  - (B) Bromine and alkaline bromides;
  - (A) Caffeine and its salts;
  - (B) Calcium carbide;
  - (C) Calcium sulphate;
  - (C) Calcium sulphide;
  - (B) Cantharides;

- (A) Carbolic acid and compounds thereof, and preparations containing carbolic acid;
- (A) Carbon disulphide;
- (B) Carbon tetrachloride and its preparations;
- (A) Cerium, oxide and salts of;
- (A) Chloral and its compounds and preparations;
- (A) Chlorates, all metallic;
- (B) Chlorine;
- (B) Chromium, compounds of (except chromium acetate, chromium chlorate and chromium nitrate), and mixtures containing such compounds of chromium;
- (A) Chromium acetate;
- (A) Chromium chlorate;
- (A) Chromium nitrate;
- (A) Coal tar, all products (except creosote) obtainable from and derivatives thereof, suitable for use in the manufacture of dyes and explosives whether obtained from coal tar or other sources, and mixtures containing such products or derivatives;
- (A) Cobalt nitrate;
- (B) Cobalt, oxides and salts of (except cobalt nitrate), and mixtures containing such oxides or salts of cobalt;
- (B) Cocaine and its salts and preparations;
- (B) Colchicum and its preparations;
- (A) Collodion;
- (A) Copper acetate;
- (C) Copper, compounds of (except copper acetate, copper iodide, copper nitrate-copper sulphate, and suboxide of copper), and mixtures containing such compounds of copper;
- (B) Copper iodide;
- (A) Copper nitrate;
- (B) Copper, suboxide of, and mixtures containing suboxide of copper;
- (B) Copper sulphate;
- (C) Creosote;
- (A) Cresol, compounds and preparations of cresol (except saponified cresol) and nitrocresol;
- (B) Cresol (saponified);
- (A) Cyanamide;
- (A) Diethylbarbituric acid (veronal) and veronal sodium;
- (A) Dimethylaniline;
- (A) Dyes and dyestuffs manufactured from coal tar products, and articles containing such dyes or dyestuffs;
- (A) Emetin and its salts;
- (A) Ergot of rye;
- (A) Ether, acetic;
- (A) Ether, formic;
- (A) Ether sulphuric;
- (A) Eucaine hydrochloride, eucaine (benzamine) lactate, and their preparations;
- (C) Formic acid;
- (B) Formic aldehyde;
- (A) Fusel oil (amylalcohol);
- (A) Gentian and its preparations;
- (A) Glycerine, and preparations containing glycerine not otherwise specially prohibited;
- (A) Green oil;
- (B) Guaiacol and guaiacol carbonate;
- (C) Halogen derivatives of aliphatic hydrocarbons (except carbontetrachloride, the exportation of which is prohibited to all ports and destinations abroad other than ports and destinations in British Possessions and Protectorates);
- (A) Henbane and its preparations;
- (B) Hexamethylene tetramin (urotropin) and its compounds and preparations;
- (B) Hydrobromic acid;
- (B) Hydrochloric acid;
- (A) Hydroquinone, and mixtures containing hydroquinone;
- (A) Indigo, natural and synthetic;
- (C) Iodine and its compounds and preparations;
- (C) Iron sulphates;
- (A) Ipecacuanha root;

- (B) Magnesium chloride and sulphate and mixtures containing magnesium chloride or sulphate ;
- (A) Manganese, peroxide of ;
- (B) Mercury, compounds and preparations of (except nitrate of mercury), and mixtures containing such compounds of mercury ;
- (A) Mercury nitrate ;
- (A) Methylaniline ;
- (A) Methyl salicylate, and preparations containing methyl salicylate ;
- (A) Metol, and mixtures containing metol ;
- (A) Napthalene and its compounds and its preparations ;
- (A) Neo-salvarsan ;
- (A) Nickel nitrate ;
- (B) Nickel, oxides and salts of (except nickel nitrate), and mixtures containing such oxides or salts of nickel ;
- (A) Nitrates, all metallic ;
- (A) Nitric acid ;
- (A) Nitro-toluol ;
- (A) Novocain and its preparations ;
- (C) Nux vomica and its preparations ;
- (C) Nux vomica alkaloids and their salts and preparations ;
- (A) Opium and its preparations ;
- (A) Opium alkaloids and their salts and preparations ;
- (E) Oxalic acid ;
- (B) Paraffin, liquid medicinal ;
- (A) Paraformaldehyde ;
- (A) Paraldehyde ;
- (A) Perchlorates, all metallic ;
- (A) Phenacetin and its preparations ;
- (A) Phosgene (carbonyl chloride) ;
- (B) Phosphorus and its compounds ;
- (A) Picric acid and its components ;
- (A) Platinum, salts of ;
- (A) Potash, caustic, and articles containing caustic potash ;
- (A) Potassium chlorate, and mixtures containing potassium chlorate ;
- (A) Potassium cyanide, and mixtures containing potassium cyanide ;
- (A) Potassium, nitrate (saltpetre) ;
- (A) Potassium, perchlorate ;
- (A) Potassium, permanganate ;
- (B) Potash salts (except potassium chlorate, cyanide, nitrate (saltpetre), perchlorate and permanganate), and mixtures containing such potash salts ;
- (A) Pyridine ;
- (A) Pyrogallie acid, and mixtures containing pyrogallie acid ;
- (B) Quinine and its salts ;
- (A) Radium compounds ;
- (A) Saccharin ;
- (A) Salicylic acid and its preparations ;
- (A) Salipyrine ;
- (A) Salol and its preparations ;
- (A) Salvarsan ;
- (B) Santonin and its preparations ;
- (B) Senna leaves and pods ;
- (B) Soda, caustic ;
- (C) Sodium carbonate and bicarbonate ;
- (C) Sodium cyanide, and mixtures containing sodium cyanide ;
- (B) Sodium hyposulphite (thiosulphate), and mixtures containing sodium hyposulphite ;
- (B) Sodium prussiate, and mixtures containing sodium prussiate ;
- (A) Sodium salicylate and its preparations ;
- (C) Sodium sulphate and bisulphate (nitre cake) ;
- (C) Sodium sulphide ;
- (A) Spent oxide ;
- (B) Stramonium leaves and seeds ;
- (C) Strontium sulphate ;
- (A) Sulphonal ;
- (A) Sulphur and preparations containing sulphur
- (A) Sulphur, chlorides of ;
- (A) Sulphur dioxide, liquefied ;

- (A) Sulphuric acid ;
- (A) Sulphuric acid, fuming, (oleum) ;
- Tanning extracts, the following :—
  - (A) Chestnut extract ;
  - (A) Oakwood extract ;
  - (A) Valex ;
  - (A) Valonia ;
  - (C) Other extracts and substances for use in tanning ;
- (B) Tartaric acid, cream of tartar, and alkaline tartrates ;
- (A) Theobromine sodium salicylate ;
- (A) Thorium, oxide and salts of ;
- (A) Thymol and its preparations ;
- (B) Tin, chlorides of ;
- (C) Tin, compounds of (except chlorides and oxide of tin) ;
- (B) Tin, oxide of ;
- (A) Toluol and its compounds and preparations ;
- (A) Triphenyl phosphate ;
- (A) Trional ;
- (A) Trioxymethylene ;
- (B) Tungsten, oxides and salts of ;
- (C) Ultramarine, and mixtures containing ultramarine ;
- (B) Urea and its compounds ;
- (A) Xylol and its compounds and preparations ;
- (B) Zinc chloride and sulphate, and mixtures containing zinc chloride or sulphate ;
- (C) China stone ;
- (B) Chronometers ;
- (A) Cinematograph films ;
- (C) Clay, China potters', and ball ;

In continuation of Government Notification No. G. 9530—G. M. 142-15-17, dated 6th January 1916, the following Press Communique dated 16th June 1916, issued by the

Government of India in the Department of Commerce and Industry on the subject of the treatment of goods discharged from German ships requisitioned by the Italian Government, is hereby republished for general information:—

## GOVERNMENT OF INDIA.

## DEPARTMENT OF COMMERCE AND INDUSTRY.

*Simla, the 16th June 1916.*

## PRESS COMMUNIQUE.

The following extract from the *London Gazette*, dated the 12th May 1916, is published for general information:—

## TREATMENT OF GOODS DISCHARGED FROM GERMAN SHIPS REQUISITIONED BY THE ITALIAN GOVERNMENT.

His Majesty's Secretary of State for Foreign Affairs has received, through H. M. Ambassador at Rome, the following Memorandum from the Italian Government on the subject of goods discharged from German steamers which have been requisitioned by them:—

## TRANSLATION.

In order to regulate in a definite and uniform manner the treatment to be accorded to goods discharged from German steamers requisitioned in the ports of the Kingdom and Colonies, the following rules have been laid down:—

(a) The State Departments concerned will within as short a delay as possible proceed to requisition all such goods as can be utilised.

(b) Goods originally belonging to subjects of neutral States may, subject to the observance of the rules laid down under heading (e), be freely imported and re-exported abroad; in the latter case subject always to the existing regulations governing the exportation and transit of goods included in the lists of absolute and conditional contraband.

(c) As regards non-requisitioned goods of German ownership, the Customs may, subject to the observance of the formalities and precautions indicated under (e) allow unlimited re-exportation abroad, or importation into the kingdom, of such of these goods as may be shown by production of reliable documents to have been acquired and paid for by subjects of allied States before February 10, 1915.

As regards goods of German ownership claimed by subjects of neutral States, the Customs authorities may only allow the re-exportation of such of these goods as may be shown by production of reliable documents to have been acquired and paid for before March 1, 1915, and subject to the proviso that for such of these goods as are included

in our lists of absolute and conditional contraband it is necessary to have the further assurance on the part of the Governments of the countries to which they are destined that they will not be re-exported in any way or form.

(d) For goods of German ownership which have not been acquired and paid for by Italians or by subjects of allied States prior to February 10, 1916, or by subjects of neutral States prior to March 1, 1915, no permission can be granted for importation or re-exportation abroad (*i.e.*, to allied or neutral countries) unless the price which the acts of sale show the goods to have fetched, and which the Customs authorities must themselves examine and verify, is first deposited at the Customs. The sum paid will be deposited by the Customs authorities with the Caisse of Deposits and Loans till the end of the war.

Re-exportation to neutral countries of goods from requisitioned German steamers must moreover be subordinated to the observance of the rules and precautions which in general govern exportation and transit of goods to the countries themselves.

(e) The Customs authorities will in no circumstances permit the release of the goods in question for importation into the Kingdom or re-exportation abroad, unless the original bills of lading, duly endorsed, and the proper orders of release, signed by the legal representatives of the shipping companies concerned, or, in their absence, by persons whom the Swiss Consul shall have indicated as authorised to execute the operations of liquidating the goods on behalf of the above mentioned companies have been first presented, and the *nulla osta* of the naval and military authorities in so far as the requisitioning of the goods is concerned has been obtained.

Moreover before consigning the goods the Customs authorities must satisfy themselves

that any expenses incurred by the naval authorities in connection with the goods have been refunded to them.

If in verifying the cases it is found that goods are other than those indicated in the *nulla osta* of the naval and military authorities, the Customs authorities will not allow the operations to proceed unless a fresh *nulla osta* of the above mentioned authorities is produced.

(f) As regards unclaimed goods, the Customs authorities, within a fixed time limit to be fixed by the Ministries of Foreign Affairs and Marine, shall arrange, in Agreement with the Captains of the Ports, for their sale as abandoned goods by public auction, all private negotiations being excluded in every case.

The net proceeds of such sale shall be deposited with the Caisse of Deposits and Loans, in the manner prescribed under (c).

Perishable goods or goods which constitute a danger to public health or the safety

of the ports may be sold at any moment, whoever the owners may be, after their condition and value have been established, and the net proceeds will be deposited in the manner and under the conditions above laid down.

(g) The duty fixed in the existing general tariff will be levied on German goods which are allowed to be imported.

The Ministry for Foreign Affairs will notify the Swiss Legation, as protecting German interests in Italy, of the discharge of cargoes from each of the requisitioned vessels. Thirty days from the day of such discharge will be granted as period within which goods which cannot be requisitioned may be withdrawn. This time-limit may be lengthened, or also reduced, if the exigencies of the port concerned, of commerce, or of public welfare, demand.

Foreign Office,

May 11, 1916.

No. G. 739—G. M. 102-16-18, dated 18th July 1916.

In continuation of Government Notifications Nos. G. 16298—G. M. 76-15-282, and G. 17248—G. M. 76-15-301, dated the 1st and 28th June 1916 respectively, the following letter from the Government of India in regard to the importation into India of goods of Belgian Origin re-exported from the United Kingdom, is hereby republished for general information.

Letter No. 4783-W.-II, dated the 21st June 1916, from the Secretary to the Government of India in the Department of Commerce and Industry to the Governments of Bengal, Bombay, Madras and Burma; the Commissioner in Sind and the Political Resident, Aden.

"In modification of my letter No. 2279-W., dated the 29th April 1916, I am directed to state for the information of His Excellency the Governor in Council His Honour the Lieutenant Governor, that the Government of

Your information

India have decided that goods of Belgian origin re-exported from the United Kingdom will in future be allowed importation into India only when accompanied by copies of specification for Foreign and Colonial Merchandise, or Shipping Bill, as the case may be, prescribed in this Department Notification No. 13467-W., dated the 14th August 1915. The certified copies of the license granted by the Board of Trade, referred to in paragraph 2 of letter mentioned above, will therefore not be required.

2. With reference to paragraph 3 of that letter, I am to say that as regards goods manufactured in Holland with enemy and Belgian labour and material, the certificates of Consular Officers will, in the case of goods obtained through the intervention of a firm in the United Kingdom, be communicated by the India Office direct to the Collector of Customs concerned. In the case of such goods obtained without the intervention of a firm in the Dutch exporter to the Indian importer for submission to the Local Collector of Customs, who, if he is satisfied, would permit the importation of the goods.

3. I am to add that the India Office has also pointed out that the shipment permits referred to in paragraph 5 of my letter of the 29th April last covering goods of Belgian origin going to neutral countries are issued by His Majesty's Consul under instructions from the Foreign Office and not by the Board of Trade."

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council, on the recommendation of the Board of Trade :

And whereas it is provided by Section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade :

And whereas by a Proclamation, dated the 10th day of May 1916, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited :

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 10th day of May 1916, should be amended by making the following amendments in and additions to the Schedule to the same:—

(1) That the heading "(B) Rope made of steel wire, and steel hawsers" should be deleted and there be substituted therefor the heading "(A) Rope made of steel wire, and steel hawsers" ;

(2) That the heading "(c) Sodium carbonate and bicarbonate" should be deleted and there be substituted therefor the headings:—

(c) Sodium bicarbonate ;

(B) Sodium carbonate ;

(3) That the following headings should be added:—

(c) Asphalt, coal tar ;

(A) Boilers ;

(A) Calves' stomachs ;

(c) Citric acid ;

(c) Honey ;

(c) Pitch, coal tar ;

(c) Pitch, rosin ;

(c) Pitch, wood ;

(c) Syrups which may be used as food for man, and molasses produced from cane sugar.

Now, THEREFORE, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

# RULES FOR WORKING TRAINS ON THE TARIKERE-YEDAHALLI TRAMWAY.

## CHAPTER I.

### SIGNALS.

1. Hand signals shall be used for controlling the movement of trains in all cases.

A hand signal shall be made:—

By day, by showing a flag or hand, and by night, by showing a light.

2. The stop or danger signal shall be given by day—

(a) by showing a red flag thus—

or (b) in the absence of flags, by raising both arms with the hands above the head, thus—

and by night.

(1) by showing a red light; or

(2) in the absence of a red light, by violently waving a white light.

3. "The proceed with caution" signal must be used when it is intended that a train should proceed slowly, and shall be given by day:—

(a) by waving a green flag vertically thus—

or (b) in the absence of flags, by waving one arm in a similar manner thus:—

and by night, by similarly waving a green light.

4. The proceed signal shall be given by day—

(a) by holding a green flag steadily thus—

or (b) in the absence of flags, by holding out one arm steadily thus:—

and by night, by holding a green light steadily.

5. In shunting operations, signals shall be given as follows:—

- (1) *To move away from* the person signalling, a green flag or green light moved slowly up and down.
- (2) *To move towards* the person signalling, a green flag or green light moved from side to side across the body.
- (3) *To slow down* the above signals to be displayed slower and slower until the danger signal is given.

6. "Detonating" signals (otherwise known as "Fog" signals) are applicances placed on the rails so as to explode with a loud report when an engine passes over them, for the purpose of attracting the attention of Engine drivers. Each station must have a supply of 18 detonators and each driver and guard 12 detonators. The Permanent Way Inspector and Gang Mestri must have 18 detonators each. A monthly test should be made by exploding a detonator from the stock longest on hand and replacement arranged by the respective departments.

7. In thick or foggy weather, whenever it is necessary to indicate to the driver of an approaching train the locality of the station, two detonators must be placed on the line by the Station Master about ten yards apart and at least one hundred feet from the facing point.

8. In all cases where the use of a detonator is necessary, they must be placed on the line with the label or brand upwards, and must be secured by bending the clasp round the upper flange of the rail.

## CHAPTER II.

### SYSTEM OF WORKING "THE ONE ENGINE ONLY SYSTEM."

9. Only one engine in steam or two engines coupled together shall be allowed at one and the same time on the Tramway.

*Note 1.*—When one or two engines coupled together are on the line, another engine in steam should not leave the Tarikere or Lakvalli Station yard without a written order from the Chief Station Master, Tarikere.

*Note 2.*—Such written order can only be given in case a train becomes disabled on the line and requires assistance, or if an accident occurs on the line which renders it impossible for the engine (or if two are coupled together) to proceed, provided the Chief Station Master is satisfied upon the assurance of the guard of the train that necessary precautions have been taken to protect the disabled train by placing detonators 200 feet from the spot on either directions.

*Note 3.*—In case of a train becoming disabled or an accident occurring the Guard of the train must instruct the Engine Driver to keep the Engine stationary until his return, protect the train by placing fog signals 200 yards ahead of the train on the direction from which the assistance would be coming, proceed to Tarikere and inform the Chief Station Master of the circumstances.

*Note 4.*—The Chief Station Master may then allow another engine to enter the line *vide* Note 2, *supra*. This engine is called the "Relief Engine."

*Note 5.*—The Relief Engine or train must be accompanied by the Guard of the disabled train who must explain to the Relief Engine Driver where, and under what circumstances, the disabled train is situated.

*Note 6.*—Such Guard shall be responsible for the safe and proper working of the line until each engine has left it and it is again clear.

*Note 7.*—If there be no Guard in charge of the disabled train, the fireman or if necessary the Engine Driver, must perform the duties imposed by Note 3 above.

### CHAPTER III.

10. All trains will stop dead 100 feet from the facing points and received into the station by hand signals by the Station Master. They must invariably be received on the platform line. The portion of the line 100 feet from the outermost points on either side of a station is called "Station Limits" and the limits are indicated by a board marked "Station Limits."

Working of trains generally.

11. Night running of trains is prohibited except in case of late running of a train when the speed should on no account exceed three miles an hour.

*Note 1.*—Trains running after sunset should have the necessary head lights.

12. The speed of trains during the day running should not exceed ten miles an hour.

13. Except under special written instructions from the Chief Station Master no engine with the vehicles attached shall leave a station without a Guard and one or more brake vans or hand braked vehicles.

### CHAPTER IV.

14. The Station Masters shall be responsible for the efficient discharge of the duties devolving upon the several members of the staff employed under his orders at the station.

Duties of Station Masters.

15. The Station Master is responsible to see—

- (1) that the station is adequately supplied with all necessary equipment for hand signalling such as green and red flags and signal lamps,
- (2) that the station is kept neat and clean,
- (3) that the property belonging to the Tramway is safe,
- (4) that the shunting of the trains or vehicles is carried on only at such times and in such manner as will not involve danger, and
- (5) that vehicles standing at a station are properly secured. Safety chains have been supplied to stations.

16. The Station Master must see before he gives the Guard permission to start a train that all is right for the train to proceed.

17. The Chief Station Master shall see that all orders and instructions are duly conveyed to the staff concerned and are properly carried out and that all books and returns are regularly written up and neatly kept.

18. The Station Master must take immediate steps, to warn the other stations concerned and as far as possible to prevent accident, if any vehicle escapes from a station.

### CHAPTER V.

Duties of Guards and Drivers.

19. The Guard must ride in the brake van or braked vehicle.

20. No wagon or truck shall be loaded above its carrying capacity or in such a manner as will endanger the train. In doubtful cases the Superintendent's instructions must be

obtained. Every Guard must carefully examine the loads of any open truck and, if any load has shifted or requires adjustment, must have the load secured or the truck removed from the train.

21. The Guard in charge of train should satisfy himself that the train is properly coupled and, as far as he can ascertain, she is in a state of efficiency for travelling.

22. No vehicles should be allowed to run on the line until it has been examined and passed by the Fitter-in-Charge.

*Note 1.*—Between stations where a Fitter-in-Charge is not available the Guard of the train must obtain the opinion of the Engine Driver that the vehicle attached at intermediate stations as fit to run.

23. Every Guard must be in attendance at the station from which his train is to start half an hour before the appointed time of departure of the trains or at such earlier time as may be ordered by the Chief Station Master.

24. After the engine has been attached to a train and during the journey the Guard shall be in charge of the train and the Engine Driver must take his orders in all matters affecting starting, stopping or movements of the train for traffic purposes.

25. Every Guard on duty must have with him a copy of Working Time Table in force, a watch, a hand signal lamp, a whistle and a red and a green flag.

26. When the Engine Driver sounds three or more sharp whistles which are called the "Brake Whistles," the Guard must immediately apply his hand brake. When the engine sounds "one or more long whistles" which are called "Release brake" whistles, the Guard must release his hand brake.

*Note 1.*—When a train is travelling down a steep incline, the Guards must if necessary to steady the train, assist the Driver with their brake.

27. Whenever a train has been brought to a stand still and it is necessary for the engine, with or without vehicles, to be detached from the rest of the train, the Guard in charge of the train must before the train is uncoupled satisfy himself that the vehicle or truck brake has been put on securely.

28. No person shall be allowed to travel on any engine tender or brake van without a pass from the Agent. In the event of an unauthorised person travelling in the train, the Guard shall be liable to a fine which may extend to Rs. 20.

29. Guards in charge of trains must, before giving the signal to start, see that all the passengers sit down. The movable bars provided in passenger trucks must invariably be fixed to prevent passengers from falling.

30. No guard in charge of a train shall leave it until it has been properly handed over.

31. Every engine driver must have with him, while on duty in his train the equipment and stores required for the engine.

32. The driver before starting must satisfy himself that his engine is in proper working order.

33. The driver shall not start his train unless he has authority to proceed in the form marginally noted, which will be signed by the Station Master and handed to him by the Guard of the train.

34. The driver must always sound the engine whistle before putting the engine in motion and at such other times as may be prescribed.

35. The driver must run his train according to the timings given in the Working Time-table and should not exceed the prescribed speed.

36. The driver must keep a sharp look out while the train is in motion and every fireman must also do so. When he is not necessarily or otherwise engaged. They should also frequently during the journey look back to see whether the train is following in a safe and proper manner or the guard has anything to communicate.

## CHAPTER VI.

Duties of Permanent Way Inspectors and Gangmen.

37. The Permanent Way Inspector shall be responsible for the condition of the permanent way or works on the line.

38. The Permanent Way Inspector must trolly over the whole of his section every day and see:—

- (1) that the rails, sleepers and other platelaying materials in his charge are properly secured,
- (2) that the line is patrolled,
- (3) that his length is efficiently maintained,
- (4) that the gangs are properly employed,
- (5) that all bridges, culverts, points and crossings, signals, etc., are in order,
- (6) that he shall travel on an engine at least once in three days when he can best detect weak places and feel the quantity of the road. He will note down the places requiring attention and give necessary order to rectify the defects to the ganger by stopping the train at the place if he considers immediate action necessary,
- (7) that the gangmate or gangers have a correct knowledge of the signals.

39. The Permanent Way Inspector should promptly report to Station Masters all defects in the way and works which he may consider likely to interfere with the safe running of trains.

40. When a train is approaching, the gangman should form up on one side of, and at right angles to the line so that the Inspector, if he is in a train may see that all are present.

41. The mates in charge should show line clear by holding their right hand horizontally facing the engine.

42. Each gangmate must see:—

- (1) that the signals supplied to him are kept constantly in proper order and ready for use.
- (2) that his men have a correct knowledge of signals and
- (3) that his length of the line is kept safe for the passage of trains, and
- (4) prevent trespassers from trespassing the lines:

43. If a fire occur on any premises of the Tramway or near any portion of the tramway where gangmen are employed, they must endeavour to extinguish it to prevent it from spreading.

44. A gang shall not commence or carry on any work on the line which would involve danger to the trains without the previous sanction of the Permanent Way Inspector and the latter must himself be present and superintend such work.

45. In case of emergency when it may be necessary for safety to commence any such work before the Permanent Way Inspector can arrive, the gangmate may commence work at once and must see that danger flags are planted 200 feet away on either side of the place.

## CHAPTER VII.

46. Each tramway servant must have with him a copy of rules for working trains on the tramway and should acquaint himself with the rules relating to his duties. The Loco. Superintendent, Chief Station Master, and Permanent Way Inspector must satisfy themselves that each servant is supplied with a copy of the rules and that he understands them.

Rules regarding tramway servants generally.

47. Every tramway servant must—

1. Promptly obey all lawful orders given by any person placed in authority over him, and
2. be in attendance for duty at such times and for such periods as may be fixed by his immediate superior and shall not without his permission absent himself

from duty or alter his appointed hour of attendance or exchange duty with any other tramway servant.

48. If any tramway servant desires to absent himself from duty on the ground of illness, he must immediately report the matter to his superior officer and shall not leave his duty until a competent person has been placed in charge thereof.

49. In the event of a tramway servant being incapacitated for duty while in charge of the tram, he must immediately report the same to the guard or driver and arrange to send a competent messenger to the Chief Station Master to send another to relieve him. If the train cannot proceed without him necessary signals must be fixed by the guard or driver to protect his train.

50. No tramway servant on duty can obtain or use intoxicating liquor. Any servant under influence of liquor is liable to suspension from duty by his immediate superior.

51. Any tramway servant who finds on the tramway or in any vehicle any article which appears to have fallen from a train or to have been lost, must immediately deliver or send such articles to his immediate superior to be forwarded to the Chief Station Master for disposal.

52. Every tramway servant shall before leaving the service give the Superintendent one month's notice in writing and shall deliver up to him any property in his custody which belongs to the Department. Any servant who fails to give such notice will forfeit all pay due to him.

53. Any breach on the part of a tramway servant of any of the foregoing rules is punishable with a fine which may extend to Rs. 200 and when the breach is a continuing breach with a further fine which may extend to Rs. 50 for every day after the first, during which the breach continues. The levy of this fine shall be without prejudice to any other remedy which may be obtained against him in a Court of law.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

# RULES FOR WORKING TRAINS ON THE TARIKERE-YEDAHALLI TRAMWAY.

## CHAPTER I.

### SIGNALS.

1. Hand signals shall be used for controlling the movement of trains in all cases.

A hand signal shall be made:—

By day, by showing a flag or hand, and by night, by showing a light:

2. The stop or danger signal shall be given by day—

(a) by showing a red flag thus—

or (b) in the absence of flags, by raising both arms with the hands above the head, thus—

and by night.

(1) by showing a red light; or

(2) in the absence of a red light, by violently waving a white light.

3. "The proceed with caution" signal must be used when it is intended that a train should proceed slowly, and shall be given by day:—

(a) by waving a green flag vertically thus—

or (b) in the absence of flags, by waving one arm in a similar manner thus:—

and by night, by similarly waving a green light.

4. The proceed signal shall be given by day—

(a) by holding a green flag steadily thus—

or (b) in the absence of flags, by holding out one arm steadily thus:—

and by night, by holding a green light steadily.

5. In shunting operations, signals shall be given as follows:—

- (1) *To move away from the person signalling*, a green flag or green light moved slowly up and down.
- (2) *To move towards the person signalling*, a green flag or green light moved from side to side across the body.
- (3) *To slow down the above signals* to be displayed slower and slower until the danger signal is given.

6. "Detonating" signals (otherwise known as "Fog" signals) are appliances placed on the rails so as to explode with a loud report when an engine passes over them, for the purpose of attracting the attention of Engine drivers. Each station must have a supply of 18 detonators and each driver and guard 12 detonators. The Permanent Way Inspector and Gang Mestri must have 18 detonators each. A monthly test should be made by exploding a detonator from the stock longest on hand and replacement arranged by the respective departments.

7. In thick or foggy weather, whenever it is necessary to indicate to the driver of an approaching train the locality of the station, two detonators must be placed on the line by the Station Master about ten yards apart and at least one hundred feet from the facing point.

8. In all cases where the use of a detonator is necessary, they must be placed on the line with the label or brand upwards, and must be secured by bending the clasp round the upper flange of the rail.

## CHAPTER II.

### SYSTEM OF WORKING "THE ONE ENGINE ONLY SYSTEM."

9. Only one engine in steam or two engines coupled together shall be allowed at one and the same time on the Tramway.

Note 1.—When one or two engines coupled together are on the line, another engine in steam should not leave the Tarikere or Lakvalli Station yard without a written order from the Chief Station Master, Tarikere.

Note 2.—Such written order can only be given in case a train becomes disabled on the line and requires assistance, or if an accident occurs on the line which renders it impossible for the engine (or if two are coupled together) to proceed, provided the Chief Station Master is satisfied upon the assurance of the guard of the train that necessary precautions have been taken to protect the disabled train by placing detonators 200 feet from the spot on either directions.

*Note 3.*—In case of a train becoming disabled or an accident occurring the Guard of the train must instruct the Engine Driver to keep the Engine stationary until his return, protect the train by placing fog signals 200 yards ahead of the train on the direction from which the assistance would be coming, proceed to Tarikere and inform the Chief Station Master of the circumstances.

*Note 4.*—The Chief Station Master may then allow another engine to enter the line *vide* Note 2, *supra*. This engine is called the "Relief Engine."

*Note 5.*—The Relief Engine or train must be accompanied by the Guard of the disabled train who must explain to the Relief Engine Driver where, and under what circumstances, the disabled train is situated.

*Note 6.*—Such Guard shall be responsible for the safe and proper working of the line until each engine has left it and it is again clear.

*Note 7.*—If there be no Guard in charge of the disabled train, the fireman or if necessary the Engine Driver, must perform the duties imposed by Note 3 above.

### CHAPTER III.

10. All trains will stop dead 100 feet from the facing points and received into the station by hand signals by the Station Master. They must invariably be received on the platform line. The portion of the line 100 feet from the outermost points on either side of a station is called "Station Limits" and the limits are indicated by a board marked "Station Limits."

Working of trains generally.

11. Night running of trains is prohibited except in case of late running of a train when the speed should on no account exceed three miles an hour.

*Note 1.*—Trains running after sunset should have the necessary head lights.

12. The speed of trains during the day running should not exceed ten miles an hour.

13. Except under special written instructions from the Chief Station Master no engine with the vehicles attached shall leave a station without a Guard and one or more brake vans or hand braked vehicles.

### CHAPTER IV.

14. The Station Masters shall be responsible for the efficient discharge of the duties devolving upon the several members of the staff employed under his orders at the station.

Duties of Station Masters.

15. The Station Master is responsible to see—

- (1) that the station is adequately supplied with all necessary equipment for hand signalling such as green and red flags and signal lamps,
- (2) that the station is kept neat and clean,
- (3) that the property belonging to the Tramway is safe,
- (4) that the shunting of the trains or vehicles is carried on only at such times and in such manner as will not involve danger, and
- (5) that vehicles standing at a station are properly secured. Safety chains have been supplied to stations.

16. The Station Master must see before he gives the Guard permission to start a train that all is right for the train to proceed.

17. The Chief Station Master shall see that all orders and instructions are duly conveyed to the staff concerned and are properly carried out and that all books and returns are regularly written up and neatly kept.

18. The Station Master must take immediate steps, to warn the other stations concerned and as far as possible to prevent accident, if any vehicle escapes from a station.

### CHAPTER V.

Duties of Guards and Drivers.

19. The Guard must ride in the brake van or braked vehicle.

20. No wagon or truck shall be loaded above its carrying capacity or in such a manner as will endanger the train. In doubtful cases the Superintendent's instructions must be

obtained has shift the train. Every Guard must carefully examine the loads of any open truck and, if any load or requires adjustment, must have the load secured or the truck removed from the train.

21. The Guard in charge of train should satisfy himself that the train is properly coupled and, as far as he can ascertain, she is in a state of efficiency for travelling.

22. No vehicles should be allowed to run on the line until it has been examined and passed by the Fitter-in-Charge.

Note 1.—Between stations where a Fitter-in-Charge is not available the Guard of the train must obtain the opinion of the Engine Driver that the vehicle attached at intermediate stations as fit to run.

23. Every Guard must be in attendance at the station from which his train is to start half an hour before the appointed time of departure of the trains or at such earlier time as may be ordered by the Chief Station Master.

24. After the engine has been attached to a train and during the journey the Guard shall be in charge of the train and the Engine Driver must take his orders in all matters affecting starting, stopping or movements of the train for traffic purposes.

25. Every Guard on duty must have with him a copy of Working Time Table in force, a watch, a hand signal lamp, a whistle and a red and a green flag.

26. When the Engine Driver sounds three or more sharp whistles which are called the "Brake Whistles" the Guard must immediately apply his hand brake. When the engine sounds one or more long whistles which are called "Release brake" whistles, the Guard must release his hand brake.

Note 1.—When a train is travelling down a steep incline, the Guards must if necessary to steady the train, assist the Driver with their brake.

27. Whenever a train has been brought to a stand still and it is necessary for the engine, with or without vehicles, to be detached from the rest of the train, the Guard in charge of the train must before the train is uncoupled satisfy himself that the vehicle or truck brake has been put on securely.

28. No person shall be allowed to travel on any engine tender or brake van without a pass from the Agent. In the event of an unauthorised person travelling in the train, the Guard shall be liable to a fine which may extend to Rs. 20.

29. Guards in charge of trains must, before giving the signal to start, see that all the passengers sit down. The movable bars provided in passenger trucks must invariably be fixed to prevent passengers from falling.

30. No guard in charge of a train shall leave it until it has been properly handed over.

31. Every engine driver must have with him, while on duty in his train the equipment and stores required for the engine.

32. The driver before starting must satisfy himself that his engine is in proper working order.

33. The driver shall not start his train unless he has authority to proceed in the form marginally noted which will be signed by the Station Master and handed to him by the Guard of the train.

3. The driver must always sound the engine whistle before putting the engine in motion and at such other times as may be prescribed.

3. The driver must run his train according to the timings given in the Working Time-table and should not exceed the prescribed speed.

36. The driver must keep a sharp look out while the train is in motion and every fireman must also do so. When he is not necessarily or otherwise engaged. They should also frequently during the journey look back to see whether the train is following in a safe and proper manner or the guard has anything to communicate.

## CHAPTER VI.

Duties of Permanent Way Inspectors and Gangmen.

37. The Permanent Way Inspector shall be responsible for the condition of the permanent way or works on the line.

38. The Permanent Way Inspector must trolly over the whole of his section every day and see:—

- (1) that the rails, sleepers and other platelaying materials in his charge are properly secured,
- (2) that the line is patrolled,
- (3) that his length is efficiently maintained,
- (4) that the gangs are properly employed,
- (5) that all bridges, culverts, points and crossings, signals, etc., are in order,
- (6) that he shall travel on an engine at least once in three days when he can best detect weak places and feel the quantity of the road. He will note down the places requiring attention and give necessary order to rectify the defects to the ganger by stopping the train at the place if he considers immediate action necessary,
- (7) that the gangmate or gangers have a correct knowledge of the signals.

39. The Permanent Way Inspector should promptly report to Station Masters all defects in the way and works which he may consider likely to interfere with the safe running of trains.

40. When a train is approaching, the gangman should form up on one side of, and at right angles to the line so that the Inspector, if he is in a train may see that all are present.

41. The mates in charge should show line clear by holding their right hand horizontally facing the engine.

42. Each gangmate must see:—

- (1) that the signals supplied to him are kept constantly in proper order and ready for use.
- (2) that his men have a correct knowledge of signals and
- (3) that his length of the line is kept safe for the passage of trains, and
- (4) prevent trespassers from trespassing the lines.

43. If a fire occur on any premises of the Tramway or near any portion of the tramway where gangmen are employed, they must endeavour to extinguish it to prevent it from spreading.

44. A gang shall not commence or carry on any work on the line which would involve danger to the trains without the previous sanction of the Permanent Way Inspector and the latter must himself be present and superintend such work.

45. In case of emergency when it may be necessary for safety to commence any such work before the Permanent Way Inspector can arrive, the gangmate may commence work at once and must see that danger flags are planted 200 feet away on either side of the place.

## CHAPTER VII.

46. Each tramway servant must have with him a copy of rules for working trains on the tramway and should acquaint himself with the rules relating to his duties. The Loco. Superintendent, Chief Station Master, and Permanent Way Inspector must satisfy themselves that each servant is supplied with a copy of the rules and that he understands them.

Rules regarding tramway servants generally.

47. Every tramway servant must—

1. Promptly obey all lawful orders given by any person placed in authority over him, and
2. be in attendance for duty at such times and for such periods as may be fixed by his immediate superior and shall not without his permission absent himself

from duty or alter his appointed hour of attendance or exchange duty with any other tramway servant.

48. If any tramway servant desires to absent himself from duty on the ground of illness, he must immediately report the matter to his superior officer and shall not leave his duty until a competent person has been placed in charge thereof.

49. In the event of a tramway servant being incapacitated for duty while in charge of the tram, he must immediately report the same to the guard or driver and arrange to send a competent messenger to the Chief Station Master to send another to relieve him. If the train cannot proceed without him necessary signals must be fixed by the guard or driver to protect his train.

50. No tramway servant on duty can obtain or use intoxicating liquor. Any servant under influence of liquor is liable to suspension from duty by his immediate superior.

51. Any tramway servant who finds on the tramway or in any vehicle any article which appears to have fallen from a train or to have been lost, must immediately deliver or send such article to his immediate superior to be forwarded to the Chief Station Master for disposal.

52. Every tramway servant shall before leaving the service give the Superintendent one month's notice in writing and shall deliver up to him any property in his custody which belongs to the Department. Any servant who fails to give such notice will forfeit all pay due to him.

53. Any breach on the part of a tramway servant of any of the foregoing rules is punishable with a fine which may extend to Rs. 200 and when the breach is a continuing breach with a further fine which may extend to Rs. 50 for every day after the first, during which the breach continues. The levy of this fine shall be without prejudice to any other remedy which may be obtained against him in a Court of law.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

No. Fl. 703—G. F. 33-16-2, dated 29th July 1916.

The names 'Chintaballi' and 'Shamanna' occurring in Notification No. 6893—A. & L. 190-15-2, dated 22nd May 1916, sanctioning the establishment of certain Village Savings Banks, will be changed into 'Chirtaballi' and 'Bhimanna' respectively.

TRAMWAY.

## CHAPTER I.

## SIGNALS.

1. Hand signals shall be used for controlling the movement of trains in all cases.

A hand signal shall be made:—

By day, by showing a flag or hand, and by night, by showing a light.

2. The stop or danger signal shall be given by day—

(a) by showing a red flag thus—

or (b) in the absence of flags, by raising both arms with the hands above the head, thus—

and by night.

(1) by showing a red light; or

(2) in the absence of a red light by violently waving a white light.

3. "The proceed with caution" signal must be used when it is intended that a train should proceed slowly, and shall be given by day:—

(a) by waving a green flag vertically thus—

or (b) in the absence of flags, by waving one arm in a similar manner thus:—

and by night, by similarly waving a green light.

4. The proceed signal shall be given by day—

(a) by holding a green flag steadily thus—

or (b) in the absence of flags, by holding out one arm steadily thus:—

and by night, by holding a green light steadily.

5. In shunting operations, signals shall be given as follows:—

- (1) *To move away from the person signalling*, a green flag or green light moved slowly up and down.
- (2) *To move towards the person signalling*, a green flag or green light moved from side to side across the body.
- (3) *To slow down the above signals* to be displayed slower and slower until the danger signal is given.

6. "Detonating" signals (otherwise known as "Fog" signals) are appliances placed on the rails so as to explode with a loud report when an engine passes over them, for the purpose of attracting the attention of Engine drivers. Each station must have a supply of 18 detonators and each driver and guard 12 detonators. The Permanent Way Inspector and Gang Mestri must have 18 detonators each. A monthly test should be made by exploding a detonator from the stock longest on hand and replacement arranged by the respective departments.

7. In thick or foggy weather, whenever it is necessary to indicate to the driver of an approaching train the locality of the station, two detonators must be placed on the line by the Station Master about ten yards apart and at least one hundred feet from the facing point.

8. In all cases where the use of a detonator is necessary, they must be placed on the line with the label or brand upwards, and must be secured by bending the clasp round the upper flange of the rail.

## CHAPTER II.

### SYSTEM OF WORKING "THE ONE ENGINE ONLY SYSTEM."

9. Only one engine in steam or two engines coupled together shall be allowed at one and the same time on the Tramway.

*Note 1.*—When one or two engines coupled together are on the line, another engine in steam should not leave the Tarikere or Lakvalli Station yard without a written order from the Chief Station Master, Tarikere.

*Note 2.*—Such written order can only be given in case a train becomes disabled on the line and requires assistance, or if an accident occurs on the line which renders it impossible for the engine (or if two are coupled together) to proceed, provided the Chief Station Master is satisfied upon the assurance of the guard of the train that necessary precautions have been taken to protect the disabled train by placing detonators 200 feet from the spot on either directions.

Note 3.—In case of a train becoming disabled or an accident occurring the Guard of the train must instruct the Engine Driver to keep the Engine stationary until his return, protect the train by placing fog signals 200 yards ahead of the train on the direction from which the assistance would be coming, proceed to Tarikere and inform the Chief Station Master of the circumstances.

Note 4.—The Chief Station Master may then allow another engine to enter the line *vide* Note 2, *supra*. This engine is called the "Relief Engine."

Note 5.—The Relief Engine or train must be accompanied by the Guard of the disabled train who must explain to the Relief Engine Driver where, and under what circumstances, the disabled train is situated.

Note 6.—Such Guard shall be responsible for the safe and proper working of the line until each engine has left it and it is again clear.

Note 7.—If there be no Guard in charge of the disabled train, the fireman or if necessary the Engine Driver, must perform the duties imposed by Note 3 above.

### CHAPTER III.

10. All trains will stop dead 100 feet from the facing points and received into the station by hand signals by the Station Master. They must invariably be received on the platform line. The portion of the line 100 feet from the outermost points on either side of a station is called "Station Limits" and the limits are indicated by a board marked "Station Limits."

Working of trains generally.

11. Night running of trains is prohibited except in case of late running of a train when the speed should on no account exceed three miles an hour.

Note 1.—Trains running after sunset should have the necessary head lights.

12. The speed of trains during the day running should not exceed ten miles an hour.

13. Except under special written instructions from the Chief Station Master no engine with the vehicles attached shall leave a station without a Guard and one or more brake vans or hand braked vehicles.

### CHAPTER IV.

14. The Station Masters shall be responsible for the efficient discharge of the duties devolving upon the several members of the staff employed under his orders at the station.

Duties of Station Masters.

15. The Station Master is responsible to see—

(1) that the station is adequately supplied with all necessary equipment for hand signalling such as green and red flags and signal lamps,

(2) that the station is kept neat and clean,

(3) that the property belonging to the Tramway is safe,

(4) that the shunting of the trains or vehicles is carried on only at such times and in such manner as will not involve danger, and

(5) that vehicles standing at a station are properly secured. Safety chains have been supplied to stations.

16. The Station Master must see before he gives the Guard permission to start a train that all is right for the train to proceed.

17. The Chief Station Master shall see that all orders and instructions are duly conveyed to the staff concerned and are properly carried out and that all books and returns are regularly written up and neatly kept.

18. The Station Master must take immediate steps, to warn the other stations concerned and as far as possible to prevent accident, if any vehicle escapes from a station.

### CHAPTER V.

Duties of Guards and Drivers.

19. The Guard must ride in the brake van or braked vehicle.

20. No wagon or truck shall be loaded above its carrying capacity or in such a manner as will endanger the train. In doubtful cases the Superintendent's instructions must be

obtained. Every Guard must carefully examine the loads of any open truck and, if any load has shifted or requires adjustment, must have the load secured or the truck removed from the train.

21. The Guard in charge of train should satisfy himself that the train is properly coupled and, as far as he can ascertain, she is in a state of efficiency for travelling.

22. No vehicles should be allowed to run on the line until it has been examined and passed by the Fitter-in-Charge.

*Note 1.*—Between stations where a Fitter-in-Charge is not available the Guard of the train must obtain the opinion of the Engine Driver that the vehicle attached at intermediate stations as fit to run.

23. Every Guard must be in attendance at the station from which his train is to start half an hour before the appointed time of departure of the trains or at such earlier time as may be ordered by the Chief Station Master.

24. After the engine has been attached to a train and during the journey the Guard shall be in charge of the train and the Engine Driver must take his orders in all matters affecting starting, stopping or movements of the train for traffic purposes.

25. Every Guard on duty must have with him a copy of Working Time Table in force, a watch, a hand signal lamp, a whistle and a red and a green flag.

26. When the Engine Driver sounds three or more sharp whistles which are called the "Brake Whistles" the Guard must immediately apply his hand brake. When the engine sounds "one or more long whistles" which are called "Release brake" whistles, the Guard must release his hand brake.

*Note 1.*—When a train is travelling down a steep incline, the Guards must if necessary to steady the train, assist the Driver with their brake.

27. Whenever a train has been brought to a stand still and it is necessary for the engine, with or without vehicles, to be detached from the rest of the train, the Guard in charge of the train must before the train is uncoupled satisfy himself that the vehicle or truck brake has been put on securely.

28. No person shall be allowed to travel on any engine tender or brake van without a pass from the Agent. In the event of an unauthorised person travelling in the train, the Guard shall be liable to a fine which may extend to Rs. 20.

29. Guards in charge of trains must, before giving the signal to start, see that all the passengers sit down. The movable bars provided in passenger trucks must invariably be fixed to prevent passengers from falling.

30. No guard in charge of a train shall leave it until it has been properly handed over.

31. Every engine driver must have with him, while on duty in his train the equipment and stores required for the engine.

32. The driver before starting must satisfy himself that his engine is in proper working order.

34. The driver must always sound the engine whistle before putting the engine in motion and at such other times as may be prescribed.

35. The driver must run his train according to the timings given in the Working Time-table and should not exceed the prescribed speed.

36. The driver must keep a sharp look out while the train is in motion and every fireman must also do so. When he is not necessarily or otherwise engaged. They should also frequently during the journey look back to see whether the train is following in a safe and proper manner or the guard has anything to communicate.

## CHAPTER VI.

Duties of Permanent Way Inspectors and Gangmen.

37. The Permanent Way Inspector shall be responsible for the condition of the permanent way or works on the line.

38. The Permanent Way Inspector must trolly over the whole of his section every day and see:—

(1) that the rails, sleepers and other platelaying materials in his charge are properly secured,

(2) that the line is patrolled,

(3) that his length is efficiently maintained,

(4) that the gangs are properly employed,

(5) that all bridges, culverts, points and crossings, signals, etc., are in order,

(6) that he shall travel on an engine at least once in three days when he can best detect weak places and feel the quantity of the road. He will note down the places requiring attention and give necessary order to rectify the defects to the ganger by stopping the train at the place if he considers immediate action necessary,

(7) that the gangmate or gangers have a correct knowledge of the signals.

39. The Permanent Way Inspector should promptly report to Station Masters all defects in the way and works which he may consider likely to interfere with the safe running of trains.

40. When a train is approaching, the gangman should form up on one side of, and at right angles to the line so that the Inspector, if he is in a train may see that all are present.

41. The mates in charge should show line clear by holding their right hand horizontally facing the engine.

42. Each gangmate must see:—

(1) that the signals supplied to him are kept constantly in proper order and ready for use.

(2) that his men have a correct knowledge of signals and

(3) that his length of the line is kept safe for the passage of trains, and

(4) prevent trespassers from trespassing the lines.

43. If a fire occur on any premises of the Tramway or near any portion of the tramway where gangmen are employed, they must endeavour to extinguish it to prevent it from spreading.

44. A gang shall not commence or carry on any work on the line which would involve danger to the trains without the previous sanction of the Permanent Way Inspector and the latter must himself be present and superintend such work.

45. In case of emergency when it may be necessary for safety to commence any such work before the Permanent Way Inspector can arrive, the gangmate may commence work at once and must see that danger flags are planted 200 feet away on either side of the place.

## CHAPTER VII.

46. Each tramway servant must have with him a copy of rules for working trains on the tramway and should acquaint himself with the rules relating to his duties. The Loco. Superintendent, Chief Station Master, and Permanent Way Inspector must satisfy themselves that each servant is supplied with a copy of the rules and that he understands them.

Rules regarding tramway servants generally.

47. Every tramway servant must—

1. Promptly obey all lawful orders given by any person placed in authority over him, and

2. be in attendance for duty at such times and for such periods as may be fixed by his immediate superior and shall not without his permission absent himself

from duty or alter his appointed hour of attendance or exchange duty with any other tramway servant.

48. If any tramway servant desires to absent himself from duty on the ground of illness, he must immediately report the matter to his superior officer and shall not leave his duty until a competent person has been placed in charge thereof.

49. In the event of a tramway servant being incapacitated for duty while in charge of the tram, he must immediately report the same to the guard or driver and arrange to send a competent messenger to the Chief Station Master to send another to relieve him. If the train cannot proceed without him necessary signals must be fixed by the guard or driver to protect his train.

50. No tramway servant on duty can obtain or use intoxicating liquor. Any servant under influence of liquor is liable to suspension from duty by his immediate superior.

51. Any tramway servant who finds on the tramway or in any vehicle any article which appears to have fallen from a train or to have been lost, must immediately deliver or send such articles to his immediate superior to be forwarded to the Chief Station Master for disposal.

52. Every tramway servant shall before leaving the service give the Superintendent one month's notice in writing and shall deliver up to him any property in his custody which belongs to the Department. Any servant who fails to give such notice will forfeit all pay due to him.

53. Any breach on the part of a tramway servant of any of the foregoing rules is punishable with a fine which may extend to Rs. 200 and when the breach is a continuing breach with a further fine which may extend to Rs. 50 for every day after the first, during which the breach continues. The levy of this fine shall be without prejudice to any other remedy which may be obtained against him in a Court of law.

**EDUCATION AND AGRICULTURE.**

No. 1181—Edn. 42-16-3, dated 7th August 1916.

The following memorandum regarding the qualifications for admission into the Lady Hardinge Medical College at Delhi, is published for general information:—

It is notified for the information of candidates intending to join the Lady Hardinge Medical College for Women at Delhi that the institution will be open to students on the 28th September 1916, and that lectures and classes will begin on the 2nd October. The College has been affiliated in the preliminary stages to the Punjab University, and will prepare students for the M. B. B. S. degree of that University. Candidates seeking admission should produce certificates of physical fitness to undergo a course of medical training as well as of good moral character. Preference will be given to students who have passed at least the Intermediate Arts or corresponding examination, but a certain number possessing the minimum general educational qualification of the Matriculation or equivalent standard will also be admitted. Students of the latter class will be required to undergo a separate course in English and Mathematics for which special arrangements have been made within the College itself, and their entire course will extend to seven, instead of the ordinary six years.

2. The institution possesses separate hostel accommodation for Hindus, Mahomedans, Sikhs and Christians (including Parsis and those accustomed to live in the European style). Boarding will be provided with due regard to caste and other considerations at moderate rates.

3. Forms of application for admission to the College, details as to scholarships and any further information required may be obtained from the Principal of the College (Raisina, Delhi).

By Order,

P. G. D'SOUZA,

Offg. Secretary to Government,

Departments of Education and Agriculture.

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that

he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will, therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*No. Fl. 823—G. F. 33-15-4, dated 4th August 1916.*

Under the scheme sanctioned in Government Order No. 2904-14—A. & I. 228-14-2, dated 22nd December 1915, a Savings Bank will be started at Ragihosahalli, Kumsi Sub-Taluk, Shimoga District, with Mr. Nagavandada Channabasappa, Landholder, as the officer in charge of the institution.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary to Government.*

No. G. 1997—G. M. 205-16-2, dated 12th August 1916.

The following Press Communique dated the 27th July 1916, from the Government of India, Foreign and Political Department on the subject of entry into Egypt, is hereby republished for general information.

The following revised orders on the subject of entry into Egypt are published for general information:—

- (1) Applications for permission to enter Egypt must be made to the passport issuing authority in time to reach Egypt, if possible, at least one month before the proposed date of sailing except in the case of applications from Aden which must reach Egypt fourteen days before the proposed date of sailing.
- (2) In urgent cases applications may be made by telegraph through the same channel at the applicant's expense.
- (3) In all applications the purpose of the visit and the grounds of real urgency should invariably be stated. This applies also to officials travelling unofficially as for example on leave.
- (4) The stringency of the measures already in force has been to a certain extent relaxed in regard to *bona fide* residents in Egypt of British or Allied Nationality wishing to return to Egypt. Such persons may take it that permission given to leave Egypt carries with it, as far as the Egyptian authorities are concerned, permission to return provided that (1) no unforeseen event should have occurred to alter circumstances in Egypt and that (2) during their stay in India or elsewhere they have not given the authorities in the country in which they have been staying ground for uneasiness or suspicion. In order to satisfy this latter condition however they will have to go through the formality for permission to return to Egypt as stated above.

## EDUCATION AND AGRICULTURE.

No. 1181—Edn. 42-16-3, dated 7th August 1916.

The following memorandum regarding the qualifications for admission into the Lady Hardinge Medical College at Delhi, is published for general information:—

It is notified for the information of candidates intending to join the Lady Hardinge Medical College for Women at Delhi that the institution will be open to students on the 28th September 1916, and that lectures and classes will begin on the 2nd October. The College has been affiliated in the preliminary stages to the Punjab University, and will prepare students for the M. B. B. S. degree of that University. Candidates seeking admission should produce certificates of physical fitness to undergo a course of medical training as well as of good moral character. Preference will be given to students who have passed at least the Intermediate Arts or corresponding examination, but a certain number possessing the minimum general educational qualification of the Matriculation or equivalent standard will also be admitted. Students of the latter class will be required to undergo a separate course in English and Mathematics for which special arrangements have been made within the College itself, and their entire course will extend to seven, instead of the ordinary six years.

2. The institution possesses separate hostel accommodation for Hindus, Mahomedans, Sikhs and Christians (including Parsis and those accustomed to live in the European style). Boarding will be provided with due regard to caste and other considerations at moderate rates.

3. Forms of application for admission to the College, details as to scholarships and any further information required may be obtained from the Principal of the College (Raisina, Delhi).

No. 1384—Edn. 15-16-13, dated 15th August 1916.

Under Section 6 of the Land Acquisition Regulation, VII of 1894, it is hereby declared that the lands described hereunder are required for a public purpose, viz., construction of a Kannada Boys' School building, and under Sections 7 and 3 (c) of the said Regulation, the Assistant Commissioner in charge of French Rocks Division, is authorised to take order for the acquisition of the said lands.

A plan of the property described below is kept in the Office of the Deputy Commissioner, Mysore District, and may be inspected by any person interested at any time during office hours:—

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## EDUCATION AND AGRICULTURE.

No. 1181—Edn. 42-16-3, dated 7th August 1916.

The following memorandum regarding the qualifications for admission into the Lady Hardinge Medical College at Delhi, is published for general information:—

It is notified for the information of candidates intending to join the Lady Hardinge Medical College for Women at Delhi that the institution will be open to students on the

28th September 1916, and that lectures and classes will begin on the 2nd October. The College has been affiliated in the preliminary stages to the Punjab University, and will prepare students for the M. B. B. S. degree of that University. Candidates seeking admission should produce certificates of physical fitness to undergo a course of medical training as well as of good moral character. Preference will be given to students who have passed at least the Intermediate Arts or corresponding examination, but a certain number possessing the minimum general educational qualification of the Matriculation or equivalent standard will also be admitted. Students of the latter class will be required to undergo a separate course in English and Mathematics for which special arrangements have been made within the College itself, and their entire course will extend to seven, instead of the ordinary six years.

2. The institution possesses separate hostel accommodation for Hindus, Mahomedans, Sikhs and Christians (including Parsis and those accustomed to live in the European style). Boarding will be provided with due regard to caste and other considerations at moderate rates.

3. Forms of application for admission to the College, details as to scholarships and any further information required may be obtained from the Principal of the College (Raisina, Delhi).

No. 1459—I. & C. 11-16-3, dated 18th August 1916.

Government are pleased to direct that Rule 2 of the Rules published under Notification No. Fl. 277—B. 37-13-2, dated 22nd July 1914, for the grant of loans to Co-operative Societies from State Funds be modified as shown below:—

*Existing Rule.*

“All advances to a Society shall be free of interest for the first two years and will afterwards, subject to Rule 8 (1) bear interest at 5 per cent per annum.

The advances shall be repayable in not more than three annual instalments commencing after the lapse of two years after the grant of the advance.”

*Rule as modified.*

“All advances to a Society shall be free of interest for the first two years and will afterwards, subject to Rule 8 (1) bear interest at 5 per cent per annum.

The advances shall be repayable in not more than three annual instalments commencing after the lapse of two years after the grant of the advance.

But the Registrar of Co-operative Societies may at his discretion prescribe a shorter period for repayment according to the circumstances of each case.”

By Order,

P. G. D'SOUZA,

*Secretary to Government,*

*Departments of Education and Agriculture.*

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## RAILWAYS.

No. 640-41, dated 21st August 1916.

Under Section 31 of the Mysore Railway Regulation, 1894, the Government of His Highness the Maharaja of Mysore sanction the adoption on the Railways over which they have jurisdiction, of the amendment in Rule 53 (2), Chapter II, Part I of the General Rules for working open lines of Railway, referred to in the notifications of the Government of India, Railway Department (Railway Board), Nos. 323—T. 16 and 672—T. 16, dated 18th May and 4th July 1916, respectively, published in Part I of the *Gazette of India*.

The amendment as sanctioned above is published for general information.

By Order,

K. KRISHNAIENGAR,

Secretary for Railways,

Government of Mysore.

No. 323-T. 16.—The following is published for general information:—

No. 323 T.-16, dated the 18th May 1916.

## RESOLUTION—By the Railway Board.

RESOLUTION.—As it has been found that Rule 53 (2) of the General Rules of 1906 for the working of open lines of Railway is needlessly restrictive, the Railway Board consider that it should be altered.

2. In exercise, therefore, of the powers conferred by the Notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, the Railway Board sanction under section 47, sub-section (3), of the Indian Railways Act, 1890 (IX of 1890), the adoption by the administrations of all lines of railway in British India administered by the Government and for the time being used for the public carriage of passengers, animals and goods, of the amendment, specified in the annexure hereto, to the General Rules of 1906 for working open lines of railway.

3. The Railway Board also desire that the said amendment may be brought to the notice of the administrations of the several railways not administered by the Government and that the Agents of those railways may be invited to submit a formal application for the adoption of the said amendment on their respective lines.

ORDER.—Ordered that this Resolution, with the accompanying amendment, be published

The following letter received from the Government of the East Africa Protectorate is published for general information:—

P. S.

No. S. 99-30.

THE SECRETARIAT,  
Nairobi,  
East Africa Protectorate,  
*June 27th, 1916.*

Sir,

I have the honor to inform you that the Government of the British East Africa Protectorate has recently had under consideration the desirability of enforcing more strictly the provisions of the Immigration Restriction Ordinance, 1906, and the Immigration Restriction Amendment Ordinance, 1910.

2. Section 11 of the original enactment provided that any person appearing to be a prohibited immigrant under Section 5 (a) might be permitted to enter the Protectorate on payment of a deposit according to nationality. In the course of time this registration was shown to be acting as a deterrent in the case of persons who might well be admitted to the country, and the amending Ordinance was promulgated whereby the Immigration Officer was empowered to accept security in lieu of deposit.

In the great majority of cases no arrangements for this security are made prior to embarkation and in consequence such persons have hitherto been allowed to land in order that they may be given the opportunity of finding a surety. This concession has led to abuse and is in itself objectionable inasmuch as the deposit prescribed by Section 11 of the Ordinance of 1906 is payable before landing, and if this section is read together with Section 3 (I) of the Amending Ordinance of 1910, it is clear that the demand for security must also be complied with before landing.

4. The Government has therefore decided that all immigrants should either make the necessary deposit, or provide the security required, before leaving the ship on arrival in port. The strict enforcement of this regulation will take effect as from the 1st of September 1916. and I have the honor to request that steps may be taken to make this procedure known in those districts from which immigrants to British East Africa usually arrive. Persons who cannot deposit the necessary sum or have failed to find the requisite security will after that date be sent back to India, and the Government of this Protectorate will not hold itself responsible for any expenditure thus incurred.

I have the honor to be,

Sir,

Your most obedient servant,

C. C. BOWRING,

PRESS COMMUNIQUE.

The following Extract from the *London Gazette*, dated the 30th June 1916, is published for general information in continuation of the Press Communiqué by this Department, dated the 16th June 1916:—

TREATMENT OF GOODS DISCHARGED FROM GERMAN SHIPS REQUISITIONED BY THE ITALIAN GOVERNMENT.

With reference to the notification which appeared in the *London Gazette* of May 12 last, H. M. Secretary of State for Foreign Affairs has received from H. M. Ambassador at Rome the following additional notification from the Italian Government stating the conditions under which the admission into private warehouses of goods disembarked from German ships requisitioned by them will be allowed:—

(Translation.)

With reference to the Circular No. 20101 of May 1 last regarding the treatment of merchandise disembarked from requisitioned steamships, the Royal Ministry for Foreign Affairs has the honour to inform his Britannic Majesty's Embassy that the Royal Government are, in cases where it is not possible to provide for the importation or re-exportation abroad within the prescribed time-limit of merchandise disembarked from requisitioned German steamships, ready to allow the admission of such merchandise, under Customs bond, into private warehouses; such facilities, however, being subordinated to the conditions enumerated in the annexed memorandum and without prejudice to the conditions and formalities under headings (a), (b), (c), (d), (e), (f) (g) of the document attached to the above-mentioned Note Verbale from the Royal Ministry\*.

Memorandum

Conditions for the admission into private warehouses of goods disembarked from requisitioned German ships.

Merchandise disembarked from requisitioned German ships may be admitted, under Customs bond, into private warehouses under the following conditions:—

1. The Royal Authorities, from the moment the merchandise leaves its present warehouses, are exonerated from all responsibility towards the proprietors of the said merchandise in consequence of the prolonged warehousing and of the increased expenses incurred thereby;
2. From the same moment the Royal Authorities are exonerated from meeting any expense even by means of advances for the new period of warehousing, beginning from expenses of transport to the new warehouses;
3. Similarly the Royal Authorities are exonerated from any responsibility for any loss or damage which the merchandise may suffer after leaving the present warehouses;
4. The new warehouses shall not be connected with maritime business or traffic;
5. The expenses borne up to now by the competent maritime authorities on account of the merchandise, whether for discharge or warehousing, shall be paid before leaving the present warehouses.

Firms desirous of benefiting by the above-mentioned concession should address specific requests to the Royal Ministry of Finance, through the competent Customs Authority.

The withdrawal of merchandise from private warehouses is only granted subject to the observance of the same conditions and the same formalities as have been fixed for their withdrawal from the Customs warehouses.

The following revised rules for the grant of licenses to search for, collect and remove corundum within the State of Mysore and the form of license to be issued therefor are hereby published for general information:—

## RULES FOR THE GRANT OF LICENSES TO SEARCH FOR, COLLECT AND REMOVE CORUNDUM WITHIN THE STATE OF MYSORE.

Applications for licenses to search for, collect and remove corundum within the State of Mysore, shall be made to the Director, Department of Mines and Geology, Bangalore, in Form No. 1 hereto appended.

2. The area to which each license applies shall ordinarily comprise a whole taluk, but smaller areas may be granted in special cases.

3. Every license granted under these rules will be for a period of one year and will be in Form No. 2, appended hereto. It shall be within the discretion of Government to renew a license from year to year if satisfactory work is done and to impose such special terms for the renewal as they may think desirable.

4. The royalty to be paid by the licensee shall be Rs. 4 per kandy (850 lbs.) of corundum removed. This rate is liable to alteration from time to time due notice of which will be published in the official Gazette.

5. Every licensee shall be required to guarantee a minimum amount of royalty for the term of the license at the rate prescribed under Rule 4.

6. Every application shall be accompanied by a fee of Rs. 10, which will be returned to the applicant if the license is refused.

7. Every applicant shall state in his application the minimum amount of royalty he is prepared to guarantee for the term of the license as required by Rule 5 and the application must be accompanied by a deposit of the amount of the minimum royalty offered to be guaranteed which will be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license.

8. If the Government decide to grant a license, the Director, Department of Mines and Geology, will inform the applicant of their decision and of any special terms which it may be considered desirable to impose.

9. If the application is rejected or if the applicant within such time as may be specified declines to accept any special terms of which he has been informed, the fee and deposit paid with the application will be returned.

10. Until the license is signed by the Director, Department of Mines and Geology, the applicant shall not be entitled to exercise any of the privileges of a licensee.

11. No corundum shall be removed without a written permit from the Amildar of the taluk. When the licensee wishes to remove any corundum which has been collected he shall forward to the Amildar a statement showing the amount of corundum to be removed together with the royalty due on the total amount and request permission to remove this amount from the place where it lies to some specified destination. The Amildar may thereupon grant the permit required, taking any steps which he may consider necessary to satisfy himself of the correctness of the amount to be removed.

12. In case of more than one application being received for any area, the Government may at their discretion call for tenders and grant the license to the applicant whose tender may be considered most advantageous and satisfactory.

13. The Government reserve to themselves the power of refusing to grant a license to any person without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

14. The licensee shall not assign his license or transfer any right or interest thereunder to any person except with the previous consent of the Government in writing.

15. A licensee may obtain a duplicate copy of his license from the Director, Department of Mines and Geology, on payment of a fee of Rs. 5.

16. Except as provided under Rule 9, if the applicant declines to accept a license which has been offered to him under Rule 7, his application shall be cancelled and the fee paid therewith forfeited to Government and the deposit received with the application or any portion thereof is also liable to be forfeited at the discretion of Government.

17. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee and the deposit paid therewith under Rule 7 shall be liable to be forfeited to Government.

License is hereby granted this the        day of        191        to hereinafter called the licensee, to search for, collect and remove corundum for a period of one year from the date hereof over the area described in the schedule hereunder.

The minimum royalty guaranteed by the licensee for the term of the license is Rs.        which amount has been deposited with the Government.

This license is subject to the terms and conditions stated on the back hereof.

By Order,

Director, Department of Mines and Geology.

## SCHEDULE.

District	Taluk	Area

*Terms and conditions.*

1. This license confers on the licensee exclusive right and liberty to search for, collect and carry away, as and for his own use, any or all of the corundum in the licensed area, but is subject to any vested interests and to any rights and liberties which have been granted, or which may be granted at any time during the currency of the license by Government in the said area or in the minerals, stones or rocks therein contained.
2. All operations shall be conducted in accordance with such regulations as the Government may from time to time prescribe.
3. In the course of operations, no occupied or private lands or lands comprised in mining leases or prospecting licenses shall be entered upon or disfigured, except with the sanction, in writing, of the occupant, owner, lessee or licensee thereof.
4. The licensee shall not cut or injure any tree on unoccupied or unreserved land except with the permission in writing of the Deputy Commissioner.
5. The licensee shall not without obtaining the sanction, in writing, of the District Forest Officer upon such conditions as that officer may in his absolute discretion prescribe enter upon or exercise any of the rights and liberties under this license in any State Forest or land under special protection.
6. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves burial grounds or village sites for houses, which may now exist in the said area, and in no way obstruct any road, path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands, villages, houses or trees whether in the said area or adjoining thereto.
7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by this license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.
8. The licensee may turn up the surface of the ground or make excavations to such depth as the Deputy Commissioner may allow.
9. No excavation may be made exceeding 10 feet in depth without the sanction in writing of the Deputy Commissioner who may demand a deposit, not exceeding Rs. 100, as security for the fulfilment of the conditions laid down in clause 10 hereof before giving such sanction.
10. On the termination of the license the licensee shall fill up or fence any holes or excavations he may have made to such extent as the Deputy Commissioner may require.
11. A royalty of Rs. 4 per kandy (850 lbs.) shall be paid by the licensee on all corundum removed by him from the licensed area.
12. No corundum shall be removed from the licensed area without a written permit from the Amildar of the taluk in which the area is situated. When the licensee wishes to remove any corundum which has been collected, he shall forward to the Amildar a statement showing the amount of corundum to be removed together with the royalty due on the total amount, and request permission to remove this amount from the place where it lies to some specified destination. The Amildar shall thereupon grant the permit required, taking any steps which he may consider necessary to satisfy himself of the correctness of the amount to be removed.
13. If the total royalty paid by the licensee during the term of the license exceeds the amount of the minimum royalty guaranteed by him, the deposit shall be returned to the licensee upon the termination of the license; on the other hand, if the royalty paid during the term of the license is less than the guaranteed minimum, the deficit shall be made good from the amount deposited as minimum royalty.
14. The licensee shall keep proper accounts of all work carried on and of the quantity and value of corundum collected and disposed of, and shall furnish within one month of the end of every quarter to the Director, Department of Mines and Geology, a statement showing the quantity of corundum collected and removed by him during the quarter, the places from which it has been collected, the places to which it is exported, the amount of royalty paid on the quantity removed and the gross sale value thereof.
15. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.
16. The return of the deposit is subject to the due fulfilment on the part of the licensee of the terms and conditions of the license.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2; DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per. cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller, before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

“In pursuance of paragraph 1 of the Trading License (Persia) 1916, published with this Department's Notification (Commerce and Trade) No. 2274-W., dated the 29th April 1916, the Governor-General in Council is pleased to declare that Albert Hougui Saleh of Mohammerah is well disposed towards the British Government.”

No. G. 3683—G. M. 266-16-2, dated 13th September 1916.

The following rules for the occupation of the Indian Guests' Quarters, New Block, and New Travellers' Bungalow at Mysore are published for general information. The buildings will be available for occupation from the 1st November 1916 :—

I. These buildings will be reserved for the occupation of guests during the Dasara and Birthday Festivities and will be available for the temporary occupation of travellers during the remaining portion of the year. The periods during which the buildings will be so reserved will be duly published in the *Mysore Gazette*.

II. The following rules are laid down for the temporary occupation of the buildings by travellers :—

(1) The Indian Guests' Quarters, New Block, are intended for the accommodation of travellers who are vegetarians and the New Travellers' Bungalow, for travellers who are non-vegetarians.

(2) The fee for each person occupying a suite of rooms in these buildings shall be rupee one per diem. Two or more persons (whether married couples or not) occupying the same suite of rooms will pay half as much again as the full fee. Fees at the same rate will be levied for every additional occupancy of 24 hours or a fraction thereof.

(3) Travellers passing the night at the buildings will pay the full fee.

(4) Travellers occupying the buildings between sunrise and sunset only are subject to half fee.

(5) Officers in the service of Government are subject to the same fees for occupancy when travelling on duty as under other circumstances, but those drawing a salary of Rs. 200 and under will be charged with half the full fee when travelling on duty.

(6) No one may occupy a suite of rooms for more than three consecutive days if the accommodation be otherwise required, without the permission of the Secretary to Government, General Department.

(7) No one may occupy more than one suite of rooms when the others are demand.

(8) No part of the buildings or their compound may be used nor may the servants be employed without payment of the prescribed fee.

(9) Travellers will be held responsible for damage done by themselves or their servants to the bungalows or furniture or other articles. All articles injured or broken must be paid for prior to the traveller's departure according to the scale, if any, prescribed by the Secretary to Government, General Department.

(10) The Sub-Overseer in charge of the buildings will assist travellers in procuring supplies for ready money.

(11) In the printed Visitors' Book kept in the buildings for the purpose, travellers are requested to enter their names, time and date of arrival departure and the amount of fees paid.

(12) The control of the buildings will rest with the Secretary to Government, General Department. Travellers who have any complaints to make should address that officer by letter or enter their complaints in the "Remarks" column of the Visitors' Book.

(13) All fees and demands in accordance with the forgoing rules must be paid by travellers before leaving the buildings.

**FINANCIAL.**

No. Fl. 1118—G. F. 28-14-2, dated 7th, September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

**The Dewan.**—The members are no doubt aware of the rules pertaining to the budget discussion. Each member may offer any observations on the budget provided that he will speak only once. He may not take up without the special permission of the President more than 15 minutes for his remarks.

**Mr. M. Karnick Krishnamurti Rao.**—SIR,—From the past two years' experience we find that 15 minutes' is scarcely sufficient. I would suggest that the limit may not be insisted on and that if the business cannot be finished to-day, the Council may be adjourned to to-morrow.

**Dewan.**—We are prepared to have another meeting to-morrow if it is absolutely necessary. But I hope we may be able to finish the business to-day. Fifteen minutes may be construed as the usual limit and if the member wants to take up more time he will be allowed to do so.

**Mr. B. K. Garudachar.**—SIR,—In the informal committee meeting of yesterday I had answers given to some of my questions on the budget figures, but I have still my own doubts about them. I have only a few observations to make and I shall not take up much of the time of the Council. My observations are:—

*Land Revenue.*

The cost of collecting the above revenue is estimated to be 19·061 per cent and this appears to be very excessive. In Punjab it is only 16·5 and in Bombay, which system we are following, it is only 17·4: The figures are:—

Bombay population	19½ millions	area	1,23,000 square miles	density	160.
Punjab	20	„	97,200	„	200.
Mysore	5½	„	29,433	„	187.

The relative density in the above provinces is about the same thing and the explanation furnished for the increased cost does not appear to me to be quite

appropriate. It is therefore a matter for the consideration of Government to see their way to reduce this cost.

### *Excise.*

The substantial increase of revenue under this head during the last year has been accounted to the keener competition among the contractors as in the previous years. It is not clear how this can be going on year after year as there must be, I think, a margin of profit which will prevent the contractors from indulging in this unhappy competition. I believe therefore there must be other causes contributing to this increase of revenue.

While greatly appreciating the steps taken by the Government for checking consumption we can never stop from asking for larger concessions from the Government to limit facilities provided for drinking. It is absolutely essential that (1) local option should be given throughout the State and as a preliminary to this very desirable step it may be tried in some few centres; (2) shortening of the hours of sale, is another important measure for checking consumption and I would strongly press the adoption of these measures at a very early date.

The cost of collecting this revenue in Mysore is worked out to be 6.471. Here again the cost far exceeds that either in the Punjab or in Bombay, where it is 3.14 and 5.202 respectively. My remark under the head "Land Revenue" about the relative density of population in the provinces applies equally well here and the justification for this increase in cost should be found elsewhere.

### *Education.*

During the past few years there has been a clamour for seats in the college classes and this year I find that difficulty is for the first time experienced by our students for seats in the school final classes even in the IV Form. It is not at all difficult for the Government to redress this grievance of the student population, for the addition of extra classes in existing institutions will not entail any heavy expenditure and the receipts under school fees will very often more than counter-balance the required expenditure. As a matter of fact this has been the case last year.

It is gratifying to note the increased provisions made under this head. Expansion and improvement of both higher and elementary education have been kept in view in providing for the estimates.

The provision under scholarships is latterly being exploited for the benefit of certain backward classes in the State. I have nothing to state against the policy of the State to encourage the so-named backward classes, but I would only like to see that this should not be by the withdrawing of the encouragement now given to the so-called forward section. Such a step will only be a retrograde one as it will surely result in that section coming to be styled the backward class in its turn.

### *Allowance to Secretariat Officers.*

I would strongly urge that the provision in the budget for 1916-17 for granting local allowances to some of the Secretariat officers be struck out. It is an anomaly to find an officer in the Revenue Commissioner's office, for instance, working without an allowance while the same officer when transferred to the Secretariat is to draw an allowance in addition to his pay. *Per contra* when a Secretariat officer is transferred to the Revenue Commissioner's office he is deprived of his allowance. What justification there is to this state of affairs cannot be comprehended. This question was brought to the notice of the Government last year and there was no satisfactory answer. I expected to see some definite action taken in the course of the year removing this anomaly, but there has been nothing of the kind. I therefore beg to lay again my strong protest against the grant of these allowances. It is, I admit, a very small economy, but still a sound and general principle has to be adhered to.

### *Separation of Judicial and Executive Functions.*

Nothing has been done by the Government towards bringing into practical politics this sorely needed reform in the Administration. The desirability of this measure is an acknowledged one and the Government are putting it off on the ground that the financial resources of the State would not admit of its introduction. Last year it was pointed out by me that this need not in any way deter them from making a move in this direction. It is very deplorable that Government do not see their way to find funds in the budget for this long felt measure.

The Economic Conference work has lately been engrossing the attention of all Amildar Magistrates and Deputy Commissioners with the consequence that the latter now propose the appointment of an Economic Inspector for each taluk. We have recently had District Economic Superintendents to relieve the Deputy Commissioners of a portion of their work in this connection and to help them through and now, to bring about more useful results, they ask for a man for each taluk to relieve the Amildars and to assist them in their work. This is not a very sound proposal. The Amildars should not be relieved of this most important work. They are the men who can do any good to the poor masses. I think the best interests of the State will be served if the opportunity is now taken to relieve the Amildars of their magisterial functions and leave them free to work wholeheartedly for the amelioration of the condition of the poor subjects in their trust by bringing about improvements in the village crafts and industries. By thus doing, both purposes will be served to the satisfaction of all parties.

### *Railways.*

Last year when I expressed the fear that the staff provided for the direction, etc., of our open lines of railway and those under construction was disproportionate compared with that of the Railway Companies, I was told that this was necessary to save the waste that would otherwise lead to in several other ways. In the Mysore-Arsikere construction I am given to understand that the actuals under several heads have far exceeded the original estimates and one of the causes that has led to this has been that the contractors were given for the easy surface work the best or the average rates provided and that for the more difficult work they began to claim higher rates. If this is so it is a point for observation that our officers who were specially appointed to scrutinize, without losing sight of efficiency at the same time, should not have foreseen such simple matters. It is hoped that matters will be set right to the best interests of the State. The direction establishment for our few miles of railway is far in excess of that in the railways worked by the Companies and the matter therefore requires careful scrutiny on the part of the Government.

Provision is not made for the Bangalore-Hosur Railway. This line is in my opinion of first rate importance and no time should be lost in pushing through the formalities and constructing the line. It is desirable to make a provision in the current year's budget for this line.

### *Workshops.*

The announcement made that the temporary workshop started in Bangalore for the erection of coaches for the B.C.L. Railway will be a permanent one for works connected with all our railways is very gratifying to learn and I am glad that for once Government have recognized the suitability of the location of a workshop in Bangalore.

*Open line capital works.*—Under this head a sum of Rs. 30,000 has been provided for extending the inward goods shed at Bangalore, but no provision has been made for extending or improving the outward goods shed. The latter is at present but an apology for a shed of only a few square feet and provides no sort of protection either from the elements or from the much complained of thefts. The outward sheds also require the early attention of the Government.

### *Bangalore City Improvement and Drainage.*

The Government are aware that the provision made last year for the City Improvement entirely lapsed. Again this year only a similar provision has been made. The large scheme for the City Improvement recently approved by the

Government evidently appears to have been shelved and the reason for this cannot be comprehended. Out of the entire cost required for the improvement the Municipality agreed to bear a fair portion, *viz.*, one-third, to be spread over a period of three years from the current year and it was very eagerly expected that Government would provide their quota for the year. But to the disappointment of all this has not been done. Even now it is not too late and I would request the Government to see their way to provide the necessary funds.

Last year it was represented by me that the large provision made for Tramways may be diverted for the drainage scheme for this City as it is acknowledged by one and all that this is a desideratum and no time should be lost to push it through. The provision was allowed to lapse and we are where we were before. This year again the budget before us gives us no hope of this scheme taking a practical shape and the day is yet far distant perhaps. I however take this opportunity to impress on the Government the desirability of this very useful work being taken up at once and for this end funds will have to be provided.

#### *Public Works Department.*

The percentage of establishment charges to the budgeted works for 1915-16 is given as 27 and yesterday when I pointed out to the Council that this was very high I was told that the direction charges for the Cauvery Reservoir Works had to be deducted from the total establishment. Let me now examine the figures in the light of the above explanation. Twenty-seven per cent is on the budgeted works. On the actuals after the usual lapses it will be nothing short of 1 per cent more, or say 28 per cent. The direction charges amount to 1,26,000 and deducting even 50 per cent of this for the Cauvery Reservoir Works the percentage will not get lower than 26. Only a couple of years ago our percentage under this head was only 16 and on the ground that this was very small when compared to that in our neighbouring Presidency (where it was about 23 per cent) the increase of the establishment was begun with the result that we have in such short duration overstepped our neighbour. Here again is a matter for Government investigation and scrutiny.

In conclusion, I beg to lay before the Council the desirability of a Budget Committee with some non-official members for the framing of the budget. We are asking for this concession for the past two years and I hope Government will grant us our prayer ere long.

**Mr. M. Venkatakrishnaiya.**—SIR,—The total receipts of revenue estimated for the year 1916-17 is Rs. 2,86,22,000 or Rs. 1,37,000 more than the revised estimate for 1915-16 or nearly four lakhs more than the actuals for 1914-15. The main items contributing to this increase are Rs. 2,26,000 from the Cauvery Power Works, and one lakh of rupees under the Land Revenue and another lakh of rupees nearly under interests and the surplus revenues of the Bangalore Assigned Tract. The expenditure provided for is Rs. 2,85,94,000 or nearly 25 lakhs more than the revised estimate for 1915-16, leaving a surplus of Rs. 28,000 over the expenditure. We see that but for the increase under the Cauvery Power Works and the revenues from the Bangalore Assigned Tract, there would actually have resulted a large deficit under the arrangements. Even with this addition, it is hardly safe in a State like ours to have only Rs. 28,000 to provide for contingencies. These figures teach us to exercise the greatest care in regulating our establishment charges in every department. It is a well known fact that the cost of living has greatly increased of late and that there is a limit beyond which salaries of poor subordinates cannot be reduced if they are to make both ends meet. It may also be necessary to revise the scale of pay of some of the superior grades of service as has been done in almost all the departments of State; but I am of opinion that the number of superior appointments can be reduced without disadvantage to the State. Some of the establishments seem to be top-heavy. A Retrenchment Committee is a necessity and should consist of a few official and of non-official members. The Financial Secretary may be the President and one or two members may be elected from the Representative Assembly. The Committee should have on its list a member from each department of the State in addition to the President and the non-official members. As we are just entering upon large expenditure in every direction, I believe we shall be well advised in bringing such a Committee into existence at

once. Examining the percentages of establishments under the different departments we find that the lowest percentage under Stamps is 5·7 per cent and the highest under Registration is 48 per cent. The latter figure is very significant and I believe calls for special attention on the part of Government. The exact method in which this percentage has to be reduced will be a fit subject for the Retrenchment Committee. Next comes Forest with a percentage of nearly 35. Even the establishment for the collection of Land Revenue works out to only 19 per cent while that in the Excise has 6·47 per cent and the D. P. W., the greatest spending department has 27 per cent. I believe we have to find out some means of reducing the high percentage of establishments in the Forest and the D. P. W. These will have to be included in the programme of the Retrenchment Committee.

In almost every department I see that the establishment has been revised and increased very considerably. While admitting the necessity for this, I cannot help thinking that it may be possible to reduce the number of superior officers, and increasing their responsibility.

Next to Land Revenue the greatest receipts to the State Revenues are from the Excise department. This revenue has risen to 55 lakhs. The percentage of establishment is however only 6·47. It is satisfactory that the revenue of this department has not shown any abnormal increase during the past two years.

Coming now to the details of the several sub-heads of expenditure and receipts, I find that under Forests the estimated revenue is three lakhs less than what was provided in the revised estimate for 1915-16. From the increased price of timber and sandalwood, one would be disposed to conclude that the revenue receipts under these sub-heads should be more rather than less. The reasons for this are not shown. In this department again 20½ lakhs of rupees are shown as the cost of timber and other forest produce removed by Government agency. Government agency in any business is usually costly and it is a matter worthy of consideration, if the same thing cannot be done by private agencies. This would largely help to reduce the establishment maintained for this purpose by Government.

Under receipts Rs. 1,50,000 is provided as surplus revenue from the Bangalore Assigned Tract against Rs. 8,00,000 provided in the estimate for 1915-16 and Rs. 9,22,940 shown in the accounts for 1914-15. The reason for this reduction of nearly 7 lakhs has not been stated.

We have been embarking on large expenditures in every direction and have provided in this year's budget a sum of Rs. 2,15,000 which it may be necessary for us to borrow. It seems desirable to put a stop to the practice of lending money to outsiders. The monies already lent may be collected as soon as possible and utilised within the province for productive purposes.

Under the sub-head of interests it is seen that Rs. 2,15,000 has been provided on the expenditure side for 1916-17. The same figure was provided in the Budget Estimate for 1915-16. The object for this provision is not stated.

In the case of loans by Government for the improvement of land, the interest is found to vary from 3 to 5 per cent. It seems desirable that the rate of interest might be made uniform and as low as possible as the Government will be a gainer by the improvements so effected. A reduced rate will be an encouragement to raiyats more freely to borrow money to improve their lands.

Under railways the capital outlay seems to be as follows:—

	Rs.
Mysore-Arsikere line ... ..	nearly 71 lakhs
Tramways ... ..	8 lakhs
Kolar District Railways ... ..	8 lakhs
Bangalore-Chikballapur Railways ... ..	44 lakhs

The total expenditure is thus nearly a crore. The receipts after defraying the working expenses are stated to be Rs. 30,000 against Rs. 71 lakhs in the Mysore-Arsikere line which is less than half a per cent on the capital; Rs. 1,000 in the Tramway against a capital of eight lakhs or one-eighth per cent; Rs. 4,000 in the Kolar District Railways or half per cent and Rs. 4,000 in the Bangalore-Chikballapur Railways or nearly one per cent.

The guaranteed interest payable to Bangalore-Chikballapur Railway alone is about 20,000 or Rs. 16,000 more than the receipts. In the case of these Tram-

ways and Railways it is important to know how far the expectations formed have been realised or are likely to be realised before embarking on new enterprises. No doubt they open up the country but at the same time they consume a lot of money which should be spent only on assured returns of decent interest on the capital at least in a reasonable time.

Under agriculture I find that the income from the Kunigal Stud Farm is Rs. 17,700 as against an expenditure of Rs. 56,671 per annum and thus there is a yearly loss of nearly Rs. 40,000. How long has this Farm existed and what is the necessity to keep it up at such a great loss to the State? I should like to know our total loss from this concern from the outset till now.

In Hebbal Farm a lumpsum of Rs. 5,000 is provided for expenditure, after providing another sum of Rs. 5,000 for additional establishment. It is desirable that the necessity for this is explained in clearer detail.

We have a provision for an expenditure of Rs. 7,500 on demonstrations of improved methods of agriculture. Details of exact programmes of such demonstrations would be very useful. A sum of Rs. 7,000 is provided for Dairy and Breeding Stations as against Rs. 4,600 in the revised estimate for 1915-16. These farms should be made self-supporting and attempts should be made to hand them over to private agencies as soon as they begin to be so. Of district farms, the Chitaldrug farm comes in for an expenditure of Rs. 32,340. Is this farm in any fair way to become self-supporting? I do not look for an immediate return on our outlay in the shape of money. I should be content if greater knowledge of improved methods is spread among the people.

In previous years there has been a deduction of an amount varying between 2½ to 3 lakhs from the total expenditure under agriculture as "amounts classified under other heads." This has been omitted this year. What are the other heads and why were they omitted this year?

In Hessarghatta and Nademavinpur Experimental Farms, the income is estimated to be Rs. 26,000 and this income is included under Army Estimates. This requires explanation.

There is a provision of Rs. 3,000 for establishment for sinking irrigation wells. How many wells have been sunk and where, and what is the area brought under cultivation?

A capital of nearly Rs. 40,000 seems to have been laid out on sugar-cane mills. The return is estimated at about Rs. 300. The return is a very poor one. It requires explanation.

In jail manufactures I find that the income is Rs. 15,600 against an outlay of Rs. 23,400, on the purchase of raw materials and tools, etc. One would expect that the income should at least be equal to the expenditure. This likewise requires explanation.

The weaving factory is said to be working at a loss. The receipts are said to be Rs. 27,500 against the charges amounting to Rs. 46,300. The reasons have to be more clearly stated.

In the Industries and Commerce section the cost of direction is 1.09 lakhs. I should like to know what solid return to the State has been secured by this expenditure.

Under the head Police a sum of Rs. 3,000 for grain compensation in excess of the provision of the two previous years, has been provided for in the case of the Railway Police. The reasons for this special provision should have been stated.

Under the sub-head Imperial Service Regiment we have a provision for an expenditure of Rs. 2,16,600 more than the revised estimate for 1915-16 and more than the actual amount during 1914-15. The reasons for and the distribution of this extra amount among the detailed heads of expenditure should have been clearly stated. There is a provision for Rs. 4,500 as good conduct pay to non-commissioned officers and men. This seems to be a new item. The necessity for this should have been stated.

Under the sub-head Stationery and Printing, there is a provision of Rs. 2,000 for 2 Sub-Assistant Superintendents and for an expenditure of Rs. 37,000 more on

stationery depot than in the revised estimate for 1915-16 or for an expenditure of nearly Rs. 68,000 more than for 1914-15. The reason for this excess should have been stated.

Under the Geological Department there is a provision of Rs. 3,000 yearly for five years from 1914-15 for the preparation of Geological maps. It would be interesting to know what progress has been made in the preparation of these maps.

Under Industrial Schools, the Chamarajendra Technical Institute, the Commercial School in Bangalore and the Mechanical Engineering School, Bangalore, cost one lakh of rupees and the Channapatna Industrial School costs Rs. 14,000. But the District Industrial Schools all told are given only Rs. 22,460 and other Industrial Schools Rs. 14,676. We should provide more liberally for the District and Taluk Industrial Schools.

The Engineering School, Mysore should, I think, be gradually converted into a College. The classes for overseers should be started as early as possible.

In the establishment for revenue offices there is a provision of a lumpsum amount of Rs. 6,000 for revision of the establishment of the Revenue Commissioner's office and of Rs. 24,000 for the District Administrations. The reasons showing briefly the necessity and details for all lumpsum allotments should be stated.

I come now to the Public Works Department, the greatest spending department of the State. The percentage of establishment to expenditure is 27. This, I think, is very high. Some part of this high figure may be due to the revision of the scale of pay of Engineer Officers. I do not however see why we should rest content with merely increasing the salaries without increasing the duties of these officers. We should bring the scale of pay of our Engineers into line with that of the British Provincial Service. What is the average expenditure and the extent of the range of an Executive or an Assistant Engineer in the British Provinces? What of the Superintending Engineer? Have we distributed our works in the same way. If not why should we not do so? We have got an irrigation division with an establishment which seems to cost 40 per cent of the expenditure on major works and 32 per cent on minor works. Are such large expenditures on establishment necessary?

Again out of a total grant of nearly 8 lakhs for establishment, the expenditure on direction alone is Rs. 1,23,000 leaving Rs. 6,76,000 for construction. Some years ago when we were spending nearly 40 lakhs of rupees a year we had one Chief Engineer with an Assistant Chief Engineer supervising the whole province. Then as a tentative measure two Superintending Engineers were added. These posts were again abolished and were again renewed. Then came in a Deputy Chief Engineer. Last year we had more Chief Engineers than Superintending Engineers. We have now a Deputy Chief Engineer and Under Secretary, an Assistant Secretary, one Special Assistant Engineer, another Assistant Engineer charged to the Cauvery Reservoir Works, etc.

We have all this with a decreased expenditure of from 25 to 30 lakhs. The number of Divisions and the charges of Executive, Superintending and Assistant Engineers should be brought into conformity with those obtaining in British India. The revision of the whole department should go before the Retrenchment Committee.

For the Cauvery Reservoir which is more or less a concentrated work, we see that the establishment is nearly 11 per cent of the outlay. What was the establishment under Mr. Dalal in Marikanve? Is it not possible to reduce the percentage of establishment?

I find that only 3.80 lakhs are provided to be spent on original works on major irrigation and Rs. 60,000 on minor works out of a total expenditure of nearly 31 lakhs. This seems to be a very poor provision, seeing that tanks play a most important part in the irrigation works of the State. We practically spend much less now on tank works than what our predecessors did. We should spend at least double the amounts set apart above, for the restoration and construction of our tanks both major and minor. These constitute the backbone of the prosperity of the State.

Some of the points that I have stated go to show the need there is for a Budget Committee consisting partly of officials and partly of non-official members. If this is done and if two or more members of this Council are associated with the official members to frame the budget, and if the Financial Adviser of the Government is made the President of this Committee, much of the work of this Council will be minimised. The budget will make the nearest approach to perfection. The careful consideration of the Government is solicited for this matter.

I beg in conclusion to inform you, Sir, that the prosperity of the country depends upon a proper regulation of our expenditure. Individuals as well as States who in regulating their expenditure try to live within means will have something against a rainy day and will be able to weather any storm that may accidentally overtake them. Those who live within means are proof against misfortunes. Those individuals and States that live up to their means can never be expected to be lucky. They may become the victims of misfortune some day or other. I would strongly advise the Government to make the State expenditure never to exceed on any account the income. If possible it is advisable to save something so that we may be able, without borrowing, to meet any unforeseen expenditure. I do not mean to say by this that the Government should not incur any productive expenditure. Even loans may be raised for such expenditure. A large public revenue is no direct criterion of the wealth of a State. If a Government habitually receives a revenue greatly in excess of its expenditure it is less a sign of growing wealth than of a badly adjusted financial system unless of course the surpluses are deliberately budgetted for, with the object of reducing existing indebtedness. A Government has no business to be well-off, in the same sense in which individuals are described as well-off, when they regularly receive more than they are in the habit of spending. A good business man makes his income as large as he can. A good Government makes its revenue as small as it safely can. This is the opinion of no less an expert on taxation than Leonard Alston. What I hold is that in spending the ordinary income for ordinary expenditure we should set apart a portion for unforeseen extraordinary expenditure. This cannot be done unless we institute a Retrenchment Committee composed partly of official and partly of non-official element. I beg that you will kindly place this prayer of mine for the careful consideration of the enlightened Government of His Highness the Maharaja.

**Mr. B. Narasinga Rao.**—SIR, The learned Financial Secretary has thought fit to suggest to the non-official members of this Council the course they are to pursue in the discussion of the budget, apparently under the impression that the non-official members require being instructed how to carry on the budget discussion. He seems to have been influenced by the way in which budgets are being discussed by the non-official members in the British Indian Legislative Councils. But at the same time he does not seem to have taken into account the facilities afforded to those Honourable Members by dividing the discussion of the budgets into several stages and also the convenience afforded to them, for offering constructive suggestions by moving specific resolutions on the different major heads of the budget when they are introduced one by one. If the same course is adopted and similar privileges are conferred on this Council by the Government of His Highness the Maharaja, I have no hesitation in assuring the Financial Secretary that the discussion on the budget will be more interesting and to the point and that each member or set of members will take up particular head or heads in the budget and give practical suggestions. Now, as it is, all that we can do is to make general observations on the budget as we are given only one day in the year. So every member studies the budget as a whole and offers such observations as he considers necessary in the light of his experience. Though every member may take up every department for his discussion and arrive at the same conclusion as others have arrived at, still each member may discuss a particular head of expenditure from a different point of view supported by different sets of reasons. This was what was being done even in British India before the changes were effected by the rules published under the Councils Act, 1909.

Since the Government are satisfied with the way in which the non-official members have been exercising the privileges thus far conferred upon them, it is high time for the Government to bring our Legislative Council into line with the

British Indian Councils and empower us to move resolutions, so that the non-official members of this Council may become more useful to the Government and co-operate with them for the betterment of the country and bring about a better understanding between the Government and the people at large.

When the learned Financial Secretary presented his budget last year in this Council, he was pleased to show a surplus of only Rs. 32,000, which created some alarm in the minds of some of the members. The members of this Council at that time did not expect that the learned Financial Secretary would treat them to a happy surprise at the end of the year by converting practically a deficit budget into a prosperous one, showing a surplus of Rs. 29,59,000.

During the budget discussion of last year, one of our esteemed colleagues, who was a responsible member of Government and who carries with him the weight of his long experience, remarked, that the learned Financial Secretary had the happy knack of converting a deficit budget into a surplus budget if he pleased and that remark has turned out to be true. In the current year, we have again been treated to a similar kind of budget with a nominal surplus of Rs. 28,000 and the Financial Secretary has called the budget a practically balanced budget. He further, in the concluding portion of his speech, makes a sympathetic and consolatory observation that many a scheme dear to the heart of the administrator and the reformer had to be postponed for want of funds and many a departmental head with a scheme for the re-organisation of his department had to turn away from the gates of the treasury in disappointment. Taking into consideration the experience of the past, it is not unreasonable to premise that at the time of the preparation of the budget with a view to characterise it as a "cautiously prepared" one, it is usual to underestimate the income and overestimate the expenditure of every department. Provisions are made for certain departments quite in excess of their needs and beyond their capacities to work out the whole, which will only create an incentive in them to work out the allotment in a hurry without allowing it to lapse. Neither the administrator nor the reformer, nor the head of any department ought to feel discouraged at the gloomy picture artistically drawn by the Financial Secretary in pressing forward their reforms or schemes of organisation if they are really beneficial to the people at large.

The learned Financial Secretary has observed in his speech that one has to be cautious in framing the receipt side of the budget and also to exercise great restraint in the matter of expenditure. I venture to say that he has adhered to the first part of the principle enunciated by him and not to the second, as will be presently shown by reference to a few instances.

While discussing the budget last year, I have clearly shown that during a period of twelve years, commencing with 1902-03 and ending with the year 1913-14, the increase under all heads of revenue was at the rate of 2.29 per cent per annum, while the corresponding increase in expenditure was at the rate of 3.15 per cent per annum. Now, between the years 1914-15 and the current year, I find that land revenue collection charges which were at 18,23,000 in the year 1914-15 are estimated at 20,11,000 for the year 1916-17, while the increase in revenue under the same head is 3,68,000, showing an increase of 3.61 per cent. The expenditure during the same period has mounted up to 10.3 per cent. Is it not a disquieting feature of our finance to see that expenditure in reality has progressed at treble the pace of the growth of the revenue? If in consequence of the increase in revenue, increase in expenditure is considered necessary, it must bear only the same ratio at the worst.

The Revenue Commissioner's Office shows an increase in expenditure of 18.53 per cent in excess over that of 1914-15. Seeing that there is a separate Secretary for the Revenue Branch, I am doubtful of the utility of having a Revenue Commissioner with a large establishment.

Under the head General Administration, expenditure from 1914-15 to 1916-17 shows an increase of 13.64 per cent. Is this not high?

The expenditure of the office of our worthy Financial Secretary himself, shows a rise from 1,28,746 for 1914-15 to 1,55,400 for 1916-17, which works out an increase of 5.12 per cent besides Rs. 20,000 mentioned as "lump addition by F. D." in the detailed budget, page 70. We learn from the Notification in the Gazette that the Offices of Financial Secretary and Comptroller have been separated

and are now held by different officers. Does this mean any extra cost to Government? The public are in the dark as to the reasons which have led Government to effect these changes.

### *Efficiency Audit.*

A provision of Rs. 25,000 is made for this department. From the details furnished, I see that there are two Gazetted Officers drawing a salary of Rs. 400 and 800, with an establishment costing Rs. 4,400. The public are unaware of the work turned out by this department which has been in existence for some years. The department which was inaugurated with a modest estimate of expenditure has been developing into one costing one-quarter of a lakh of rupees every year, and the public have yet to learn the utility of this department, and I regret to observe that the department has not shown any appreciable progress justifying its continuance at such a heavy cost, as far at least as the public are aware.

Last, but by no means the least, the establishment of the Public Works Department seems to have come in for a lion's share of the increased expenditure. Year after year the members of this Council have been praying for the incorporation in the General Budget the details of the establishment of the Public Works Department and of the works proposed to be sanctioned, with a view to subject the same to scrutiny by this Council. This request, simple as it is, has not been complied with. The members are, therefore, to leave this hall sharing the general impression entertained by the public that the great spending department is specially favoured by the Government, with a large establishment not commensurate with the work turned out by the department. The creation of new offices with an addition of allowances, sometimes almost equal to the pay, is really alarming and cannot be justified unless cogent reasons and proper explanations are placed before the public. While the increase of expenditure has been going on in the departments which are already overfed, other administrative improvements and reforms which are beneficial to the public, have not received their due share of attention.

I am disappointed to see that no provision has been made for the long longed for separation of judicial and executive functions. This reform, if carried, will create a landmark in the progress of civilization in our State. The evils of combination of the two functions are so patent and have been discussed threadbare by eminent men, both European and Indian, as not to require a detailed examination here. The executive officers are saddled with work of various departments and the combination of magisterial work along with them is incongruous. The combination has resulted in delay in the disposal of cases and sometimes the purity of justice has also been suffering. The principle of separation was accepted by our Government years ago, but it has not been given effect to on the ground of the alleged paucity of funds. In answer to my interpellation in this Council on the 28th April, 1916, the Government were pleased to state that the question of separation of judicial from executive functions was under the consideration of Government, and every one was hopeful that the dearly cherished reform would find a place in the budget. The Inspector-General of Police in his Administration Report of 1914-15, states that the Amildars as Heads of Police do not evince interest in the investigation of important cases, and the Government have expressed their regret for the apathy shown by the Amildars. This neglect on the part of the Amildars appears to me to be mostly due to their having been saddled with criminal cases in addition to other works of a varied character. The question of extra funds to give effect to the separation cannot bear a close examination. It is not impossible to work out a moderate and well-regulated scheme without entailing upon Government a very heavy cost. The extra cost may not go above one lakh of rupees a year, which sum may be considered negligible in view of the boon it will confer on the public. I therefore suggest that the Government will be pleased to set apart one lakh of rupees for this purpose by curtailing extra expenditure provided for other departments.

### *Police.*

This is one of the most important branches of the administration requiring thorough reorganisation. Time has come for making educational and departmental

tests as essential qualifications for the appointment of Inspectors and Jamadars. The pay of these officers is too low to attract educated men to seek employment in the department and much less to remain there. These officers are entrusted with the responsible duties of prevention and investigation of crimes. The success of the case depends entirely upon the intelligence, earnestness and above all, integrity of the investigating officers. These officers are expected to maintain horses of standard size and they are given an allowance barely enough to cover the pay of a syce. How is it possible for them to make both ends meet and maintain the prestige of their position? As a result, their work is not satisfactory, investigations are incomplete and many crimes go undetected and unpunished. On looking into the latest Administration Report of the Police Department I find that the Inspector-General of Police has stated that there is a general complaint that "the right stamp of recruits is not forthcoming." "Considering the higher wages earned by an unskilled labourer, the pay given to the police and the arduous work extracted from them, it is no wonder that satisfactory recruits are hard to get." The pay of the constabulary is such as not to give them "a living wage" and it is difficult to expect right sort of persons to enter into the police service and much less to work with zeal. From the information furnished to me yesterday, I understand that the Inspector-General of Police has sent a scheme of reorganisation of the police force at an extra cost of Rs. 63,420. I find no provision made in the budget to give effect to this proposal. I therefore request that the Government will be pleased to allot this sum in the budget under discussion.

#### *Registration.*

It has been brought to the notice of Government on several occasions that the lot of Sub-Registrars, most of whom are educated persons, should be improved by giving them timely promotions by introducing at least a progressive scale of pay and the Government have not been pleased to take their case into consideration. There has been a net saving of rupees one lakh from this source of revenue. Fees for registering documents are not to be considered a source of revenue to Government. This department is created only for the purpose of giving to the public better security of title to their property and for the purpose of preventing as far as possible forgery and fraud. I therefore suggest that out of the savings of the department, provision may be made for increasing the pay of Sub-Registrars by introducing the time scale of promotions.

#### *Chief Court.*

While the scale of pay of Subordinate Courts was revised and promotions granted, the staff of the Chief Court, the highest Court in the land, have not yet received any consideration. I solicit that the proposal which, I hear, has been sent by the Chief Court for the reorganisation of the staff may be given effect to by providing the required sum in the budget.

#### *Muzrai.*

The Muzrai institutions over which the Government have been spending more than 3½ lakhs of rupees in cash besides the endowment of extensive lands to various institutions, are very much neglected. The wholesome reforms introduced by Mr. Sreenivasacharlu as Superintendent of the Muzrai department have been gradually disappearing and the institutions have fallen back to the old grooves. This deplorable result is entirely due to the want of supervision by the responsible officers. The Sub-Division Officers and Amildars feel that their powers in Muzrai matters are restricted and, in fact, nil, and that they have no power to grant a few days' leave to a Muzrai subordinate. Everything connected with the Muzrai department should have the approval of the Deputy Commissioners whose multifarious duties do not permit them to pay much attention to these institutions. Coming as I do from a district where there are many important Muzrai institutions spending large sums of money and having seen the working of these institutions I can confidently assert that the institutions have been going from bad to worse. Now there is a highly paid Superintendent whose time is almost spent in the office work and he hardly goes out to inspect the working of the institutions, to correct

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such

securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,

*Financial Secretary.*

## FINANCIAL.

No. Fl. 1881—G. F. 90-16-2, dated 27th September 1916.

The Government of His Highness the Maharaja are pleased to direct that all District Treasuries be kept open on the 4th October 1916 for payment of establishment and pension bills, for the month of September 1916.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the now afforded to effect purchases and sales of securities appertaining to the Mysore Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese versions of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTY

Financial Secretary

*Proceedings of the Government of His Highness the Maharaja of Mysore*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be entered particulars including value, rate, etc., relating to the intended purchase or sale of the

State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

### **Rescript from His Highness the Maharaja Sri Krishnaraja Wodeyar Bahadur, G.C.S.I. to the Dasara Representative Assembly, 1916.**

It is now thirty-five years since my august father, Maharaja Sri Chamarajendra Wodeyar; sanctioned the constitution of the Dasara Representative Assembly in order to bring the officers of the Government into closer touch with the leaders of the people and to enable the latter to lay their grievances and aspirations personally before Government.

The Representative Assembly has more than fulfilled the expectations which were formed at the time of its institution, and I have observed with gratification the intelligence and moderation which have marked its deliberations, and the increasing interest which its members have been showing in all questions of public importance connected with the administration of my State.

It is my earnest desire to increase still further the mutual confidence between the officers of the State and the representatives of the people and to enable the latter to understand and identify themselves still more closely with the policy of Government.

I have therefore resolved to sanction the holding of a second session of the Representative Assembly every year.

I feel confident that this measure of reform will promote both the welfare of my people and the efficiency of my administration.

KRISHNARAJA WODEYAR.

### REVENUE.

*No. 2231—L. B. 123-15-3, dated Camp Mysore, 9th October 1916.*

Add the following as Clause (3) to Rule 8 of the Rules issued under the Mysore Local Boards Regulation, II of 1902:—

(3) When the Government shall have directed that the Vice-President of a District Board shall be elected by the members of that Board, the election shall be subject to the following rules:—

(i) The President of the Board shall give notice to the members of such Board, calling upon them to attend a meeting on a specified date which shall be not later than one month from the date of the above said notice, for electing the Vice-President.

(ii) Such election shall not be held unless the President and at least half the members for the time being of the Board are present at the meeting.

(iii) Any member who desires or is willing to be elected must be proposed by one and seconded by another member and the votes of the President and members present at the said meeting shall be taken by the President.

(iv) The election shall be decided by a majority of votes of the President and members present at the meeting and voting, the President having a second or casting vote in every case of an equality of votes.

(v) No vote given by any person for himself shall be counted.

(vi) The result of the election shall be declared by the President and communicated by him without delay to the Deputy Commissioner of the District.

(vii) The President of the Board shall also forward under his signature to the Deputy Commissioner minutes of the proceedings of the meeting in which shall be recorded:—

(a) The names of the members present,

(b) The names of the proposer and seconder of each member proposed for election,

(c) and the names of the members voting respectively for each member so proposed.

(viii) The validity of any election may be contested by a petition signed by at least three members of the Board by which the election was held and not otherwise, provided that such petition shall reach the Deputy Commissioner within seven days from the date of the election, and shall allege specific grounds for setting aside the election on account of material irregularity in the conducting thereof, or for other sufficient cause.

(ix) Upon receipt of such petition, the Deputy Commissioner shall enquire personally or by some other officer deputed by him, into the validity of such objection or objections and may thereupon, report the matter to Government who may pass such orders as they may think fit.

By Order,  
L. KRISHNA RAO,  
Offg. Secretary to Government,  
Revenue Department.

## EDUCATION AND AGRICULTURE.

No. 2483—Edn. 2-15, dated 27th September 1916.

With reference to the rules prescribed in Government Order No. 763-813—Edn. 400-13-1, dated 22nd October 1914, regarding the grant of foreign scholarships, it is hereby notified for general information that two State and two Damodar Das Scholarships of the value of £200 each per annum, will be awarded during 1916-17 for the study of the following subjects:—

1. Forestry.
2. Electrical Engineering.
3. Metallurgical and mineral processes.
4. Mechanical Engineering with special reference to pattern-making and moulding.

2. Five loan scholarships of the value of £200 each per annum will also be awarded in 1916-17 for the study of one or more of the subjects enumerated in Rule X of the Rules for the grant of the foreign scholarships.

3. All these scholarships will be tenable in the United States of America or in Great Britain and Ireland.

4. Applications for these scholarships should be addressed to the Inspector-General of Education in Mysore, Bangalore, with the necessary certificates required under the rules, and the candidates must state in their applications the subjects selected by them for study and whether they will accept loan scholarships in case the Damodar Das State Scholarships are not allotted to them.

5. The selection of candidates will be made by Government on the report of a Committee appointed for the purpose.

6. The applications should reach the Inspector-General of Education on or before the 15th November 1916.

### *Foreign Scholarship Rules.*

I. With the object of promoting higher scientific study and research and technical education among the people of the State, in order to train in European countries young men who are desirous of following industrial and commercial occupations which will conduce to the development of the country and with a view to educating in European Universities and Colleges young men for recruitment to the service of the State in the Revenue, Educational, Forest, Medical, Engineering, Geological and other departments, the Government of His Highness the Maharaja of Mysore have been pleased to institute the following scholarships.

II. The scholarships will be known as the Mysore Government Foreign Scholarships and will be granted from the following sources:—

1. *Two* known as Damodar Das Scholarships from four-fifths of the annual proceeds of the Damodar Das Charities' Fund;
2. *Four* known as Mysore Government Scholarships from the general revenues of the State;
3. *Five* known as Mysore Government Loan Scholarships from loans granted from the general revenues of the State.

III. Eight of the scholarships will be given for study in the countries of Europe and America. The other three will be given for study in Europe and America or in Japan and other eastern countries; in the latter case two scholarships will be awarded in lieu of every one scholarship tenable in Europe and America.

Of the eight scholarships tenable in Europe and America, 4 will be given for post-graduate scientific study and research and 4 will be given for technical, industrial or commercial training of a practical nature.

The other three scholarships tenable in Europe and America or in lieu thereof, six scholarships tenable in eastern countries will ordinarily be given for practical training in technical, industrial and commercial subjects, but may, in special cases, be given for post-graduate study and research.

IV. The scholarships will ordinarily be tenable for two years, but Government will be prepared to extend the term by one year in the case of half the number of scholarships, where such extension is necessary.

V. Candidates for the scholarships must not ordinarily be over 25 years of age. It will, however, be open to Government to relax the age limit in special cases, such as in the case of candidates who have specially distinguished themselves in their University career and who show very marked aptitude for the higher branches of scientific and technical study, and in the case of candidates who have been engaged in industries or commerce and who desire to pursue industrial or commercial training in foreign countries.

VI. The scholarships will be open to all natives of Mysore by birth or domicile. When well qualified candidates who are natives of Mysore are not available, the scholarships will be open to others who have graduated from a Mysore College. The scholarships for post-graduate scientific study and research shall be awarded only to candidates who have taken with credit a degree in Arts, Medicine or Engineering in an Indian or other recognised University. The subject of advanced study proposed should have an intimate connection with the course of study the candidate has already pursued.

In the case of scholarships for technical, industrial or commercial training, applicants need not necessarily be graduates of a University, but a candidate will be expected to have received sufficient general education to enable him to pursue his studies with advantage. Such candidates should have had practical experience of the industries, etc., which they desire to study, or in the absence of such previous experience should be prepared to undergo such preliminary practical training as Government may prescribe.

VII. Each candidate must forward with his application:—

1. A satisfactory certificate of birth or domicile;
2. A declaration that he has the consent of the head of his family to proceed to Europe or elsewhere for the purpose of the scholarship;
3. Certificates of good character from two persons (not relatives of the candidate) of respectability and good position, in addition to one from the Head of the College where he was educated for the degree in Arts, Medicine or Engineering;
4. A certificate of physical fitness to undergo the course of study, research or training which he will have to follow, signed by the Senior Surgeon of the Government of Mysore or a Medical Officer not below the rank of a District Surgeon;
5. A statement of the course of study or research which he desires to pursue, with testimonials as to his educational and other qualifications for such course.

VIII. (a) Applications for scholarships shall be made to the Inspector-General of Education in Mysore between the 1st June and the 31st July of each year. The selection of candidates will ordinarily be made by Government on the report of a Committee appointed to report on the merits of the candidate.

(b) The candidates shall be required by the Committee to give evidence of their fitness for practical work in any manner that the Committee may think desirable and to undergo any test which the Committee shall prescribe under the general or special orders of Government. In special cases the candidate may be required to undergo a period of probation and preliminary training in India. During such period he shall receive such subsistence and tuition allowances as Government may prescribe.

(c) Candidates for scholarships in Europe and America shall be expected to acquire a working knowledge of German or French and scholars going to the far East a knowledge of Japanese, during the period of probation, if facilities for such study can be secured.

IX. The scholarships for study in Europe and America will be of the value of £200 per annum and those for study in the East of the value of Rs. 1,500 or £100 per annum.

The scholarship will be paid in advance quarterly or in such other instalments as may be considered necessary by the Inspector-General of Education. The scholarship will be held to cover all college and examination fees, cost of books, instruments and boarding charges.

An advance not exceeding £25 in the case of scholars proceeding to Europe and America and not exceeding £15 in the case of scholars proceeding to the East, will be given for expenses of outfit when the scholar leaves Bangalore; and this will be recovered out of the scholarship in easy instalments spread over the whole term of the scholarship.

Besides the scholarship, each scholar will be given travelling allowance, *i. e.*, 2nd class rail and steamer fares from Bangalore to the capital or other town of the country selected for his training and a similar allowance for his journey back to Bangalore on the completion of his course of study or research.

Where any premium or other payment is required for securing admission to a factory or other place for practical training in industries or crafts, such charges will be paid if considered reasonable and provided that the previous approval of Government has been taken in each case. In the case of Loan Scholarships the amount will be treated as an advance and will be recovered in the same way as the scholarship.

X. The subjects which the scholar shall study will be one or more of the following:—

1. Physical Science.
2. Natural Science.
3. Application of Science to Agriculture, Arts, Industries and Manufactures.
4. Research work in applied Science.
5. Medicine, Public Health and Bacteriology.
6. Engineering—Civil, Mechanical, Electrical.
7. Metallurgy, including Electro-metallurgy.
8. Public Administration, Economics, Statistics, Banking, Commerce, Accountancy, Business Administration and Organisation, etc.
9. Arts, Industries, and processes of manufacture including Textile Industries, Tinctorial Chemistry and Dyeing, Leather Industries.

Provided that Government may, in special cases, grant scholarships for the encouragement of higher study in Sciences and Arts other than those specified above.

XI. Each candidate selected, shall, unless otherwise directed by Government, proceed, within such period as may be fixed by them, to the country selected for his training, join the institution selected or approved by Government for the purpose and there continue his study or research with all due diligence.

The Inspector-General of Education will, in consultation with the Comptroller, arrange for the payment to the scholar from time to time of the scholarship and of any other sums that may become payable.

XII. The continuance of the scholarship to the holder will be strictly dependent on good conduct and will be conditional on satisfactory progress being made in his study or research.

The scholars will be subject to the supervision of the Educational Adviser for Indian students in England or other person who may be approved by Government in each case.

XIII. The scholarship will be forfeited if the holder thereof not being disabled by illness or prevented by any other cause which the Government may consider sufficient, fail to complete the course of study or research prescribed or is unfavourably reported on by the Head of the Institution or the supervising authority referred to in Rule XII. In such cases the scholar shall be liable to refund the whole or part of the money paid to him as may be decided by Government.

XIV. A scholar shall, before leaving Bangalore, enter into a bond with the Mysore Government stipulating that he accepts the scholarship on the conditions specified in these rules; that he will prosecute the study or research with all due diligence and that on the completion of such study or research course, he will return to Mysore and will, if called upon to do so, serve the Mysore Government for a period of not less than five years on a reasonable salary to be fixed at the sole discretion of Government, provided that Government may waive such a claim and also that if it shall not offer him employment within six months after his return to Bangalore, it shall be bound to waive it and allow him to get employment elsewhere.

If he fails to fulfil any of these conditions, he shall refund to Government the total amount received by him as scholarship, passage money, etc., with such interest as may be demanded not exceeding five per cent per annum on the amounts paid to him from time to time.

XV. In the case of Loan Scholarships, the scholar shall, in addition to the above stipulations, before leaving Bangalore, enter into a bond with the Government giving satisfactory security for the repayment of the advances payable to him but without interest.

The loan shall become repayable without interest ordinarily in 5 and in any case not more than 10 yearly instalments after the completion of the training for which the loan was made, the further particulars of repayment being fixed by Government in each case according to circumstances.

No. 41—E. C. 47-16, dated Camp Mysore, 10th October 1916.

It is hereby notified that the election of Members to the Economic Conference by the Members of the Representative Assembly will be held at the next session of the Assembly. No election will be held on the 10th October 1916, as intimated under Notification No. 1064—E. C. 4-16-1, dated 1st August 1916. Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and

address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

### GENERAL.

*No. 71—G. M. 313-16-1, dated Camp Mysore, 9th October 1916.*

The following Rescript from His Highness the Maharaja to the Dasara Representative Assembly, 1916, is published for general information.

RESCRIPT FROM HIS HIGHNESS THE MAHARAJA SRI KRISHNARAJA WODEYAR  
BAHADUR, G.C.S.I. TO THE DASARA REPRESENTATIVE ASSEMBLY, 1916.

It is now thirty-five years since my august father, Maharaja Sri Chamarajendra Wodeyar, sanctioned the constitution of the Dasara Representative Assembly in order to bring the officers of the Government into closer touch with the leaders of the people and to enable the latter to lay their grievances and aspirations personally before Government.

The Representative Assembly has more than fulfilled the expectations which were formed at the time of its institution; and I have observed with gratification the intelligence and moderation which have marked its deliberations, and the increasing interest which its members have been showing in all questions of public importance connected with the administration of my State.

It is my earnest desire to increase still further the mutual confidence between the officers of the State and the representatives of the people and to enable the latter to understand and identify themselves still more closely with the policy of Government.

I have therefore resolved to sanction the holding of a second session of the Representative Assembly every year.

I feel confident that this measure of reform will promote both the welfare of my people and the efficiency of my administration.

KRISHNARAJA WODEYAR.

4. The telephone line is intended for the use both of Government Officers and of the public, the latter being charged at the following rates :—

For every message consisting of not more than 15 words, a compound word counting as one—1 anna.

For messages of more than 15 words and less than 25—two annas, up to 50—three annas, and for every subsequent 15 words or a fraction thereof—1 anna additional. If on the other hand, persons wish to have telephonic conversation by themselves, they can do so, paying at the rate of annas 4 for every conversation of five minutes. If extra time more than five minutes is occupied, the person will pay an additional 4 annas for every additional five minutes or fraction thereof.

In this case, the duration is reckoned from the time the person takes the receiver for conversation to the time he replaces the receiver on the instrument.

5. The public are requested to make payment at the above rates before the message is given for transmission or the instrument is given to them for conversation and to obtain a receipt therefor from the authorised person in the prescribed printed form.

6. A regular record will be maintained by the Operators at the Railway Station and on the Hills in counterfoil books, specially supplied for the purpose, of messages received and despatched and also the duration of time allowed for each conversation by persons other than Government Officers when using the telephone for transmitting Government messages. The original of such messages, together with the cash account, must be sent by the Station Master to the Superintendent, Government Gardens, every week, for check, together with the money-remittance-receipt granted by him.

7. Fees collected from all the stations for telephone messages transmitted should be received by the Station Master, Nandi Railway Station, every day and receipts granted therefor. The amount received should be credited in his books and accounted for in the same manner as is done with his station collections.

8. The public are requested to bring to the notice of the Superintendent, Government Gardens, Bangalore, any case of inattention or want of courtesy on the part of the Operators.”

The following notice issued by the Mysore Residency regarding passports and passes for persons proceeding to Mesopotamia, is hereby republished for general information:—

#### PASSPORT NOTICE.

The following special Indian Army Order, dated the 15th September 1916, is republished for information. For the purpose of passports, Mesopotamia includes Mohammerah.

*Discipline General—Instructions regarding passports and passes required by individuals proceeding to Mesopotamia.*

All private individuals desiring to proceed to Mesopotamia must obtain passports, both for themselves and for any servants accompanying them. These passports must be *visé* by the General Staff at the port of embarkation and shown before embarking to the Embarkation Staff Officer who will inform the Embarkation Staff Officer at the port of disembarkation by telegram of all such movements.

2. Discretion as to the grant of the military *visé* is left to the local General Officer Commanding, and only doubtful cases should be referred to Army Headquarters.

3. Military Officers, civil officials and others (including private servants) proceeding on duty, whether travelling by Government transport or otherwise, do not require passports.

But except when proceeding on duty with a unit or draft all the abovementioned, whether travelling by Government transport or otherwise, must obtain a "movement order" signed by the Officer Commanding their original station of departure, or in the case of civilians from non-military stations by a responsible civil officer or officer arranging despatch. This "movement order" must be *visé* by the Embarkation Staff Officer at the port of embarkation before embarking, and again shown to the Embarkation Staff Officer at the port of disembarkation.

4. Any one taking a servant or servants must enter on his own "movement order" the name, father's name, village, tehsil or police station, and district of each servant before the "movement order" is *visé* by the Embarkation Staff Officer.

5. Servants sent out to officers and others already in Mesopotamia must be provided by the despatching officer or official with a pass showing his name, father's name, village tehsil or police station, district and the name of the officer individual or unit to which he is proceeding. This pass must be *visé* by the Embarkation Staff Officer before embarkation and shown to the embarkation staff officer at the port of disembarkation.

6. Followers or labourers, except those to whom a 'movement order' is issued, when proceeding under orders individually, must be provided with passes as above by the officer or official arranging their despatch. When travelling in batches they must be accompanied by a roll giving the above information. These passes or rolls must be *visé* by the Embarkation Staff Officer and checked by the Disembarkation Staff Officer, as above.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*No. Fl. 1999—G. F. 33-16-11, dated 16th October 1916.*

Mr. Krishnappa, son of Shanbhog Lingappaiya, is appointed to be the Officer in charge of the Village Savings Bank at Anthargatte in the Kadur Taluk *vice* Lingappaiya, who was appointed as such in Government Notification No. 6893—A. & I. 190-15-12, dated 22nd May 1916 and is now deceased.

By Order,

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted, in all District and Taluk Treasuries.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers' not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

No. Fl. 2040—G. F. 39-16-3, dated 18th October 1916.

The new rule 11A of the Mysore State Life Insurance Rules, (Government Employee's branch) the adoption of which was sanctioned in Government Order No. Fl. 1709, dated the 16th September 1916, is hereby published for general information.

Rule 11A. "In the case of a person who has effected an optional Insurance as provided for in Rule 7 and is subsequently unable to pay the full premium due on his policy (or policies) the same may be cancelled and in lieu of it a paid up policy as prescribed in Rule 10 issued to him together with a policy for the premium which the insured is able to pay which will not be less than 10 per cent of his pay.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

## GENERAL NOTE.

The following is a brief summary of the more important varieties in the figures for 1914-15 as compared with those of 1913-14.

### *PART I—Agricultural Statistics.*

The total area of the State is approximately 19 million acres and is 10,082 acres greater as compared with the previous year. Of this a little more than 2·2 million acres are occupied by forests and more than 6·6 million acres are not available for cultivation. The area under forests has increased by 153,878 acres. About nine lakhs of acres are culturable waste lands available for cultivation. The total extent under occupation is 7,625,428 acres, of which 6,244,302 acres were cultivated during the year.

### *PART IV—Rainfall.*

The average rainfall in the State was 46·90 inches as against 32·13 inches in the preceding year, there being an increase of nearly 14·8 inches. The increase occurred in all the districts.

### *PART I.*

The net area cropped during the year rose from 6,056,463 acres to 6,244,302 acres, there being an increase of 187,839 acres. The increase occurred in all the districts except Mysore. There was a decrease in the extent of irrigated lands in all the districts, except Shimoga, where there was a slight increase. There was a large shrinkage in the area under paddy in all the districts but noticeably in the Kolar and Tumkur Districts. But the areas under ragi and horse gram increased. The areas under sugar-cane and cholum diminished.

### TABLE C.

The incidence of land revenue (excluding cesses) per head of the population increased by 3 pies and per acre on fully assessed area by one pie.

### TABLE D.

The number of holdings under raiyatwari tenure rose from 1,088,343 to 1,098,343, there being an increase of 67,987 acres in the gross area held on such tenures. The average area of each holding was 6·66 acres and the average assessment 8·8 rupees as against 6·63 acres and 8·91 rupees in the year 1913-14. The number of estates held wholly or partially revenue free was 97,459 as against 98,054. The average area and assessment of these estates were 18·5 acres and 5·6 rupees as against 18·38 acres and 5·51 rupees respectively in the previous year.

### TABLE E.

The number of transfers of lands by order of Court during the year was 177 involving an area of 1,707 acres as against 482, involving an area of 3,363 acres. The number of transfers by private contract or gift was 15,761 as against 16,984, the extent involved being 86,133 and 94,108 acres respectively.

### *PART II—Estimated Outturn of Crops.*

The average outturn of paddy in the State was 8·8 annas as against 8·7 in the previous year. The outturn in the Kolar District was very poor. The average outturn of ragi rose from 6·9 annas to 8·3. The yield of horse gram was slightly better than in the previous year. The outturn of cholum was poor in all the districts except Hassan, Shimoga and Kadur. The average yield of sugar-cane remained unchanged.

*PART III—Prices.*

There was a slight fall in the average price of rice in almost all the districts. The price of ragi was somewhat higher in the Hassan, Shimoga and Kadur Districts, while in the other districts there was a fall. The price of Bengal gram was higher in all the districts than in the previous year.

EXPLANATORY MEMORANDUM ON THE ANNUAL AGRICULTURAL  
STATISTICAL RETURNS "A" TO "E" AND INSTRUCTIONS  
FOR COMPILING THEM.

1. The revenue year commences on 1st July and ends on 30th June. The returns are due in this office on or before the 15th August following.

2. *Table A.*—Table A consists of four sections, viz., A-1, A-2, A-3 and A-4, and contains figures for districts (pages 7-15) as well as for taluks (pages 28-102).

3. *Table A-1.*—Column 2 shows the gross area as ascertained by the Survey and Settlement Department, and is subject to correction according as errors are discovered in resurvey of tracts.

(a) Column 3 shows the areas of alienated tracts (such as Jahgir, Jodi, Sarvamanyam and Kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming in whole or in part. When such statistics become available, the area in this column will be reduced and that in column 4 will correspondingly be increased.

(b) Column 4 gives the remainder which is dealt with in Tables A-2 and A-3.

4. *Table A-2.*—Column 2 "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

(a) Column 3 includes land absolutely unfit for cultivation, land reserved as pasture, (gomal lands and kavals of sorts), public topes and Government plantations, and also all lands covered by buildings, roads, water, etc., or otherwise devoted to uses other than agriculture. When, with due sanction, any of these areas are made available for cultivation, they should be transferred from this column to column 5 or 6. The extent of "Pot Kharab" forming part of survey numbers should be included under this column, the same being excluded from columns 4, 5 and 6.

(b) Column 4 shows the area of assessed unoccupied land.

(c) Columns 5 and 6 show the areas of assessed occupied land not cultivated ("Kabulibanjar") and cultivated respectively as found in the abstract at foot of the Pahani Account (Village Account Form No. 3). Minor inams in Government villages are included herein. In Mysore there is no system of fallows properly so called. Column 5 will therefore show land in occupation kept uncultivated from whatever cause.

(d) The total of these five columns will, of course, equal to figures shown in column 4 of Table A-1.

(e) Columns 8 to 12 show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

(f) Columns 14 to 17 should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

5. *Table A-3.*—This is based entirely on the Pahani Account (Village Account Form No. 3), and shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 42. The area dealt with is that shown in column 6 of Table A-2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the shanbhög on his own judgment.

The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect not its area but its outturn. Where fields, owing to the failure of the first sowings, have been devoted to the other crops, the area sown by the first sowing should be omitted. The crops to be selected for inclusion in certain heads of this table are as follows:—

Column 9.—*Gram* (pulse) Bengal gram.

Column 10.—*Other food grains including pulses*.—Samé, haraka, navane, avare or ballar, tuwar or togari, tadagani or alasandi, horse gram, green and black grams.

Column 15.—*Others (oil-seeds)*.—Castor, oil-seeds, inferior sesamum (hutchellu), groundnut or nelakadlekayi, honge, ippe, etc.

Column 17.—*Condiments and spices*.—Pepper, cardamom, chillies, cummin seeds, corriander seeds, ginger, mustards, turmeric, onions, garlic, menthya, etc.

Column 22.—*Others (fibres)*.—Pundi, sanabu, etc.

Column 27.—*Others (dyes)*.—Rangumale, etc.

Column 29.—*Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

Column 36.—*Fodder crops*.—Kaki jola, etc.

Column 37.—*Orchards and garden produce*.—Mango, apples, figs, plantains, oranges, pomegranates, etc. The area of cocoanut, areca and betel-leaf gardens should also be included.

Column 38.—*Miscellaneous food crops*.—Vegetable gardens, potatoes, etc.

Column 39.—*Miscellaneous non-food crops*.—Mulberry, etc.

6. *Table A-4*.—This table deals with agricultural stock and should include live-stock in Municipalities. Oxen and buffaloes not old enough for work or to produce young should be treated as “young stock” in this return.

Until 1898-99, statistics of live-stock were collected every year by the shanbhog and patel of each village by enquiry and inspection, as a part of the year's jamabandi routine. Government directed, in their Order No. 7601—615, dated 24th April 1899, a quinquennial census to be taken and the repetitions of the figures of such census as statistics for the ensuing four years. The figures contained in the statement for the two years 1913-14 and 1914-15 are those obtained at the census of January 1911.

7. *Table B*.—This is a statement showing the average for the year of the prices current of certain articles. It is printed in this collection, as Part III.

*Table C*.—This table indicates the relation between area, population and land revenue, or in the other words, the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari.

(a) Column 3 (a) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (4 of Table A-2.) The area of minor inams is not, however, included in this column, as a proportionate deduction cannot be made in the corresponding population.

(b) Column 3 (b) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown in columns 2 and 3 of Table A-2.

(c) Column 4 (a) exhibits the area of occupied lands (Sirkar and minor Inam) in Government villages and should therefore equal the sum total of the figures in column 5 and column 6 of Table A-2 (current fallows and net area cropped during the year).

(d) Column 4 (b) exhibits the area actually cultivated. The figure under column 6 of Table A-2 will therefore be repeated here.

(e) Column 5 should exhibit the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after

excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads *plus* Miscellaneous Land Revenue and *minus* remissions under defined rules, and *minus* also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings No. R. 212, dated 30th July 1894.

(f) Columns 6 and 11.—The population according to the most recent decennial census will be entered in column 6 subject to such alterations as are necessitated by any change in the constitution of the districts, and the figures in column 11 are subject to such alterations as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages or other causes.

(g) Column 7 is arrived at by column 5 being divided by column 6.

(h) Column 8 does not include Miscellaneous Land Revenue and Land Revenue on alienated villages which are included in column 5.

(i) Column 9 is arrived at by column 8 being divided by column 4 (a).

Column 10 is arrived at by column 8 being divided by column 4 (b).

Column 12 is arrived at by column 8 being divided by column 11.

9. *Table D.*—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagewar), the first four classes and classes VII and VIII will be left blank, all raiyatwari holdings will be included in class V, the heading thereof being altered from "peasant proprietors paying separately" to "small holdings held separate and direct from Government (raiyyatwar tenure)" and all inams (Jahgirs, whole inam and kayamgutta villages and minor inams in Sirkar villages) will be entered in class VI, Lease-holders of gold mines will be shown under class IX "others."

(a) *Number of estates.*—This represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

(b) *Number of villages.*—This shows the total number of villages (primary, of course, populated and unpopulated, *i.e.*, the areas constituted as villages by the Survey and Settlement Department.

(c) *Number of holders.*—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

(d) *Item 5½, gross assessment.*—Between items 5 and 6 of the Government of India form, an item numbered 5½ should be opened to show "gross assessment." This, in the case of raiyatwari lands, will be the survey assessment and water-tax, and in the case of alienated lands, it will be combined quit-rent and water-rate (if any) payable to Government: in both cases without deducting remissions and other deductions, if any.

10. *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift: Transfers by inheritance are not to be taken into account, nor non-permanent transfers such as leases, mortgages, etc. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in columns 4 and 5 and columns 8 and 9 (private contract or gift.) On the other hand, under heading "By order of Court," columns 2 and 3 and columns 6 and 7 are included—

(1) Changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

- (2) (a) All cases in which lands are sold for arrears of revenue due to Government and purchased by private parties.
- (b) Cases in which lands are sold for arrears of revenue due to Government or bought by Government will be excluded from this table.

The particulars contained in columns 2 to 21 should be entered for each district opposite to details under column I "Class of tenure," viz., (a) Revenue-paying and (b) wholly or partially revenue-free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 6 (Statement of Increase and Decrease) and its enclosure.

(a) if the goods are destined to be unloaded in a hostile port or to be delivered to the hostile army forces;

(b) if the ship is to call only at hostile ports or if it is to call at a port hostile or join the armed forces of the enemy before reaching the neutral port to which the goods are consigned.

Without considering the port of destination of the ship the hostile destination referred to in Article 29 is to be presumed in the absence of conditions to the contrary if the shipment is consigned—

(a) directly or indirectly to an enemy authority or the agent of such; or

(b) to order or to a consignee not specified in the ship's papers, or directly or indirectly to a person residing in territory belonging to or occupied by the enemy, or who during the present war has supplied contraband goods to territory belonging to or occupied by the enemy, or to an enemy authority or the agent thereof directly or indirectly.

33. In the absence of conditions to the contrary, the hostile destination referred to in No. 32 is to be presumed when—

(a) the goods are consigned to an enemy authority or the agent of such or to a dealer known to have supplied articles of the kind in question or products thereof to the armed forces or the administrative authorities of the enemy State;

(b) the goods are consigned to order or to a consignee not specified in the ship's papers or indirectly to a person residing in territory belonging to or occupied by the enemy or who during the present war has supplied contraband goods to territory belonging to or occupied by the enemy or to an enemy authority or the agent thereof directly or indirectly;

(c) the goods are consigned directly or indirectly to a forfeited place belonging to the enemy or to a place serving as a base of operations or supplies to the armed forces of the enemy.

Merchant vessels as such are not to be considered as destined for the armed forces or the administrative authorities of the enemy merely for the reason that they are on a voyage to one of the places referred to under letter (c).

The ordinance takes effect the day of its promulgation.

Chief Headquarters, July 22, 1916.

No. G. 5417—G. M. 102-16-97, dated 31st October 1916.

The following Notification No. 9251-13-11, dated 30th September 1916 of the Government of India, in the Department of Commerce and Industry, regarding the prohibition against the export of goods from the United Kingdom to Sweden, is hereby republished for general information.

No. 9251-W.-II.—The following Royal Proclamation is published for general information:—

BY THE KING.

A PROCLAMATION.

Prohibiting, under Section 1 of "The Exportation of Arms Act, 1900," and Section 1 of "The Customs (Exportation Restriction) Act, 1914," the Exportation from the United Kingdom of Certain Articles to Sweden.

GEORGE R.I.

Whereas by Section 1 of "The Exportation of Arms Act, 1900," it is enacted that We may by Proclamation prohibit the exportation of all or any of the following articles, namely, arms, ammunition, military and naval stores, and any article which We shall judge capable of being converted into or made useful in increasing the quantity of arms, ammunition, or military or naval stores, to any country or place therein named whenever We shall judge such prohibition to be expedient in order to prevent such arms, ammunition, military, or naval stores, being used against Our subjects or forces or against any forces engaged or which may be engaged in military or naval operations in co-operation with Our forces:

And whereas by Section 1 of "The Customs (Exportation Restriction) Act, 1914," it is enacted that Section 1 of "The Exportation of Arms Act, 1900," shall have effect whilst a state of war in which We are engaged exists as if, in addition to the articles therein mentioned, there were included all other articles of every description:

And whereas by virtue of a Proclamation, dated the 10th May, 1916, made in pursuance of the said Exportation of Arms Act, 1900, as amended by the Customs (Exportation Restriction) Act, 1914, certain goods are now prohibited to be exported to the Kingdom of Sweden:

And whereas We have deemed it expedient to prohibit the exportation to Sweden of all articles whatsoever other than those hereinafter excepted:

Now, therefore, We have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation, declaring, and it is hereby declared, that the exportation of the following articles be prohibited to all ports and destinations in Sweden, viz.—

All articles which are not by virtue of any Proclamation for the time being in force made under Section 8 of the Customs and Inland Revenue Act, 1879, as amended by any Act or under the Exportation of Arms Act, 1900, as amended by any Act, prohibited to be exported to Sweden, except:—

1. Printed matter of all descriptions.
2. Empty receptacles returned to Sweden.
3. Worn clothing and other personal effects.
4. Live animals other than animals ordinarily used for human food.

Given at Our Court at Buckingham Palace, this Eighteenth day of August, in the year of our Lord One thousand nine hundred and sixteen, and in the Seventh Year of Our Reign.

GOD SAVE THE KING.

No. 2679—San. 3-16-22, dated 31st October 1916.

The following Notification of the Madras Government is republished for general information:—

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Maligai (Hoganakal Cauvery) in the Dharmapuri Taluk of the Salem District, if persons from the infected parts of the Salem, Coimbatore and North Arcot Districts, and the other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing Tula Ekadasi festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council prohibits the attendance at the said festival from the 29th October to 12th November 1916, inclusive, of persons from the said parts.

All persons proceeding to the said festival in contravention of this notification will be turned back.

No. 2681—San. 58-16-2, dated 1st November 1916.

Under clause 1 of Section 2 of Regulation I of 1906, it is hereby declared that vaccination shall be compulsory, for a period of one year, from 1st December 1916, within the limits of Koratagere Municipality.

By Order,

D. M. NARASINGA RAO,

Secretary to Government,  
General Department.

## EDUCATION AND AGRICULTURE.

No. 3065—A. & I. 180-15-4, dated 1st November 1916.

The Government of His Highness the Maharaja of Mysore, are pleased to issue the following rules for the grant of loans for fruit cultivation:—

(1) Loans not exceeding Rs. 3,000 in any single case may be granted for the purpose of organising nurseries of fruit trees or for planting or improving fruit gardens of more than an acre in extent in the State.

(2) The applications shall be in the form given in the annexure, and shall be presented to the Deputy Commissioner of the District, who shall have the site of the garden proposed to be planted or improved, inspected by an officer not below the rank of an Amildar, and who shall consult the Superintendent of Government Gardens in regard to the feasibility of the project and the necessity and advisability or otherwise of the several items of expenditure intended to be undertaken.

(3) In every case in which a loan is granted under these rules the borrower shall execute a mortgage deed in respect of the garden or estate to be planted or improved and shall also offer additional security in the shape of other immovable property which shall be equal at least in value to the amount of the loan applied for. Government bonds and Railway debentures may, however, in the discretion of the Deputy Commissioner, be accepted as additional security. He shall also agree to abide by the conditions set forth in these rules.

(4) The sufficiency of the security shall be investigated by an officer not lower in rank than the Amildar of the taluk in which the site of the garden to be planted or improved, is situated in cases in which the amount of the loan applied for is below Rs. 500 and by the Assistant Commissioner in revenue charge of the taluk in cases involving higher amounts, and no loan shall be granted without a satisfactory report of such enquiry.

(5) The Deputy Commissioner shall be competent to sanction the loan applied for or such portion thereof as he shall deem safe and reasonable in the circumstances, when the total amount to be sanctioned does not exceed Rs. 500; applications involving larger amounts being submitted to Government for sanction, through the Agricultural Committee. Copies of orders sanctioning loans should be forwarded to the Superintendent, Government Gardens and the Secretary, Agricultural Committee, for information and record in their offices.

(6) The loans shall be granted subject to the following conditions:—

(i) The loan shall bear interest at the rate of  $6\frac{1}{2}$  per cent per annum and shall be discharged (both principal and interest) in seven equal annual instalments to be paid before the end of May, the first instalment falling due on the 1st May of the 3rd year, after the loan is sanctioned.

(ii) In all matters relating to payment, etc., of the loan not specially provided for in these rules, the provisions of the rules issued under Notification No. R. 4319—Agri. 91-08-4, dated 2nd January 1909, shall apply as far as possible.

- (iii) The borrower shall undertake to commence work within six months after the loan or the first instalment thereof is disbursed and to utilize it strictly for the purpose set forth in his application but if through unforeseen circumstances, any deviation becomes necessary, he shall apply for the written permission of the Deputy Commissioner who, if he grants it, shall endorse it on the record of the order sanctioning the loan.
- (iv) The borrower shall maintain proper accounts of the appropriation of the loan and shall hold both his accounts and his garden in respect of which the loan is obtained, open to the inspection of the Deputy Commissioner and other Revenue Officers not lower in rank than the Amildar or the Deputy Amildar of a Taluk or Sub-Taluk and of the officers of the State Gardens Department and the Economic Conference.
- (v) If the loan is not being properly utilised, or if the garden for which it was obtained is being neglected or if the instalments are not regularly paid, the borrower may be required to return the full amount of the loan at once and steps taken for its recovery as an arrear of land revenue.
- (vi) The borrower shall execute an agreement undertaking to abide by the conditions above set forth.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2; dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{4}$  per cent will be charged to the seller, by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

No. Fl. 2185—G. F. 42-14-10, dated 24th October 1916.

Under Section 2 of the Coinage Regulation, 1900, the Government of His Highness the Maharaja are pleased to declare that the following rules in Chapter XXIX of the Civil

Account Code applicable to coins current in British India shall be in force in Mysore in the way indicated against each rule:—

*Rule 575 (a) and (b) Civil Account Code.*

“(a) Section 16 of the Act III of 1906 provides that when any silver coin which has been coined and issued under the authority of the Governor-General in Council is tendered to any person authorised by the Governor-General in Council or by the Local Government to act under that section and such person has reason to believe that the coin.

(1) has been diminished in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, or

(2) has been defaced,

he shall, by himself or another, cut or break the coin.

(b) Section 20 of Act III of 1906 similarly provides that when any silver coin purporting to be coined or issued under the authority of the Governor-General in Council is tendered by any person authorised by the Governor-General in Council or by Local Government to act under that section and such person has reason to believe that the coin is counterfeit, he shall; by himself or another, cut or break the coin.

NOTE.—A loss of  $6\frac{1}{4}\%$  below standard weight in the case of the rupee and of  $12\frac{1}{2}\%$  in the case of half, quarter and eighth-rupee has been prescribed by the Government of India as the limit of reasonable wear.”

*“Rule 576 (a) Civil Account Code.*

The undermentioned persons have been authorised by the Governor-General in Council to cut or break diminished, defaced and counterfeit silver coin under Section 16 and 20 of the Act.

List follows.”

*“Rule 576 (b) and (c) Civil Account Code.*

(b) The undermentioned persons have been authorised by the Governor-General in Council to cut or break counterfeit silver coin only under Section 20 of the Act.

List follows..

(c) The undermentioned persons have been authorised by Local Governments to cut or break counterfeit coins under Section 20 of the Act.

List follows.”

2. The other rules relating to coin given in Chapter XXIX of the Civil Account Code are applicable *Mutatis Mutandis* to the Mysore State. Any change in these rules made by the Government of India will be regarded as introduced automatically in to Mysore.

3. Silver coin received by Government Officers under these rules, and withdrawn from circulation shall whether or not it has been cut or broken under these rules be sent by the first convenient opportunity to the Assistant Comptroller in charge, State Huzur Treasury, who will send them at the first convenient opportunity to the Hon'ble the Resident's Treasury at Bangalore for remittance to the mint.

4. Silver coin received by a person other than a Government Officer under these rules and withdrawn from circulation shall whether or not it has been cut or broken under these rules be sent to the nearest Government Treasury where it will be paid for at the rates respectively prescribed in the Civil Account Code and thereafter it will be dealt with in the manner prescribed in para 3.

In the application of this rule to Mysore the authority to break or cut coin should be given by the Government of His Highness the Maharaja.

In the application of this rule, the following persons should be regarded as having been authorised by the Government of His Highness the Maharaja:—

(a) The Comptroller.

(b) Officers in charge of the Huzur Treasury, District Treasuries or Taluk Treasuries.

In the application of these rules the following persons should be regarded as having been authorised by the Government of His Highness the Maharaja:—

The Chief Officer of the Bank of Mysore or any of its branches.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary to Government.

No. G. 5544—G. M. 102-16-99, dated 2nd November 1916.

The following Press Communiqué, dated the 5th October 1916, issued by the Government of India, Department of Commerce and Industry, is hereby republished for general information:—

"The following notice has been published by His Majesty's Government and is republished in India for general information:—*Begins.* The Secretary of State for Foreign Affairs desires to bring to notice of all concerned that, with a view to preventing breaches of the Trading with the Enemy Acts and Proclamations and particularly the Trading with the Enemy (Extension of Powers) Act, 1915, all goods exported from the Countries marked "A" below, on and after 1st October next to the United Kingdom, Australia, Newfoundland, New Zealand, Union of South Africa, all Crown Colonies and Protectorates as well as India, must be accompanied by Certificates of Interest. These certificates will be issued by His Majesty's Consular Officers who will require documentary evidence that no enemy or person with whom trade is for the time being prohibited, *e.g.*, persons on the statutory list, has any interest in the goods:

"A."

Abyssinia, Argentina, Azores, Bolivia, Brazil, Canary Islands, Cape Verde Islands, Chile, Colombia, Costa Rica, Cuba, Danish West Indies, Dominican Republic, Ecuador, Greece, Guatemala, Honduras, Liberia, Madeira, Mexico, Morocco, Muscat, Netherlands East and West Indies, Nicaragua, Panama, Paraguay, Persia, Peru, Philippine Islands, Portuguese East and West Africa, San Salvador, Spain, Spanish West Africa, Uruguay and Venezuela.

In case of exports from countries marked "B" below where Certificates of Origin have hitherto been required, Certificates of Origin and Interest will be required for goods exported on and after 1st October next on the same conditions except that the additional evidence required for "A" Certificates of Interest will have to be produced to the Consular Officers to whom applications are made for the issue of the combined certificates.

"B."

Norway, Sweden, Denmark, Holland and Switzerland.

In the case of these five countries goods for which Certificates of Origin are not at present required will not have to be accompanied by the New form of Certificate of Origin and Interest.

All goods exported on and after 10th October from the five countries marked "B" above for Canada must be accompanied by a Certificate of Origin and Interest.

In other cases certificates are not compulsory but many traders and particularly British ship-owners and masters will require, no doubt for their own protection against possible breaches of the trading with Enemy Acts, to be furnished with certificates for goods consigned to any destination whatsoever. His Majesty's Consular Officers accordingly have been instructed to furnish certificates in such circumstances on application.

The period of validity shown on Certificates of Interest and Certificates of Origin and Interest will in no case exceed two months. It is required that shipment shall have been effected from the country of origin within the period of validity stated on the certificate and it is not necessary that the goods shall have arrived at their ultimate destination within that period. The onus of sary rest in case of doubt with importer of the goods.—*Ends.*

Notifications under the Sea Customs Act legalising this procedure for India will issue shortly."

The following Notification of the Madras Government is republished for general information:—

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Tiruvannamalai in the Tiruvannamalai Taluk of the North Arcot District, if persons from the infected portion of the Anantapur, Bellary, Coimbatore, Madura, North Arcot, Salem and South Canara Districts, the Mysore State and other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing Kartigai festival and cattle fair:

In exercise of the powers delegated to him under the Epidemic Diseases Act of 1897, the Governor in Council prohibits the attendance at the said festival or fair from the 24th November to 11th December 1916, inclusive, of persons from the said parts and further directs that between the said dates no tickets to travel by railway shall be sold at the stations of Mangalore, Hosur, Pollachi, Kovilpalaiyum, Sular, Singanallur, Kulipalaiyam, Tiruppur and Vanjipalayam on the South Indian Railway, for the station of Tiruvannamalai on the same railway to any person intending or believed to be intending to be present at the said festival or fair.

All persons proceeding to the said festival or fair in contravention of this notification will be turned back.

By Order,

D. M. NARASINGA RAO,  
Secretary to Government,  
General Department.

## REVENUE.

No. R. 4054—Pt. 38-16-2, dated 3rd November 1916.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 4 of the Mysore Forest Regulation (XI of 1900), that it is proposed to constitute the area, the boundaries of which are described in the schedule below, a State Forest, under the provisions of the said Regulation:—

### Schedule.

*East.*—Thence line runs along the west side of Survey Nos. 3, 4 and 5 of Kalankatte to the south-west corner of last named number; then along the boundary between Kalankatte and Tarikatte to the trijunction bandhs of the said villages and Kamadalhosur; then along the boundary between Kalankatte and Kamadalhosur for about 2 furlongs and 5 chains; then south-west for about 5 furlongs and 2 chains through Survey No. 29 of Kamadalhosur to a point on the boundary between Hunsekatte and Kamadalhosur, where a cart-track from Hunsekatte crosses the boundary; then along the boundary between Hunsekatte and Kamadalhosur, and Hunsekatte and Honnehetti to the trijunction bandhs of Hunsekatte, Honnehetti and Tammadihalli; then south-west for about 3 furlongs and 7 chains through Survey No. 25 of Tammadihalli to the north-east corner of Survey No. 26; then along the northern side of Survey Nos. 26 and 27 to the north-west corner of the latter number; then south-west for about 2 furlongs and 4 chains through Survey No. 25 to the north-west corner of Survey No. 29; then along the western side of the same survey number to its south-west corner; then south-east for about 2 furlongs and 5 chains through Survey No. 25 to the south-west corner of Survey No. 21; then in the same direction for about 1 mile, 5 furlongs and 5 chains through Survey Nos. 22 of Tammadihalli, 21 of Gonibid, and 14 of Maligenahalli to the demarcation line of Aldhara State Forest.

\*(*vide* Statement appended)

*South and west.*—Thence the line runs along the demarcation line of Aldhara State Forest for about 3 miles and 3 furlongs to the trijunction bandhs of Umblebile, Hunsekatte, and Tammadihalli villages; then along the boundary between Hunsekatte and Tammadihalli for about 7 furlongs and 5 chains; then north-east for about 7 furlongs and 5 chains through Survey Nos. 13 and 42 of Hunsekatte to the south-east corner of Survey No. 43; then east for about 5 furlongs and 3 chains through Survey No. 42 to the south-east corner of Survey No. 41; then along the eastern side of the same survey number to its north-east corner; then north for about 5 furlongs and 5 chains through Survey No. 42 to a point on the boundary between Kalankatte and Hunsekatte, where the common bandhs of Survey Nos. 1, 2 and 7 of the former village meet; then along the boundary between Hunsekatte and Kalankatte to the demarcation line of Umblebile State Forest; then along the said demarcation line meeting the starting point.

2. The Government of His Highness the Maharaja of Mysore are further pleased under clause (c) of the said section, to appoint Mr. B. Basavaradhya, Assistant Commissioner, to be the Forest Settlement Officer, who shall inquire into and determine the existence, nature and extent of any rights claimed by, or alleged to exist in favour of, any person in or over land comprised within such limits, or to any forest produce of such land and to deal with the same as provided in Chapter II of the said Regulation, and the District Forest Officer of the Shimoga District for the time being, to attend on behalf of Government to assist the Forest Settlement Officer in the inquiry.

3. The Government of His Highness the Maharaja of Mysore are further pleased, under the authority vested in them by Section 15 of the said Regulation, to appoint the Deputy Commissioner of the Shimoga District, for the time being, to be the Officer of the Revenue Department, who shall hear appeals from the orders of the Forest Settlement Officer under Sections 10, 11, 12, 13 or 14 of the Regulation.

## EDUCATION AND AGRICULTURE.

No. 3158—Edn. 28-14-221, dated 2nd November 1916.

The Government of His Highness the Maharaja are pleased to lay down the following rules for the grant of patronage in regard to books or other publications for which applications may be received from time to time:—

1. All persons who wish to obtain concessions under these rules should apply in the first instance to the Secretary to Government in the Departments of Education and Agriculture or the Inspector-General of Education with a copy of the publication for which patronage is asked for.

2. The patronage shall extend to publications which are either original or translations from originals or translations of translations themselves of standard works or works of rare merit.

3. Only publications which are useful to educational institutions shall be granted help from the provision "Encouragement to Authors" made in the Educational Budget.

4. Sanskrit publications which are declared to be not useful for educational institutions but may be regarded as worthy of patronage on account of their rarity, originality or being works of research, should be granted help from the funds of the Oriental Library.

5. The publication shall as soon as possible after its receipt be referred to the Text Book Committee of the Educational Department where it shall be considered by the whole Committee or a Sub-Committee thereof as the nature of the subject matter may demand.

6. The Committee or Sub-Committee shall thereafter consider the merits of the publication and forward their report to the Inspector-General as to whether it is one deserving of any encouragement and if so by what department. The Committee may in necessary cases obtain the opinion of any others competent when the subject matter is of a technical or special character.

7. When the application is made to the Inspector-General of Education in the first instance, he shall forward it to the Committee for necessary opinion, and shall after obtaining their opinion thereon, forward the same to Government with his own opinion and information as to the extent to which the patronage may be extended when the work is found useful for educational institutions.

8. Works which in the opinion of the Committee do not fall under any of the previous categories referred to in Rules 3 and 4 above but may be regarded as useful from a general or administrative point of view, should be encouraged by grants from the provision made in the budget for purchase of books under General Administration when patronage is considered necessary.

9. Such cases shall be dealt with in the Administrative branch concerned of the Secretariat, which will when necessary arrange to consult the Department concerned to have suitable orders passed thereon.

By Order,

P. G. D'SOUZA,

Secretary to Government,

Departments of Education and Agriculture.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,

Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a

suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

## PART I—Section 2.

## GENERAL.

No. G. 3119—Geol. 40-16-2, dated 5th September 1916.

In supersession of Government Notification No. G. 15407—Geol. 5-15-5, dated 12th May 1916, and subsequent amendments, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following revised and consolidated rules for the grant of Exploring and Prospecting Licenses and Mining Leases in the State.

2. The revised rules will come into force from this date.

RULES FOR THE GRANT OF EXPLORING AND PROSPECTING LICENSES AND MINING  
LEASES IN THE STATE OF MYSORE.

1. In these Rules—

“The Government” means the Government of His Highness the Maharaja of Mysore.

“Person” includes any persons, syndicate, partnership or company.

2. Exploring, prospecting or mining for minerals shall not be carried on within the State of Mysore except under licenses or leases granted under these rules or with the special sanction of the Government.

I. EXPLORING LICENSES.

3. Persons desirous of exploring for minerals within the State of Mysore may obtain an exploring license on application to the Director, Department of Mines and Geology, by whom any license granted shall be signed on behalf of the Government.

4. Each application shall be accompanied by a fee of Rs. 10.

5. The application shall state the district in which it is desired to explore and each license granted shall ordinarily be valid for one district only. Government may refuse to grant a license to any person, in which event the fee shall be returned, or may, at their discretion, limit the area to which the license shall apply or specially exclude any mineral from the license.

6. Such license shall not authorise the licensee to mine or quarry, but he may turn up the surface of the land, dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may permit.

7. No private or occupied lands and no lands over which exclusive mineral rights have been granted or may at any time during the currency of this license be granted to others may be entered upon or explored without the consent of the owner, occupier or possessor thereof.

8. Every license shall be in Form No. 1 hereto appended and shall be valid for one year. Such license shall confer no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an exploring license.

9. Under exceptional circumstances, the Government of Mysore may confer on a licensee special protection in regard to any specified mineral or minerals during the whole or any portion of the term of his license. Such special protection shall be designed to secure to a *bona fide* worker a fair and reasonable area over which he shall be entitled to obtain a prospecting license or a mining lease as provided for hereunder and shall be conferred only in cases in which, in the opinion of Government, it would be unreasonable or undesirable to insist on the area for a prospecting license or a mining lease being selected at once.

10. The licensee shall be at liberty, subject to such restrictions as the Government may from time to time impose, to remove specimens or samples of minerals in reasonable quantities for purpose of testing, but not for sale.

II. PROSPECTING LICENSES.

11. Applications for licenses to prospect for minerals within the Territories of Mysore shall be made to the Director, Department of Mines and Geology, in Form No. 2 hereto appended.

12. Each application shall be in respect of a specified block of land not exceeding ten square miles in area, which shall be, as far as possible, in the shape of a rectangle of which the length must not under ordinary circumstances exceed twice the breadth.

13. The Government reserve to themselves the power of refusing to grant a prospecting license in respect of any block without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

14. Every prospecting license granted under these rules will be in Form No. 3 appended hereto and will be valid for one year, but the Government may at their discretion sanction the renewal of any license from year to year on payment, in advance, of an annual rent which may be determined upon separately for each period of renewal.

15. Every application must be accompanied by—

- (a) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block for which a license is required have been clearly marked.
- (b) A schedule giving the names of the villages included (either wholly or partly) in the prospecting block together with the taluk and district in which they are situated and stating the area of the block in square miles.
- (c) A schedule stating the mineral or minerals in respect of which the license is applied for.
- (d) A fee of Rs. 10 per square mile or portion of a square mile of the area applied for.

16. On receipt of any application the Director, Department of Mines and Geology, will, if the Government decide to grant a license, inform the applicant of the amount of the rent and the deposit due thereon and of any special terms which they may consider desirable to impose. Within such time as may be fixed in each case the applicant shall pay the amount of the rent and deposit specified and such payment shall be held to involve the acceptance of any special terms of which the applicant has been informed.

17. The rent payable in respect of a license shall be not less than one anna and not more than one rupee per acre of the area granted.

18. The deposit payable in respect of a license shall be at the rate of Rs. 100 per square mile or portion thereof of the area granted. This deposit shall be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license.

19. The block of land over which the prospecting license is granted need not be surveyed and demarcated; but, in the event of any doubt or dispute arising as to the boundaries of the block or whenever in the opinion of the Director, Department of Mines and Geology, a survey is necessary or desirable, he shall order the survey and demarcation of the block to be made either with or without an application for the same from the licensee, and the licensee shall pay the expenses of the survey and demarcation. The boundaries of the block of land for which a prospecting license has been granted shall be marked on the map attached to the license and the decision of the Director, Department of Mines and Geology, in regard to the boundaries and demarcation of the block shall be final.

20. Until the license is signed by the Director, Department of Mines and Geology, the applicant shall not be entitled to exercise any of the privileges of a licensee.

21. If the applicant neglects to comply with the preceding rules or fails to pay the rent and deposit within the time prescribed under Rule 16 or declines to accept a license which has been offered to him under Rule 16, his application shall be cancelled and the fee paid therewith forfeited to Government except as provided under Rule 23.

22. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 15 shall be forfeited to Government.

23. If the license is refused under Rule 13 or if the applicant within such time as may be fixed under Rule 16 declines to accept any special terms of which he has been informed, his application shall be cancelled and the fee received therewith shall be returned to him.

24. The licensee will be entitled to select for mining purposes, any time during the currency of his license, a block of land, not exceeding one square mile in area and not more than one mile in length, within the area specified in his license, and to obtain a mining lease of the block so selected in respect of any mineral or minerals (with the exception of precious stones and alluvial minerals) specified in his license in accordance with and subject to the provisions of the rules contained herein. Provided that a licensee shall not be entitled to obtain mining leases over a total area of more than ten square miles. In the case of precious stones and alluvial minerals, the holder of a prospecting license will be entitled to a mining lease upon the special terms, (if any) provided in his license; and in the event of there being no such special provisions, to the first refusal of such mining lease as the Government may decide to grant.

As soon as a mining lease has been granted under this rule the prospecting license shall immediately cease and determine.

25. If the licensee discovers any mineral of value within the area specified in his license, he shall immediately report the discovery to the Director, Department of Mines and Geology. Failure to comply with this provision will render the license liable to be cancelled and the deposit forfeited. If the mineral so reported is not one of those in respect of which the license has been granted, the licensee may apply to the Director, Department of Mines and Geology, to have the said mineral added to those already specified in his license and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

26. A prospecting license shall not be assigned nor any right or interest thereunder transferred, without the consent in writing of the Government. The application for such consent must be made by the licensee himself or by his legal representative and the license itself must be forwarded to the Director, Department of Mines and Geology, with the application together with a draft or document setting forth fully and clearly the terms of the proposed assignment or transfer. If Government decide to consent to the transfer, the Director, Department of Mines and Geology, shall inform the licensee to that effect and the licensee shall, within such period as may be specified by the Director, Department of Mines and Geology, have the document duly stamped and registered and shall forward a certified copy of the same to the Director, Department of Mines and Geology, who shall thereupon endorse upon the license the consent of Government to the transfer and return the license to the licensee. Until the license has been so endorsed no assignment or transfer of rights shall be valid.

Failure to comply with the provisions of this rule will render the license liable to be cancelled and the deposit forfeited.

27. If the licensee desires the renewal of a prospecting license, he shall apply for a renewal and shall forward the license together with the amount of the rent payable for one year to the Director, Department of Mines and Geology, not less than seven days before the date on which the license terminates.

28. Within three months after the date on which a license has expired, the licensee shall forward the license to the Director, Department of Mines and Geology, and shall, at the same time, apply for the refund of the deposit, failing which the deposit will be liable to be forfeited.

### III. MINING LEASES.

29. Applications for mining leases within the Territories of Mysore shall be made to the Director, Department of Mines and Geology, in Form No. 4 appended hereto.

30. Every application shall be in respect of a specified block of land not exceeding one square mile in area. The block shall be in the shape of a rectangle of which the length must not under ordinary circumstances exceed four times the breadth. The boundaries of the mining block shall be considered to run vertically downward towards the centre of the earth.

In the case of precious stones or alluvial deposits the area to be granted under a mining lease will be determined in each case by the Government.

31. Every mining lease granted under these rules will be for a period not exceeding thirty years, and will be in Form No. 5 appended hereto.

32. Every application must be accompanied by—

(a) A fee of Rs. 100.

(b) A sheet, extract or correct tracing of the Topographical Survey Map of Mysore (scale 1 inch to a mile) upon which the boundaries of the block applied for have been clearly marked.

(c) A schedule giving the names of the villages to which the lands comprised within the block belong, with the taluk and district in which each is situated.

(d) A schedule specifying the mineral or minerals in respect of which the mining lease is applied for.

33. On receipt of any application the Director, Department of Mines and Geology, will, if the Government decide to grant a lease, inform the applicant of their decision and of the special terms, if any, which they may consider desirable to impose and the applicant shall within one month of receiving this information, deposit with the Director, Department of Mines and Geology, a sum of Rs. 1,000 as security for the due fulfilment of the provisions of these rules and of the terms of the lease. Subject to any deductions in these respects the deposit will be returnable to the lessee after the termination of the lease.

34. If Government decline to grant a lease or if the applicant declines to accept any special terms which may be imposed, the fee of Rs. 100 paid with the application will be returned.

35. If the applicant neglects to comply with the preceding rules or fails to pay the deposit within the time prescribed under Rule 33 or declines to accept a lease which has been offered to him under Rule 33, his application shall be cancelled and the fee paid therewith forfeited to Government, except as provided under Rule 34.

36. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee paid therewith under Rule 32 shall be forfeited to Government.

37. The applicant shall point out to an officer deputed for the purpose by the Director, Department of Mines and Geology, the boundaries of the block of land applied for within a fortnight of the date on which he may receive an intimation to that effect or within such longer period as may be fixed by the Director, Department of Mines and Geology, and the officer so deputed shall thereupon survey the block and erect or cause to be erected such boundary marks as may be requisite.

38. If from any cause the completion of the survey and demarcation of a mining block is likely to be unduly delayed, the Government may grant the lease in respect of a block of land shown on an extract from the Topographical Survey Map of Mysore, which shall be attached to the lease. On

subsequent survey and demarcation, the boundaries of the block of land to which the lease refers shall be determined by Government and their decision shall be final and shall be accepted by the lessee who shall, on demand, pay the cost of the survey and demarcation.

39. After the completion of survey and all necessary enquiries, a form of the lease to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who shall, within a month of receiving such communication, tender for execution by the Dewan of Mysore the lease executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

40. The applicant's title to the land applied for will not be complete until the lease is actually executed by the Dewan.

41. The lease shall, after execution, be registered by both parties under the law for the time being in force for the registration of assurances, and shall, within one month of the date of registration, be forwarded by the lessee for information and record to the Director, Department of Mines and Geology, who will return it to the lessee after noting its contents.

42. If the lessee discovers any mineral of value within the area specified in his lease, he shall immediately report the discovery to the Director, Department of Mines and Geology. If the mineral so reported is not one of those in respect of which the lease has been granted, the lessee may apply to the Director, Department of Mines and Geology, to have the said mineral added to those already specified in his lease and it shall be within the discretion of Government to accede to or refuse the request or to impose such special terms as they may think fit. As a rule and under ordinary circumstances such requests will be complied with provided that the rights sought to be secured in respect of the mineral applied for are freely at the disposal of Government.

Provided that if any mineral of value is known to occur on or within the mining block, Government may give the lessee the option of having such mineral added to those specified in the schedule to his lease and in the event of the lessee declining to exercise the option upon the terms offered, Government shall have power to grant a prospecting license or mining lease in respect of such mineral to any other person.

43. The lessee shall not assign his lease or transfer any right or interest thereunder to a person except with the previous consent of the Government in writing.

44. The lessee shall in applying to Government for permission to transfer or assign the lease report to Government the name and financial position of the assignee and also submit for approval a draft of the proposed deed of assignment. When the Government has communicated its assent to the transfer and to the deed of assignment, the deed of assignment or document of transfer shall be duly stamped and registered in accordance with the laws in force in the State of Mysore at the time and a certified copy thereof deposited with the Director, Department of Mines and Geology, within three months of the date of execution thereof.

45. Failure to comply with the preceding rules will render the application or lease liable to be cancelled and the deposit forfeited.

#### IV. GENERAL.

46. The royalties payable to Government in respect of minerals worked under a prospecting license or mining lease are set forth in the schedule hereto. The rates are liable to alteration from time to time, due notice of which will be published in the official gazette.

47. The Government will require the strict performance of the provisions and conditions contained in any prospecting license or mining lease providing for the proper prospecting or mining of the land comprised therein.

48. Topo sheets of Mysore marked with areas granted for prospecting and mining are kept at the office of the Director, Department of Mines and Geology, and may be inspected by the public on payment of a fee of one rupee per sheet.

49. Persons desirous of having their own topo sheets or other maps of Mysore marked with areas granted for prospecting and mining may apply to the Director, Department of Mines and Geology, for the same. A fee of four annas will be charged for each block marked.

50. A licensee desirous of securing a copy of his prospecting license may apply to the Director, Department of Mines and Geology, for the same, stating the purpose for which the copy is required. The Director may, if satisfied with the reasons assigned, issue a duplicate copy of the license on payment of a fee of Rs. 10.

51. The rules for the conduct of prospecting and mining operations in forest lands are printed for information in the appendix hereto.

#### SCHEDULE.

##### ROYALTIES.

*(Subject to alteration by Notification in the Mysore Gazette.)*

##### *(a) Royalty on gold and silver.*

(1) No royalty shall be paid so long as the operations in connection with the mining block do not result in any net profits to the lessee.

(2) For each calendar year in which the operations result in a balance of net profit to the lessee, the rate of royalty shall be 5 per cent of the gross sale value of the gold and silver.

(3) For each calendar year for which the net profits exceed the sum of £25,000, the lessee shall pay an additional royalty of 5 per cent of all net profits in excess of £25,000.

Provided that in the case of the lessee being a duly registered company, the words "*divisible profits*" may at the discretion of the lessors be substituted for "*net profits*" in this clause.

(4) When more than one mining lease is held by one lessee the additional royalty of 5 per cent on divisible profits shall be calculated on the divisible profits from each lease or on the total divisible profits from all the leases whichever is more convenient.

*Note.*—"Net profits" shall be taken to mean the excess of the revenue which is wholly derived from the sale of the mineral or minerals specified over expenditure, after all costs and expenses chargeable to the actual working and management of the mine shall have been included. But neither depreciation nor amortization, nor Director's fees, nor any revenue or expenditure obtained or incurred on account of share or capital transactions, or by trading shall be brought into account, provided that the fees of such Director, or Directors as may actually direct technical operations and are specifically denoted as Managing Director or Directors may be included in the expenditure.

"Divisible profits" shall be declared dividends and bonuses or other payments made out of net profits to or on behalf of the share-holders and interest on debentures.

(b) *Royalty on chrome, magnesite and manganese ores.*

(1) The royalty shall be payable quarterly.

(2) On all ores despatched during any quarter, royalty shall be paid within ninety days of the close of the quarter and shall be calculated as follows:—

Five per cent of the sale value of the ore on the mining block convertible annually or for a fixed term, at the option of Government into an approximately equivalent charge per ton, subject to the following minimum charges:—

	Rs.	a.	p.	
Chrome	0	12	0	per ton
Raw magnesite	0	10	0	"
Calcined magnesite	1	4	0	"
Dead burnt magnesite	1	8	0	"
Manganese	0	10	0	"
Manganese ore containing not more than 44 per cent of manganese on production of satisfactory certificates of grade of shipment	0	6	0	"

(c) *Royalty on precious stones.*

Thirty per cent on the net profits of each year taken separately.

(d) *Royalty on all other minerals not specified above.*

Five per cent on the sale value at the pit's mouth or on surface of the dressed ore or metal, convertible at the option of the lessors to an equivalent charge per ton to be fixed annually or for a term.

## APPENDIX.

### RULES FOR THE CONDUCT OF PROSPECTING AND MINING OPERATIONS IN FOREST LANDS.

*Notification by the Government of His Highness the Maharaja  
of Mysore, General and Revenue Departments.*

No. R. 10777—Ft. 81-08-6, dated 21st June 1909, and No. R. 9048—Ft. 43-14-14,

dated 22nd March 1916.

#### EXPLORING LICENSES.

1. The holder of an exploring license shall obtain from the District Forest Officer permission to enter upon and explore for minerals in any forest lands within the area to which the license applies.

2. Such permission will ordinarily be freely granted, but will not entitle the licensee to cut or injure any forest growth or to dig or turn up the surface of the land to a greater depth than three feet and the licensee must, before leaving the locality, fill up any excavations, which he may have made, to the satisfaction of the District Forest Officer.

3. Should the licensee desire to make trenches or sink pits to a depth greater than three feet, he must obtain the sanction of the District Forest Officer in each case and pay compensation at the rate provided hereunder for any forest growth which may be injured or destroyed and shall undertake to fill up all excavations to the satisfaction of the District Forest Officer.

#### PROSPECTING LICENSES AND MINING LEASES.

4. No prospecting license or mining lease shall ordinarily be granted in forest lands except with the sanction of the Conservator of Forests.

Prospecting and mining operations will generally not be permitted in plantations, coupes which have been worked over and in tracts containing specially valuable growth of sandal, teak or other species of trees.

5. Before commencing any prospecting or mining operation in any forest lands, the licensee or lessee or his duly authorized agent or representative shall give notice to the District Forest Officer of his intention so to do, and shall, at the same time, forward to the District Forest Officer a statement of the area or areas proposed to be operated upon and their dimensions and a sketch map on a suitable scale showing the said area or areas and their relative positions and shall deposit with the District Forest Officer the amount of compensation due on the said area or areas calculated in accordance with Rule 9. Each area to be operated upon, except such as may be required for a railway, tramway, road or foot-path, shall be in the form of a rectangle, of which no side shall be less than 10 yards long, and shall be defined by cairns of stones. Each area shall be distinguished by a letter of the alphabet in the abovementioned statement and map.

A consolidated statement and a complete map shall be maintained up to date and kept on the prospecting or mining block by the person in charge of the operations.

6. In any prospecting or mining block, the total area which may be operated upon or cleared of forest shall not exceed 25 acres except with the permission in writing of the District Forest Officer, and no railway, tramway, road or foot-path shall be made without such permission. Such permission will be granted from time to time in each case for an area not exceeding 25 acres on the application of the licensee or lessee, provided that the additional area is required for the *bona fide* extension of prospecting or mining operations.

The areas operated upon shall include all those the surfaces of which have been opened up by means of pits, trenches or other excavations or covered with earth, stones, debris, machinery, buildings, etc., or upon which the forest growth has been injured or destroyed, or over which any railway, tramway, road or foot-path has been made.

7. In the case of all buildings, machinery or other structures erected upon the block and in the case of every place where fire or lights are used at any time or round any working or dwelling place where the District Forest Officer considers it to be necessary for safety, the forest growth shall be cleared for a distance of 10 feet round the limits of such structure or place to such extent as the District Forest Officer may require.

8. As soon as possible after the receipt of the statement and map referred to in Rule 5, the District Forest Officer shall prepare a bill for the amount of compensation due at the rates specified hereunder and after crediting the amount deposited under Rule 5 shall adjust or require the licensee or lessee to adjust any balance as may be necessary. In default of payment the District Forest Officer may, at his discretion, stop all further operations and take steps to recover the amount due as a revenue demand.

In the event of any area not included in the map and statement required by Rule 5, being found to have been operated upon, the District Forest Officer may, at his discretion, stop all further operations and recover compensation for the same at double the rates provided hereunder.

9. The licensee or lessee shall—

(a) Pay a lump sum compensation for damage and disfigurement of the surface on all areas operated upon or cleared, at the following rates:—

- |   |  |
|---|--|
| <p>(1) In State Forests, reserved lands or in District Forests which have been specially brought within the scope of these rules.</p> <p>(2) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates.</p> <p>(3) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile.</p> | <p>(i) Rs. 100 per acre for high and pole forests.</p> <p>(ii) Rs. 50 per acre for other forests, including scrub.</p> |
|---|--|

(b) Undertake not to cut sandalwood except with permission of the Forest Department and on payment of an extra charge to be fixed by the Conservator.

(c) Make over to the Forest Department all the trees felled in the area operated upon.

N.B.—The decision of the Conservator of Forests as to whether any particular forest is high, pole or scrub shall be final.

10. The licensee or lessee shall not fell, girdle or lop any tree outside the area or areas shown and described in the map and statement referred to in Rule 5.

11. Nothing in the foregoing rules shall be taken to exempt the licensee or lessee or his employees from liability in respect of any forest offence punishable under the Mysore Forest Regulation, 1900.

## EXPLORING LICENSE.

*(Under the Rules published with Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916.)*

EXPLORING LICENSE granted this 24th day of 1916, by the Government of His Highness the Maharaja of Mysore, to hereinafter called the licensee.

WHEREAS the licensee has applied in accordance with the rules published under Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916, for a license to explore for minerals in the area described in the schedule hereto and has paid the prescribed fee of Rs. 10:—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the licensee, subject to the restrictions, conditions and provisos hereinafter contained, license and liberty to enter upon the lands within the area aforesaid and to explore and search the surface of the same for minerals, stones or rocks for a period of one year from the date hereof and subject to the restrictions hereinafter contained or such other restrictions as the Government may from time to time impose, to remove any specimens or samples thereof found by the licensee upon the said lands during the term of the license.

2. This license does not authorize the licensee to enter upon or commence exploring in any State Forest or land under special protection included in the land described in the schedule hereto, without obtaining the sanction in writing of the District Forest Officer, upon such conditions as that officer may under any general or special order of Government prescribe.

3. This license is subject to any vested interests and to any rights and liberties which have been granted or which may be granted at any time during the currency of the license by Government in the said area, or in the minerals, stones or rocks therein contained.

4. This license shall not authorize the licensee to mine or quarry within the boundaries of the land specified in the schedule, but the licensee shall be at liberty to turn up the surface and to dig trenches and sink pits to such depth and subject to such conditions as the Deputy Commissioner may authorize.

5. In the course of exploring operations, no occupied or private lands shall be entered upon or disfigured except under agreement with the occupant or owner thereof.

6. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves, burial grounds, village sites for houses, or grazing lands which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages or houses or other private property whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission in writing of the Deputy Commissioner.

9. This license shall not be assigned nor any right or interest hereunder transferred.

10. The licensee may with the permission of the Deputy Commissioner remove any minerals found by him in or upon the said land in the course of his exploring operations under this license in reasonable quantities for the purpose of sampling or testing but not for the purpose of sale without the sanction of Government.

11. The licensee shall, within ten days of the discovery by him, his servants, workmen or agents, of any and all precious stone or stones upon the said lands, report the discovery to the Director, Department of Mines and Geology, and shall produce the stones when called upon to do so and shall pay to Government by way of royalty fifteen per cent of the value of the stones so found.

12. This license shall not confer upon the licensee any exclusive or preferential rights of any kind and, if there be any breach by the licensee of the terms of this license, Government may forthwith cancel this license and thereupon all rights conferred thereby or enjoyed hereunder shall absolutely cease and determine.

## PROSPECTING LICENSE.

*(Under the Rules published with Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916.)*

PROSPECTING LICENSE granted this            day of            19    , by the Govern-  
ment of His Highness the Maharaja of Mysore to

hereinafter called the licensee, which expression shall be taken to mean the said

his successors and assigns except where the context requires another or different meaning.

WHEREAS the licensee has applied in accordance with the rules published under Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916, for a license to prospect for minerals in the area described in Schedule A hereto, delineated in the plan hereto annexed and containing            square miles or thereabouts, and has paid the sum of Rs.            being the deposit required in respect of the license together with the sum of Rs.            being the rent for one year in respect of the said area:—

1. The Government of His Highness the Maharaja of Mysore hereby grant to the licensee for a period of one year from the date hereof, license and liberty to prospect for such minerals as are generally or particularly described in Schedule B and to work, win, and carry away, as and for his own use any or all of the minerals aforesaid, subject to the payment of the royalties specified in Schedule C hereto.

2. This license and any lease granted hereunder is subject to any vested interests and to any rights and liberties which have been granted by Government in the said area, or in the gold, minerals, stones or rocks therein contained, prior to the date of the grant hereof.

3. The licensee shall forthwith thoroughly and vigorously prospect and examine the said area, and make, dig and carry out all necessary trenches, pits and other works as are necessary or proper for the efficient prospecting thereof.

4. All operations under this license shall be conducted under such supervision and in accordance with such regulations as the Government may, from time to time, prescribe.

5. The licensee shall, within six months next after the determination of the license or the date of the abandonment of the undertaking, whichever shall first occur, securely plug any bores and fill up or fence any holes or excavations that he may have made in the land, to such extent as the Deputy Commissioner may require and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting; provided that this clause shall not apply to any land held under a mining lease.

6. The licensee shall keep proper accounts and plans and furnish to the Director, Department of Mines and Geology, full and correct information as to all minerals, stones and rocks found or mined and raised in the course of operations under this license and as to the treatment, preparation and disposal of the same.

7. The licensee shall afford any other information in connection with the said area and the works carried on there, and furnish any samples which the Government may ask for. The licensee shall give every facility to the Government in inspecting the work carried on in the said area and in taking samples of minerals, stones and rocks found, mined, raised or being in or on the same area and any products obtained or prepared therefrom. The Government will pay a fair price for any samples of intrinsic value.

8. In the course of prospecting operations no occupied or private lands shall be entered upon or disfigured except under agreement in writing with the occupant or owner thereof.

9. The licensee shall not enter upon or commence prospecting in any State Forest or land under special protection comprised in the said area, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777—Ft. 81-08-6, dated 21st June 1909 as amended by Notification No. R. 9048—Ft. 43-14-14, dated 22nd March 1916.

10. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves, burial grounds, village sites for houses or grazing lands, which may now exist in the said area, and in no way obstruct any road, path or by-way of any kind whatsoever in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands or villages, houses or other private property whether in the said area or adjoining thereto.

11. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

12. The licensee shall not without the permission in writing of the Deputy Commissioner cut or injure any trees or timber on unoccupied and unreserved lands other than brushwood or undergrowth which may require to be cleared away as interfering with the due exercise of the rights, licenses and liberties hereby granted.

13. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.

14. If prospecting work is not commenced within six calendar months from the date hereof and carried on to the reasonable satisfaction of Government, or if there shall be any other breach by the licensee of any provision in this license contained, the license may be summarily revoked by Government and thereupon all rights conferred hereby or enjoyed hereunder shall cease.

15. The licensee shall be at liberty at any time during the term of this license to select for mining purposes a block of land not exceeding one square mile in area and not more than one mile from end to end in any direction within the area to which this license applies and shall be entitled to the grant of a mining lease in respect of the block so selected in accordance with the rules for the grant of mining leases published under Notification No. G. 3119—Geol. 40-16-2, dated 5th September 1916. Provided that the total area held by a licensee under mining leases shall not exceed ten square miles. When such mining lease has been granted to the licensee, this license shall immediately cease and determine.

16. Whenever a *bona fide* application is received for the grant for purposes of cultivation of any assessed unoccupied land comprised in the area covered by this license, the licensee will be given the option of keeping the land for his benefit if he pays the assessment on the land for the year for which the license is granted and if at the end of that year the licensee wishes further to retain the land he will be permitted to do so on payment of such price for the occupancy as may be demanded from him in addition to the assessment. Otherwise, the land will be disposed of under the ordinary *darkhast* rules.

14. AND WILL, immediately after any sale of minerals or intermediate or finished products, give to the lessors or their agents a return of the prices for which the same, respectively, have been sold and, if required, the names of the purchasers thereof;
15. AND WILL, within the times specified in Schedule C, pay to the lessors the royalties hereinbefore and in Schedule C hereto provided;

16. AND WILL pay all other liabilities under this lease as and when they respectively become payable;  
To pay other liabilities under lease.
17. AND WILL afford to the lessors every information concerning the mines and buildings and mining and metallurgical plant in or on the mining block, the mode in which operations are carried on, the minerals found or mined and raised on or in the mining block, the intermediate or finished products obtained or prepared therefrom, the persons employed by the lessee and, all other information connected with the mining block or the provisions of this lease as the lessors may require;  
To afford every information connected with the mining block or the provisions of this lease.
18. AND WILL furnish, in such manner and to such persons as the lessors may from time to time direct, samples of all stones and rocks met with on or in the mining block with full details as to the locality and mode in which the same respectively were discovered and the dates of discovery;  
To furnish samples of rocks, etc., met with in the mining block, with details as to mode of occurrence, etc.
19. AND WILL NOT assign or under-let or part with the possession of all or any of the rights, liberties, licenses and premises by these presents demised, and granted, or any interest or share therein without the consent, in writing, previously obtained, of the lessors;  
Not to assign without previous consent of lessors.
20. AND WILL deliver to the lessors a copy of every assignment or under-lease of all or any of the rights, liberties, licenses and premises by these presents demised and granted or any interest or share therein within three calendar months after the date of the execution of such assignment or under-lease;  
To deliver to lessors copies of all assignments.
21. AND WILL, throughout the said term, make and keep in some convenient place on the mining block and so that the lessors or their agents can have, at all times, free access thereto, proper books of accounts in such form as the lessors may approve, giving full and accurate particulars of the working and yield of all mines and mining and metallurgical plant in or on the mining block and the costs thereof and of the disposal of the minerals and intermediate and finished products found, mined, raised, obtained or prepared on, in or from the mining block with all particulars of quantities, dates and other facts and circumstances necessary or proper for ascertaining the exact value of such finished products and the finished products which can be obtained or prepared from such minerals and intermediate products and also correct maps, plans and sections of the mining block and of the mines and mining and metallurgical plant therein or thereon upon such scale or scales and in such manner as the lessors may from time to time direct showing as well the pits, shafts, drives, cross-cuts, winzes, rises, stopes and other excavations, operations and works which have been carried on, as also all beds and veins and all faults and other disturbances which have been observed and encountered therein;  
To keep proper books of accounts, plans, etc.
22. AND WILL, at his own cost, when required by the lessors or other agents, give to them copies of all or any entries in the said books and of every such map, plan and section as aforesaid;  
To give copies thereof.
23. AND WILL, at his own cost, when required by the lessors or their agents, furnish to them true and correct abstracts of all or any such accounts as aforesaid;  
To furnish abstracts thereof.
24. AND WILL, at all reasonable times, allow such officers and persons as the lessors may in that behalf appoint to enter into and have free access to the place or places where the said books, maps, plans and sections may be kept in order to examine and inspect them, take copies thereof and make extracts therefrom;  
To allow free access to places where such books, plans, etc., may be kept.
25. AND WILL, at the end or sooner determination of the said term, give up to the lessors the said books, maps, plans and sections in good and perfect condition;  
To give up to lessors books and plans at end of term.
26. AND WILL, at his own expense, forthwith erect and at all times maintain and keep in repair such boundary marks and pillars as the lessors may require;  
To erect boundary marks.
27. AND WILL, well and properly secure and keep open with timber or other durable means all pits and shafts to be sunk or made in the mining block and make and maintain sufficient fences round every such pit or shaft;  
To secure pits and shafts.
28. AND WILL NOT, until the license, in writing, of the lessors or their agents be obtained, wilfully close, fill up or choke any mine or shaft;  
Not to fill up shafts or mines.
29. AND WILL, throughout the said term, duly enforce in every part of the mining block such sanitary rules for the health and well-being of all persons employed by the lessee or who may be on the mining block or in its neighbourhood, as the lessors may, from time to time, prescribe;  
To enforce sanitary rules.
30. AND WILL, at any time or times when required by the lessors so to do, set apart and appropriate for free use by the lessors such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for sites for villages, tanks, wells and

34. AND WILL keep open and in no way obstruct any road, path or by-way of any kind  
Not to obstruct roads, etc. whatsoever now existing or which may hereafter be made on the mining block;

35. AND WILL permit the lessors or other persons authorized by them in that behalf to enter into and upon the mining block and to make upon, over or through  
To permit lessors to make roads, tramways, railways, etc. the same such roads, tramways and railways as may in the opinion of the lessors be necessary or expedient for any purposes and to obtain from and out of the lands such stone, earth and other materials as may be necessary or requisite for making, repairing or maintaining such roads, tramways and railways and to pass and to re-pass at all times over and along such roads, tramways and railways for all purposes and as occasion shall require; and will when required by the lessors so to do set apart and appropriate for free use by the lessors or other persons authorized by them in that behalf such lands forming part of the surface of the mining block as are in the opinion of the lessors suitable and sufficient for the objects above-mentioned; but the lessors will so far as is compatible with the objects aforesaid select the land to be so set apart and appropriated in such manner as not to interfere with the mining operations of the lessee, and will from time to time pay to the lessee such sums of money as will reasonably indemnify the lessee for moneys expended in buying surface rights over any of the lands so set apart and appropriated and the cost of removal of any works carried on thereon;

36. AND WILL abstain from all interference with and allow to the public and the lessors the free use of any tanks, water courses, places of worship, sacred groves,  
To allow free use of tanks, water courses, etc., to the public and the lessors. burial grounds or village sites for houses, which may now exist or may hereafter be set apart or appropriated as hereinbefore provided on the mining block;

37. AND WILL NOT cultivate any of the lands comprised within the mining block or in any way use the said lands save for the purposes of the rights, licenses and liberties hereby granted;

38. AND WILL NOT, without the express sanction of the Deputy Commissioner for the time being of the district, cut down or injure any trees or timber on unoccupied and unreserved lands other than brushwood or undergrowth which may require to be cleared away as interfering with the  
Not to cut trees, etc. due exercise of the rights, licenses and liberties hereby granted;

39. AND WILL NOT enter upon or commence any mining operations in any State Forest or land under special protection comprised in the mining block, except in accordance with the rules for the conduct of prospecting and mining operations published under Government Notification No. R. 10777—Ft. 81-08-6, dated 21st June 1909, as amended by Notification No. R. 9048—Ft. 43-14-14, dated 22nd March 1916.

40. AND WILL NOT, so far as may be consistent with the due exercise of the rights, licenses and liberties granted under this lease, interfere with or hinder the enjoyment of grazing rights lawfully granted by the lessors to village communities or to individuals in any part of the mining block;

41. AND WILL, from time to time, and at all times hereafter, effectually keep indemnified the lessors from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising directly or indirectly in carrying on mining or metallurgical operations on the mining block or otherwise in the exercise of the rights, licenses and liberties hereby granted;

42. AND WILL NOT, without the express sanction of the Deputy Commissioner for the time being of the district, and then subject to the provisions for compensation and indemnity herein contained, use, collect or impound water in or on the mining block in such a manner as to injure or deteriorate any source of water power or supply or so as to deprive any adjoining land, villages, houses or watering places for cattle of a reasonable quantity of water as heretofore accustomed and will not in any manner foul, impregnate or otherwise deteriorate any springs or streams of water so as to render them unfit to be used as heretofore, and will not in any other way do anything to injure adjoining lands, villages or houses;

43. AND WILL, at the expiration or sooner determination of the said term, deliver to the lessors in good order, repair and condition and fit for future working and use, and in all respects in such state and condition as shall be consistent with the due performance and observance of the several covenants and agreements by the lessee herein contained the mining block and all mines and buildings and all pits, shafts, ladders, plats, sollars, timber, ropes, water courses, air-gates, engines, machines, and other mining and metallurgical plant below and above ground which are, in the nature of fixtures, necessary or desirable for the proper working of the said mines and the raising of minerals from the mining block or for the obtaining or preparing of intermediate or finished products from such minerals, except any pits, shafts or other works which shall have been abandoned or disused in the ordinary and fair course of working of the said mines and premises, but so that the lessors shall pay to the lessee a fair price for all engines and machinery of any description in or on the mining block, based on the amount the same could be sold for on the mining block if the lessee had power to authorize the purchasers to remove them, unless the lessors shall have given notice in writing to the lessee that they, the lessors, do not intend to take over any of such buildings, engines and machinery, plant and other things, in which case the lessee shall be at liberty to remove the same, but without injuring any other property in or on the mining block;

44. AND WILL, at all times, have at the mining block a duly accredited superintendent or agent to whom all notices may be given and all communications from the lessors may be made, the lessors being at liberty, should there at any time be no such agent on the mining block, to treat any other person there as such agent and to serve all notices and other documents upon the said agent or in his absence upon any such other person as aforesaid or in the case of there being no such other person as aforesaid, then by affixing such notices or other documents upon some conspicuous portion of the mining block;

45. AND WILL, at all times, keep the lessors duly informed of the name and address of the superintendent or agent aforesaid and of any temporary or permanent alteration of such name or address;

46. PROVIDED ALWAYS that, if and whenever any part of the liabilities under this lease shall be in arrear for the space of sixty days after the expiration of the time prescribed by these presents for payment thereof, the lessors shall be at liberty to seize all minerals and intermediate and finished products in or about the mines or pits opened, worked or carried on by the lessee in the mining block, and any engines, machinery or other property found in the mining block and the lessors may sell or otherwise dispose of and deal with the property thus seized and from the moneys produced thereby may deduct and retain all liabilities under this lease and all expenses incurred in or about any such seizure and sale;

47. PROVIDED ALSO, and these presents are upon this express condition, that if and whenever any part of the liabilities under this lease shall be in arrear for the space of six calendar months next after any of the days whereon the same ought to be paid as herein provided, whether the same have been legally demanded or not, or if the lessee, or the lessee's workmen shall cause any obstruction or annoyance to the officers of the lessors or to the people of the

country, or if the lessee shall cease to carry on the regular working of the mines or shall refuse to afford information to the lessors, or if there shall be any other breach of any of the covenants and agreements herein contained and on the part of the lessee to be performed and observed, then and in any such case it shall be lawful for the lessors or their agents duly empowered in that behalf, although they may not have taken advantage of some previous default of a like nature, to re-enter upon any part of the mining block or of the mines, buildings or mining or metallurgical plant or other operations or works in or on the mining block in the name of the whole and thereupon the said term of the thirty years shall absolutely determine and the said deposit of Rs. 1,000 hereinbefore referred to shall be retained by the lessors as and for their own property ;

48. PROVIDED ALSO, and it is hereby agreed and declared, that if the lessee shall be desirous of determining the said term of thirty years hereby granted at the expiration of any year of the said term and of such desire shall give to the lessors six calendar months' previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of such year, then and in such case upon the expiration of such year the term hereby granted shall absolutely cease and determine ;

49. PROVIDED ALSO, and it is hereby agreed and declared, that if the said term of thirty years hereby granted shall not, prior to the termination thereof by lapse of time, have been determined under the provisions hereinbefore contained, and if the lessee shall be desirous of obtaining a renewed lease of the licenses, rights and liberties hereby granted for a further term of thirty years from the expiration of the term hereby granted and of such desire shall give to the lessors one year's previous notice in writing and shall pay the liabilities under this lease and perform and observe the several covenants and agreements herein contained and on the part of the lessee to be performed and observed up to the expiration of the term hereby granted, then and in such case the lessors will, upon the request and at the expense of the lessee, execute and deliver to the lessee a renewed lease of the said premises for a further term of thirty years in such form and subject to such royalty and other payments and such covenants, agreements and conditions, as the lessors may prescribe ;

50. PROVIDED ALSO that should any question or dispute arise regarding the lease or any matter or thing connected with the mines and minerals leased or the working or non-working thereof, or the amount or payment of the royalty or rent reserved or made payable by the lessee, the matter in difference shall be decided by the Government of His Highness the Maharaja of Mysore whose decision thereon shall be final.

No. J. 1679—Legis. 28-13-14, dated 8th November 1916.

Under Section 11 of the Mysore Motor Vehicles Regulation, IV of 1913, the Government of His Highness the Maharaja are pleased to authorise the District Magistrates to grant permits under that section for letting or plying for hire of any motor vehicle in prohibited areas within their districts.

The permits so granted shall be in the accompanying form.

(Here print the accompanying form of permit.)

*Permit for the letting or plying for hire of motor vehicles granted under Section 11 of the Mysore Motor Vehicles Regulation, IV of 1913.*

I, the District Magistrate of.....District, hereby permit <sup>within the.....</sup>  
<sup>.....</sup> along the marginally  
<sup>.....</sup> the letting or plying for hire of the motor vehicle described below, belonging  
 to.....residing at.....whose Head Office is at.....  
 subject to the following conditions:—

(Here enter the description of motor vehicle.)

#### Conditions.

- (1) This permit is granted subject to the provisions of the Mysore Motor Vehicles Regulation, IV of 1913, and the rules made thereunder. It shall be in force up to the close of June 19 .....

The fee for the grant of each permit is rupees ten.

- (2) Not more than.....passengers in addition to the driver and conductor shall be carried in the vehicle with luggage not exceeding in all.....lbs., but in place of each passenger short of the prescribed maximum, goods or luggage to the weight of.....lbs., may be carried. The conductor shall stop issue of tickets when the maximum number of passengers the vehicle is allowed to carry has been reached.
- (3) The permit shall be carried by the driver of the car whenever the vehicle is in motion and the number of persons and the weight of luggage specified in condition (2) shall be painted on a conspicuous part of the vehicle.
- (4) The owner of the vehicle, if it be a motor bus, shall arrange for its examination once in every six months by a person approved by the District Magistrate as to its structural strength, condition and running order generally, and his certificate as to its fitness for use on the road should be submitted by the owner to the District Magistrate. The vehicle shall not be let or ply for hire for a period exceeding six months without its being examined and certified in the manner specified above.
- (5) The vehicle shall at all times be open to inspection by (i) any Magistrate of or above the Second Class or (ii) any Police Officer not below the rank of Inspector of Police. If any such officer considers the vehicle to be unfit for use on the road he shall record his reasons in writing and shall communicate them to the owner as well as to the District Magistrate. The vehicle shall not then be let or ply for hire without the special permission of the District Magistrate until a certificate as to its fitness has been produced from a person approved by that authority.
- (6) The owner of the vehicle letting or plying for hire shall maintain regularly such register in such form as the District Magistrate may direct showing the name of the driver and the hours and dates on which he was in charge of the vehicle.
- (7) The driver shall immediately report to the nearest Police Station the occurrence of any accident either actually caused by the vehicle or resulting in any manner from its presence on the road to any person, animal, vehicle, or public or private property, so that such enquiry may be made or action taken as the District Magistrate may consider necessary or desirable.
- (8) The driver shall at all times when on duty with the Motor vehicle, wear a metal badge which shall be supplied to him, by the District Magistrate and shall surrender the same if his certificate is suspended or cancelled by the District Magistrate.

- (9) The vehicle shall be provided with a horn and two lights in front as also a light at the back of the vehicle having a red glass facing to the rear and a white glass at the side, thereby illuminating and rendering the number of the vehicle distinguishable. Provided that acetylene gas lamps shall not be used for the above purpose, unless the same are properly hooded or screened to the satisfaction of the District Magistrate.
- (10) The number on the vehicle shall be of the following dimensions:—height  $3\frac{1}{2}$  inches, uniform thickness  $\frac{3}{4}$  inch, each number occupying a space of  $2\frac{1}{2}$  inches with 1 inch between each figure and a margin of  $\frac{1}{2}$  inch at the top and bottom of the plate. Provided further that the numbers be painted on tin plates and affixed both at the front and back of the vehicle in prominent positions.
- (11) This permit may be cancelled by the District Magistrate for any breach of its conditions or for any rule having the force of law. When any permit has been cancelled the holder thereof shall forthwith return it to the officer who issued it.
- (12) The vehicle shall be driven only by a person certified by the licensing authority to be competent to drive the particular vehicle.
- (13) The weight of the vehicle when fully loaded shall in no case exceed six tons.
- (14) The speeds at which the vehicle may be driven shall be subject to the following conditions:—

(Here enter conditions.)

- (15) This permit shall not be transferred to any other person without sanction duly endorsed thereon by the licensing authority.

NOTE.—For the purposes of these conditions, a motor bus shall be taken to mean a motor vehicle which is let or plies for hire and has seating accommodation for eight or more passengers.

## REVENUE.

No. R. 4205—Et. 76-16-4, dated 9th November 1916.

In modification of Government Notification No. General 174, dated 15th September 1886, the following rules in regard to elephant tusks are published for general information:—

1. Elephant tusks form an item of royalty and therefore the tusks of all wild elephants which may be destroyed whether on private or Government property, belong to Government, and should accordingly be handed over to the Deputy Commissioner.

2. Licenses granted by Government under Section 7 of the Madras Act, I of 1873, for the destruction of wild male elephants shall be subject to the condition that the person to whom such license is granted shall surrender to Government the tusks of the elephants destroyed.

3. If the person who shoots an elephant wishes to keep a tusk as a trophy, he will be allowed to buy the shorter of the two tusks at 75 per cent of the market selling price of ivory. If the elephant shot has but a single tusk and the person shooting it desires to keep it, the same will be sold to him at the full market price.

Provided, however, that the person shooting a prescribed rogue elephant under a license granted under Government Order No. R. 15310-18—G. F. 286-92, dated 20th March 1893, will be entitled to retain as a reward free of all charge the shorter of the two tusks of the elephant shot. If the elephant has but a single tusk, the same will be given to him free of charge.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. Fl. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

---

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Departments of Education and Agriculture.*

**FINANCIAL.**No. *Fl.* 1118—*G. F.* 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. *Fl.* 878-923—*G. F.* 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. *Fl.* 878-923—*G. F.* 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

## PART I—Section 2.

### GENERAL.

*No. 75—E. A. G. 41, dated 24th November 1916.*

The following rules shall regulate appointment to clerkships and other similar posts in Government service:—

*Note 1.*—The rules do not apply to appointments in the General and Revenue Secretariat which are governed by the rules contained in the Secretariat Manual.

*Note 2.*—They do not preclude Heads of Departments and offices demanding special training or qualifications in addition to those laid down here in appropriate cases.

*Note 3.*—The rules will not prevent confirmation of persons in acting appointments held by them on the day the rules come into force provided that such persons are eligible for confirmation according to rules previously in force.

*Note 4.*—For the purpose of these rules progressive salaries shall be calculated as the maximum pay of an appointment.

1. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 25 per mensem but classed as superior in the Mysore Service Regulations unless he has passed the Lower Secondary Examination and the Clerkship Examination (Lower), and unless the officer appointing him is satisfied as to his ability to read and write Kannada with facility.

2. No person shall be eligible for appointment to a post carrying Rs. 25 per mensem and upwards unless he has passed the Matriculation Examination of an Indian University or obtained the completed Secondary School-Leaving Certificate and has passed in addition the Clerkship Examination (Higher).

3. In addition to the general educational qualifications mentioned in Articles 1 and 2 candidates before appointment to particular posts or before promotion to or confirmation therein, may be required to pass such tests of a special or technical nature as may from time to time be declared by Government to be applicable.

4. In making new appointments weight should be primarily given to the educational qualifications of the candidates. But where such qualifications are about equal or not very disparate, preference should be given to candidates belonging to backward classes.

5. No person who is not a native of Mysore by birth or domicile shall be entertained in service without the permission of Government.

6. In making appointments to clerical posts, especially those carrying a small pay, preference shall, as far as possible, be shown to the natives of the district in which the appointment is held.

7. Promotions shall ordinarily be according to seniority combined with capacity and character. If the supersession of any person is found necessary, the sanctioning authority should record his reasons therefor. But this rule of seniority does not prevent the rapid advancement of officials possessing exceptional abilities or qualifications, provided that the reasons for such promotion are reported to Government.

8. Heads of offices of and above the rank of Deputy Commissioners may in particular instances permit a relaxation of Rules 1 to 3 in the case of temporary and acting appointments not exceeding six months in duration, provided that the pay of the post does not exceed Rs. 50 per mensem and provided further that efforts have been made without success to secure passed candidates. A return showing the exemptions granted under this rule shall be submitted once a quarter to Government.

9. Every officer empowered to make appointments shall maintain a register of applicants for public employment noting therein each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government service and any other details that may be found necessary or needful.

10. No name shall be entered in the register unless the officer is satisfied by the personal examination of the applicant or by trustworthy materials that he is likely to turn out a useful servant of Government.

11. No permanent vacancy should be filled without calling for applications from eligible candidates by means of advertisement in the official Gazette and duly considering them.

12. No permanent appointment of clerkship (or temporary appointment for more than six months) in any office will be accepted by the Audit Department or the Treasury unless the first entry of the new name in the pay bill is supported by a certificate showing that the foregoing rules are observed.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## RAILWAYS.

## FINANCIAL.

No. FL. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. FL. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,

J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc.; relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
Financial Secretary.

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
*Financial Secretary.*

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

## FINANCIAL.

No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914.

Government are pleased to notify for the information of the public that the facilities now afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the Bowringpet-Kolar Railway Debentures.

2. Intending purchasers and sellers of the Bowringpet-Kolar Railway Debentures may hereafter apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will in their entirety apply also to the sale and purchase transactions of the Bowringpet-Kolar Railway Debentures.

4. Deputy Commissioners are requested to arrange for English and Kanarese copies of this notification being posted in all District and Taluk Treasuries.

By Order,  
J. S. CHAKRAVARTI,  
Financial Secretary.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars where on the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of  $\frac{1}{16}$  per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,  
*Financial Secretary.*

Under Section 6 of the Land Acquisition Regulation, VII of 1894, it is hereby declared that the lands described hereunder are required for a public purpose, viz., construction of Kolar-Chikballapur Railway Line from Chikballapur to Sidlaghatta, and under Sections 7 and 8 (c) of the said Regulation, the Assistant Commissioner in charge of the Chikballapur Sub-Division is authorised to take order for the acquisition of the said lands:—

abuses and to introduce healthy and desirable reforms. Under these circumstances, I am tempted to ask whether a highly paid officer like our Muzrai Superintendent is necessary to do office work, and whether this branch of the work cannot with advantage be tacked on to one of the Assistant Secretaries. If the Superintendent of Muzrai department is to be of any real use to the public, as he ought to be, he should be made to tour during the greater part of the year for the purpose of inspecting the institutions and correcting abuses then and there.

#### *Excise.*

This department has been showing an increase in revenue by leaps and bounds. As I anticipated last year, the income has risen by 5 lakhs over the budgetted amount. The learned Financial Secretary is again up with his comforting suggestion that the increase is mainly due to the keen competition among contractors. Is it possible that the contractors bid every year in an extravagant manner, if they had really been sustaining a loss in their venture? The Excise Commissioner in his Administration Report for 1914-15, has been pleased to say that the shops were being gradually reduced, but my own impression is that he may have reduced a shop here and a shop there which were not attracting the people and the contractors. With regard to the reduction of the number of shops, more depends upon the sites of these shops than upon their number. The important and extensive District of Mysore does not seem to have had any appreciable reduction. The Excise Commissioner mentions in his report that there was one toddy shop for every 9.3 square miles on an average. These averages which are given on the whole area of the State are misleading and cannot be taken as a sure guide to see whether the shops are located at long distances. So far as my experience goes within a distance of 4 miles on the Mysore-Bangalore High Road from Bommoor to Darasaguppe, there are 6 toddy shops, all on the road side.

Regarding arrack, according to the Excise Commissioner himself, in 1914-15, the contractors have been supplied with 3,77,163 gallons and 53½ drams of arrack. At the rate fixed by Government they make a profit of Rs. 1-5-10 per gallon, which works out a total gain of Rs. 5,14,671 while they have paid Rs. 5,49,220 as shop rent. By deducting the gain from the shop rent, contractors have sustained a loss of Rs. 34,500 besides their house rent and establishment cost which may roughly be put down at Rs. 5,500, thus making a total loss of Rs. 40,000 in one year. On a reference to the statement furnished to me in this Council with reference to arrack shops in the Cities of Mysore and Bangalore and C. R. Works, I found that the contractors sustained a loss of over Rs. 9,000. When I interpellated the Government on this subject on 28th June 1916, the First Member of Council was pleased to state on behalf of the Government that the information before Government justified the presumption that the contractors did not work at a loss. It passes one's comprehension to see, with the figures staring before us, how the Government presumed that the contractors did not sustain any loss. I may be pardoned, if I say that the so-called presumption is against mathematical accuracy which admits of no other presumption than what can be supported by figures. If the contractors did not sustain any loss as opined by the Government, we have to presume that the contractors should have recourse to questionable means such as dilution, using short measures and selling at a far higher rate than that fixed by the Government and thus made up their losses. As a result the drinking population, most of whom are steeped in poverty, will have lost much of their earnings which should have gone to feed many hungry mouths at home. This is a serious situation from an economic point of view also. It therefore behoves the authorities to investigate the question thoroughly and devise suitable measures to check the consumption as far as possible. I must again here repeat what I said last year, the regularization of traffic, location of shops in large and populous villages and on the road side, facilities created for the people to buy this intoxicating commodity regularly and easily are mainly responsible to the curse of drink being on the increase. Therefore, my humble suggestion is that the Government be pleased to locate shops at long and inconvenient distances, far away from the road side, to restrict the hours of sale and give the local option to a very great extent. This, and this alone, can save the drinking population from the verge of starvation and the consequent temptation to commit theft and other kindred offences. The establishment of the depart-

ment must be made to interest themselves more in putting down illicit tapping and distillation than in trying to increase the revenue and earn the reputation of a successful administration from departmental point of view.

### *Public Improvement and Development.*

The public are thankful to the Government for having allotted a sum of Rs. 9,75,000 under the head Public Improvement and Development. Out of the sum allotted, 4½ lakhs of rupees are set apart for the Mysore and Bangalore Cities. Rupees 75,000 is provided for the improvement of water-supply in towns which sum is barely sufficient even for a single town. No sums have been provided for improving the drainage of those tolerably large towns which are badly in need of such a scheme. I learn that the Government have been pleased to make a grant from the revenues of the State till now to the extent of 34½ lakhs of rupees to the Mysore City Improvement Trust Board and 32 lakhs of rupees for the improvement of Bangalore City and extensions. These cities, one being the capital of the State and the other the seat of Government and of commercial activity, eminently deserve every consideration at the hands of Government. What I contend for is that less fortunate towns miserably circumstanced may also receive a generous consideration at the hands of Government. To quote an instance in point, I may be permitted to mention Seringapatam, the ancient and historic capital of the State, with a glorious past, still retaining its prestige as a place of historic importance and religious sanctity. It is a place deserving immediate attention of Government for introducing various improvements such as water-supply, drainage scheme, etc. This question is being urged off and on, on every conceivable occasion and the people of the town feel disappointed that no specific provision has been made for the improvement of Seringapatam. I therefore request that the Government will be pleased to set apart a decent sum specifically for the water-supply and other improvements of Seringapatam.

### *Education.*

I once more convey the heartfelt gratitude of the public to the Government of His Highness the Maharaja for having established a local University. To make this infant University a thorough success, it is absolutely necessary that the preparatory schools should be well manned and brought under efficient management. It is in these institutions, that students, who are to enter on their University course, should receive good grounding. I respectfully suggest that no efforts should be spared and no amount of expenditure should be grudged to bring these institutions to a high level of efficiency.

I learn that students of High School classes who were boarders in the Mysore Hostel have been asked to vacate the Hostel to accommodate the College students. The building which is now said to have been engaged for High School students for lodging is considered to be a small one and can hardly admit of more than twenty students. Moreover, those High School students are to come to the College Hostel for bathing and for their meals and then go back to their lodgings which is far away from the College Hostel. The students of High School classes are young and most of them have come from far away places leaving their parents and guardians, and it is of the utmost importance for the Government to bestow on them parental care. Till a separate Hostel is constructed for the High School students, the Government may be pleased to allow the High School students to remain in the Hostel. If the present Hostel building does not afford sufficient accommodation, buildings in the neighbourhood may be rented, and such buildings are available.

**Mr. M. Chengiah Chetty.**—SIR,—I am only making a few observations on the budget. It is very gratifying to note that the Cauvery Reservoir works are progressing satisfactorily. The amount spent as per budget figure was a little over a crore of rupees; and the Government is thus able to supply extra power to the Kolar Gold Fields which will pay about 6 per cent on the capital expenditure. That is a very gratifying result.

In my opinion the Amildars are overworked for the past five years on account of the recent economic activities in the country and it is necessary that their hands

should be strengthened by the appointment of Peishkars on the same pay as that of a Taluk Sheristadar to help them in their executive work. The Peishkar or Deputy Amildar, however he is termed, must have a knowledge of machinery so that he might be helpful to the raiyats in the use of machinery by them.

Another point on which I should like to say a few words is the low pay that is prescribed to medical graduates. Medical graduates are started as Sub-Assistant Surgeons on Rs. 60 per mensem. They have to remain in this grade for nearly five years till vacancies in the Assistant Surgeons occur on a pay of Rs. 80 per mensem. It takes them nearly twenty years before they can expect to get Rs. 300. The scale of the graduated pay of these men is much lower than in any other department. For instance the Government have recently sanctioned the time scale in the Engineering department. A Sub-Assistant Engineer gets Rs. 100 to start with; and with an annual increment of Rs. 20 he gets Rs. 200. He is then promoted to Assistant Engineer's grade on Rs. 250 rising by annual increments of Rs. 25 to Rs. 400. This salary is reached in about twelve years. You will thus see how unfavourably the Medical department compares with the Engineering department. So far as the training is concerned, the medical course takes five years, while the Engineering only three years. Somewhere I saw a remark that Engineer establishments are paid higher because they are to lead a life of exposure and that their services are required at every hour of the day. If so, is it not more true that the services of medical men are also required not only at every hour of the day but also of the night? If it is to be believed that the scale of medical men is purposely kept low because they are allowed the benefit of private practice, by which they can get a higher income, it is to be noted that private practice affects them very little in the State. In the Madras Presidency, the officials of the same grade are started on Rs. 100 as probationers and are given Rs. 150 on confirmation. The other day I read in the papers that the Government is of opinion that an agreement should be taken from them when they enter the medical service that they would stick on for three or four years. The question arises in this way. When these men enter the service, they take the earliest opportunity of getting out of it for the simple reason that their emoluments are so small. I am therefore of opinion that the Medical department should be strengthened by increasing the pay of the medical subordinates and making it commensurate with their duties and responsibilities, so as to compare favourably with that of Sub-Assistant Engineers.

**Mr. C. Narasimhaiya.**—SIR,—The Financial Secretary in his speech has said that the obligatory recurring expenditure in connection with the ordinary administration of the State will be met during the year to the extent of Rs. 240,42,000 from the permanent revenues of the State and of Rs. 7,42,000 from the mining and power revenues. It is thus seen that the ordinary administration charges have far outrun the permanent revenue of the State. This shows that there is greater need for economy in the expenditure on ordinary administration. Our expenditure on the Secretariats, the Financial and Account departments, the Railway department and to a certain extent the Public Works department has during the last three or four years increased considerably and I am afraid that we cannot conscientiously say that there has been such an improvement either in the quality or the quantity of work as to justify this large amount of extra expenditure. At the same time there is a strong feeling that the much needed improvement of the district and taluk administrations is not receiving as much attention as it deserves; for, after all, on the integrity and efficiency of the district and taluk administration depends to a very large extent the peace and happiness of the ordinary raiyats. I may go one step further and say that the improvement of the economic condition of the ordinary people and raising of their standard of living also depend to a considerable extent on the interest, sympathy and enthusiasm of the local officers. I am not unaware of the vast improvements that have been effected as a result of the enthusiastic work of you, Sir, and the other officers at the centre of the Administration. But I may venture to affirm that the results would have been far greater if the enthusiastic interest of the local officers especially the Amildars had been fully secured. It is a well known fact that there is a good deal of discontent in this class of officers whose power and influence, either for good or for bad, cannot be overestimated. I really believe that the question of the improvement of their prospects

can no longer be shelved without serious detriment to the general well-being of the State and I hope this will seriously engage the immediate and sympathetic attention of the Government and a time-scale rising up to say 300 as in the case of Assistant Commissioners and Munsiffs sanctioned.

This question of the increase of ordinary expenditure over ordinary revenue leads me to another important subject. For some time the question of devising other methods of taxation is in the air; and some have gone to the length of suggesting a levy of income tax and some the levy of an education cess. I have also a fear that our worthy Financial Secretary, deprived of his duties as Comptroller, is devoting all his energy towards finding out other sources of income which in the end comes to new taxation.

Turning now to our budget the permanent revenues of the State are estimated at 240,42,000. This divided among the 5,705,000 subjects of the State gives the incidence of taxation per head. This will work out to Rs. 4-3-5 per head and the average income per head cannot exceed Rs. 32, the estimate of Lord Curzon. But this is not all; I have not taken into account; the amount that we are contributing towards the Imperial Indian Revenue in the shape of tax on salt that we consume, customs duties on the various articles we import, the countervailing excise duties and the cotton, tobacco, etc., that we import and our contribution towards postal and mint and net receipts of the India Government. We have to take note of all this in calculating the true incidence of taxation. Considered in this light everybody must admit that we are not at all lightly taxed and that any extra taxation will prove a great hardship and would retard the healthy and normal development of the people. I would however suggest that the question of incidence should be studied in detail with reference to each particular tax and the burden on the different classes of people and re-adjustments effected, if necessary, so as to equalise the burden on all and remove undue hardship in particular cases such as the assessed taxes but so as not to exceed the present rate. I now proceed to offer some remarks on different departments but in so doing confine myself to a few departments.

#### *Police.*

In the report on the administration of the Police during the year 1914-15 on page 15, para 30, an observation is made about the Amildars as follows:—"Being Heads of Taluk Police and with such ample opportunities to know the details of the taluks; these officers are expected to evince more interest in police work and take more active part in the investigation of serious crimes which unfortunately has been perceptibly on the wane during recent years." I am led to think that the Police Inspectors are to a greater extent responsible for this. Of late there does not seem to be a healthy relationship between the Police and the Revenue officers. The Inspectors think that the Amildar is only a nominal head of Police and does nothing. The Inspector does not care to see the Amildar even in important cases, in which co-operation is needed. Whenever an Inspector is in the good books of the Superintendent he does not care for the Amildar. The authorities concerned will have to pay particular attention in this direction and see that there is harmony between the Police Inspectors and the Amildars.

#### *Forest.*

The estimate under Forest for 1916-17 exceeds the budget estimate of 1915-16 by Rs. 56,000. This seems to me to be an unnecessary item and savings may be effected in this direction as I shall point out later on.

There was no necessity for additional establishment in the Mysore and Shimoga Districts. Instead of dividing Mysore and Shimoga into two divisions each, the original sub-division could have been maintained to the greater benefit of the department if only the powers of the Sub-Division Officer had been enhanced by giving him more of the powers of a D. F. O. as is done in Revenue Sub-Division. In that case the unity of the department and the administration could have been maintained, extra establishment, time and labour could have been saved and effective supervision could have ensured greater benefit to the department.

In maidan parts, especially Tumkur and Kolar, the department is working at a loss. There seems to be no necessity for maintaining such a large establishment. If we deduct the income of minor produce especially tangadi revenue which requires no special supervision, we will see whether the yield under other heads is commensurate with the expenditure in these districts.

In my humble opinion there is no need for a separate D. F. O. in the maidan districts. The D. F. O. may be made the Excise Assistant and the conservation of date trees which are abundant in those parts may be entrusted to him.

Turning now to irrigation, I see that the establishment charges are increased about 50,000 whereas the cost of works proposed to be undertaken is only Rs. 16,000 more than that of last year. So also under irrigation minor the establishment charges are increased by Rs. 11,600 whereas the proposed works cost only Rs. 6,000 more than last year.

In reply to one of my interpellations on the slow progress of the minor tank restoration scheme, Government were pleased to state that one of the causes for this slow progress was the delay in the payment of contributions by the raiyats. I find that in many cases this is due to the fact that the raiyats are too poor to pay their quota long before they reap the benefits of improved irrigational facilities and would suggest that in such cases the contribution be recovered only after the raiyat has availed himself of the improved facility and raised a crop. I believe with suitable rules framed for the purpose this would ensure better progress.

In the D. P. W., the establishment charges are not detailed as in the case of other departments. It is not clear whether the allotment of 4,97,000 for establishment includes temporary establishment and the establishments charged to works.

The most important subject that has been engaging the attention of the public and of Government alike is education. During the last three or four years we have made rapid progress in all directions. Elementary schools have increased in number. Elementary education has been made compulsory in select areas. Technical and industrial schools are established all over the State. The Grant-in-aid Rules have been revised, the inspectorate has been enlarged, a revised scale of pay has been sanctioned and lastly, a University has been established and liberal provision has been made in the budget this year. For all these benefits conferred, the people of Mysore owe a deep debt of gratitude to His Highness the Maharaja and to His Highness' Government.

In spite of the various efforts of Government in the direction of improvements, complaints, sometimes bitter complaints, are not unheard of. To give only a few of these I may mention here that though a larger number of village elementary schools are sanctioned every year, we hear of schools without masters, masters without pay, grants not sanctioned in time and sanctioned grants not paid promptly.

Coming now to High Schools we hear complaints of the inadequacy of the staff, too many transfers and the consequent dislocation of work, the discontent of teachers with their poor prospects and a general fall in the standard of teaching. This is borne out by the poor results in most of the High Schools. Turning to Colleges we see that many of our students had to go elsewhere for want of seats. I am afraid that many of these are due to over centralisation which is at the same time responsible for the inability of the department to satisfactorily work out the sanctioned grant.

As at present the Inspector-General of Education has to concern himself with routine matters, such as the signature of a Grant-in-Aid bill, I am afraid he has little time for the preparation of important schemes and the solution of many vital problems connected with education, such as suitable text-books, schemes of study, separate courses for rural and urban elementary schools, assignment of control over these to the district boards, recruitment of intelligent men into the department, adapting of our secondary education to the new University standards; the question of religious and moral education and the improvement of technical education. These and many other problems are awaiting solution and till these are solved our system of education will not be complete and satisfactory.

If these problems are to be tackled only by the department I am afraid that it will take a very long time and the interest of many of the present day students will be sacrificed. I would therefore respectfully urge on the Government the appointment of an Education Commission composed of a few eminent educationists and some non-officials who should sit continuously for three or four months and suggest a solution for these problems and chalk out the lines on which development has to be effected in future.

In conclusion I must thank the Government for the various useful schemes that they have taken on hand for the amelioration of the people and also for the various useful experiments for the industrial development of the country. The Government have also to a certain extent taken advantage of the war conditions now existing and established the Sandalwood Oil Factory which is sure to prove a lasting benefit to the State. I hope that during your administration, Sir, many more such useful industries will come into existence.

Before resuming my seat I feel I must thank the Government for giving us an opportunity to informally discuss a few points of the budget yesterday and for the sympathy and confidence extended towards the non-official members of this Council by you, Sir, and the other official members of this body.

**Mr. M. Karnick Krishnamurthi Rao.**—SIR,—I beg leave to convey the most humble and respectful congratulations of my constituents and myself to His Highness the Maharaja and His Highness' Government for the successful termination of the Cauvery Arbitration which have not only confirmed our ancient rights, but also safeguarded the means of our future agricultural developments. The Kannambadi Reservoir will surely be a monument to the skill of the Mysore engineers, of whom I need hardly say you stand foremost.

Two of the most important achievements of your regime, during the past year are undoubtedly the Mysore University and the Kannambadi Reservoir and the future historian of Mysore will surely allow a large space to speak in praise of these good praiseworthy achievements for which the people of Mysore will ever be grateful to you.

Coming to the budget figures, education naturally looms large and we are deeply grateful to His Highness for the liberal grant he has commanded you to allot. We are only anxious that all the grants should be well utilised and no lapses should be allowed to occur.

A lapse of Rs. 1,71,000 has however been permitted. The Inspector-General of Education has a number of Assistants. When there is no necessity felt for the post of Deputy Inspector-General for the last two or three years I do not understand why provisions should continue to be made under this head in the budget. This seems to imply a want of continuity of policy in administration. Appointments are created for persons and not persons for appointments. While no other Head of Department has got more than two Assistants, the Inspector-General of Education has four, including compulsory education officer. The Head of the Revenue department, whose operations extend over every village, nay almost every inch of land, has only two Assistants. I fail to understand why the Head of the Educational Department who has dealings only with about one-third of the number of villages and towns which have schools, should have four Assistants besides a large body of Inspecting officers and besides the help given by the Revenue and Economic departments. It is surprising to see such heavy lapses every year in spite of all this assistance.

The direction alone costs nearly half a lakh and the Inspectorate costs Rs. 1,62,500. The lapses are regrettable. The teachers in moffusil complain of non-receipt of pay for months together and building grants are unnecessarily delayed. There is much discontent in the ranks of teachers as budget grants are not utilised and their promotions are allowed to linger on. There are other reasons also for discontent. But I shall not refer to more just now.

The Educational department has a Central Book Depot attached to it for which, a sum of Rs. 62,306 is shown. The Curator and his office alone cost Rs. 9,456. There is scope for defalcation in the office which is far away from the office of the Inspector-General of Education. The curator is a lord of what he

surveys in his office. The Depot may be abolished and private firms be encouraged to sell all the Government publications on commission.

A grant of half a lakh is allowed to the Indian Institute of Science from the State revenues. May I know what adequate return the State has been getting.

Under grant-in-aid it is pointed out that industrial schools costs Rs. 16,412. Experimental schools Rs. 2,00,000 and adult schools Rs. 31,200. Are these amounts properly utilised? The industrial school at district headquarters are nothing more than a carpenter's pattadi and parents are already beginning to feel disappointed with this kind of training as all the young men so trained cannot eke out their livelihood either as carpenters or smiths. There is no demand for so large a number of young men of this kind. The grant for the industrial school should be better spent and really useful industrial schools should be encouraged. All the grants may be withdrawn and spent in awarding scholarships only to students who have aptitude for such training.

The experimental schools absorb two lakhs. I am not an educational expert to advise Government on matters of this kind, but from what I hear, see and learn some of the experimental schools which have been started so hastily are not worth the name. The adult schools cost Rs. 31,200 and their utility has yet to be watched.

For promotions to teachers a sum of Rs. 48,636 is provided this year and this sum at least I beg leave to repeat, should not be allowed to lapse, and the teacher's profession should not be allowed to grow in discontent and disappointment.

Among scholarships, I find Rs. 720 for scholarships in Mysore Tannery. It does not seem to have been provided for in previous years. I think it is a welcome departure and I trust students will really learn the trade and needful facilities will be given them by the Tannery authorities.

We are glad that the Agricultural Department has a major head this year and the raised dignity given to the department is well merited. It is hoped that agricultural farms in malnad parts will soon be opened, the one at Sagar not being enough.

Now that Mr. Chatterton, C.I.E., is given a seat on the Industries Commission he may shortly leave us. The Government should consider seriously the advisability of continuing the post. Here and there a few machines may have been successfully installed and that alone does not constitute justification for having a costly Directorate. We all admit that Mr. Chatterton is a very capable expert and there is nothing in the mechanical world which he is not aware of. But he is going away. Last year his budget figure was Rs. 99,500 and this year it has risen to Rs. 1,09,500 and that merely for direction.

Sir, I beg to submit that this is bordering on extravagance. The word extravagance may be considered too strong, but when I see that there is no adequate return for the amount spent I think I have not erred. The weaving factory costs Rs. 18,800. Is it economically worked? Its output must be increased to justify so much expenditure. The Industrial Depot takes away Rs. 2,400 without any return. The Industrial Depot can be conveniently given over to the Museum if its maintenance is considered necessary and I cannot easily forget the short but significant part the Industrial School at Channapatna has played and the loss it has entailed on Government.

The controlling officer of the Muzrai department is only a superintendent and carries no better status. He does not seem to exercise sufficient control over the doings of Deputy Commissioners in the Muzrai department. Several religious endowments are alienated and there is not sufficient check or safeguard over them. The Muzrai Superintendent is the only unfortunate officer who is not given the status of the Secretary.

#### *Ayurvedic College.*

If the College cannot be made attractive enough it may be abolished once for all. A fair trial ought to be given. The sum allotted is only Rs. 4,300. The pay of the Principal is the insignificant sum of Rs. 35 a month. The herb garden can only be given Rs. 400 a year. The scholarships to students have this year

gone down to Rs. 1,080 whereas the sum allotted to European Western system is Rs. 11,600. No wonder, Sir, the College has no attraction for ambitious students and an important branch of medicine is neglected. There is no travelling allowance given to the Pandit and to his students. Enormous quantity of medicinal herbs grow in the Bababudans and the hills are not exploited for purposes of medicinal herbs. I would suggest that the Ayurvedic College should be better equipped and handsome stipends allowed to graduates to proceed to Calcutta for training. Due encouragement ought to be given to that popular and cheap form of treatment. A new building ought to be erected and attractive stipends allowed and the old form of treatment should once more be revived and the healing art should be made easily accessible to the masses who have ample faith in that treatment.

#### *Medical.*

The idea of charging fees for medicines dispensed in hospitals of Bangalore and Mysore seems to be repugnant to the time honoured ancient notion of charity in India. Sentiment plays an important part with us. Agriculturists are groaning under heavy taxes. It is only they that have to pay. Officials who are under no obligation to pay taxes are exempted from paying for medical aid. This is anomalous. This leads to several abuses not the least of which is the suppression of diseases. This sort of taxing the people should be avoided.

#### *Vaccination.*

Our vaccine lymph was once in great demand and was very effective. The calves were most healthy. At present unhealthy and poor calves are purchased and they are sold to butchers. The result is that ineffective lymph is produced. Strong and sturdy calves ought to be selected and approved by a Committee and they alone should be purchased and not sold to butchers.

#### *General Administration.*

The total State revenue in this year is expected to be Rs. 2,86,22,000, expenditure on general administration alone is shown as Rs. 11,62,000 and the amount to be spent on Taluk establishment as Rs. 6,10,503. In 1912-13 Taluk establishment cost Rs. 5,64,712. The Civil Secretaries have been costing us a good deal. In 1910-11 it was Rs. 2,39,900, and in 1911-12 Rs. 2,47,800 and 1912-13 Rs. 2,49,900, 1916-17 Rs. 3,33,500. The figures are jumping up rapidly. Much is not given for the improvement of the Taluk and District establishments who bear the brunt of work. There is no use of trimming the top and neglecting the root which forms the basis of the administration. Government ought to be aware that there is much discontent in the taluk and the district establishments at present, whose efficiency and contentment should first be secured in the interest of good government of the State.

The Financial Secretary instead of closing the Treasury gate against repeated onslaughts so justly made by Heads of Departments would have earned the blessings of several hard-worked officials, if some efforts had been made by him to improve their lot in their taluks.

Sir, the high paid offices in Bangalore and Mysore have personal, special, and other allowances attached to their pay and the engineers have had their time scale sanctioned with retrospective effect, but the hard-worked subordinates district and taluk offices have had the Treasury gates closed against them. May I ask why should the highly paid officers alone get more pay and allowances? This is the feature of the administration which the guiding authorities ought to bear in mind.

The Survey department has lumpsum grants allotted. It is not known how the grants are spent. Cannot the pay and grades be fixed so that people may know how the amount is expended.

As for the Economic Conference I can only say that the administrative machinery is unnecessarily being duplicated. The Central Committee may, if necessary, be kept up, but the District and Taluk Committees ought to be amalgamated with the existing public bodies, who are not now being well equipped.

*The Economic Journal.*

The Magazine is now published in two languages, English and Kannada. The latter edition is very popular and commands extensive sale. The publication costs for both Rs. 17,636, and the receipt is only Rs. 10,000. There are several journals of the kind in English all over the world dealing in economics, and I would venture to submit that the English part of the "Economic Journal" be discontinued and the Kannada edition made weekly.

*Separation of Judicial and Executive Functions.*

This is an often repeated prayer in the Representative Assembly and the Government are pleased to say that the principle has been recognised but it is only a question of funds. The Financial Secretary is capable of finding funds for less important matters and he must find ways and means to let go a sum of Rs. 1,00,000 annually for purposes of establishing stationary magistrates for a taluk or a group of taluks. The scheme ought to be given a fair trial at least in one district. But the Government do not seem to be in a fair mood to begin the trial, for in seven or eight taluks Amildars have since been reinvested with the magisterial powers. This will be a good educational training to the rural people and an early start ought to be made. This is an important, urgent reform and provision must be made in this year's budget alone.

The collection of revenue is falling down year after year. I want to draw attention of the Government to the figures given in the budget in this connection. Nothing has also been provided to meet the demands of inamdars to the toddy revenue, a question long pending with the Government. So also, no provision has been made for the improvement of the minor tanks in inam villages.

The last request which I have to lay before you on behalf of the citizens of Bangalore is so very important that I wish to lay upon it all the emphasis I can and it is prayed that a branch railway line may be made to run to Basavangudi Extension *via* Chamrajapet from the City Railway Station. I need hardly say that I am not asking for too much when the people especially middle class and the poor are subjected to hardship particularly in the rainy season in these parts of the City, and I fully hope that suitable provision will be made in this year's budget for creating the convenience.

**Mr. S. Seetharamaiya.**—SIR,—The changes in the budget head, particularly, the introduction of Part III in the budget, make the arrangement more convenient and logical and materially facilitate references, for which we thank the Financial Secretary.

A comparison of the total revenue figures for the years 1914-15 and 1915-16, will show that there was an increase of 10,83,000 in 1915-16, over the total collection of 1914-15, notwithstanding the admitted fact that the collections in the last year were not quite satisfactory and we hope, as expected by the Financial Secretary, we will have a more satisfactory and better collection in the current year.

The suggestions so kindly offered by the Financial Secretary in the penultimate para of his introductory speech, that a sort of co-ordination in the work of non-official members be introduced in view to secure depth and thoroughness of criticism in a greater degree and his assurance to render any help that may be required of him, are really very useful, and I hope we will be able to find our way by the next budget time, to avail ourselves of the same.

In the concluding para of his speech, the Financial Secretary refers to the circumstances which necessitated cautiousness and great restraint in the matter of expenditure, so much so that many a scheme dear to the heart of the administrator and reformer had to be put off for want of funds, and many a departmental head with well-considered beneficial departmental schemes had to turn away from the gates of the treasury in disappointment, and no new project except the new University scheme, have been included in the programme for the current year.

But I am afraid this cautious policy of our Financial Secretary seems to have been adopted only in the case of unfortunate officers and officials, on whose contentment and enthusiasm depends to a very large extent the well-being of the

people of the State, and not to various new and costly appointments that have been sanctioned. I am glad to find however from the budget allotments that Shimoga District Feeder Railway and Shimoga-Bhatkal Railway have got for their survey a total sum of Rs. 47,000.

From this I am inclined to think that the original route as surveyed by Mr. Arunachala Iyer, at the cost of Rs. 20,000 has been abandoned, and a separate route is being surveyed in view to lay a broader gauge than originally thought of and surveyed. I am glad that at this initial stage only the Government were pleased to change the original 2'—6" gauge and to have metre gauge though this change caused a loss of Rs. 20,000 already spent on the first survey.

The Tarikere-Koppa Tram line, has not at all given satisfaction to the public, nor is it likely to do so in future unless the gauge of the line is changed and the work is carried out more substantially.

The same is the case with Shimoga Water Works. The supplemental estimate now sanctioned together with what had already been spent would have given us a more satisfactory and pakka scheme without any double work and loss.

From this experience of ours, we can safely say that the policy of carrying out cheap and hurried work on the principle that "half a loaf is better than none," will always land us in this disadvantageous position causing losses and not giving satisfaction to the public. It is hoped that the Government will be pleased hereafter to adopt a policy which would remedy this evil, and give satisfaction to all concerned.

Out of a total forest revenue of Rs. 25,63,000, the large sum of Rs. 15,00,000 is the realisation out of sandalwood, the remaining Rs. 11,63,000 being the income from all other diverse forest resources, timber, bamboos, etc. This unmistakably shows that the sandalwood is the most valuable commodity in the forest revenue. I would strongly suggest, Sir, that suitable schemes may be formulated for the expansion and encouragement of sandal plantations throughout the State where the soil is congenial to the growth of sandalwood.

We find from the figures given, that under Excise there is an improvement of 5 lakhs over the budget estimate of last year, in spite of a falling off of Rs. 1,80,000 under the head "duty on arrack and special liquors." No doubt this is a tempting item of revenue for the State. This rise, however, in this revenue is not a matter for congratulation to us. It has done serious harm both to the poor consumers and the unfortunate contractors who having made it their profession for a long time stick on to it and are practically ruined by unhealthy competition and who in their turn try to save themselves by throwing their losses rateably upon the poor consumers. Any way this loss has a disastrous effect on the poor drinking class and the subjects. In all civilized countries every effort is made to reform people and discourage drinking though not very successfully. Drinking, it is needless for me to say, is forbidden by all approved religions; and further drinking whose tendency is said to lead to excesses is admitted to be a slow poison; it shortens life, weakens the human system and brings on all sorts of complicated diseases. I would therefore invite your kind attention, Sir, to this growing evil and pray that a suitable plan be devised to see that people do not allow themselves to be ruined by this tempting material.

The income on impressing unstamped and insufficiently stamped documents has increased from 8,491 to 13,000 both last year and this year. This indicates the growth of commercial and financial activity on the one hand and indifference to, or more probably want of proper knowledge of Stamp Law, on the other hand. I would suggest as a sort of preventive remedy that copies of Stamp Regulation, translated in simple and easy Kannada language, may be freely distributed through the revenue authorities, to all the literate people of rural tracts, so that the people may be thoroughly conversant with the Stamp Law so as to transact their business on proper stamps.

#### *Registration.*

Under Registration the revenue realised this year is practically the same as in previous years with slight fluctuations; whereas the expenditure under this head

is Rs. 96,000 leaving a surplus of Rs. 1,04,000. The main object of this institution is, as I understand, more for safeguarding the rights and interests of the subjects than for adding to the State coffers. In this department, the salaries of the Sub-Registrars and their subordinates are comparatively poor, and are graduated by a scale passed several years ago. The Sub-Registrars are mostly graduates and have good reasons to feel disappointed and discontented for want of prospects. It is rumoured that there is a revised scheme pending before the Government providing for improved and satisfactory scale. If this be true, it may be kindly sanctioned and brought into force at an early date. Otherwise, a fresh revised scale may be passed providing for increase of their pay and of their staff and this just complaint be remedied as early as possible.

The Explanatory Memorandum of the able Financial Secretary shows (para 22) that in addition to the deduction of 2 lakhs made in the education budget, on account of probable savings, the expenditure under education has shown a further falling off to the extent of Rs. 1,71,000.

A study of the details given by him will convince us that the several sanctioned items of expenditure such as the amounts provided for the revision of the inspectorate, compulsory education, grants for normal schools and aided schools, and for scholarships, etc., have mostly remained unexpended. From this we can very well see that either the necessary materials for carrying out the several projects sanctioned are not available, or there is want of sufficient activity on the part of the authorities concerned, or that the country for whose benefit the several progressive projects have been sanctioned is not yet fully prepared to be the recipient of the same. In any case the sanctioned projects become useless till the effusive activity grows unequal to regulate the standard till the materials become available and the country actually feels the need for the same.

In the same way the volume and recurrences of lapses every year under other heads are, I think, generally due to the method of allotments without regard to the capacity and needs of the several departments concerned.

This system does not seem to be conducive to the welfare of the country as it keeps the people from having their other urgent needs met by Government, who when approached naturally say by reference to budget figures—"No FUNDS."

This is not all. These allotments will naturally induce the several departments to somehow spend the same, show progress in its administration and with this object, oftentimes, money is wasted in a hurried work at the fag end of the year in multiplying the number of subordinates and widening the scope of real or supposed activities, and in other similar ways.

This system of budgetting allotments will, it is hoped, hereafter be modified so as to avoid, as far as possible, such results.

Sir, in August, 1914, when the privilege of discussing the State budget was first opened to members of this Council, I suggested in my first speech certain projects for the kind consideration of the Government. I thankfully acknowledge that all my suggestions, except two, *viz.*, the *Bhadra Project* and the *Establishment of Telegraph Offices* in all the taluk headquarters, have been given effect to, and I hope these two items of public need will also be provided for by the Government at an early date.

Turning now, Sir, to the Malnad Improvement Scheme, I very much regret to say that its work has not justified the high hopes which the beneficent scheme originally gave rise to. While I must thank the Government for the deep interest which they have all along been evincing in the amelioration of malnad people, I am sorry to bring to the notice of the Government that even the comparatively small amounts sanctioned are not fully worked out year after year. In 1914-15 only Rs. 59,000 were spent and in 1915-16, the revised estimate has anticipated that Rs. 76,000 would be spent during the year. But I am afraid that even this expectation has not been fully realised. I have no means of knowing from the budget how much of these has been taken up by the establishment charges and travelling allowances. When these are deducted, the amounts spent on useful projects and works must indeed be very small.

I very much doubt if these poor results could not be better achieved by grants to District Boards and abolishing this costly agency. If, however, the Government

are not in favour of this, I hope that suitable steps will be taken to remedy this unfortunate state of affairs and make the work of this special agency more useful than it has actually proved till now.

I should like here to refer to one other point which is deeply interesting to a portion of the people of Shimoga and Kadir Districts. I refer to the fate of the two sub-taluks of Kumsi and Narasimharajapura. I hear that the question of the conversion of a few sub-taluks and the absorption of the rest is engaging the attention of Government. Sir, a careful study of the circumstances under which those sub-taluks were established and of the past and the present state of affairs connected with them will convince the Government of the great necessity for not only restoring both these public offices in those places, but also the necessity for converting them into pukka taluks and creating facilities to meet the present and the future needs of the public. Of these two sub-taluks, Sir, the necessity for making Narasimharajapura at least a pakka taluk headquarter has now become all the more pressing among other reasons from the recent establishment of a Munsiff's Court and its incidental increased monetary transactions in the Government treasury. Sir, on account of the absence of Government treasury at Narsimharajapura, all the transactions, big or small, of the Court and the court-going public are now as of necessity being conducted in the Taluk treasury at Koppa, which is situate at a distance of 14 miles in the midst of a continuous jungle. I would therefore strongly suggest, Sir, that immediate steps may kindly be taken for granting the above need.

In conclusion, I would like to represent to you, Sir, the great desirability of allowing the Members of this Council to move resolutions on the budget.

With these observations, Sir, I thank you and the other honourable members of the Council for the very patient hearing given to us.

**Mr. B. V. Ramaswamy Chetty.**—SIR,—The privilege of discussing the State Budget and passing an opinion thereon was given to the non-official members of this Council so that the Government may have the advantage of knowing what the non-official members who are said to represent the public—at least one portion of it—have to say. I feel it rather difficult to give an opinion on the budget for this reason that I do not know exactly what my duties and privileges are in this matter. From the way opinions were expressed last year and are being expressed this year also, one is led to think that regular lectures are expected in the way they are given here. I do not think that such a thing is necessary or called for. I am therefore of opinion that it is very necessary that we should receive some definite lessons about our duties and privileges with regard to this matter. I think it is very necessary that the meetings which have been suggested by the Financial Secretary between him and the non-official members of this Council should be brought about so that matters about which they wish to get correct information may be easily obtained and handled in a befitting manner. The suggestion made by some of the members here that there should be a Budget Committee for preliminary discussion is a very sound one and will, if given effect to, be of very great advantage to the non-official members.

With regard to the question of the separation of judicial and executive functions, it is a matter coming up before the Government in one form or another. Last year, it came up in the course of the budget discussion. It has come up for discussion over and over again at the Representative Assembly. This is a measure on which public opinion is strongly in favour and the Judges of the highest court have expressed their views freely in no uncertain terms. It seems that the Government are reluctant to bring it about on account of the cost, or that they do not want the time honoured system to be changed suddenly. If it is on the score of cost, then I have only to say that Government have undertaken much more costly schemes for the improvement of the country and if they only make up their mind, it would not be very difficult to find funds. It is high time that something is done with regard to this vexed question.

With regard to public improvements, last year there was a bitter complaint that except the Cities of Bangalore and Mysore, the smaller cities of the State, did not get anything towards their improvement. This year there is no such complaint. It is necessary that the needs of all places should receive consideration.

With regard to excise policy, last year I expressed my opinion. There is no doubt that the Government can pursue their policy in any manner they think fit, and we cannot assuredly say that the Government have erred in any particular. Simply because the Government are making some revenue in the Excise department, we cannot jump to the conclusion that the means adopted are not conducive to the prosperity of the poorer classes. We have to see what is the excise policy in the adjoining British Provinces. Is it a fact that those Governments are also making money? The point to be considered is this—there is a high demand for arrack on the part of the people; and this demand must be supplied. If it is not promptly supplied, we say it is not a good Government that cannot minister to the wants of the laboring classes. But do the Government force large quantities of arrack on the people? If so, there is a just complaint against Government. But they cannot but provide proportionately to the demand. This will certainly bring them money. But then it is the natural consequence of the position. If reform is wanted in this direction, it must come both from the Government and the people. If Government are not doing what they ought to do in the way of reforming the people, then what we have to do is to appeal to the Government. But in this case, there is no doubt that our Government are doing their best, and it is the business of the leaders of the people to see that the drink habit is discouraged. The reform should emanate from the people. This was the opinion I expressed last year also.

Then I have to say something about the way in which business is managed in the Lal-Bagh. I do not know if my information is correct, but if correct, steps should be taken to remedy the grievances. It would appear that latterly large quantities of seeds, etc., are being purchased by the authorities in the market and sold to the outsiders thus competing with genuine professional sellers of plants and seeds. I do not know if it is the legitimate function of the authorities in charge of the Lal-Bagh to undertake this business. There is no objection to their selling whatever they grow. But why should they go to the market and compete with the traders? The Government department concerned can if necessary, supply seeds and plants to the raiyats in order to induce them to grow a particular plant. But systematic purchase of these in the open market and supplying them to the outsiders works prejudicially to the traders in the field and should be discouraged.

With regard to the revision of the Chief Court, this is a matter which ought to receive the consideration of Government as soon as possible.

A suggestion has been made that peishkars or additional Deputy Amildars may be appointed to help the overworked Amildars. I do not agree with this view. To my mind there is sufficient dissatisfaction already as regards the work of the Amildars and Deputy Amildars and it is not necessary to have the peishkars.

**Mr. Nawab Gulam Ahmad Kalami.**—Mr. PRESIDENT,—On behalf of the Mussalman subjects of His Highness the Maharaja I beg to offer the Government our most respectful appreciation of the privileges and facilities granted in an ever increasing measure for the discussion of the annual budget of the State. With the general advance of the people at large, these facilities will no doubt be properly availed of and the budget debate will prove the effective means of acquainting the Government with the inner thoughts of the people and the various problems that exercise their minds from year to year.

In the first instance, I beg to congratulate the Government on the sound budget they have been able to present even in these days of uncommon stress. The increase in the expected revenue and the decrease in the expenditure provided are no doubt due to the vigilance of the executive and reflect great credit on the present administration.

Agreeably to the suggestion of our learned Financial Secretary, I beg to confine my remarks to-day to that branch of the administration in which I take a special interest. Education has always appealed to me as a *sine qua non* of the general prosperity of any community and I am glad that His Highness' Government have been increasing from year to year the expenditure under this head. Two years ago, Sir, you spent but 15 lakhs on the diffusion of education, but to-day in spite of the abnormal conditions around us you are allotting 23½ lakhs for the same purpose. I hope and am sure that this expenditure will grow more and more and that our

educational system will improve still further until in the course of time it becomes a model for others to copy.

Of the 23½ lakhs provided for education I notice that no less than 13 lakhs are allotted for the University, secondary and special education of which only the advanced or the well-to-do classes can avail. The direction and the inspection cost over 1 lakhs and buildings over a lakh. This leaves only about 5 lakhs for primary education which reaches the lowest strata of society and which is generally regarded as the primary duty of the State. In this connection let me refer for a moment to an impression which is unfortunately gaining ground in the minds of the voiceless millions. Even among the least intelligent people in the Province the question is often discussed whether the plentiful bounty of His Highness the Maharaja is benefiting all his subjects alike. The classes that are backward or depressed are the classes which have really built up the present Mysore, not only from geographical and historical stand-points but also from an economic point of view; and as these form at the same time the majority of His Highness' subjects, Government cannot on any account pass by their opinions in silence. I should therefore request the Government to take stock periodically of what is being done, to find out the relative proportion of expenditure on the different standards of education in the State and to assure themselves that the general tax-payer reaps the benefit of the educational expenditure to a sufficient extent. I am not against the spread of higher education, no, not by any means, but I beg that our educational institutions from the primary school upwards to the University should be worked in such a way that their advantages reach alike all the classes which claim allegiance to His Highness the Maharaja.

Descending from these generalities, Sir, I beg to draw your kind attention to the state of the education that has been provided for the Mussalman subjects of His Highness. This is a branch of the department which is invariably lost sight of even by those non-official members of the Council who are the chosen representatives of the people at large. I may venture to submit that Mahomedan education seems to have received inadequate attention at the hands of the Government also. No doubt, our Hindustani schools are well attended, but that is mostly due to the fact that it is the religious duty of every Mussalman parent to give his children elementary education. The great majority of our schools (indeed, all but 20 out of a total of about 400) have no buildings of their own. They are generally held on the pials of private houses, in ruined dwellings, in *Ashurkanas* and the like. They have no furniture to speak of. They are not as a rule equipped with any apparatus or appliance. Our girls' schools are even worse. We know, Sir, that you have been going round to all kinds of schools during your inspection tours. I beg of you to say if any Hindustani school can stand a favourable comparison with its Kannada sister in respect of building, furniture and equipment. Of the lakhs and lakhs that Government provided for education during the past five years, our schools had very little share. At your instance, Sir, twenty buildings were after all programmed last year, but only two of them seem to have made any progress so far and the amounts provided for the rest must have naturally lapsed. I appeal to you, Sir, to provide at least this year for the immediate improvement of Hindustani primary schools in respect of buildings, furniture and general equipment.

I now pass on to our Anglo-Hindustani schools, the schools through which Mussalman children have to pass, if they will go up to higher education. Here let me remind you, Sir, that the three lakhs of His Highness' Mussalman subjects have but six Government schools of this class in the whole Province. Two of these teach up to the Third Form and the remaining four up to the first. Of the former two, the condition of the Bangalore Model Anglo-Hindustani School was brought to the notice of the Government in this Chamber on a previous occasion. It is badly accommodated, badly staffed and badly furnished. For seven classes only five rooms are provided in a dark and dingy old building with a leaky roof. The institution is understaffed in the sense that the staff sanctioned is not fully entertained. A class of fifty boys has but one master and this has continued year after year. No proper desks, no suitable boards, no library, no tiffin rooms, no museum, no garden and no play ground. Such is our Model School at the very headquarters of the Government, the school which, we were assured the other day by the Educational Minister

himself, was started in 1912, "with the object of affording greater facilities to Mahomedan pupils to study English up to the Lower Secondary Standard." The Anglo-Hindustani School at the capital is no better. Situated as it is by the side of the Kannada School, it is indeed a standing monument of the disparity of treatment meted out to the Hindustani Schools as compared with the Kannada Schools. The remaining four Anglo-Hindustani Schools teaching up to first form are even worse than their prototypes in Bangalore and Mysore. How the department rests satisfied with their efficiency is a wonder even to lay men who have visited these institutions.

In respect of the Normal Schools which prepare masters for Hindustani Schools we have actually suffered of late. Two of these which existed in Shimoga and Kolar have been abolished and only one is left now at Mysore as an auxiliary to the Kannada Training School and located in its out-houses. On the other hand, the Kannada teachers are about to have one Normal School in every district. The increase from 24 to 30 in the total number of our stipendiaries is certainly very laudable. But side by side with the increase in the number of Kannada stipendiaries from 66 to 300, our increase pales into insignificance. In the Upper Secondary class the twelve stipends once allowed to Mussalman teachers have been cut down to 8, while the 18 allowed to Kannada masters have been increased to 40. And all this during a period when the number of the Hindustani Schools has been steadily on the increase! I leave it to you, Sir, to say if this policy is fair or satisfactory.

From the Upper Secondary class the teachers pass to the Pandits' or Moulvies' class. A comparison of the condition of these two classes is also depressing to the Mahomedan mind. We do not grudge the consideration that the Government pay to our sister communities; on the other hand, we shall be glad if even larger sums are spent on their education. All that we pray is that we may also be regarded as deserving of similar support from the State.

In their proceedings on the latest Public Instruction Report, the Government draw "the attention of the Mahomedan community to the comparatively low number of boys in the higher classes in spite of the liberal provision for special scholarships, freeships and half-freeships." What can the community do, Sir, when the system of education provided for us is so faulty, when the intermediate link between our primary and higher education is so weak? We have a broad base of primary schools, Government, aided and unaided, and our numbers there count by tens of thousands. We have only a couple of Anglo-Hindustani Schools teaching up to the Third Form and their strength is about 300. In the High School classes our numbers naturally dwindle down to a few units. Such being the case, the wonder is that, in these days of the "slaughter of the innocents," any Mahomedan young man survives the Secondary stage and goes up to the College? I invite the Government to bestow some little thought on this question and provide more facilities for the immediate education of Mussalman boys in the State, through their own vernacular.

Please, Sir, do not misunderstand my attitude. I am not asking for any special concessions or privileges exclusively for my community. I hold that the system of education provided by the State out of the tax-payers' money should be suited to the circumstances of the people concerned instead of the State expecting the people to adopt themselves to the system provided. In this view, I do insist that Hindustani Schools should be designed and worked so as to satisfy the needs of the Mussalman community and whatever I ask for Mussalmans I likewise ask for all the classes similarly circumstanced.

I remember that Rome was not built in a day and reform cannot be accomplished as soon as defects are discovered. But what is essential is that the angle of vision must change and a practical beginning must be made. May I look up to you, Sir, to do something in this matter that we may feel sure that we have your substantial sympathy. To begin with, the Model School in Bangalore and the Anglo-Hindustani School in Mysore may be reorganized on lines so often pressed upon the Education department. The salaries now allowed can never secure the services of qualified Mussalman teachers as their supply is not equal to the demand. Higher education is not so widely diffused amongst us as amongst our

more advanced brethren and we cannot expect a Mussalman graduate or undergraduate to be content to start life as a teacher on the same salary as others quite differently circumstanced may be able to do. A qualified Mussalman has, open to him, more lucrative lines of employment here and elsewhere than the present Mysore Educational Service. If you will please improve the grades of the teaching staff and put them in line with the grades current in similar Mussalman institutions in British India and some of the Native States, there will be no difficulty in securing the services of qualified men. The furniture and equipment of these schools may also be improved. I request you to provide this year some little amount, say, not less than five thousand, specially for this purpose even as crumbs dropping from the different items in the budget. Like all other progressive people of the present day, Mussalmans cannot rest content with mere promises of future attention. Last year, Sir, you promised us twenty school buildings. I am more modest and ask you to put up a dozen buildings during the current year. Above all, I pray, make one of the Assistants of the Inspector-General responsible for all that you intend and promise. As it is, we hold conferences, make representations and obtain pledges but there the matter ends. Nobody seems to consider it his business to carry out the resolutions of the Government. In the name of the efficiency of your administration, I appeal to you, Sir, to mend or end once for all this most unsatisfactory state of affairs.

In conclusion, may I say that it is with great pain and reluctance that I have had to recount to-day some of our most pressing educational needs. I have spoken rather frankly under the belief that it is my loyal duty to keep the Government informed of what is passing in our minds, to bring to their notice some of the grievances we suffer from and the manner in which they may be redressed. I beseech you, Sir, and your colleagues of the Government to grant the prayers asked for and earn the lasting gratitude of my community.

**Mr. M. Basavaiya.**—SIR,—The Financial Secretary has to be congratulated on the financial statement that has been laid before the Council, which shows some progress. He shows a nominal surplus and yet says that there is a standing credit for 69 lakhs of rupees. In these circumstances, I cannot pause long in congratulating the Financial Secretary. If everything is satisfactory, I do not understand why he suggests that there must be a temporary loan. The Productive Works, items 31 to 41, show an excess expenditure of 74 lakhs, while the Public Administration, items 15 to 30, 120,48,000. Under these circumstances we are able to see that the increase in the cost of the machinery of Government now working at its maximum is not able even to leave a fair margin in the budget for certain other works which the people and the Government both desire. In the first place, there is the separation of the judicial and executive functions. It has been very strongly advocated in this Council already and the Chief Court have also spoken in its favour. It does not appear that the Government are able to go on with the measure at an early date on account of the difficulty of funds. As much as 74 lakhs has been devoted to the Public Works, no doubt for productive works. This is really an extremely large amount to spend when we have got many other important measures awaiting provision of funds. At present, nearly 25 per cent of our revenues go to the Public Works Department and as such no amount can be provided for the development of many a scheme which ought to require early attention. I would press on the attention of Government the necessity of taking immediate steps in the matter of this important measure of reform. As a first step in that direction, the Government may appoint Stationary Sub-Magistrates in thirty-three places as an experimental measure. The pay of these officers may range from Rs. 80 to 100. The Government will have to spend about a lakh of rupees at the initial stage both on the establishment and the pay of the officers. But the expenditure is worth having and must be provided.

Secondly, we have not got enough money to pay more attention to the relief of the medical men. I would suggest that in all taluks side by side with the Sub-Assistant Surgeon for the Local Fund Dispensary, another travelling Sub-Assistant Surgeon with a certain amount of stock medicines and other important necessaries be attached, so that he may be able to go about a certain number of villages where there are not such facilities by turns and administer to their wants. In the malnad and other parts beyond the reach of medical men there has been much distress

and sickness prevailing and when we are devoting considerable amounts of money in furnishing hospitals, etc., at headquarter towns of Bangalore and Mysore, we must be able to give some attention to the relief of these out of the way people. We must also see to the thorough re-organization of the Gazetted and subordinate services so that the Government may get the maximum of efficiency in order to devote more energy for the development of special schemes.

I suggested just now that I was not very much in a position to congratulate the Financial Secretary on the financial success. Firstly because, in the scheme of the Kannambadi works the amount that has till now been sanctioned is, according to the information available, 105 lakhs, but the stage of work at which we now find it is that the dam has not yet reached the initial stage of 80 feet, in certain portions it is 75 feet, in certain other portions it is about 60 feet, while in other portions the foundation is still being dug out. Thus we find that the initial stage is not yet complete although according to the original estimate, the initial cost was to be about 85 lakhs. I do not understand how the original estimate of 85 lakhs has now been increased to 105 lakhs, whether there were any unforeseen circumstances that brought about the increase. I beg also to point out that no very large machinery was obtained for the dam works and as such there is no apparent reason why there should have been so much increase. This is a work of great magnitude and it is likely that at the rate at which the work is done before the final stage is reached the cost will grow to be immensely larger than the estimate and it is desirable that the public should know that in this large productive work, the Government will get their money's worth. I therefore suggest that in order to satisfy ourselves that the amount is properly spent a Committee or an outside Engineer may be appointed to estimate the work done and report whether really Rs. 105 lakhs worth of work has been done.

There is one other point, viz., the question of lapses. On page 6 of the Memorandum we find that on the question of compulsory education the allotment of 1,41,000 has lapsed. It has been the intention of Government to develop the compulsory education scheme for which a large allotment was made. But the public is entitled to know why nothing has been done and the amount allowed to lapse. If it should be suggested that this amount has not lapsed but has been spent within the last one month or two, as I anticipate the Inspector-General of Education probably to explain, I beg to ask whether any important measure which has been worked in such haste could show that amount of benefit which it otherwise would show? Similarly, under grant-in-aid schools, 97,000 has been shown as lapsed. In these cases, more than the Inspector-General of Education or the Inspectorate, the Amildars have invariably taken the initiative in trying to establish schools with a promise that Government will meet them half way; and after the schools are opened and the grants are withheld, what would be the position in the eyes of the people, of those Amildars who did so much on behalf of the Department? If it is our object to see more aided schools spring up, it is desirable that under no circumstances should the grants be allowed to lapse, but the amount should be utilized to the fullest extent.

On the question of the police re-organization Mr. B. Narasinga Rao has said everything that need be said. It is but right that the hands of the Inspector-General of Police should be strengthened to re-model the police staff. For, those that have any insight into the working of the police here will see that the police are not as efficient as they should be.

A word about the jail industries. The jail industries are supposed to be in working order. But when we actually go there and see, nothing will have been done there. Either the jail industries are meant to be a kind of ornamental sort of work or no work at all. If orders are given for anything, the jail authorities are not able to execute them. It is understood that the jail labour is cheaper and if they are not able to cope with the market on account of insufficient provision made for industries there, it is desirable that more amount should be provided and that the industries should be improved.

Then there is the question of moving resolutions in the Council. It is true that we have been given the right of interpellations. It should be admitted that the right of interpellation can only be auxiliary to the right of moving resolutions.

If the latter is not given, then the former reduces itself to the position of individual curiosity to ask a question and get an answer and nothing more. In the interests of the development of the functions of this Council and also to strengthen the hands of the non-official members, it is quite necessary that the Council should be given the right of moving resolutions.

There is one point on which I am not very clear. In the statement given by the Financial Secretary on page 54 of the detailed budget, item 11, col. 3, there is a provision for temporary loans and interest of 3 lakhs. There is a provision of 3,65,000 in 1916 and it appears to have been revised and in that revision it has been reduced to 91,000. In his explanation he suggests that a temporary loan had to be raised and it was cleared in the course of the year. If the temporary loans have been raised and cleared up, and if there had been a surplus of 69 lakhs available while a sum of only 75 lakhs was required at the beginning of the year, I fail to understand why there must be a loan raised to the extent of making the Government liable to the extent of 3 lakhs interest. That would mean that even calculating at 4 per cent interest, the loan was for 75 lakhs. In item 12 we find the Government Savings deposits that make Government liable for interest to the extent of 2,25,000. There is again the State Life Insurance amount. Under item 12, there is an amount of 3,84,000 interest, which stands for some deposits which either have not been utilized or has been expended too, and which all the same makes the Government liable to the extent of 7,65,000. This position, I have not been able to understand. I hope the Financial Secretary will explain this matter and show how under these circumstances, the financial result was satisfactory.

**Mr. H. Narasinga Rao.**—SIR,—The separation of the judicial and executive functions is a simple and practical scheme which can be brought into effect at a cost of not more than a lakh of rupees. There are now 20 Munsiffs' Courts. A sum of about 4 lakhs and odd is now debited to the judicial department on account of the criminal work performed by the Amildars, Sub-Division Magistrates, etc. Now, with only a simple adjustment of work between the Revenue and Judicial Departments, the scheme can be immediately worked. The number of Munsiffs may be increased to 60, placing one Munsiff in each taluk and all Criminal and Civil work in that taluk may be entrusted to the Munsiff, leaving the Revenue Officers, free for executive duties only. No new appointments need be made. The 39 Assistant Commissioners who now exercise magisterial functions may all be made Munsiffs Assistants. Out of 4,12,300, what is required is only 3,00,000 and the Government will utilize the rest towards the cost of Munsiffs. The parties will save some expense, and there will be speedy justice. Munsiffs are moreover, more popular than Assistant Commissioners. I am prepared to elaborate the scheme, if the Government approve of the lines above suggested. I may also state that a similar system is in vogue in Baroda.

Another point I may refer to is this:—The Judicial department is starved. While every other department gets increases, this department alone is not in favour. The Public Prosecutors are paid very little. Rs. 150 is not an attractive sum at all for a fairly good lawyer. It is only people who cannot command any practice that aspire to this place.

Take the question of the Law Reporter. It was the Retrenchment Committee that recommended the abolition of a separate appointment of a Law Reporter and tacked on his work to the Registrar of the Chief Court who was already overburdened with other work. The result is,—the reports are belated, those that are issued are full of mistakes, and sufficient scrutiny is not exercised in the compilation. I therefore submit that greater attention should be paid to the Judicial department although it may entail a little more expense.

The claims of the backward community have been so often brought before this Council that although it is a thorny matter, I should like to say something from another point of view. I should not, however, be understood to speak with any spirit of challenge. There was great opposition yesterday, Sir, when the amendment with regard to the imparting of religious instructions was put forward, on the ground that it would lead to endless difficulties and dangers. But when an open declaration was made by the Inspector-General of Education regarding the preference he

was invariably giving to non-Brahmins in the matter of awarding scholarships to students, there was not a single vote of protest from any of the honourable members of this Council. This open declaration by the Inspector-General of Education is calculated to do more harm than the teaching of religion in Schools and Colleges. It is calculated to stir up ill-feeling between the Brahmin and other communities. It simply means it is a sin to be born a Brahmin and a merit to be a non-Brahmin. The time is very opportune to raise a voice of protest against the action of the Head of the Education department and the attitude of the Government also.

The claims or the agitation of the champions of the backward classes are briefly these:—

(a) that for political purposes the people of Mysore should be grouped into two communities only, the Brahmin and the Non-Brahmin or the Forward and the Backward communities.

(b) the percentage of the Brahmin to the non-Brahmin population is 1 to 30. At present all the schools and colleges are flooded with this small community to the disadvantage of the whole of the backward communities. So also the public service and the skilled professions are swarmed by this community. The remedy that is suggested for this evil is, that this small community must be heavily handicapped by showing special encouragement to the backward classes to enter into the portals of all the educational institutions in the country and throw open to them the doors of the public service so that the percentage of admission and employment may ultimately adjust itself to 1 to 30 according to the ratio of population. This, Sir, seems to be the gist of the agitation of these champions. This agitation has been steadily increasing in volume by what is supposed to be, wrongly of course in my opinion, the direct and indirect encouragement of Government and is creating a lot of discontent and heart-burning among the Brahmin community. If this unhealthy and undesirable spirit is not checked the necessary consequence will inevitably be disastrous to all the communities. The Brahmin community, Sir, though they have a monopoly of learning are generally poor, and the majority of them are veritable beggars. By the aggressive attitude of the backward community, they will be forced to put forward their claims for special recognition. They will say "We are very poor—throw open the doors of all other less intellectual professions such as industries, commerce and agriculture by giving us special encouragement in the way of scholarships and freeships for the study of these professions. Give us land on easy tenure for the purpose of cultivation. When there is a competition between a Brahmin and a non-Brahmin for obtaining a land give preference to us" and so on. How would the backward community receive such claims on the part of the Brahmins? If the Government are driven to recognize such a claim on the part of the forward community, I am sure, Sir, both the communities will suffer irretrievably owing to their respective inherent incapacity. The Brahmin is, Sir, by birth, by tradition, by his habits and surroundings, eminently fit for intellectual study and intellectual occupations and the backward communities for similar reasons are eminently fitted for less intellectual and more mechanical study and occupations. Of course there are honourable exceptions to the above statement. All communities must be looked upon as members of one family consisting of a father, mother, children and servants. In a well regulated family each member has certain duties to perform according to his position and capacity. They are all to work in harmony without crying to usurp one another's functions and without quarrelling with each other.

Thus, you will see that the policy of encouraging a particular community by artificial stimulations is most mischievous in its consequences. It encourages incapacity, it kills all talent, it creates endless difficulties and dangers which may ultimately be irremediable. The best policy would be, Sir, to throw open

every institution and every occupation to every body irrespective of the community to which he belongs and let those who have the inclination and capacity enter and profit by it.

**Rajasabhabushana Dewan Bahadur Mr. K. P. Puttanna Chetty.**—SIR,—It is just two years ago that His Highness was pleased to grant to the non-official members of this Council the privilege of discussing the State budget. I am happy to say from the manner in which my non-official colleagues have discharged their duties to-day, that they highly prize this privilege. They have discussed the budget with independence and ability, a critical acumen and grasp of detail which I admire very much indeed. Although it is not possible to agree with all that they said, yet some things which I intended to say have been so well said by them that it is unnecessary for me to refer to them again. My learned friend, Mr. Chakravarti has been subjected to a tornado of criticisms and I am sure he will be able to give a very good account of himself as soon as he rises on his feet to reply.

Something has been said about the increase of establishments and the increase of expenditure in all the departments of Government. Speaking broadly, in an enlightened State like Mysore, with a progressive administration, it is inevitable that expenditure should increase. I think we must all recognize that as a prime-factor in the administration of a State like Mysore. We cannot remain where we are. If expenditure increases, it is due to the trend of the times, the force of improvements, that have been initiated here, and we must also remember that the principles which regulate public finance are not the same as these which regulate the finances of an individual. Public finance is a big subject and those who have made a special study of it alone can be able to criticize it with a certain degree of confidence and authority. For instance, with a private individual it is quite permissible to hoard up a certain sum of money for his future needs and for his descendants. But I think such a principle cannot be allowed to operate in the case of a Government. Very able treatises exist on this subject of Public Finance and I think Mr. Venkatakrishnaiah himself quoted one of the latest authorities on the subject.

Looking at the budget that has been placed before this Council, we see that both sides have been nicely balanced and the Financial Secretary with his remarkable mastery of figures and facts has been able to meet all the anticipated expenditure and has given us to boot a handsome surplus of Rs. 28,000 which in fullness of time and judging from past experience may develop to 28 lakhs. He might just now have something up his sleeves, the ways and means for providing for certain extra expenditure, and he may perhaps find by his financial strategy another couple of lakhs for the Bangalore City improvements and a lakh for the separation of the executive and judicial functions. I am sure if he has got the will to do it he will find the way. One suggestion has been put forward at this meeting—and this same suggestion I also made a year or two ago—that a few non-official members of this Council should be included in the personnel of the Retrenchment Committee. I do not think Government need fear any inquisitorial conduct on the part of non-official members if they are associated with officials. They will then be in a better position to criticize, and they will do so from inside with full knowledge and not from outside as at present. Then criticism in that case will carry much weight not only in this Council but also outside it. With all the facts before them, they will then probably find their way to support or at least modify their attitude with regard to things which they attack now as unreasonable. I therefore think it would be a wise step to take the leaders of the people into the Retrenchment Committee.

The next suggestion, related to the formation of a Budget Committee as in British India. I think it is a wise suggestion, which the Government are bound in the natural sequence of things, to grant to this Council. It is only proper that the non-official members of this Council should have a voice in framing the details of the budget and then their criticisms will be much less bitter in regard to the measures of Government. I therefore think that some non-official members of this Council may be placed on the Retrenchment Committee and that a Budget Committee may be appointed to discuss the details beforehand previous to its being brought up before the Council. Turning to the details of the budget, there are only one or two points which I wish to refer to.

*Excise Policy.*

Some very good points are brought out in regard to this matter. No doubt our excise revenue is increasing. But it could not be helped. The first step towards meeting the demands of the members may perhaps be to grant a certain amount of local option. If this is done at first as a tentative measure in the cities of Bangalore and Mysore; I think a great step forward will have been taken in the solution of a very difficult problem. The Government should not grudge to make a sacrifice of some revenue, if by so doing they can reduce the amount of drink and also dissuade the classes who are now addicted to drink from that habit. I would therefore propose that local option be introduced in Bangalore and Mysore Cities in the first instance.

Something has been said about the Bangalore-Chikballapur Light Railway. The line from Yelahanka to Chikballapur has already been opened and the section from Yelahanka to Bangalore is under construction and I hope this section will also be completed in a few months. Governments' liability to pay the guaranteed interest on the open line will begin from the 1st April this year. I hope the day is not far distant when we shall be able to earn not only the whole of the guaranteed interest but much more above it. The prospects of the line are very good indeed.

Some questions have been raised with reference to the gauge of railways. I may point out that Mr. Dove-Wilson has written a very able memorandum on the Railway construction in Mysore and he is of opinion that it is far more advantageous to have one gauge of railways than several. He has given facts and figures to prove that a light metre gauge will not cost very much more than the 2' 6" gauge. The advantage of having an uninterrupted gauge is too patent to say much about. That memorandum has been published in the Mysore Gazette and I believe in Chitaldrug recently the conclusions of Mr. Dove-Wilson have been accepted by the local authorities and they propose to construct a new line on the metre gauge. I wish this point to be specially remembered by the members and I want them to peruse this note of Mr. Dove-Wilson and if they agree with his opinion, it is hoped that the members of this Council will support this gauge alone for the district lines.

Mr. Krishnamurti Rao has said something about having a railway station at Basavangudi. I may say in this connection that the projected Hosur line will have a station at Basavangudi. The line will run some where near the Tata Silk Farm and on to the bund of the Kempambudi tank and thence to the maidan near the Barr lines. So that it is not quite necessary to have a new line projected for giving a station to Basavangudi. The only thing is that Government should take early action in the construction of this important line.

I think, on the whole, we have every reason to be satisfied with the budget placed before us and if you, Sir, will kindly see your way to make provision for such small sums as are asked by the members for good reasons, we shall have every reason to be gratified. Our best congratulations are due to the Government of His Highness the Maharaja for the very satisfactory financial statement that they have been able to place before this Council.

**Mr. C. S. Doraswami Iyer.**—SIR,—I must admit that I have not been taking any active part in the discussion of the budget, not because there was no desire in me to actively associate myself with the discussion going on all these two days but because I felt it very difficult to understand what I could with propriety say on such occasions. As an official member I am perhaps, as others are, expected to defend the policy of Government as reflected in the budget in the department with which I am intimately connected, *viz.*, the Department of the Law Officers of Government.

**The Dewan.**—No, you may not do it.

**Mr. C. S. Doraswami Iyer.**—SIR,—I have been spared that trouble also but I may add that while the Government has been accused of spending large sums of money in other departments, the department of the Law Officers of Government

has been left severely alone; because all the non-official members seem to be unanimously agreed that whatever extravagance there may be in other departments there is none in the department represented by me.

**Mr. D. M. Narasinga Rao.**—SIR,—We have heard with a great deal of interest the able speeches made by non-official members. They have made several suggestions of a very useful character and have also raised questions which necessitate furnishing information to them. There are only a few general remarks which I wish to make before dealing with two or three items which call for some explanation.

We have heard more suggestions on retrenchment of expenditure than for the expansion of revenue. At present there is some difficulty in the method of discussion on the part of official members in dealing with the criticisms of non-officials. On the Government side, the budget is published well before hand and the non-official members are given opportunity of studying it and offering criticisms thereon. But Government have no means of knowing before hand what remarks the non-official members would make in the Council. On this ground if non-official members could favour Government confidentially with advance copies of their speeches, they would pave the way for a more efficient discussion of the budget and for a supply of fuller information to them. To prevent the proceedings from becoming stale the speeches might be treated as strictly confidential. It would be useful whenever non-official members propose retrenchments of expenditure or make suggestions for enhanced expenditure, suggestions are also made as to ways and means.

With these general remarks I may deal with three items namely:—Efficiency Audit Department, Malnad Improvement and Medical Relief. In regard to the Efficiency Audit, Mr. B. Narasinga Rao said that the public were quite in the dark as to the lines of work adopted by that department although there is a provision of Rs. 25,000 for it. I should therefore like to take this opportunity of briefly explaining some of the details regarding the work of the Efficiency Audit Department.

The work of the efficiency Audit Branch like that of any other office establishment consists largely of little, unremembered and undistinguished acts of service which go to constitute the volume of Government business. But there is something distinctive about the Efficiency Audit Branch which renders a portion of its work at least, capable of definition and appraisal.

No small difficulty had been felt in finding one's way through the tangle of Government orders passed from time to time. Except in a few instances, these orders had not been compiled in a form available for ready reference, and an agency was urgently needed to undertake this work. The Efficiency Audit Branch to which it has been entrusted has during the past two years completed three compilations of Standing Orders and assisted in the compilation of four manuals. It has on hand five important compilations some of which are nearly complete. Nine compilations of a minor character have been prepared and issued. Three more are ready for issue.

In addition, however, to compiling rules and Standing Orders, the Branch has to expedite, scrutinise and co-operate in the preparation of manuals by the different departments. The magnitude of the task will be understood when I say that under our compilation programme, there are some 50 manuals which have to be prepared or which are under preparation in the different departments, in addition to compilations undertaken directly by the Branch itself.

Another species of important work done by the Branch is the standardisation of office methods. Some of you are probably aware that improved rules have been recently issued for conducting, registering and filing correspondence. Rules have also been framed for the speedy disposal of petitions. Measures such as these—I only quote instances—if they do not produce any immediate or substantial results, inevitably lead, though by cumulative steps, to a tangible improvement of work. A special agency for the study and improvement of business methods is coming more and more to be regarded as an essential equipment of modern Government machinery.

5. The standardisation of inspections is another direction in which work has been proceeding. The offices and institutions which require periodical inspection,

the frequency of such inspection, the points to be attended to in the inspection of the various offices are being elaborated and the work is in various stages of progress, being completed in ten instances.

The officers of the Efficiency Audit Branch have also to conduct inspections when required to do so. These inspections are intended not so much to discover and make much of irregularities, but rather to improve the general system of work. In 8 cases such inspections have been undertaken and some of the heads of the offices concerned, including the Honorary President of the Bangalore City Municipality who is one of the most respected members of this Assembly have expressed their appreciation of the value of such work.

Then there are many large questions relating to the various departments which are referred to the Efficiency Audit Branch for study. Thirty such questions have during the past two years been studied by the Branch and suggestions made.

The Efficiency Audit officers have also to undertake enquiries into complaints made against the conduct of officers whenever their services are required by Heads of Departments and Deputy Commissioners. I may add that such enquiries have elicited information in some cases which would have been impossible to secure in the ordinary way. But such enquiries, however useful, are not the life and breath of the Efficiency Audit staff. Their work lies mostly in suggesting and working out improved methods of business and in rendering general assistance to Government in the branches of work assigned to them.

I may here remind the members of the Council that this is not a branch of the administration which is by any means overmanned or highly paid and it can cause no uneasiness to the staunchest adherents of economy and retrenchment. Though a provision of Rs. 24,000 is made in the budget every year, the total expenditure of the branch on establishment for more than two years hardly exceeds Rs. 22,000. The expenditure incurred is not therefore equal to one year's allotment.

The routine work done by the Efficiency Audit Branch since it was constituted, consists briefly of the following items:—

#### ITEM

(No. 32) d

- (1) Offices inspected, including audit of accounts 8 during 12 months
- (2) Enquiries conducted 4 during 7 months

#### MAJOR COMPILATIONS.

- (3) Manuals prepared and issued 3
- (4) Manuals prepared and pending issue 3
- (5) Manuals under preparation 2
- (6) Manuals revised and scrutinised 4
- (7) Miscellaneous compilations prepared and issued 9
- (8) Miscellaneous compilations ready and awaiting issue 3
- (9) Inspection Rules issued 13
- (10) Record rules issued 13

The above account does not include many an item relating to suggestions of new schemes of improvement, some of which have been sanctioned by Government and others are pending the consideration of Government.

As regards the Malnad Improvement a brief account of work done may perhaps interest the Council:—

- (1) Rank vegetation has been cleared in 437 villages. The encouraging feature here is that raiyats have themselves undertaken and done the work without any cost to the Malnad Improvement Committee, in about 360 villages. The investigations and experiments made near the Panama Canal go to show that this work is most important for removing malaria.

- (2) Forty drinking water wells have been sunk and good water tapped.

- (3) Drainage has been improved in thirty villages.

- (4) About a dozen pamphlets have been issued on sanitary matters and several lectures with the aid of magic lanterns are being delivered by the District Sanitary officers.

- (5) About 4 lakhs of quinine packets have been distributed free of cost.

- (6) Four itinerant dispensaries have been sanctioned.
- (7) About a dozen vaccinators have been trained and employed and a dozen midwives are undergoing training. This has been arranged by the Committee and it is a part from the departmental programme.
- (8) In regard to the attraction of settlers, Government have sanctioned a liberal scheme and the formation of 2 colonies is in progress.
- (9) A disease survey has been taken up as a preliminary to execution of the programme against malaria.
- (10) Efforts are being made by the Malnad Improvement Committee, Shimoga to start combined Industrial Schools and Workshops at Tirthahalli and Kallurkatte on co-operative basis.
- (11) Further, the Shimoga District Committees are about to start an Industrial School at Shimoga.

The following items have just been sanctioned:—

- (1) Establishment of model villages.
- (2) A programme of expansion of roads and communications.
- (3) Free grant of timber in deserving cases for housebuilding has been ordered and, to expedite house construction, Amildars have been authorised to grant building sites.
- (4) Employment of itinerant lecturers.

The undermentioned items are under consideration:—

- (1) The question of land banks is being investigated by a Sub-Committee of the Shimoga District Committee.
- (2) It is proposed to conduct a debt survey.
- (3) The establishment of a tile factory at Narasimharajapura and also of a saw-mill and works for burning charcoal.

There have been some lapses partly as it took some time to get together the establishments required and partly on account of difficulties of securing labour.

In the beginning, the establishment charges will be necessarily high. But as more funds become available and the establishment completes all preliminaries, the progress of works will be appreciably quickened.

But it is not quite fair to calculate, in a case of this kind, the proportion of the cost of establishment on the total amount spent. Because, it does not make sufficient allowance for very valuable deliberative and educative work done by the Committees.

The Committees are composed of the chief officers of Government and chief non-officials. They get all reasonable assistance from Government. The people are anxious to improve their lot in the malnad. The conditions are favourable for a satisfactory execution of the scheme.

It would be retrograde policy to throw the burden of this work on the District Board as suggested by Mr. Seetharamiah. The aim of its constitution is altogether different. It has work of its own to attend to. The scheme is more likely to be executed satisfactorily by a Special Committee such as the Malnad Improvement Committee.

In regard to the levy of fees for medicines in the Victoria Hospital, it was pointed out by Mr. Basavaiya that, at the time of opening that Institution it was announced that no fees would be levied therein. I think that statement goes a little beyond the speech made on that occasion. Here is the passage concerned:—

“It is Her Highness' desire that the Victoria Hospital should be maintained as a public charitable Institution; available to sufferers of all classes without distinction and as it will be fitted with all the latest improvements and appliances, it may confidently be claimed, that those who resort to it, will derive all the benefit which modern science can provide for the alleviation of human suffering, and every endeavour will be made to maintain it in a high state of efficiency, so that it may deservedly rank as one of the foremost Hospitals in India, and be a befitting memorial to a Reign, the public beneficence of which has only been excelled by the benevolence and charity of Her Most Gracious Majesty's personal life.”

Government considered before the issue of orders, that this statement, did not dole fees-being recovered from the richer classes. The mere fact that fees are by from the rich does not alter the character of a charitable institution. Charity be necessary for the poor but superfluous in the case of the rich. In the one Presidency, for instance, fees are levied on a very large scale in institutions are styled and deemed charitable. In opening the Minto Hospital, His Majesty the Maharaja was pleased to observe "I should like to see more private Practitioners in the State and I am anxious that, both in the matter of ion and education, my people should rely more and more on themselves." It beeth the object of encouraging private medical practitioners that the levy of fees ppen ordered by Government. Probably this Council knows that on the 12th 1916, an order was issued directing the levy of fees from Government servants whose monthly pay is Rs. 50 and above. This information may afford some action to the non-official members.

As regards the rates in force in Bangalore and Mysore there was some inis- tension yesterday. An out-patient will be charged at the rate of two annas. ch attendance and not dose and such payment includes charges on account. ice (including a minor operation) and medicine supplied for a day.

In Bombay those who pay a land revenue of Rs. 300 and more per year, or whose e is Rs. 500 or more per year and Government servants drawing Rs. 40 and per month are considered to be rich for the purposes of levy of fees, viz., one for the first call and annas eight for the subsequent calls besides charges medicines. In Madras, persons drawing Rs. 60 or more per mensem are con- id to be rich and they are charged for medicines and in-patients drawing Rs. 25. re per mensem are similarly treated. The limit in Mysore, as you are aware 50 and above. It is more liberal than in Bombay and perhaps less so than adras.

**Mr. C. S. Balasundaram Iyer.**—SIR,—I shall not detain the Council with any my remarks at this late hour. It is a very satisfactory feature that in this r to a new Head, 25 (A), has been formed in which grants for public improve- s and developments have been shown in one place. It is very satisfactory it a small grant has been made for the improvement of the water-supply in ric. The provisions made under Village Improvement are very useful for effecting ry and other improvements in villages outside the municipal towns and some were necessary for the improvement of sanitation and water-supply in towns. In this connection, I wish to take the opportunity of communicating to this cil the very great gratitude of the people of the Chitaldrug town for making a of  $\frac{3}{4}$  of the cost of the water supply of that town and I only trust that the mment will in the same sympathetic spirit view the matter till the scheme is accomplished fact.

In this budget, under Railway construction, I see no reference to the proposed rom Chikjajur to Chitaldrug. I think the scheme has made a fair headway, rvey is completed and that Government will take further action to start con- tion in the near future.

**Mr. P. Raghavendra Rao.**—SIR,—Some remarks have been made by the non- nal members about facilities given to the public in the matter of shops and have very strongly recommended the privilege of local option. There is abso- no objection to this. I have, however, to invite your attention to the experience ritish territories. Some special reports were called for from some of the tional Officers by the Excise Commissioners of certain Provinces, and after very al enquiry, they found that in most of them, instances were not wanting e the people themselves gave up the privilege! But, as Mr. Puttanna Chetty, it might be tried in Bangalore and Mysore Cities. There is no objection to at all.

As regards the location of shops and the number of shops, there is no doubt the reduction in the number of shops is not going on at a particularly fast that is at the rate the non-official members would like it to be. But is we have to be guided by the experience of other Provinces. In Bombay found that when they cut down the shops very suddenly, the result was that a ber of cases of illicit distillation came up. So, we cannot push it to a very

great extent. We cannot therefore cut down suddenly the number of shops. It is a thing that requires to be worked out carefully and gradually. While about it, I may tell the non-official members that there was no complaint against the department when shops were opened! But when the shops were closed, there were a large number of complaints, and applications poured in for opening new ones. As confirmed by Mr. Puttanna Chetty last year, there was a very well-paying shop in Bangalore City and the Municipality did not want it. So, I closed it. Although the right of local option has not been formally and officially given, yet I may tell the members that, whenever applications for opening shops come in, the Municipalities and the Magistracy are invariably consulted, and, unless they recommend, new shops are not opened. About the location of shops, I may say that the shops continue to be in the localities where they have existed for years. Where a locality is objected to, the shops are at once removed.

In fact, I may tell the members that during the current year, there were more applications than usual from foreign liquor merchants for opening shops in Bangalore City. We wanted only two and we had four applications and there was a very strong representation that all the four shops would pay. But I allowed only two. So, there is no encouragement given for opening new shops.

As regards the number of hours allotted for the sale of liquor, I do not think that we have exceeded the hours prescribed in the British territories. If it is found that early closure is necessary, there is absolutely no difficulty in doing so.

Something has been said about the proportion the expenditure on establishments bears to the revenue. This is a ticklish question, because it is a variable figure. In 1904-05 the excise revenue was 38 lakhs, and the expenditure on establishments Rs. 3,32,000. After twelve years, we now find that the revenue is 55 lakhs and the expenditure has only risen from 3,32,000 to 3,50,000. That is not much. The percentage in 1904-05 was 9 and now it is only 6. In the Madras Presidency, whose system we are following here, the percentage of expenditure on establishments to the revenue is 7.672. The only province in British India in which the percentage is below Mysore is the Punjab. Why it is so, I cannot say. In Bombay it is absolutely the same as in Mysore. Taking the whole of British India together, it is the same as in Mysore, namely 6 per cent. The expenditure does not increase at the same rate as the revenue. Hence my say that it is a variable figure and rather misleading for purposes of comparison.

Something has been said about the loss that arrack and other contractors are put to on account of unhealthy competition. There is no doubt that the system of sale by auction is open to criticism. But which is the alternative to it? Is it the fixed fee system? My own impression is that the auction system is preferable to the fixed fee system. But the matter is one of opinion based on various considerations, and I mean to send up certain recommendations to Government in this matter at an early date. As a matter of fact, what really happens is this: There are some people who make it a profession to bid at these auction sales. They may suffer loss, but they go again to the same extent as before. I should like to know why they come up like this. But whenever they suffer loss, they make representations for remissions. So far, I have had absolutely no complaints. They pay their khist regularly month after month. That shows that they do not suffer loss. There were a few cases of arrears, and particularly bad ones, from Bangalore, Kolar, Gold Fields and Mysore. These licensees do not however carry on one trade only. They have got other strings to their bow. They do want to be licensees of liquor shops at any cost. I do not really know what makes them do it. But there is the fact, they do it.

I do not think there are many more points calling for any comment. Something has been said about the pay and prospects of Sub-Registrars. That is a matter which is now engaging the consideration of Government.

A suggestion has been made about stamps that as people do not generally know the value of the stamps that they have to affix the Schedule of rates may be printed in Kannada and distributed for the benefit of the moffussil people. Mr. Balasundaram Iyer has made a suggestion to me to the effect that the schedule may be printed and a copy stuck up at every village chavadi. I think this may be done.

19TH JULY 1916.

**Rao Bhadur Mr. M. Shama Rao.**—SIR,—I beg to compliment the non-official members of this Council on the very keen interest shown by them in the progress of Education and the informing comments made by them on the several branches of the budget under the head of Education. It is not only an index to their mental culture but also is a sign that the larger interests of the country and the larger communal welfare are engaging their attention. There have, however, been some criticisms also, which I wish to answer as clearly and as fully as I can do.

The first subject is the question of lapses. In the case of lapses, after a whole night's deliberation, I do not know with whom to sympathize most—whether with the Financial Department which has had to resort to the rule of averages, or with Mr. Krishna Murti Rao and two or three others with him, who have, I find, been veritably tilting at mere wind-mills.

In the Financial Secretary's Memorandum, para 22, the lapses are given as amounting to Rs. 3,71,000. I find, however, on totalling up the figures, that the amount is Rs. 10,000 more than the printed figure. Of these, two lakhs have been shown as savings and the remaining Rs. 1,81,000 ought to be accounted for. This is how the figures stand. The first item is under Inspectorate Rs. 38,000. The actual lapse, however, amounts to Rs. 31,500. The remaining Rs. 18,500 was spent and was made up of Rs. 11,000 reappropriated for other purposes and Rs. 7,500 spent for establishment and contingent charges in the last quarter of the year. The sanction of Government for the revision of the Inspectorate was received by me in September 1915 and the proposals made for fixing the headquarters of some of the Inspecting Officers and their appointments needed the sanction of Government. Hence the amount mentioned, about Rs. 38,000, necessarily lapsed.

Under Government Schools—General, the lapse shown is Rs. 1,41,000. Out of this amount, however, an expenditure of Rs. 33,200 was actually incurred before the close of the year. Of the balance of about Rs. 1,07,800, Rs. 6,000 under High Schools was saved to Government due to variations in pay, less leave allowances, reduction of personal allowances, transfers of School Final Charges to the head Miscellaneous, etc. The sum of Rs. 1,200 provided for replacing male by female teachers was not utilized as the need did not arise. Under Practical Instruction and Adult Education sums of Rs. 15,000 and Rs. 10,000 respectively remained unutilized, because the classes were started in different parts of the year and the expenditure could not therefore be uniform. Under Compulsory Education, Rs. 26,000 remained unutilized. This sum, however, includes a sum of Rs. 7,500 decided to be spent in the Mysore City which, however, could not be utilized before the close of the year, the number of additional schools required for the City being settled only recently after consultation with the Municipal Council which necessarily took time. The next item is the net lapse of Rs. 45,000 out of Rs. 60,000 provided for the opening of 300 new schools. Proposals for new schools and improvements and for additional hands and accommodation for which no money had been provided in the Budget and which was proposed to be met by reappropriation from this source was submitted to Government in February last. But Government only sanctioned, about the middle of May following, the opening of eighty-nine new schools which had been proposed, but withheld sanction to the proposal for additional hands house rent, etc. Thus on the whole a lapse of about Rs. 1,04,000 occurred under this head.

The next lapse relates to an item of Rs. 56,000 under Government Schools—Special. Of this sum Rs. 49,416 represents the provision made for new Industrial Schools which could not be opened during the past official year, as the Industrial School teachers under training in the Mechanical Engineering School were required to continue under training till August next. The Chitaldrug Normal School for which a provision of Rs. 12,500 was made could only be opened in June last in the beginning of the school year and hence the full provision made could not be utilized. Deducting reappropriations there was a lapse of Rs. 56,000. Under Book Department the lapse is shown as Rs. 13,400. Of this sum Rs. 3,000 specially sanctioned as remuneration for writing books was unnecessary as other provision was available and hence was not utilized. The balance represents the amount due for bills from book-sellers and printing firms which were not received before the 30th

June last. Under Grants-in-aid a lapse of Rs. 97,000 has been shown. Of this sum about Rs. 65,000 is a portion of the grant transferred to the Public Works Department for the construction of Village School buildings, details of the expenditure of which have not yet been received, and about Rs. 44,000 represents the savings due to variation of grants from Rs. 5 to Rs. 7 given to Rural Primary Schools, and to the schools having been started in different parts of the year. About Rs. 12,000 may be taken as the lapse under other items, such as building grants, etc. There is, however, an excess expenditure of Rs. 34,000 under "Salary and Rent" so that the amount of net lapse is about Rs. 87,000. Under scholarships the main lapses were under Foreign, Normal and Actuarial scholarships amounting to about Rs. 50,000.

The next subject is that relating to Mahomedan Education about which my friend Mr. Nawab Gulam Ahmad Kalami had many remarks to make. I find that under Mahomedan pupils under instruction, the number of boys is 20,000 and girls 6,000, total 26,000. Taking the percentages, 90 per cent of boys of school-going age and 32 per cent of the girls are under instruction. Last year, 1915-16, we started 96 Hindustani schools for boys and girls. Year before last 60 schools were started. Thus for the last two years not less than 150 schools have been started. Here are the figures for the past official year.

*Number of Hindustani Schools opened in 1915-16.*

1. Government Taluk Hindustani Girls' Schools	...	...	4
2. Government Village Elementary Hindustani Girls' Schools	...	...	5
3. Aided Village Elementary Hindustani Boys' Schools	...	...	65
4. Do do Girls' Schools	...	...	10
5. Adult Schools...	...	...	5
6. Village Indigenous Schools	...	...	7
Total Schools			96

With regard to the percentage of pupils under instruction, the figures are:—

Year	Percentage of Mahomedan boys under instruction to total number of Mahomedan males of school-age	Percentage of Mahomedan girls under instruction to total number of Mahomedan females of school-age
1913-14	80.4	31.2
1914-15	89.4	32.7

I may also say that there are only 10 per cent of the boys left to be brought under instruction and of the girls, 64 per cent are yet to attend school.

With regard to the several stages of instruction,—there were in—

*Number of Mahomedan pupils.*

Colleges	...	24
High Schools for boys	...	251
Anglo-Vernacular Schools for boys	...	2,284
Vernacular Middle Schools for boys	...	4,027
Anglo-Vernacular Schools for girls	...	3
Vernacular Middle Schools for girls	...	1,863
Primary Schools for boys	...	14,213
Do for girls	...	3,190
Training Schools for masters	...	30
Industrial Schools for boys	...	153
Commercial Schools	...	2
Deaf, Dumb and Blind Schools	...	2
Sanskrit Schools	...	4
Engineering Schools	...	6
Agricultural Schools	...	2
Private Institutions	...	1,407
Total		27,390

Taking the colleges and secondary schools, I may say that in Mysore about 11 pupils for every 1,000 Mahomedan pupils under instruction were in the College and High School Departments, while in British India, the number was 11 for every 2,300 pupils. Again in Mysore a little less than a third of the total number of pupils were in the Secondary stage, while in British India it was about one-sixth.

With regard to the buildings, from 1913 to 1916 altogether 16 buildings have been erected at a cost of Rs. 23,500; and grants have been given for three buildings. 16 more buildings are included in the programme of the current year. In the State Fund programme, provision is made for 158 buildings for five years commencing from 1913-14, and of these no less than 60 buildings are entered for Hindustani Schools. The first school to be erected will be the Model Hindustani School in Bangalore for which a site has not yet been fixed.

With regard to the training of masters, Mr. Kalami was pleased to remark that the training schools for Mahomedans in Shimoga and Kolar were abolished and the training is now concentrated in Mysore which, he said, was a great hardship to the Mahomedan teachers. As a matter of fact, the school at Shimoga had about ten teachers and there was an equal number in the Kolar School. Instead of maintaining a school at each of these places with such a small number of students it was thought better to concentrate the teaching at Mysore. There was no sort of inconvenience to any body and I can assure the members that the pupils themselves are thankful for the change.

With regard to the scale of pay of the masters, here is our scale:—

*Anglo-Hindustani Schools*.—Two on Rs. 50—4—70, one on Rs. 50, one on Rs. 40, three on Rs. 30, nine on Rs. 20—1—25, twelve on Rs. 15—1—20, twelve on Rs. 12—1—15 and fourteen on Rs. 10.

*Taluk Hindustani Boys' School*.—Two on Rs. 40, five on Rs. 30, eight on Rs. 25, thirty-one on Rs. 20, forty-five on Rs. 15, fifty on Rs. 12 and sixty-six on Rs. 10.

*Village Elementary Boys' Schools*—(*Kannada and Hindustani*).—Fifty on Rs. 25, fifty on Rs. 20, five-hundred on Rs. 15, six-hundred on Rs. 12, one-thousand on Rs. 10.

*Village Elementary Girls' Schools*—(*Kannada and Hindustani*).—Ten on Rs. 25, twenty on Rs. 20, thirty on Rs. 15, fifty on Rs. 12 and sixty-nine on Rs. 10.

In Madras, even for a Model School, I find the following scale:—

	Rs.
Head Master ... ..	50
1st Assistant ... ..	40
2nd do ... ..	30
3rd do ... ..	25

This shows that we are not worse but, on the other hand, are much better.

Coming then to the question of scholarships, I may say that the Mahomedans enjoy a special privilege in as much as there is a regular chain of scholarships for them, from the lowest to the highest classes. Here is the list of scholarships, held by Mahomedan pupils.—

	Rs.
	per annum
12 Gumbaz scholarships for Mahomedan girls ... ..	360
37 Mahomedan scholarships tenable in Colleges and High Schools ... ..	1,680
7 Aligarh scholarships ... ..	2,100
1 Special Aligarh scholarship ... ..	300
1 Philosophy scholarship ... ..	240
198 Ordinary scholarships for Mahomedan girls ... ..	1,836
21 Vernacular scholarships ... ..	1,260
24 Backward class scholarships ... ..	576
Total ... 301 Scholarships	8,352

It may now be seen from the figures that I have given that in the matter of scholarships it cannot be said that the Mahomedans are at any disadvantage. Taking

the number of pupils under instruction and the amount spent on them in the shape of scholarships, it works out at about five annas per head. In these circumstances, it cannot be said that the Government have been showing any sort of niggardliness in regard to Mahomedan education. If the Mahomedans do not take advantage of higher education it is not because there is no encouragement, but because they have no desire to do so. Of course, there are people who take advantage, but the number is small.

The only remaining point for consideration is—Why do they not take service in the Education Department? This is a question for them to answer. We are giving the same rates of pay to the Mahomedan teachers as we are giving to the Hindus. The Department cannot be held responsible for any shortcomings if the Mahomedan community will not come to the help of the department and persuade pupils to take the benefits of higher education and also to take up service here.

**The Dewan.**—What they say is that they must be paid according to their market value from their own stand point.

**Rao Bahadur Mr. Shama Rao.**—SIR,—We are doing all that we can do and as I said before, the pay that we offer does not compare unfavourably with that in the Madras Presidency.

Then, I come to the remarks made by some of the members on Compulsory Education. I may say with regard to Compulsory Education that as far as I have been able to satisfy myself by personal inspection, the scheme has been accepted by the people with very great pleasure. In the first year, in 1914-15, fifteen centres were notified and as per census taken there were 15,500 pupils between the ages of 7 and 11 required to attend one school or other, of whom about 10,000 were actually under instruction. Before the end of the year about 4,200 more pupils joined the schools. Twenty-five more schools had to be opened in order to give facilities for the admission of these boys. In 1915-16, twelve more centres were notified. In some places schools have been started but I am not able to quote precise figures. This year, we have notified 40 more places and I am quite certain they will be brought under the Scheme of Compulsory Education before the end of the year and that more schools will be started and almost all the children brought under instruction.

The next question is about the Primary Aided Schools. Mr. Krishna Murti was very vehement in condemning some of these schools. In the first year I had some misgivings whether these schools would be a success. Last year, I visited several of these schools in various parts and found them working satisfactorily. Several of the revenue officers are of opinion that these aided Primary Schools should be given every encouragement. Till now, we have started about 2,000 of these aided Primary Schools and the Government grant is Rs. 5, Rs. 6, or Rs. 7 according to circumstances. The villagers may be taken on the whole to be contributing as their share about a lakh of rupees towards the maintenance of these institutions. Unless all this money was forthcoming in the shape of taxes, it could not have been possible to open these schools. Even now there is very great demand for these schools. That shows we are right in proceeding further in establishing more schools. At the same time, one-third of the number of Primary Schools are to be maintained as Government schools. For this reason, we want more model schools, some schools which will serve as an example to the aided Primary Schools. The masters of these Primary Schools who are in different villages must be assured of some promotion. With the hope of being drafted to Government service they take up employment in these schools and work with zeal and alacrity. I cannot under any circumstances agree that these schools should be condemned outright as one or two members have been pleased to do. It is true that some of these schools are not equipped according to our own standards. There is no need to equip them because they are all teaching the alphabet and very little above that. It is only after two years that the need for furniture and other articles will be felt and we are prepared to meet their demands then.

The object of the adult schools have not been properly understood by some members. The adult schools are meant to keep up literacy among those who have left school and also to bring those who have never attended a school under instruction. These are the two objects. In the continuation classes, those that have already some

education attend with the purpose of keeping up their literacy; and in the alphabet class those, who have never entered the portals of the schools, before attend after their work is over. These latter are in the end drafted to the continuation classes after they have received sufficient instruction.

As regards the Book Depot, Mr. Krishna Murti Rao has made very caustic remarks. I asked him several times to visit the Central Book Depot himself and see what kind of work is done there. He has not been pleased to do so. I ask him again in this Council to do so. The cost of the establishment of the Book Depot amounted to a little over Rs 5,000 last year and almost the whole of this amount was recovered in the shape of discount and commission on books sold.

The Depot in no way competes with private trade; it does not purchase English books except to a very small extent for supply of moffussil schools. Most of the books supplied in the Depot consists of departmental publications. A small commission of  $6\frac{1}{4}$  per cent is allowed to the taluk depots. By this means the taluk depot keeper earns about Rs. 20 per annum on an average. For this small remuneration he not only sells books but also helps the department in the distribution of stationery and other things with no cost to the department. The village depots make their own arrangements to carry the books. We have absolutely no responsibilities about their expenses. Publications of every department are sent to the depots and sold there. What the Superintendents of Government Printing do in Madras and Calcutta, our Curator does here. If the depot is abolished it will certainly not pay any private persons to engage himself in that capacity for the simple reason that the department does not make any profit out of the depot and no private man will take up the business without profit. With regard to Government publications, we levy only  $12\frac{1}{2}$  per cent over the cost price to cover the expenses. Beyond that we get nothing in the shape of profit. With these facts before them, it is open to any of the members of this Council to go to the Depot and see for themselves whether these observations are not as stated.

Mr. Venkatakrishnaiya made some remarks regarding the Industrial Schools. He wanted the Engineering School at Mysore to be raised to the standard of a College, and besides the Sub-Overseers Higher students also to be trained there. The question is under the consideration of Government and when the matter will be decided, I cannot definitely say. When the University develops probably the Engineering School might be attached to the University as one of the affiliated institutions. Then, there are the other schools. Last year the Government sanctioned six Industrial Schools. These schools have not yet been started, but they will be started before the end of August. Arrangements are being made rapidly.

With regards to the Hostels, Mr. B. Narasinga Rao remarked that the Mysore High School boys had to walk a long distance to have their food in the College Hostel since their own hostel has been taken away. This is true and I have received proposals in the matter. When the University is started and the High School separated, it will be possible to have a separate hostel for the High School boys. There is, however, another question whether we cannot distribute the boys among the hostels attached to the Engineering and Normal Schools. If more boys come and ask for separate accommodation, due consideration will be paid to the question of a separate hostel.

With regard to the Inspector-General's Office, various remarks have been made. It was said that the Inspector-General had 4 Assistants while the Revenue Commissioner had only two. It is true that there was only one Assistant formerly and it is also true that there are three more at present. But one of them cannot be regarded as quite an Assistant. He is a ministerial officer more or less completely in charge of compulsory education. Immediately a place is notified, this officer has to go to the spot, arrange for taking a census under the supervision of the revenue officers, arrange for the number of schools required, see how many pupils the existing schools can accommodate and satisfy himself on various other points. The ordinary inspecting officers are not able to attend to these matters because they have their own duties to perform. It is therefore quite necessary that a separate officer should be on special duty in this connection. Then there is the Technical Assistant who has been appointed only very recently. One marked feature of the educational policy is that every effort is being made to develop technical and professional education. It was felt that the Industrial Schools which exist at

present were under the guidance of laymen, were examined by laymen and could not therefore fulfil the purpose for which they were intended. A Special Assistant was, therefore, necessary in this respect and one has been recently appointed for the time being and he will continue till all the schools are placed on a proper footing and till people are able to start their own schools under trained and capable teachers. It is the teachers that are required to be trained for proper direction.

There then remains only one more Assistant, whether he is called Deputy Inspector-General or Special Assistant. It may be conceded that this appointment is absolutely necessary owing to the enormous amount of work that is growing and that has grown in recent years. This has thrown a very large amount of work on me. It is impossible for any officer not to do some routine work and I am obliged to do it. Here are a number of officers holding responsible appointments and I am sure they will bear me out when I say that no officer can escape a certain quantity of routine work. In any case relief is necessary and an additional Assistant to share the work of organization and supervision with the Inspector-General is needed. Then I ask, where is the superfluity of Assistants in my office.

I now come to the various complaints about the non-receipt of grant-in-aid bills. Wherever there is any complaint regarding the non-receipt of any amount, it is found on enquiry that the parties themselves are mostly at fault. Last year and year before last grants were sanctioned to the schools and it took some time before payment could be made. But still retrospective effect was given to the order of payment. According to the Comptroller's orders, the previous pay bills had to be obtained and audited and all this meant time. But those who got an increase were necessarily impatient and they complained. In my visits to the schools it is true that I have also received complaints. But the fact was that the complaint was, that they did not receive, not their ordinary pay, but the increase of pay. These complaints have almost vanished now, as almost all their supplemental bills have been passed.

With regard to the disbursement of grants it is true that there was some little trouble about it. The grant-in-aid bills were being countersigned by the Assistants in my office. When we multiplied these schools a large number of bills began to flow in, so much so, that they amounted to about 3,000 bills. A new procedure was necessary and the matter had to be discussed, with the revenue authorities, the Comptroller, and other officers, and in the end, the task of countersigning was transferred to the Inspecting officers themselves. Thus the trouble has now vanished and I do not think there would be any more complaint. With regard to these complaints I have to make one remark. The complaints will never cease. I find that even now complaints come from persons thrown out of employment years ago, addressed to the Members of Government, to the Inspector-General and others. These people make it a point to renew their petitions periodically. These petitions give an impression that there is something very wrong somewhere. As far as I can see there is nothing wrong anywhere. I can only compare them to the Adullamites once referred to by John Bright. It is only such people that are complaining. The facts are there and they may be examined at any time.

With regard to the Primary Schools, we undertook about two or three years ago to raise the percentage of boys under instruction to 46 per cent. I am glad to say that this year it has reached not only that, but 1 or 2 per cent more. During the last three years the number of schools has doubled. This year there are 8,00,000 pupils of school-going age. Of these roughly 4,00,000 are boys and the rest girls. No less than 2½ lakhs of boys may be taken as having been brought under instruction. We have only 1½ lakhs yet to be brought under instruction. About girls, there is some disproportion. Last year the number was 26,000 and this year it may be a little more. We are also opening more girls' schools.

I have now covered all the subjects mentioned. I have only one matter on which I wish to say a few words. It refers to a delicate subject on which I naturally do not like to speak, but lest my attitude should be misunderstood, I am obliged to say something.

Mr. H. Narasinga Rao referred to me yesterday as making an open pronouncement that I am preferring non-Brahmins to Brahmins. I may at once tell

him that my idiosyncracies cannot have any influence with Government in making appointments. However, in this particular case, there are two views to be taken, the view of a practical administrator and the view of a Statesman. So far as the view of a practical administrator is concerned, he has to find some one for the place to meet the needs of the hour. Any one that offers himself, provided he has the requisite qualifications has to be appointed. Although, I did not say so, when two people come forward, one a Brahmin and the other a non-Brahmin, both possessing the same qualifications which are sufficient to enable them to do the work of the office for which they are applicants, when I have no particular objection, I stretch a point and appoint the non-Brahmin. Every community is entitled to a representation in the public service and as such it is the duty of every Government officer to encourage them according to their capacities, by providing them places. But it does not mean that they are to be preferred to the exclusion of others more competent. There is yet a higher view of the matter. To me it is indifferent as long as each community makes an effort to raise itself—whether it is the Brahmin or non-Brahmin. Brahmins have been in the fore-front because they have been brought under compulsory education long long ago. It is that that has given them an advantage. If other communities also do the same thing, by all means they will also be welcomed. At the same time, it should not be anybody's aim to create jealousy and bring about bad blood anywhere. It is impossible to keep down any particular class of people who may be in the fore-front now. I can only appeal to Indian History. During the time of Allauddin Khilji, that Monarch wanted to introduce the Mahomedans to every office which till then were filled by Hindus. With this object he introduced Persian as the State language. The result was that every appointment was filled by a Mahomedan for the time being. But in a few years, the Hindus also learnt Persian and nay, began to teach Persian to the Mahomedans themselves. Coming nearer home, Tippu Sultan substituted a Mahomedan for every Hindu in the important offices of the State. Naturally there were no places for Hindus. But every Mahomedan officer employed a Hindu as his deputy, so that on the overthrow of the Sultan's rule; Dr. Buchanan reports that there were Brahmins continuing in important places, the Mahomedans gradually withdrawing therefrom. It has been their profession for a long time past. Just as Lingayets trade, the Brahmins hold appointments. For my part, I would encourage all classes to come forward according to their capacity, but why should there be unnecessary differences and jealousies? I would draw a curtain over the whole thing and encourage every effort on the part of other communities to come forward by dint of industry.

There is only one more point I wish to refer to before closing. Mr. Seetharamaiya said that there must be something wrong because the Education machinery was not moving as well as it ought to, either the country was not prepared, or the materials were not available or the department was slack. I hope the figures I have quoted will show that the department has not been slack and it is making every effort. Government is endeavouring to do everything to raise literacy and to help people to earn a living by various honourable professions. I cannot say that the country is not prepared. The fact that about 1,20,000 pupils have joined school during the past three years shows that the country appreciates the intentions of the Government. We are offering the necessary inducements to get the proper kind of teachers for our village schools. This year not less than 800 masters have applied for the Lower Secondary Examination. By passing this examination they get more grants-in-aid. Thus the Council will see that every effort is being made by the people to supply the demand and there is no doubt that very soon the necessary supply will be forthcoming.

With these remarks I resume my seat. I may be permitted once more to thank the members for the kindly tone in which they have offered their comments and I only hope that they will actively co-operate with the work of the department.

**Dewan Bahadur Mr. C. Srikantesvara Aiyar.**—SIR,—I have only one observation to make. Mr. Narasimhaiya said that there was something wrong in the Taluk Police administration, that the working is not smooth because the Inspector thinks that he is above the Amildar and does not respect him, etc. As our Police organisation now stands, under the Mysore Police Regulation, the Amildar is the *de facto*

head of the Taluk Police; all correspondence and diaries; etc., are addressed to and pass through him, as "Head of the Taluk Police," which gives him an opportunity to scrutinize into everything pertaining to the Police of the Taluk. He has also to investigate the important heinous cases. Practically, therefore, the Inspector is the Amildar's assistant, in the Police administration of the Taluk, and the Amildar controls him. If the Inspector misbehaves towards the Amildar, he has only to pull him up or report him to the higher authorities, for dealing with him suitably. So, there is nothing to be afraid of, in the Police administration of the Taluk, as now conducted. If the member would kindly give me any individual instances of differences or errors, as are likely, due to personal equations, I shall only be too glad to look into them.

**Rajamantrapravina Dewan Bahadur Mr. J. S. Chakravarti.**—SIR,—In rising to offer a few observations and explanations in respect of the points raised by my non-official colleagues in this Council in the course of the budget debate I must in the first place heartily thank them for having to some extent at least adopted the suggestion contained in paragraph 17 of my speech introducing the budget. The convenience of having a working rule of the kind referred to therein and the saving of time and energy that may be expected from it are indeed great and self-evident. The necessity of such a rule has been recognised everywhere. I may perhaps be permitted to mention that after reading my speech the Hon'ble Sir William Meyer, Finance Member of the Viceregal Council, whose interest in the work of his departmental children in whatever field they may be working is well-known, kindly wrote to me to say that the suggestion in question was quite a good one and might well be adopted. I of course understand that the standpoints from which the non-official members view the budget may not in some cases be quite identical with those from which the Government view it and some of them may consider it necessary in the course of their speeches to make a running commentary, mostly of an interrogative nature, in respect of all the budget heads as my esteemed friends Messrs. B. Narasinga Rao and Venkatakrishnayya have done on the present occasion. But the sympathetic way in which most of the members—prominent among whom are Messrs. Kalam, Ramaswamy Chetti, Seetharamiah and Narasimhayya—have received the suggestion and the practical way in which it has been given effect to by them on the very first occasion raises in me the hope that within a short time we shall attain the object in view and the repetitions and the reiterations of the old system will become a thing of the past.

The only member who has taken any sort of exception to the suggestion made by me is Mr. B. Narasinga Rao whose remarks if I understand him aright even bordered on resentment. He hinted that it was not for the Financial Secretary to make any suggestions on the manner in which non-official members should conduct the budget debate. I regret, Sir, that he has not taken the suggestion in the spirit in which it was offered and that his remarks are unconciliatory and unjust. I have no presumption of either the right or the ability to give any instruction in the matter to my honourable non-official colleagues but if suggestions made according to one's light and notions of propriety are to be resented in this way does it not lay the axe at the very root of the principles underlying the formation of representative bodies and Councils consisting of officials and non-officials for the purpose of discussing matters of public interest. If Mr. B. Narasinga Rao can say that it is not for me or for any other official member to make suggestions about the way in which the budget debate should be conducted, cannot the official members of this Council and those who represent Government if they stooped to the same spirit also say that it is not for the non-official members to instruct them as to how departments should be managed and the administration carried on. No, Sir, that is not the spirit in which officials and non-officials should co-operate for the public weal and I am glad to see that Mr. B. Narasinga Rao is in the minority of one in expressing any dislike or resentment at my suggestion. I think it was Mr. Narasinga Rao who yesterday said that a non-official member had no right to speak on behalf of other non-official members in a matter under discussion without ascertaining their views before hand and on this question Mr. B. Narasinga Rao has laid himself open to his own criticism. I have every hope that on fuller and maturer consideration Mr. B. Narasinga Rao will fall into the line and adopt the suggestion which has already received the approbation and practical support of almost all other non-official members.

*Change in the Method of Reply.*

This salutary change which has taken place in the manner of budget debate has necessarily resulted in a corresponding alteration in the method of my reply. Under the former system I used to take down the important points dealt with by each member as he spoke and give my explanation in respect of them in the order in which they were noted down. The plan which we have now adopted has enabled me to convert the personal ledger, if I may call it, into an impersonal ledger account. On the present occasion I had a list of budget heads and other important financial points before me and I made a note against each head of any remarks that were made by the members in respect of it. This has automatically given me an idea of the points which have been most favoured by members with their criticism. Remarks of a general character on the financial situation have of course been made by almost all members but next to that the subject of Education and of Public Works expenditure seem to have been the most favourite topic. I shall now try to explain briefly the points raised as far as possible on an occasion like this and as far as the points have not been dealt with by the members who have spoken before me.

*General Financial Situation.*

Taking up first the general financial situation Mr. Venkatakrisnayya regrets the smallness of the budget surplus even after taking into account the handsome increase under the Cauvery Power Scheme and the surplus revenues of the Civil and Military Station. He strongly advocates savings so as to avoid borrowing in bad times. Of course it must be admitted that the petty surplus of 28,000 is low, in fact it is nominal; but as my honourable friend Mr. Gulam Ahmad Kalami has observed it is fortunate that we have been able to balance the budget in what must be regarded as a period of stress and anxiety. As regards savings, hoarding for the sake of hoarding is no part of our policy; but if the budget is carefully scrutinised it will be found that all items of expenditure are not expenditure in the sense that the money is used up or lost. There is a provision amounting to two lakhs for the famine revenue and there is a provision of one and one-third lakhs for the State loan sinking fund. Three lakhs have been put by under Depreciation fund, Cauvery Power Scheme. Then under Cauvery Power Scheme and Public Works and Railways there is a certain amount of capital expenditure which has been charged to revenue. In one sense these may be regarded as savings and investments, though it must be admitted that they are of the nature of compulsory savings and investments which are absolutely necessary for the safety and soundness of the administration. They cannot be regarded as such as can be put off or met from borrowed funds. This explanation will perhaps make it clear to Mr. Venkatakrisnayya and others who think like him that the whole of our revenues including the revenue from the mines is not being used up on ordinary items of administration and development.

Mr. B. Narasinga Rao has charged us with under-estimating revenue and over-estimating expenditure. I plead guilty to his charge within the limits of reasonable caution and I think if the estimates of various Provinces and States are studied I shall be found to be in very good company. Of course the ideal is to estimate the correct revenue and the exact expenditure. But estimates are at their best estimates. There is some risk of err in the most favourable circumstances and I put it to any one as to whether it is better to err on the right side or on the wrong side. After all as I have shown, the divergence in the estimates for 1915-16 amounts to 3.9 per cent in the case of revenue and 4.6 per cent in the case of expenditure. This especially when the State is in a state of rapid development in many directions and when the markets are to some extent disturbed cannot be regarded as excessive.

Mr. Narasimhayya has referred with some misgivings to the fact that in the Government Order creating a separate appointment of Financial Secretary that officer has been asked to see particularly to proposals regarding the development of revenue. He has a foreboding that this means that the income-tax and the education cess are near at hand. I think I can allay such apprehension at once. Revenue to my mind is not synonymous with taxation. Unless absolutely necessary

and all other means of raising revenue are exhausted, I will not advise, and I hope the Government of His Highness the Maharaja will not sanction the raising of revenue by imposing new burdens on the people. It is for this reason that though the income-tax proposal has passed both through the Economic Conference and through the Representative Assembly the Government of His Highness have not imposed the tax. It is also because of this that though proposals regarding the educational cess has been pressed repeatedly on Government they are still in the stage of academic investigation. The Mysore State possesses valuable State domains in its forests, minerals, natural power sources and so forth which can be developed for the purposes of enhancing the revenue and it is to the development of these State domains that the Government Order that I have referred to particularly refers in laying down the functions of the Financial Secretary. I may also mention that not having clearly distinguished tax revenue from non-tax revenue Mr. Narasimhayya has landed himself in some wrong figures relating to incidence of taxation and consequent erroneous conclusions.

Mr. Karnick Krishnamurthi has harped as usual on departmental lapses but I am very glad that he has abandoned his accustomed platform of the payment of excessive travelling allowance to Government officers. Occasional abuse of travelling allowance rules may exist and information regarding them if they come to the notice of any one will certainly be welcome to Government so that the officers concerned may be suitably dealt with. It is also possible that in the case of some officers the travelling allowance rates are capable of readjustment. But as the aggregate charges of travelling allowance under all heads—including that of non-officials and guests—come to about 8½ lakhs of rupees and amount only to three per cent or half anna in the rupee on our aggregate expenditure I think extravagance in the matter of travelling allowance is a subject of which we will hear no more in our general financial discussions.

I am glad that Mr. Seetharamiah appreciates the additional information that we have introduced as part III of the financial statement and that Mr. Gulam Ahmad Kalami recognises that Government have been giving facilities for budget discussion to the public in a greater and greater degree.

Mr. Basavaiya has criticised the large provision of 7,69 that is made for payment of interest on the permanent and temporary loans and for other obligations. He refers to the amount provided for payment of interest on temporary loans advanced on our securities as rather high. I am sorry that he has looked only on the payment side under the head "interest." If he had looked on the side of receipts he would have found that against the payment of 7,69 there is a receipt of 10,65 leaving a net excess of about 3 lakhs of interest earned over interest paid. He has also had difficulty in understanding why when the budget is a surplus one any temporary loans will have to be raised. Well, the explanation is that the budget is a surplus budget only in respect of ordinary items of receipt and expenditure and that outside the ordinary account there is a capital outlay of 40,82 to be incurred on large capital works. A part of this will be met from the accretions to cash under our debt head balance and the rest will be drawn from our invested surplus. As it is apprehended that the market will not be favourable for selling securities, advances will be taken on those securities from Banks. Now the gross interest that will be paid to the Banks will be shewn on the expenditure side of the budget but *per contra* the interest realized on the securities will come on the revenue side; the difference which we actually lose will only be one half or at most one per cent. This explains the rather large provision under interest which Mr. Basaviah complains of and as I have already explained it is counterbalanced by an entry of nearly equal amount on the receipt side. Of course considering the circumstances of the times a safe provision under interest has been retained to avoid the remotest chance of any of our projects being hung up for want of funds.

Mr. Garudachar has deprecated loans to outsiders. I think he must be referring to our investments in securities outside the State. It is true that we have got a certain amount of gilt-edged Indian securities. But the greater part of it represents a reserve which we must hold against liabilities such as savings banks, deposits, etc. This, I think, should always be in liquid securities of a Government other than the Government against whose liabilities the reserve is intended to be a protection. In our present circumstances they must be the highest class of gilt-edged

Indian securities. We had also accumulated a certain amount of surplus in past years for investment within the State in Railways and productive irrigation works. This money we mostly had in the form of fixed deposits in Presidency Banks and they have been withdrawn in due time and utilised for purposes for which they were intended. I need hardly say that if there had been any facility for investing such large sums within the State we would never have gone beyond. Even in the matter of employing our cash balance for affording facilities to trade it must be admitted that our opportunities within the State are limited. I am in touch with those who can utilise funds in that way and on some occasions they seem to have more money in their hands than they really want so that they are not in a position to make any use of Government balances on fair and advantageous terms.

### *Demand for a Budget Committee.*

So much for general finance. As regards financial administration and management there has been one point which has been very strongly brought to the notice of Government. Mr. Garudachar, Mr. Venkatakrishnayya, Mr. Seetharamiah and Mr. Ramaswami Chetty have all asked for the appointment of a budget committee and Mr. Puttanna Chetty in endorsing this demand with the weight of his authority has added his own proposal of a mixed retrenchment committee of officials and non-officials. Personally I have no objection to any of these proposals in the abstract. But the one condition which I would insist on if any such concession is to be sanctioned is that the wheels of budget work should not be clogged and non-official associations should not act as a brake on the speed of budget work. The foundations of the budget estimates of the ensuing year are the revised estimates for the current year based on 9 months' actuals. Nine months actuals cannot be available before the expiry of 10½ months. Between this point of time and the end of the financial year the budget is to be prepared, checked, consolidated and printed with a full explanatory memorandum dealing with all differences and new points. If a budget committee is appointed I think it will have to sit from day to day for several days to come so as to finish the work in time. If non-official members are prepared to work under such conditions and if Government think fit to extend the concession I shall indeed welcome the proposed budget committee.

### *Land Revenue.*

I shall now turn to the criticisms that have been offered in respect of the allotments made under the several budget heads and the first of these is land revenue. Mr. Garudachar has complained that the collection charges in respect of land revenue is higher in Mysore than in some other British Provinces, viz., the United Provinces and the Punjab. The percentage in the United Provinces is 14·5 and that in the Punjab 18·3 against 19 per cent in Mysore, the figures being those for 1914-15 in all cases. What the honourable member has said is quite true. But my complaint is that he has only stated a part of the truth and has unfairly tried to create the impression in the mind of members of this Council that our land revenue charges are unduly high. I have here in my hand a statement in which the corresponding percentages in the case of all the Provinces in British India have been carefully calculated and if Mr. Garudachar had frankly and fairly stated all these percentages I should have no reason to complain. When Mr. Garudachar said that our percentage of collection charges of land revenue is higher than that in the United Provinces and in the Punjab, he should also have stated in common fairness that our percentage is considerably lower than that in Bihar and Orissa, Central Provinces, Assam, North-Western Provinces, Madras and Bengal. If Mr. Garudachar had frankly stated all the figures both for and against us, it would have been all right. But by bringing forward the unfavourable figures and keeping back the favourable ones, I feel quite sure that he had all the figures before him and made a deliberate selection—he has, I am constrained to say, done an injustice in his criticism to our land revenue department. Mr. B. Narasinga Rao has complained that the charges of land revenue administration has risen by leaps and bounds during the last few years. Here I have got a statement which gives the actual figures for 6 years ending 1915-16. From this I find that the figure for 1910-11 was 19·48 lakhs while that for 1915-16 stands at 19·16. These figures are more eloquent than any

contradiction which I can give to Mr. Narasinga Rao's complaint. Mr. Chengiah Chetty has complained that the Amildar's duties have become multifarious and peshkars should be appointed to enable them to conduct their duties in a satisfactory manner. Mr. Ramaswamy Chetty has held the opposite view and has said that no such peshkars are needed. As the subject of readjusting the Amildar's duties have to be carefully scrutinised in connection with the proposal of relieving those officers of their magisterial function this subject need not be further discussed at this stage. Mr. Karnick Krishnamurthi has criticised the practice of allotting lump sum grants for the subordinate establishment and miscellaneous charges of the Survey Department. He has urged the necessity for a fixed scale in this department as in the case of other branches of the public service. There is some force in his contention but the practice of giving lump sum grants arose from the very nature of the Survey Department in which the establishment entertained varied largely from year to year according to the number of hands available and the nature and amount of work required to be done. I also happen to know something of the present method of work and scale of expenditure of the Survey and Settlement Department. Though the establishment entertained may have very great grievances in the matter of emoluments and fixity of employment, I am satisfied that there is no reason to complain of any extravagance or undue liberality in the matter of expenditure in this department. The matter of giving up the system of lump sum grants and substituting a fixed scale of establishment and other charges in this department is however under the consideration of Government. As regards the restoration of tanks in inam villages raised by this member the subject, I believe, has received the attention of Government and a satisfactory solution may be expected which will be fair to the raiyats, the inamdars and the Government alike.

#### *Forest.*

The high percentage of the cost of establishment in the Forest Department has come under criticism. In the first place I may point out that the percentage is not higher than, for example, in the neighbouring Presidency of Madras and in the second place I may state that the Forest Department is not primarily a revenue earning department and its work should not be judged by the percentage of the cost of establishment to the revenue. The department is in charge of one of the most valuable assets of the State, namely, its forests, and members of this Council may be aware that the proper function of this department is not to realise largest amount of revenue from the forests at the lowest possible cost but to exploit and manage the forests in such a way as to increase the permanent value of this asset of the State. Unless therefore any specific instances of waste or extravagance in the method of working can be pointed out we may assume that the cost of establishment, even if it is high, is so, owing to the efficient discharge of the primary duty of the department which consists in the conservation and improvement of forests. I think many will not be found to endorse the suggestion of Mr. Narasimhayya that in the maidan Districts the appointments of the District Forest Officers may be abolished and the care of the forests transferred to the District Excise Officer. If the greater part of these districts are bare of forests the question of afforestation has to be taken up in earnest. Mr. Seetharamiah has explained how the development of the sandal plantations in all parts of the State can lead to satisfactory results. But if District Forest Officers are to be dispensed with and the work tacked on to the Excise Officers who have their hands quite full it cannot be expected that much progress will be achieved in that direction. As regards substituting private agency for direct working of the forests by the State, the subject has received careful consideration. Almost the whole of the minor produce of the forests is collected by private contractors. It is only in respect of valuable timber that departmental work is resorted to even in respect of this the rules regarding contract system have been or are about to be revised and Government, I believe, will not be found unwilling to extend the working of the forest by private agency if reliable contractors come forward to work the forests on suitable terms. As regards the recent increase in forest establishment in the malnad regions it may be stated that this increase was sanctioned only after Government were satisfied that it was necessary in the interest of forest conservation and development and that the additional expenditure would be recovered many times over in the shape of

enhanced revenue in the immediate future. I think it will be generally admitted that no pains should be spared to work our forests to the best advantage, both as regards revenue and conservation and the increase that has been just sanctioned is intended to secure this object in a greater degree than it was possible to do in the past.

### *Excise.*

The observations that have been made by the honourable members in the matter of excise have been so fully and lucidly explained by my friend the Excise Commissioner that it is hardly necessary for me to refer to any of the points of detailed criticism. I will only say one or two words in connection with the general excise policy of Government specially with reference to its financial aspect. It has been said a thousand times over but from some observations that fell from the non-official members it seems necessary to repeat the statement again, that Government do not want to increase their revenue by encouraging drunkenness amongst the population. Any criticism which is based on that assumption does not require serious consideration. The question is whether any of the means suggested by honourable members for reducing consumption of liquor can have the desired result if they are given effect to. For my part I think that either by legislation or by executive action you cannot change the habits of the people, you cannot make men who want drink give up drink. If you remove a shop from a distance of one mile to three miles from the residence of a man who must have drink, it will not mean in the majority of cases that you make the man a teetotaller but that the poor fellow will have to walk six miles a day instead of two miles to get the drink that he wants. Members of this Council are perhaps aware that from rice and from several other kinds of grain fairly strong alcoholic liquors can be prepared by very easy processes of fermentation in the back yards of village dwelling or in the recesses of the kitchen. Then there are other intoxicating substances such as opium, ganja, bhang, charas and the deadly cocaine, which being compact solid substance, can be very easily transported with secrecy and preserved for use. We must see that in our anxiety to reduce the use of intoxicating liquors we do not force people into even more pernicious habits. Can nothing then be done to reduce drunkenness amongst the population? Of course there is a way for attaining the object in view but it is not an easy road, not a simple short cut. It cannot be achieved by a stroke of the pen or by the vote of a Council. Legislation or executive action will not be effective specially in the beginning. It is education that is wanted—education not in the ordinary sense but explaining to the people and impressing on them in various ways the harmful and almost fatal effects of continuous indulgence in drink. I have not heard of any organization or wide-spread movement supported by the leaders of public opinion in the Mysore State on the lines of temperance movements which exist in other civilised countries. It may be a matter of my ignorance; it may be a matter for the honorable members of this Council to ponder over. I think it is one of the most sacred duties of every leader of public opinion in our urban and rural parts to attempt to the utmost of his power to organise and support temperance movements. Any fear that Government will be unsympathetic to such movements will not only be entirely unfounded but grossly unjust. Government will do every thing in their power to help such movements if they work on right lines and can secure reduction of consumption of intoxicating drinks and drugs in the State. It would be a fatally narrow financial policy which would seek to gain or retain a few lakhs of additional revenue by lowering the physical, mental, moral and economic level of the bulk of the population of the State. No, Sir, the Government of His Highness the Maharaja of Mysore have never followed such a narrow mistaken policy. I should therefore respectfully advise the leaders of public opinion, assembled here, to go a little beyond their practice of merely advising Government to adopt various executive measures in this matter. They must begin practical action and attack the difficult question at its very root. And when they begin they will find that Government will not be slow to render them all possible help that is in their power. I do not mean that executive and legislative action cannot be of use in any stage but simple executive action without any endeavour to reform, improve and educate the people cannot but end in failure.

*Registration.*

Passing over the head "Stamps" Mr. Seetharamiah's suggestion in respect of which, *viz.*, that a simple set of stamp rules should be printed in the form of a leaflet in vernacular and widely distributed, has been accepted by my friend the Stamp Commissioner on behalf of Government, I come to the head Registration. It has been said by several members, prominent amongst whom are Mr. B. Narasinga Rao and Mr. Sitharamiah, that at present there is some surplus left in the Registration Department after meeting all expenditure and that this should be utilised for improving the prospects of the staff of this department as the Registration Department is not intended to be a source of profit to the State. In this connection I may mention that the expenditure that is shown against any particular department in the budget does not represent the total expenditure if we have to calculate the profit or loss of the department on commercial principles. There are some special service departments of the State which exist merely for the sake of other departments, *e.g.*, the department of printing and stationery, the buildings branch of the Public Works Department, etc. Then there are other charges of considerable magnitude, *e.g.*, superannuation and pension charges, which appertain to all the departments of public service. Then there is the cost of superior control and general administration which has also to be similarly distributed. I mention these facts simply to show that the so-called profits from the Registration Department are not so large as may appear to honourable members at the first sight. In fact if all the indirect charges of the department to which I have referred just now be included it would be difficult to say whether the Registration Department can show any profit or what that profit would be. However I may inform the honourable members that the subject of pay and prospects of the Sub-Registrars is under the consideration of Government. It is generally felt that the pay of this class of officers is inadequate; but I am not sure whether it is generally known that in a very large number of cases these officers have not got full work and in several stations the work of full time Sub-Registrars does not occupy them more than two or three hours a day. The question of devising some means of utilizing the services of these officers to the full extent is under consideration of Government in connection with several schemes that are now before them and it is likely that a satisfactory solution of the somewhat difficult problem which will be acceptable from the administrative as well as from the financial standpoint will be arrived at before long.

*General Administration.*

The increasing charges year by year under the head "General Administration" has come under the notice of almost all the non-official members and the points dealt with in this connection range from broad and general question of financial and administrative policy to such petty items as the local allowance of Secretariat officers. Mr. Puttanna Chetty who no longer speaks under the restraints of an official member has already clearly explained to the Council how in a progressive administration the increase of expenditure under this head is inevitable. Sir, the work which is done with the help of the grants shewn under general administration is to a great extent the work of higher supervision and control of all the activities of the State. Such work from the very nature of it is invisible on the surface and intangible. But if to secure progress and development we increase expenditure under other departments and unduly stint money under the head "General Administration" we shall not be far removed in our policy from the individual in the famous fable who at the suggestion of rebellious organs of the body starved the central organ from which all strength and motive power should originate. As regards local allowances, I may say that they are sanctioned to officers belonging to a general cadre when they are posted to stations or appointments which require some such compensation. When an officer is transferred say from the charge of the Revenue Sub-Division in the mofussil to a Secretariat appointment in Bangalore he is not only transferred to an appointment the duties of which are more exacting and less agreeable but he has at the same time to meet all the charges incidental to living in a much costlier station. Without some local allowance the transfer to a Secretariat appointment may be regarded by officers in the light of unmerited punishment and it is idle to expect satisfactory work from an officer who

thinks that he has been unjustly made to suffer from a pecuniary point of view. These allowances are given after very careful consideration of Government both in the Administrative and Finance Departments and I can assure the members that the Finance Department does not fail in its duty of trying to get the amount of such allowance reduced in every case to the least possible limit consistent with the efficient discharge of public duties. As regard the new branch of Efficiency Audit my esteemed friend Mr. D. M. Narasinga Rao has given full information which should satisfy my non-official colleagues. Mr. Karnik Krishnamurthi after reiterating the usual allegation of top heavy establishments, unnecessary allowances, and so forth, has said that the English version of the Economic Journal may be discontinued. Now, Sir, the object of the Economic Journal is to discuss various questions relating to the educational, agricultural and industrial developments of the State. In its pages various schemes are discussed which are necessarily new to Mysore but which find their counterparts in various other parts of the civilised world. Is it not extremely desirable that our needs and requirements and the methods which we propose to adopt for meeting them should be made known to a wider circle beyond the Mysore State? Is it not desirable that people engaged in similar work in other provinces of British India and in other English speaking countries of the world should also know our plans and programmes so that they may express their opinion on them and give us their suggestions and criticisms? No, Sir, we do not want to be isolated and cut off from the rest of the world in the way suggested by the honorable member. On the other hand we want to throw ourselves into the current of agricultural and industrial progress of the world and establish as many channels of communication as possible between the Mysore State and other progressive and advanced countries. From this point of view I think it is absolutely necessary to maintain the English edition of the Economic Journal and I think that it would be a great mistake to abolish it as suggested. Mr. Basavayya has pleaded for the re-organization of the existing staff of gazetted and ministerial establishments in the various departments of the State and the reason he has given is that by such reorganization, retrenchments and savings may be effected. I hope I may be excused for saying that no one is more desirous of effecting savings or more keen on the subject of retrenchment than myself; but if Mr. Basavayya thinks that savings and retrenchments are to be effected by means of departmental re-organization I must tell him that he is under a hopeless delusion. I have during several years past had to deal with numerous cases relating to re-organization in several departments of the State; and I know very well the way to which re-organizations tend in these days of increasing activity and rising prices. Re-organizations of departments, I am afraid, will have to be sanctioned as they are found necessary; but I for one, have not the slightest hope of much retrenchments being effected as a result of such re-organizations.

#### *Law and Justice.*

Amongst the subjects relating to law and justice there is one which has been touched upon by almost all the non-official members of this Council a subject which has been discussed times without number here and elsewhere but about which there is yet to be found considerable difference of opinion between the theoretical reformer and the practical administrator under Indian circumstances and conditions. I refer of course to the subject commonly known as the separation of judicial and executive functions. As Government have already made a general declaration of policy in the matter and as I know that the subject is receiving the earnest attention of Government I need hardly say anything on the subject. Mr. H. Narasinga Rao has given us the outlines of the scheme of separation which he has formulated and I have seen and examined the details of some other schemes. If the scheme is to be introduced in this State I hope it will be in a form which on one hand will not involve the delegation of magisterial work to officers of lower pay and status and on the other will not involve considerable increase of expenditure. Several other points like the scale of pay now allowed to Public Prosecutors, the present methods of law reporting, etc., have been referred to by some members and these representations will no doubt receive due consideration in the administrative branches concerned.

On the subject of jails there has been some interesting criticism. Mr. Basavayya has pointed out that our jails are not able to meet the commercial requirements of the people and has expressed dissatisfaction. If the jails, he has asked, with their supply of convict labour cannot meet the commercial requirements of the people how can the private individuals and firms do so when they have to pay high wages for their labour? I confess I have not been able to follow this member in his arguments. He as well as other members of this Council must be aware that the jails do not primarily exist to meet what he calls the commercial requirements of the people. They exist for a specific purpose and industries are introduced into jails so that the convicts might be taught some useful occupation by means of which they may earn their livelihood in an honest way after their release and may not have any temptation or necessity to return to jail again. Far from it being desirable that our jails should compete with private enterprise in meeting the commercial requirements of the people, I think it is unjust and unfair to private industrial and commercial enterprise that such competition should be allowed to exist. At one time I had to examine the accounts of the manufacturing side in the jails of one of the largest provinces in British India; and in the course of my work I came to know that whenever jail industries competed with private enterprise strong representations were made to Government that such unfair competition should cease. I know that one large industrial concern in Bangalore itself joined in such a protest when some large central jails in the province of Behar and Orissa launched in a similar line of work on an extensive scale with the help of their convict labour. I do not deny that there is room for improvements in the matter of jail industries as there is in many other matters. But such improvements should be effected to secure the true and rational object of jail industries and not with the view of earning profits by competing with the private enterprise in the fields of industrial activity in the State.

#### *Police.*

Several members have urged that a re-organization of the police force is necessary. The subject has received the consideration of my friend the Inspector-General of Police and his proposals are now before Government. Extensive re-organization in a large department like this employing thousands of hands is to a large extent a question of funds. In connection with such recommendations by the honourable members of this Council I would only say one word. As the officer of Government through whom all proposals relating to such re-organisation in all departments have to pass, I know full well how the heads of the several departments do their best to urge persistently and with great force all reasonable cases relating to the improvement of pay and prospects of the subordinate staff working under them. They make the cause of their subordinates their own and partly out of natural sympathy for them from whom they have to exact a high standard of work and partly also in the interest of efficiency in the department over which they preside, they plead their re-organization cases before Government with remarkable tenacity and vigour. I do not mean to imply that there is any harm in honourable members inviting the attention of Government to any branch of the public service in which the terms of appointment are so unfavourable as to impair efficiency. All that I mean to assure them is that the interests of the departmental subordinates are quite safe in the hands of the departmental heads and the representations of these responsible officers always receive earnest consideration of Government in the financial and administrative branches. Mr. Narasimhayya has spoken on the relation that now exists between the Amildars and Police Inspectors and my friend the Inspector-General of Police has replied to this point with great clearness.

#### *Education.*

I now come to the subject of education. Most of the points relating to this department have been fully and clearly explained by my friend the Inspector-General of Education. As regards his remarks on the revised estimates under Education for 1915-16 what he has said is quite correct. If there has been unusually heavy expenditure in the department during the last two months of the year of

which the finance and accounts departments were not apprised, it is quite possible that the revised estimate is below the mark, for, the revised estimate is based on nine or ten months' actuals and the estimated expenditure for the remaining two or three months of the year on the normal basis. Whether the lapse under education is really half a lakh only as he has stated or whether it is a higher figure will be known a few months hence when the accounts for 1915-16 are finally closed and the information will be available to the honourable members in the Appropriation report for 1915-16 which will appear in due time.

As regards the annual grant made to the Indian Institute of Science Mr. Karnick Krishnamurthi has raised the question as to whether the State gets adequate return for the grant and has hinted that to some extent it is a waste of money. Sir, I can assure the honourable members that such a remark can only proceed from inadequate information. The location of Indian Institute of Science in Bangalore is a blessing to the Mysore State, the full nature and extent of which has just begun to dawn on those who are interested in the cause of its scientific and industrial advancement. I cannot but look back with admiration on the farsighted statesmanship which secured the location of this Institute within Mysore territories for a comparatively modest consideration. It was one of the most beneficent measures of a great master mind. The importance of an institution where experiment and research work can be carried on under the most favourable conditions and under expert and scientific guidance of a very high order in three or four of the most important and useful branches of practical and applied science can hardly be overestimated. Apart from such facilities the help which we have got from the institution in the matter of industrial development has indeed been considerable. The authorities of the Institute have always been ready, in fact they have been anxious, to render our industrial department all possible help. Many a time I was struck with the value of the work that was being done at the Institute on behalf of our industries, when along with some professors of the Institute and our Director of Industries, I had the pleasure of going round to see what was being done. Several important industries have already been started in our State with the help of this Institute; and I have no doubt that this institution founded through the munificence of one of the greatest sons of India and drawn to the Mysore State by one of our greatest statesmen will yet be the cradle of many a new industry which will bring wealth and prosperity to the millions of this State.

Before leaving the subject of education I venture to offer one more remark and that is with reference to the eloquent, earnest and passionate appeal that has been made by Nawab Gulam Ahmad Kalami for larger grants in the cause of Mahomedan education. The zeal and enthusiasm with which he pleaded the cause of his community deserve the admiration of all of us. Far from blaming him for such special appeal, I think that if each community had such sincere and able advocates the whole population will be moving forward at a rapid rate in the path of progress. There was only one aspect of the honorable member's remarks which struck me as rather inconvenient from the practical stand-point and that is the rather separatist tone of his speech. He wants separate schools for the Mahomedan population. Why should not our ordinary schools with proper arrangements for teaching Persian and Urdu be sufficient for the Mahomedan subjects of His Highness the Maharaja? I quite understand that in the lowest stages there may perhaps be necessity for separate schools for Mahomedans for teaching the Urdu and Persian languages. But at the earliest possible stage Hindus and Mahomedans, and all other classes of His Highness' subjects must come to the same Educational Institutions to be trained together under a common influence as loyal and useful citizens of the State. The plan of providing separate sets of Educational Institutions of various grades for separate classes of His Highness' subjects is one which is beset with difficulties and it may lead to unnecessary duplication and waste of public funds. I would therefore suggest that the policy in this matter should be definitely settled between the Mahomedan community and the Education Department, *viz.*, how far and to what extent separate Institutions are necessary and should be provided. When the policy is once settled there will be no difficulty in giving effect to it. I earnestly appeal to all, that in settling this policy water-tight compartments and undue exclusiveness should be avoided as far as possible. Institutions open to all should be made use

of by all classes as the common meeting ground for the whole of the rising generation of the State; and the common platform from which to drink at the universal fountain of knowledge should be reached at as early a stage as possible.

In respect of departments grouped under Agriculture several points have been raised. Mr. Venkatakrishnayya has attacked the Kunigal Stud Farm and laid much stress on the fact that from a purely financial point of view the institution is not a source of gain to Government. I quite admit this fact. I quite admit that the farm has been working at a loss for some years past. But I think that those who founded the Institution did not mean it to be a commercial concern the object of which was to earn profit. The main object was to preserve and improve certain breeds of horses in Southern India which but for the fostering care of such an Institution might have degenerated or become extinct. The farm is one of the interesting places of Mysore which is favoured with a visit by all the distinguished personages whom duty or pleasure brings within the boundaries of the State. Kunigals are fairly well known in racing circles in many parts of India and some of the animals have given a good account of themselves on the turf. The periodical auction lists of the farm and the high price which the animals fetch show that the Institution must to some extent at least be meeting the demand for high class horses in this part of India. The Institution embodies the result of many years' labour on the part of several expert officers who whole-heartedly tried to make it a success as a breeding station. It would be a pity if all this were swept away by the abolition of the farm. Of course it is desirable that means should be adopted to secure more favourable financial results on the working of the farm. I understand that several such measures have been contemplated in the past and some of them may yet be developed and receive consideration at the hands of Government.

Mr. Ramaswamy Chetty has complained that the authorities of the Lal-Bagh in Bangalore engage in branches of trade which fall legitimately within the scope of and can be adequately dealt with by private enterprise. Of course as all the members of this Council are aware there is a depot in Lal-Bagh which obtains from various countries seeds, seedlings, etc., of comparatively rare and useful plants and sells them to the public. To encourage several branches of horticulture, seeds and plants are also given to *bonâ fide* horticulturists on favourable terms under the recent orders of Government. These are all items of work which ordinary firms are not expected to take up and there is not the least intention to compete with private enterprise. If it can be shewn satisfactorily to the authorities of the Lal-Bagh that any branch of the work which they are doing will be done equally well and equally advantageously to horticulturists all over the State by a private individual or firm and if also guarantee is given that the work will be continued on a suitable basis then the Government department will only be too glad to give up that particular branch of business. No Government department engages in trade in competition with private enterprise if it can possibly help it. The only justification for doing so is to benefit the people of the State and to encourage trade in that particular line by pioneering, and these principles are always observed by the Commercial departments of the State.

One member has pointed out that the cost in the Department of Industries and Commerce is heavy and has enquired what good has resulted by the creation of that department. Another has gone a step further and has demanded that the appointment of Director of Industries and Commerce should be abolished. The same member has also hinted that the Weaving Factory and the Industrial Depot are doing no good and that there is no necessity for continuing them at a loss to the State Funds. Members of this Council must be aware that during the last few years several of the provinces in British India have organised Departments of Industry under expert Directors and when other provinces are starting on the way of industrial development we are asked to retrace our steps and run counter to the general current of the times. I shall not stop to enumerate the various items of useful and highly beneficent work that has been done by our Industries Department during the period it have been in existence under the control and direction of one of the most eminent and distinguished workers in the field of Indian industrialism. The reports of the department published from time to time bear eloquent testimony to the value of work done. As regards the cost involved I may state that even if one of the great schemes that are being dealt with by the department succeeds to

any considerable extent—*e.g.*, improved methods of jaggory manufacture, lift irrigation, fly shuttle weaving, silk manufacture by the factory method, sandalwood oil distillation—I say if even *one* amongst these and numerous other things that are being dealt with by the Industries Department succeed, the beneficial result to the country will far outweigh the total cost of the Industries Department for years together. As it is, there is reasonable hope of several of these measures coming to a successful issue in the near future and I cannot regard any proposal for abolishing the Industries Department or the appointment of Director of Industries which represents its brain, without apprehension of serious injury to the cause of industrial development of the State.

### *Muzrai, Medical and Sanitation.*

Mr. B. Narasinga Rao has said that the Amildars have not been given sufficient powers in Muzrai matters and that the Institutions in the Mysore District with which he is acquainted are going from bad to worse. In the absence of specific examples such a vague and general statement cannot be considered as justified. I earnestly appeal to all members of this council to refrain from making general statements of this kind unless at the same time they substantiate the charge and illustrate what they mean by one or two examples. The object of such complaints is to get the grievances redressed and nothing is gained by creating in the public mind an unfavourable impression as regards Government methods without adequate foundation. In respect of many of the Muzrai Institutions local committees have been appointed and if public-spirited gentlemen serve and help these committees many defects may be rectified. As regards the suggestion that the Muzrai Superintendent should inspect the Institutions under his charge more frequently than he has hitherto done, I may state that the subject of readjusting the control of Muzrai Institutions and that of dividing the functions connected therewith between the local executive officers and the Muzrai Superintendent are engaging the attention of Government at the present time and a satisfactory decision may be expected in the near future. In connection with the suggestions that the Ayurvedic College at Mysore should be improved I may mention that a committee appointed by Government to report on the question of improving the system of medical relief has submitted proposals to Government which include a thorough reorganization of the Ayurvedic College on sound and satisfactory lines.

Mr. Chengiah Chetty has referred to the low initial pay that is given at present to medical graduates who enter the service of the State as Assistant Surgeons and he has strengthened his case for a higher rate of emoluments for these officers by comparing their case with that of corresponding officers in other departments of the State such as the Public Works Department and the Revenue Department. He has also pointed out that in the Medical Department the practice prevails of requiring an agreement from those who join service binding them to serve the Government for a certain number of years while no such agreement is required in any other department of the State. As regards the question of pay, I may state that it is to a great extent a matter of supply and demand and I am not aware that our Medical Department is experiencing any difficulty in the matter of recruitment. It is well known that officers of the Medical Department are as a rule entitled to private practice and this fact is kept in view in fixing the rates of pay. As regards the question of agreement, I know that a similar practice exists in some British Indian provinces. The reason of this practice is that in many instances junior members of the Medical Service establish themselves in private practice in the station to which they are first posted and when subsequently they are transferred to a different station in the interest of the Public Service they are unwilling to carry out the orders and tender their resignation instead. It is to avoid such embarrassments to the public service that the practice of requiring an agreement has come into vogue in the Medical Department in various parts of India. I am not exactly aware whether the circumstances in Mysore are similar to those in the provinces of British India where this practice of requiring agreement prevails. If the circumstances are not alike and the difficulty experienced in British India does not arise here then the matter of doing away with the practice of requiring agreement will certainly receive the attention of the administrative branch. I remember

that the matter was discussed sometime ago and have no exact recollection as to how it was disposed of.

Mr. Karnick Krishnamurthi has referred to the recent orders of Government ordering that small fee should be levied upon the well-to-do classes attending the hospitals and dispensaries in the Cities of Bangalore and Mysore. The chief objection to gratuitous medical relief both as regards advice and medicine in public Institutions even to classes who can afford to pay, is that it naturally checks the growth of a class of private medical practitioners. Visitors to Bangalore and Mysore have frequently wondered at the absence of private medical practitioners in such large cities. But the practice referred to above, *viz.*, gratuitous treatment in the various hospitals and dispensaries in the cities is a sufficient explanation. The other aspects of this question have been thoroughly replied by my esteemed friend Mr. D. M. Narasinga Rao and I need not repeat what has been so well said by him. Mr. Basavayya has urged that travelling Sub-Assistant Surgeons should be employed to render medical help to the rural population in the interior of the State. In connection with the Malnad Improvement operations the Government have sanctioned such a scheme. Opinion on the usefulness of such travelling dispensaries is to a certain extent divided. If the experiment which has already been started or is about to be started proves to be a success, the method will no doubt be resorted to, to a larger extent in future. As regards the complaint of Mr. Karnick Krishnamurthi that the vaccination lymph of our Institute has deteriorated in quality I may mention that a Committee was appointed by Government sometime ago and action has already been taken on the lines suggested by the Committee. If I remember aright the Committee did not come to the conclusion that the quality of the lymph manufactured at our Vaccine Institute had become worse. One reason why Mysore lymph is not now used in some parts of the neighbouring Presidencies where it was used before is perhaps that the people there were getting lymph from some newly established depots within their own Presidency.

Mr. Karnick Krishnamurthi has referred to the appointment of two Sub-Assistant Superintendents in the Government Press. These men were trained in England at a considerable cost to the State in the Art of Printing and in various allied industries and have returned as well qualified experts in the line. The work of the Press having enormously increased of late they are very usefully employed at the present time. As regards the heavy expenditure on stationery referred to by some member the explanation is that larger quantities of stationery are required for the various departments. The prices have also gone up to a very considerable extent. In the case of a certain kind of paper largely used for printing and other purposes the price has gone up by more than one hundred *per cent.* Government passed an order a few months ago on the suggestion of the Comptroller by which some economy has been secured in the matter of paper used in official and demi official correspondence; but in spite of all endeavours the provision for stationery in the budget had to be materially raised.

Mr. B. Narasinga Rao and Mr. Ramaswamy Chetty complained that Bangalore and Mysore Cities have been favoured with large grants but the other towns have been overlooked and they pleaded for more grants for the other towns of the State. Messrs. K. P. Puttanna Chetty and B. K. Garudachar have on the other hand pleaded for even larger grants than have been provided in the budget for the Bangalore City. I may point out that the other towns have not been entirely overlooked in the budget but a grant of one lakh of rupees has been provided for grants in respect of water supply improvements, town-planning, etc., chiefly for towns other than Mysore and Bangalore. I cannot of course tell Mr. B. Narasinga Rao whether any part of this money will go to Seringapatam. If a sufficiently strong case can be made by those interested in Seringapatam, there is nothing to prevent a part of the grant being utilized for that ancient and historic town. Mr. Seetharamiah has suggested that details for expenditure in connection with the Malnad Improvement Grant should be included in the budget; there is no objection to this course and I accept his suggestion with pleasure. As regards his request that Kumsi and Narasimharajapura should be converted from sub-taluks into taluks, that is a matter which I believe is receiving the attention of Government. Even if the change advocated by him is not introduced at once and Taluk Treasuries are not established at those places we may as a first instalment establish savings banks under the new

scheme sanctioned by Government in those towns so that facilities will be given to the public of those places in respect of at least one important branch of treasury work.

Several members have pointed out that the budget estimates do not contain any provision for the Bangalore-Hosur line. Provision was made for this link on one or two previous occasions but unexpected difficulties arose and a satisfactory arrangement could not be arrived at with the other parties concerned as regards the terms of working. Under these circumstances, provision of funds would have been premature. I very strongly sympathise with Mr. Garudachar as regards his representation that the Goods shed for the Bangalore City Station should be improved and made satisfactory from all points of view. He must have noticed that a provision of four lakhs exists in the budget for capital expenditure on open lines and if a sufficiently strong case can be made out for the particular work he has referred to I have no doubt that a part of this grant will be devoted to the purpose by the responsible authorities. Mr. Venkatakrishnayya has complained that though nearly 60 lakhs have been spent on Mysore-Arsikere Railway there is no income derived from it. Members of this Council know very well that no section of this line has yet been opened for traffic and no income can accrue before any section is opened. Complaint has also been made about the low income of the State worked railways. These are all small infant lines which have been recently opened and it is well known that for the first few years a new railway line does not get the full revenue which eventually comes to it later on in the course of its existence. Feeder roads have to be constructed to tap the surrounding tracts, the previous course of the traffic has to be diverted, in the case of short lines competition with bullock carts and other means of conveyance have to be encountered and overcome. Besides this, the establishment charges just after opening are also likely to be heavy. For all these reasons, our new narrow gauge lines are not bringing in an adequate return just at present. But what Dewan Bahadur Mr. K. P. Puttanna Chetty has stated with reference to Bangalore-Chikballapur line applies to all these lines and there is every hope that after a few years these lines will bring in an adequate return on the capital invested in them. Mr. Karnick Krishnamurti's proposal for a branch line of railway from the Bangalore City Station through Chamrajpet to the Basavangudi extension overlaps the Bangalore Electric Tramway Scheme. The tramway scheme has not been given up. This alternative proposal of a line of railway through the City does not therefore require consideration at the present stage. Mr. Seetharamiah has referred to the question of Shimoga Railways and has informed the Council that the provision made for the surveys in that district will be regarded as satisfactory by the people. The people of Shimoga under the guidance of their energetic Deputy Commissioner Mr. K. Mathan have subscribed handsomely towards the District Board's share of the capital for the Shimoga District Railways. Debentures have already been issued by the District Board for the amount so collected and it is but natural that the people who have contributed the money should be anxious to know what is being done to give them the railways they desire. Members of this Council are aware that the alignment of the Shimoga District Railway lines is intimately connected with the project of a seaport for the Mysore State on the west coast and in this connection fresh surveys have become necessary. The subject is receiving attention at the hands of our Railway Department and we may all hope that the slight delay that has taken place will be more than compensated by the improved alignment of the lines. Mr. Puttanna Chetty has suggested that the Nanjangud-Erode link should be completed as early as practicable. We all realise the importance of this line and every endeavour is being made to arrive at a satisfactory settlement. The importance of this line is so great and the earning capacity of the Mysore system of railways will be so much enhanced by its construction that I may assure the Council that when all other particulars are settled, financial considerations will not stand in the way of this most desirable work.

The complaint of some members that the higher staff of our Railway Department is excessive in number and cost, is, I am afraid, based on a misapprehension. The number of appointments seems large but many of these have been combined in groups and the number of officers actually entertained is not excessive. For example there are the high appointments of Secretary to Government for Railways, Engineer-in-Chief for construction and Agent for open lines. These are all high

sounding titles and people may be misled by them into believing that there are too many highly paid officers until they know that all these appointments are held by one and the same person who draws a salary which must be regarded as modest even in respect of one of the three appointments. Similarly there is the Under-Secretary for Railways, the Deputy Agent and the Chief Storekeeper. All these appointments again are held by one and the same individual. When the actual facts are taken into consideration and when it is also borne in mind that the staff is intended to cope with the work of the fairly long metre gauge Mysore-Arsikere link which will be opened for traffic during the course of the next few months, I think it will be conceded that the staff is not excessive.

### *Public Works.*

I now come to the important subject of Public Works. Mr. Garudachar has complained that the percentage of establishment charges in our Public Works Department is much higher than that in the neighbouring Presidency of Madras and that this is due to an unnecessarily large Public Works establishment maintained in this State. As you rightly observed, Sir, at the time when Mr. Garudachar was making this statement his figures are not borne out by the published statistics of the Madras Presidency itself. I have in my hand several returns published by the Madras Government. The papers that I have contain the figures, for three years, *viz.*, 1912-13, 1913-14, and 1914-15: the percentages of these years are 29·4, 27·6, and 24·9 respectively, the corresponding figures for the Mysore State are 19·6, 18·7, and 21·6. These figures will make it clear that the apprehension felt by Mr. Garudachar has no foundation in facts. Mr. B. Narasinga Rao has pleaded that larger grants should be given for irrigation works. Members of this Council are already aware that the grant for restoring minor tanks was doubled recently and the establishment for coping with the work was also considerably strengthened. It is indeed true that for the last two or three years a very considerable portion of the Public Works grant is being utilized for buildings. I hope that the buildings on hand will be soon brought to completion and then our Public Works Department may find it possible to devote a larger percentage of the handsome grant placed at their disposal every year for improving our irrigation works, the importance of which can hardly be overestimated.

I am afraid that it will not be possible to comply with Mr. B. Narasinga Rao's request that the detailed Public Works Budget should be included in the General Budget Estimates which is placed before this Council. The detailed budget of the Public Works Department is a separate publication running to over 100 printed foolscap pages and I do not think that the interest of either economy or clearness will be served by the measure proposed by the Honorable Member. Moreover the Public Works Department prepare their detailed budget only after the allotment for the department is definitely fixed by Government and it will be impracticable even if it were desirable to include the details referred to by Mr. B. Narasinga Rao in the General Budget Estimates. Mr. Basavayya has complained that the large Public Works grant leaves little money for other beneficent activities and the only conclusion which one can draw from his remarks is that he wishes the Public Works grant to be reduced. The ordinary standard of the State Public Works grant stood at 25 lakhs until three or four years ago when it was raised to 30 lakhs. In a total expenditure of 286 lakhs the State grant for the Public Works Department to the extent of 30 lakhs cannot be called excessive: it amounts to 10·5 per cent. Mr. Basavayya also wants to know the reasons as to why the original estimate for the first stage of the Kannambady Reservoir Works has been so largely exceeded it having been revised from about 81 lakhs to 102 lakhs. The excess is due to the rise in wages of labour during the last few years and also to the expenditure incurred for settling in a satisfactory way and without any hardship the raiyats whose lands have been drowned by the water-spread of the reservoir. I may inform the Council that the greater part of the work in connection with the reservoir is carried out departmentally under the supervision of experienced officers and every endeavour is made to secure economy, as far as possible, consistently with efficiency.

*The Heart of Mysore Finance.*

Sir, a few days ago I was reading an interesting book in which an English medical man described his experiences in the Court of a Mahomedan Monarch. I selected this book as a sort of relaxation from the mental dizziness arising from a continual study of figures which falls to the lot of a financial officer during the budget season. But there is a proverb which says that if a rice-pounding implement is taken to heaven it will be pounding rice even there; and so even while reading this book I relapsed into budget reflections. In a certain part of the book the author states how on one occasion he was called to treat the favourite wife of his Royal Master whom he describes as the Sultana. The patient was heavily veiled and she was placed behind a purda. When the medical man learnt that she was suffering from fever and cough, he wanted to examine the heart sounds of the patient by means of the stethoscope. The doctor humorously describes how, not knowing the exact stature and position of his patient he first struck her on the head with the stethoscope, and it was only after some trials that he could locate the instrument finally in its proper place. Now, Sir, we do not nowadays throw a veil on the fair dame of Mysore finance and we do not place her behind a purda; and the critical stethoscope of our consulting physicians has never been so wide of the mark as in the case just described. Moreover at every fresh trial the instrument has come nearer and nearer the proper place. I hope on this occasion all the members have heard with fair accuracy the heart-beats of Mysore finance and that they are satisfied that the organ is discharging its functions in a healthy and vigorous manner. The veins are bringing in the proper supply of blood and the arteries are distributing it in proper proportion to all the organs and limbs of the State. But it is a matter of common knowledge that even if a patient is quite healthy the medical adviser is not often satisfied and in his eagerness for the welfare of his patient would prescribe medicines for further improving the patients health. And so in this instance our consultants one and all have come forward with long prescriptions and with large medicine bottles. Sir, as the immediate guardian of the patient I promise to carefully record all these prescriptions and to preserve these medicine bottles; and if at any time any remedies are required I would like a faithful compounder administer the medicine that is wanted. If I were to attempt more than this then the fate of Mysore finance will be similar to that of a patient who to improve her health went to the nearest dispensary and wanted to swallow the whole of it. In the meantime it is a source of great satisfaction to me to know that she has been certified as perfectly healthy by so many competent authorities and that she has received their blessings and good wishes on the eve of her customary journey of twelve months into the domain of the immediate future.

Before I resume my seat it is my pleasant duty to acknowledge with thanks the valuable help and guidance which I have received from you, Sir, and from your colleagues in the Council. You have personally examined the provision made under all the heads and satisfied yourself that funds were provided for the requirements of each department to the best of our means and ability. The First Member of Council Mr. A. R. Banerji has brought his fresh and vigorous mind to bear on our budget procedure and budget methods and has given some valuable suggestions. And the long Secretariat experience of our distinguished Second Member of Council, Mr. K. S. Chandrasekhara Aiyar and his fine and imperturbable judgment have stood in good stead in reconciling the demands of the departments under his care with the exigencies of public finance. A word of acknowledgment is also due to my own staff both in the Financial Secretariat and in the Comptroller's Office and I particularly wish to acknowledge in public the loyal help and co-operation which I have received from Mr. S. Shamanna, Assistant Secretary, Finance Department, and Mr. M. A. Rangachar, Assistant Comptroller in charge of the Budget Department. These gentlemen by taking responsibility with reference to many matters of detail enabled me to concentrate my attention on the more important financial issues in connection with the budget. I must also acknowledge the valuable help that I have received from the Government Press in the matter of the printing work in connection with the budget. The press under its able Superintendent and with its hard working staff rose to the occasion though the

time allotted for its work was shortened owing to unavoidable circumstances. They kept to the appointed dates by working extra hours and with great vigour. We frequently hear of the printers' devil but we are slow to remember the occasions when like a winged Mercury the messenger of the press arrives with voluminous proofs even before the appointed hours. My thanks are also due to the Official Members of this Council who by dealing with the several points appertaining to their departments have to a very great extent lightened my task of offering these replies and explanations. Last though not the least I should not fail to acknowledge with grateful thanks the interest which the non-official members of the Council have taken in the budget. Budget work is apt to get dry and dreamy at times and it is a great comfort to be able to feel at such moments that there are others who take a keen interest in the work, follow it in its details and share in the task of giving it a final shape. Their valuable suggestions have all been noted by me and I have no doubt that they will be extremely useful.

**Mr. K. S. Chandrasekhara Aiyar.**—SIR,—Most of the points raised by non-official members during the very interesting discussions we have had on the budget have already been dealt with by previous speakers and with particular fulness and force by our versatile colleague, the Financial Secretary. There are only left a few points of an administrative character pertaining to departments with which I am directly associated on which it will be needful for me to say something; and to these I shall with your permission confine my remarks.

The first of these points has reference to the long standing question of the separation of judicial and executive functions, which was discussed by a number of members and upon which a few of them have also made suggestions of their own.

I suppose few thoughtful persons will deny the desirability of a separation of functions, as a matter at least of abstract principle; but how far such separation is feasible under a given set of circumstances is a subject on which, as I happened to be reminded quite recently, opinion is by no means unanimous among those claiming to be acquainted with local conditions. I do not wish to deal with controvesial points. But I am sure it will be admitted that a ready made scheme of perfect separation cannot be evolved at once, and before any scheme that has a chance of success in its working can be introduced a large number of details will have to be considered and allowed for.

Thus, there is the differentiation to be made between work that is purely judicial, and work that, though done by magistrates, is really executive in its nature, and an estimate to be formed of the total quantity of work of each kind to be separately provided for.

There is, next, the determination of the agency to be appointed for looking after purely judicial work; the modes of recruitment of such agency; the readjustment of the territorial limits that will be probably necessitated by any scheme of separation; and finally, the calculation of the probable additional cost that may be entailed.

All these will take some time; but the Council may rest assured that the matter is not lost sight of, but that, on the contrary, it is being actively considered; also that some tangible steps towards the attainment of the object in view will be taken in the near future, and that the mere apprehension of additional cost will not be allowed to arrest the progress of necessary reform.

Some of the members have adverted to the necessity for improving the pay and prospects of the officials of the Highest Court of the State as compared with those of the Subordinate Courts which were revised in recent years. As to this, I can only say that the proposals made by the Chief Court on this subject are before Government and will be dealt with in due course.

The question of revising the emoluments paid to Public Prosecutors is engaging consideration.

The appointment of a full-time Law Reporter was abolished several years ago as an obvious measure of retrenchment, because, there was not enough work for a paid reporter to do; and there is at present no information before Government tending to show that there has been any change latterly in this respect. The work is being done efficiently by the Registrar of the Chief Court, under the supervision of the

Judges, and with the assistance of law graduates. I may mention that the head notes which are the most important part of the reports are invariably revised by the Judges and very often written by them. There has been I understand no avoidable delay in the issue of the monthly parts of the Chief Court Reports, those for February, March and April being already in type, members who belong to the legal profession will be glad to know that a consolidated digest of all the reported decisions of the Chief Court has been prepared by official agency and is in press and will be published in a few months.

One of the members touched upon the necessity for improving the pay of Police Constables and of the subordinate Police Officers in the State. This question cannot be considered apart from the general question of the reorganization of the Police Force as a whole. The proposals that are now before Government relate chiefly to an increase in the strength of the constabulary stated to be required in order to meet the demands for men which are being made from all parts of the State. The Inspector-General of Police is understood to be formulating, but has not yet submitted, proposals for improving the status and quality of investigating officers. This, the improvement of the machinery for investigation is the really more important question, and members may rest assured that proposals in this regard, when received, will receive the best attention of Government.

As regards the prospects of Sub-Registrars, I may explain that the present scale of pay was fixed in 1906, as the result of recommendations made by the Retrenchment Committee. Promotion is no doubt slow; and in order to make up for this to some extent, the Government have declared Sub-Registrars to be eligible for appointment as Amildars and Deputy Amildars. The general question of bettering the prospects of Sub-Registrars has been the subject of discussion at the Representative Assembly; and upon a reference made by Government, the Inspector-General of Registration has submitted proposals for the reorganization of the entire department, and these will be taken up when certain additional information called for by Government is received. I may perhaps observe that the question is not merely one of increasing the emoluments, but also how far, if possible, additional work may be assigned to the officers concerned to justify an increase of emoluments. All this will be duly considered.

As regards the condition of Muzrai Institutions to which a reference was made by one of the members, I may supplement what the Financial Secretary has said by adding that the general question of reorganizing the Muzrai Department and placing it on a proper basis of usefulness has been engaging the attention of Government for some time past, and it is expected that Government will be able to pass final orders shortly.

Finally, on other points which have not been touched upon, the observations of members have been noted, and such action as the circumstances may call for in each case will be taken.

**Mr. A. R. Banerji.**—SIR,—I should like to associate myself with the observations made by our friend Dewan Bahadur Mr. K. P. Puttannah Chetty regarding the character of the debate which has taken place over the budget now before the Council this year and to offer my congratulations and thanks on behalf of Government to the non-official members for the detailed study which they have made of the budget figures and the valuable criticisms and observations they have offered, which the Government always welcome from them.

The privilege of budget discussion has not been enjoyed long and it must be highly gratifying to His Highness' Government to find that the privilege has been so profitably availed of and the obligations imposed thereby so ably discharged. Of course here and there some statements have been made of a vague and indefinite character which as pointed out by you, Sir, in the course of the debate might lead to misapprehensions as to the attitude of the Government in regard to certain important matters. But perhaps that was to be expected with the limited time to study and the limited opportunities which the non-official members now have, to bestow on this very important subject. Personally I am in full sympathy with the representations made and the desire generally expressed for enlarged privileges relating to budget discussion; for, to make such a discussion really useful and effective there is nothing that helps more than a sense of responsibility based

on adequate information so far as the non-official views are concerned and a sense of appreciation of those views and a desire to give them a due weight so far as the Government are concerned. I do not think that any one can urge that the Members of this Council are, in capacity, any way behind their co-adjutors in British India or in any other Native State. I am sure therefore that the Government of His Highness the Maharaja would bestow their sympathetic consideration on the representation made by the non-official members at this debate on the subject.

Turning, Sir, now to the main points urged by the several members relating to the departments under my charge there is very little left for me to reply after the exhaustive statement that has already been made by the Heads of Departments concerned and the Financial Secretary, who has more than covered the whole ground with his usual eloquence and lucidity. There are, however, some points in regard to which it is perhaps desirable that the policy of Government should be clearly indicated so that any misapprehension or doubt that may exist may be completely removed. Mr. Garudachar has compared the cost of collecting revenue in a few Provinces of British India with reference to the cost that is incurred in Mysore and apparently by the statistics that he has quoted it is his intention to prove that the administration in Mysore is run on expensive lines. It is well known that statistics are not always a safe guide for purpose of arriving at a general conclusion. Taking the Revenue Administration of the Mysore State as a whole into consideration I can assure that member that it is not so far as establishments are concerned at all up to the requisite strength. The member may perhaps have heard what Mr. Narasimiah said in regard to the tone and the efficiency of the District and Taluk Administration. He must also have heard Mr. Narasimiah urge that the pay of the Amildar and his taluk staff should be raised; and he must also have heard from another member that the Taluk and District Administration requires to be re-organised. It is easy to pick up a few figures from the budget here and there and draw certain general inferences by comparison with a few others; but such inferences would be altogether misleading when the real facts comprised in the whole question are fully taken into consideration.

In Mysore the whole Revenue Administration is in the charge of the Revenue Commissioner as the highest controlling authority with eight Deputy Commissioners and 35 Assistant Commissioners and 68 Amildars. There has been a general cry that these Revenue Officers are over-worked and require relief in many directions, that some of their charges are too extensive and require to be sub-divided. There are many other Important administrative problems relating to the Revenue administration remaining to be solved and therefore it is somewhat disconcerting to observe that Mr. Garudachar and one or two other Members of this Council desire to point out with reference to the percentage of establishment charges devoted to the collection of revenue as indicating extravagance on the part of the Government so far as Revenue administration is concerned. Further I may also state, that the percentage must be fluctuating from year to year and in certain years owing to bad season or other causes when the collection does not come up to the requisite standard the figure would naturally become higher as compared with the figure in normal years when the seasons are favourable. The Land Revenue Administration Report for the year 1914-15 will show that the collection work in that year was not satisfactory owing to various causes. This may partly account for the slightly higher percentage to which the member refers.

Mr. Venkatakrishniah in his criticisms on the budget has remarked that the establishment charges are growing from year to year that there are a larger number of appointments not absolutely necessary in the superior ranks of the service and that the administration is top heavy. He has particularly attacked the Public Works and the Forest Departments. So far as the Public Works Department is concerned the Dewan has already in the course of the debate explained to the member the true circumstances of the case. As regards the Forest Department if the Member will kindly refer to the gross and the net revenues of the department, he will see that Mysore stands favourably in comparison with the Forest Departments of the British Provinces. In fact in the short time that I have had the experience of the administration of this department I am convinced that it requires strengthening in many of its branches to secure efficiency and proper economic development of the Mysore forests. In the budget figures for 1916-17 relating to the Madras

Forest Department it is found that out of a total revenue of 39½ lakhs estimated in the budget, an expenditure of 28,82,000 has also been provided; the net receipts are estimated only at 10,68,000. The establishment charges of the Mysore Forest Department together with contingencies come to only 29.4 in the year 1914-15 and in the budget year the total estimated revenue is 26,63,000; and the expenditure only 9,40,000; out of which the establishments take up 4,36,000.

The Forests of Mysore are one of its most valuable assets and for the proper conservancy as well as the exploitations thereof it is necessary to have adequate supervising staff and also a well paid subordinate executive staff. All these matters are now engaging the consideration of Government according to their urgency and it is possible that some re-organisation will have to be affected in the near future. It is therefore desirable for the Members of this Council to note that there is no possibility of any retrenchment so far as the establishments of the Forest Department are concerned.

Mr. Venkatakrishniah has also referred to the disparity between the figures relating to Government agencies and other agencies for the exploitation of timber. In the Madras figures, the value of the timber removed by purchasers and consumers is nearly five times the timber removed by Government agency. The difference is chiefly due to the fact that sandalwood as the State monopoly is generally worked departmentally and it is also partly due to the fact that sufficient competition does not exist so far as consumers and purchasers are concerned at present. It may interest the members of this Council to know that the system of long term contracts given without open tenders that has been in vogue for some years in the past so far as teak and other valuable jungle wood species are concerned has been given up. It is therefore hoped that when facilities are given to create a healthy competition a larger number of purchasers and consumers will come forward to work the forest timbers of the State for the benefit, both of Government finances as well as of the market.

Mr. Venkatakrishniah has also urged that the expenditure on the agricultural farms shows considerable increase in the Budget Estimates and there has been no explanation offered for such increase. He further urges that these farms should be self-supporting. So far as the increase is concerned the lumpsum grant for the Hebbal Farm comprises the following items, *viz.*, purchase of new cattle and carts, shafts for working the machines, farm expenses in connection with experimental cultivation and sheds for carts and manure pits. The farm at Chitaldrug has been sanctioned in a recent Government Order, dated 31st May 1916, and the initial expenditure consequent on the acquisition of a large extent of land comprising about 222 acres as well as the buildings and other equipment account for the large non-recurring expenditure of Rs. 24,000. A sum of Rs. 21,000 and odd has been sanctioned also for the Marthur Farm in the Malnad to conduct experiment in the diseases affecting the areca palm. Taking the operations of the Agricultural Department as a whole and the representations that have been made from time to time that there should be agricultural farms in every district headquarters, the note of warning sounded by Mr. Venkatakrishniah would seem to indicate that the Government are proceeding too rapidly in the matter. As a matter of fact, the Government are proceeding very cautiously and steadily and in course of time it is expected that the Agricultural Budget will show a considerably larger sum than it has in the budget now before the Council.

The theory that these experimental and demonstration farms should be self-supporting is a plausible one but experience as well as the correct policy in regard to such farms indicate that it is not possible to make these farms self-supporting. They are not run on commercial lines. They have their educative effect on the raiyat population and the various measures taken and various experiments made in the farm from time to time cannot result in a financial return commensurate with the total expenditure involved. The Report of the Agricultural Department will show a variety of experimental work carried on and the demonstration and popularising work which has been taken up side by side and it is impossible to expect that the work of the Agricultural Department so far as these farms are concerned can ever be self-supporting. It is therefore well that the Members of this Council who view with any concern the expenditure under these heads, look at the question in its

proper light. In the budget year a sum of 1,05,600 as against 1,32,600 for 1915-16 has been made for demonstration and experiments and the Government hope that the whole of it will be profitably utilised, as there were many lapses last year owing to the postponement of some of the farm operations in the districts.

Mr. Venkatakrishniah has pleaded for more district and taluk industrial schools. Perhaps he is aware of the present condition of the different rural industrial schools in the State and realises to some extent the difficulty that the Government experience in securing teachers to take up industrial education. In view of these facts the Government are anxious that the two Technical Schools in Bangalore and Mysore should be fully developed and expanded so that a supply of sufficiently large number of teachers may be forthcoming in the near future to take charge of a net work of industrial schools throughout the State. With that end in view a lumpsum grant of 50 thousand rupees has been made to improve the Mechanical and Technical Schools in Bangalore and Mysore. The member will see from the details of the budget that there is a sum of 22,460 provided for district industrial schools and 14,676 for other industrial schools. It is the policy of Government to develop industrial education as far as circumstances permit and a good deal of the progress expected will depend on the possibility of securing competent teachers.

Mr. Venkatakrishniah has questioned the propriety of allotting Rs. 6,000 for the re-organisation of the Revenue Commissioner's Office. The Revenue Commissioner being the highest Controlling Revenue Authority in the State has an establishment consisting of one Manager and 30 clerks and he practically represents what in British Provinces is the Board of Revenue. It cannot be said that his establishment is too large or that it is sufficiently well paid. In fact past experience shows that the establishment provided for is not adequate and the prospects are not sufficiently attractive to secure men of sufficient education and efficiency to take charge of the very responsible work in the Revenue Commissioner's office. These increases should not be regarded as indicating a desire on the part of Government to swell up unnecessary establishments. It is necessary to ensure by the strengthening of establishments here and there that the work does not suffer.

Mr. B. Narasinga Rao has dwelt upon the growth of revenue in proportion to the growth of expenditure in the State and has addressed a word of caution to Government in that connection. The growth of establishments in certain departments of the State no doubt has been considerable of late but side by side there have been developments in all directions and such developments could not possibly have taken place without the aid of additional staff. The criticisms offered are too general in character to admit of any detailed answer but the member may rest assured that Government have in no case recklessly augmented establishment charges but have only sanctioned what is absolutely necessary for the efficient discharge of the work that is expected to be done.

The retrenchments and such other watch-words are frequently used in connection with the budget discussion but no constructive proposals are forthcoming to show in what respects the Government could affect retrenchments without seriously hampering the administration. Further while in one breath the members strongly urge for retrenchment in another they apply in all seriousness for larger grants under salary of low paid subordinates, education, sanitary improvements and reorganizations, etc., all of which to carry out effectively require additional establishment and extra supervising agency and here comes the fallacy of the argument of topheavy establishments. The miserable sanitary condition of Seringapatam brought to notice by this member has already engaged the attention of Government and is receiving their earnest attention. A progressive administration must necessarily cope with the growth of establishments in all directions and it is impossible to expect that the increase in establishment can always be counterbalanced by a proportionate increase in the total revenues of the State.

Mr. Chengiah Chetty has suggested that as the Amildars are over-worked, Peishkars should be appointed in each taluk as their Assistants. The Government will note this suggestion but consider that in view of the general question of the separation of executive and judicial functions which has been pressed by almost every non-official member before this Council, the proposal loses its importance as a separate proposition. The same remarks applies to Mr. Narasimaiah's sugges-

tion that the pay of the Amildar should be raised and the tone of district administration improved some of these are matters which are now engaging the serious attention of Government.

The criticism made by Mr. Narasimiah relating to the bifurcation of the districts of Mysore and Shimoga so far as Forest administration is concerned is that the additional establishment was unnecessary and could have been provided for by reduction of establishments in the Maidan districts. The State forests in Shimoga comprise 568 square miles and Mysore 632 square miles; and as the bulk of the Forest revenue comes from these two districts it was considered necessary for the better working of the forests in these two districts and for a proper safeguard of forest revenue to provide for lesser charges so as to enable the officers to devote more attention and better supervision to their work. The remarks already made by me with reference to the criticisms of Mr. Venkatakrishniah so far as forest administration in general is concerned will, I hope, satisfy the member that the change is absolutely necessary. It is however sanctioned temporarily for one year for the present. The forest revenue of Bangalore, Kolar, Tumkur and Chitaldrug is over 5 lakhs and a comparison with the Madras charges will convince the member that no reduction of establishments in these districts can be effected. In this connection the Government note that in this debate no reference has been made to forest grievances by any of the members and this may justify the presumption that the department is working in smooth and harmonious relationship with the people.

Mr. Narasimiah referred to tank restoration and suggested that Government might be pleased to issue orders to bring about an improvement in the progress of works under this head. The whole question has been thoroughly investigated and orders are about to issue in the matter. The member has also complained of over-centralisation in the Educational Department and suggests an Education Commission to enquire into the question. There is already an Education Committee under the Economic Conference and if any proposals are framed on the subject by that Committee they will receive the serious consideration of Government. It may however be satisfactory to the member to know that the whole question of the present organisation and work of the Education Department, is now under examination by Government.

Mr. Krishnamurti Rao has made many complaints regarding the work of the Education Department and I need not reply to him in detail after the vigorous defence that has already been made by the Inspector-General of Education.

It may perhaps interest the members to know that the money spent on primary education has increased during the past five years from Rs. 3,51,495 to Rs. 4,80,845 and Government are prepared to spend even more. The additional grants made with a view to the expansion of primary education entailed considerable increase of work and a larger organisation is required. It may be considered that the arrangements are not absolutely perfect and there are defects here and there but the critics might make allowance for the rapid strides primary education has made in the State and not be too severe in their criticisms so far as the existing defects are concerned. Government can assure them that the whole question of reorganisation and equipment is now being carefully examined and necessary orders will be passed to see that rectification, wherever necessary, is made without delay.

As regards the Book Depot I can assure the member that the working of the institution which has not been satisfactory in the past is now being thoroughly examined and necessary improvements will be effected in due course.

The member questions the propriety of a contribution of 7 lakhs of rupees per annum to the Indian Institute of Science. I would only urge for his consideration the fact that the possibilities of work under scientific investigation and research so near at hand under the able supervision and control of the best experts cannot but ultimately help the Mysore Government in all their schemes of industrial and economic development. I consider that it was one of the master strokes of policy on the part of the Government of His Highness the Maharaja to have secured the establishment of this Institute in Bangalore. As a recent instance I may quote that the experiments relating to sandalwood oil were all conducted at this institute and the Mysore Government are deriving the benefit from these experiments. Mr. Krishnamurti deplored what he considered to be the existing defects in the

District and Taluk administration and desired that some attention should be paid to the lower ranks of the revenue service. Perhaps he is not aware that in September 1913, Government sanctioned the revision of the Taluk Establishments at an increased cost of Rs. 43,756 *per annum*; and in December 1914, Government revised the District Office establishments also at an additional cost of Rs. 6,900 *per annum*. In view of the possible readjustment of work consequent upon any scheme that may be framed to relieve the Amildars, the whole question will probably be re-examined but no definite promise can be given on the subject at present.

Mr. Krishnamurti Rao referred to the lump allotments in the budget for the Survey Department. In that budget a grant of Rs. 1,10,000 has been provided with the object of pushing on re-survey operations. It may interest the member to know that 23 taluks are now ripe for settlement and a large temporary establishment is necessary to make even fairly satisfactory progress. Lump sum grants only can be made for temporary establishments of measurers and classifiers, as the supply of such men is limited and there is no certainty regarding the same.

He also referred to the inamdars' toddy revenue question. I would reply that this question is now ripe for settlement and Government hope to pass orders at an early date.

The request about minor tanks in inam villages will be noted for consideration. It may interest the member to know that the inam villages have recently been given the privileges of the Village improvement scheme.

The question about the sub-taluks of Kumsi and Narasimharajapura has already been referred to the Revenue Commissioner for his opinion and Government will consider the question when his reply is received.

Mr. Seetharamaiya referred to the desirability of encouraging sandalwood plantations. I have only to refer him to the G.O., dated the 27th May 1915 and Rule 41 of the Land Revenue Rules in the matter, which give certain concessions regarding standing trees; but the suggestion is a good one and will be noted for further consideration.

Mr. Nawab Gulam Ahmad Kalami has pleaded eloquently for Mussalman Education and I may assure him that Government have every sympathy with the object he has in view. His request for the provision of Rs. 5,000 appears to be perfectly reasonable. If after making necessary investigations in the matter it is found that it can be granted Government will only be too glad to do so. I may, however, give him the figures in regard to Mussalman Education in Mysore, to show that the Government are doing all they can to promote Mussalman Education:—

					Rs.
Primary Hindustani Boys' schools	...	...	...	...	49,545
Do Girls' schools	...	...	...	...	28,587
					<hr/> 78,132
Anglo-Hindustani Secondary schools	...	...	...	...	14,695
Scholarships	...	...	...	...	4,000
					<hr/>

Out of a total of 5 lakhs spent for Primary education in the State, Rs. 78,132 for special schools for Mahomedans is not inadequate so far as figures go.

One of the members referred to the lump sum grant of Rs. 3,000 for Geological maps. I may state for his information that this grant has been repeated from the year 1913-14 and is intended to continue till 1918-19. In regard to the enquiry made about the progress, I wish to state that a mineral map of Mysore has been already printed and the Geological map is ready and is now being printed. It is on a scale of 1" to 8 miles showing the general results of the Geological survey work done up-to-date.

Mr. H. Narasinga Rao has offered some valuable suggestions to give effect to the scheme of the separation of the executive and judicial functions. My learned colleague has already dealt with this subject and all I need add is that his suggestions will be duly considered when the scheme is formulated.

He has also referred to a spirit of discontent that has been caused owing to a vigorous policy of Government relating to the backward classes. As regards these

classes Government earnestly desire that there should be no antagonism so far as the policy to uplift them is concerned with reference to the attitude which may be taken up by the so called forward classes. The Government would deprecate any such antagonism. Mr. Basaviah and Mr. Narasinga Rao apparently belong to two opposite schools of thought and Government desire to reconcile them. They wish to assure Mr. Basaviah that the request for additional facilities for the education of the backward classes will be very carefully considered and in all probability some additional grant will be given in the current year. But in doing so, they are also anxious that there should be no apprehension on the part of the advanced communities that Government intend to show any undue partiality to the backward classes. The main principle which underlies Government policy in the matter is that they desire all communities to prosper.

I wish to make a remark regarding the allegation that has been made by one of the members as to the incidence of taxation being high in Mysore. I am afraid that the remark is made on insufficient data. I am at present, not in a position to give the exact figures but I can assure the member that so far as revenue assessments in regard to which I have considerable experience in British India are concerned, they are very moderate in Mysore and if the member will kindly compare the figures he will find the assessments much lower in the Mysore State when compared to those in vogue in other provinces. Apparently there has been some misconception or miscalculation which may be removed if the matter is carefully re-examined.

Government are pleased to note that the non-official members appreciate the generosity with which the Government have treated all large schemes of public improvement, the grants in respect of which are for the first time shown separately in this budget. A sum of 2½ lakhs has been allotted under the several heads of Village Improvement, Malnad Improvement and wells outside Bangalore and Mysore. It may interest the members to know that the Government have promised a moiety of the cost of water-supply projects in Kolar and Shikarpur; and for Chitaldrug they have sanctioned ¾ of the cost. In the case of Davangere, a sum of Rs. 30,000 has been promised to be borne out of the State Funds. These facts will show that although large grants appear in the State budget for the cities of Mysore and Bangalore, the Government are not indifferent to the needs of other towns in the State.

As regards Excise administration almost every member of this Council has had some observation to make. These observations are however more or less of the usual diffuse and general character and do not help Government in coming to any conclusion as to the points in which they are said to have been lacking in responsibility or failing in their duty. It has been fashionable for some years to accuse any Government which controls the manufacture and vend of intoxicants, with an anxiety to increase revenue at the expense of sobriety and it is implied that by doing so they are encouraging drunkenness amongst the population. The Excise Commissioner has pointed out that although the Department is doing its best to reduce the number of shops there is always a complaint at the time of the closure of a shop and applications are always made for the opening of new shops. The remedy lies to a great extent with the people themselves. Those that are accustomed to drink will have their drink under illicit conditions unless the Government control it through the Excise Department. Closing of a few shops, regulating the location of the shops and such other remedies are all very well so far as they go, but they do not strike at the root of the evil. A large number of arrack shops have been closed during the past ten years, the duty has been enhanced from time to time and the usual measures that are now followed in British India are being gradually introduced. But a strange inconsistency appears in the criticisms made by some of the non-official members of this Council when they urge that the poor drinking classes should be protected against the illicit practices of the contractors and when they also urge that Government should reduce the facilities for drink. The Government cannot pose as temperance reformers and it is for the educated classes to get into touch with the lower classes which generally resort to all kinds of cheap drink in this country and through the medium of education gradually bring about a better condition of living amongst them. In England and other countries the temperance movement is directed towards educating the

labouring classes providing all kinds of amusements and attractions, *viz.*, museums, cinemas, picture-galleries, etc., to prevent the drinking classes from resorting to the drink shops during their leisure hours. But here depriving them of their ordinary facilities would only mean driving them to all kinds of illicit practices under the existing depraved moral condition amongst which they live. My experience in British India has been that whenever these Excise reforms are introduced suddenly and largely in a district where people are largely addicted by habit to drink, excise offences increase to a large extent and illicit distillation of very strong liquor is generally the result. However, Government are always conscious of and alive to the importance of Excise administration being conducted on the lines of least injury to the population so far as drink is concerned and the necessity of regulating the manufacture and supply of drink in such a manner that the evil is reduced to the minimum. In the current year enhanced rates have been allowed to the contractors for arrack and special liquors, the strength has been reduced from 25 U. P. to 30 U. P. for arrack and the duty has been raised to Rs. 7-8-0 per proof gallon. The duty on beer has also been raised from 2 annas  $1\frac{1}{2}$  pies to 4 annas per gallon and fees for foreign liquor licenses have been raised all round by 25 per cent and as the Excise Commissioner has pointed out the co-operation of the non-official members and the public bodies will always be welcomed so far as the question of reduction and the location of shops are concerned.

**Sir Sri Kantirava Narasimharaja Wadiyar Bahadur.**—Mr. President, I wish to express my gratification at the way in which important matters have been discussed in this Council by the non-official members. The several questions raised in the departments under my charge have been so ably answered by Mr. Narasinga Rao and the Financial Secretary that I find I have very little left to speak about. I shall therefore restrict myself to making a few observations of a general character on a few important points.

Coming to the question of the levy of medical fees, I find that more than one member has strongly expressed his disapprobation of the measure. Government no doubt realise that there is some inconvenience caused in the enforcement of this measure. But if the question of further extending medical relief and of bringing into existence a larger number of private medical practitioners in the country is to be tackled, they feel that some such action as taken is necessary.

Another point raised by Mr. Basavaiya is about the extension of medical relief on a larger scale to the rural tracts. I think he suggested that itinerent medical subordinates should be attached to the Local Fund Dispensaries so that they might pay regular visits to unhealthy localities. I think such proposals have already been made by the Senior Surgeon and Government are giving their best consideration to the question as to how to bring in an effective manner medical relief within easy reach of rural population.

The next point raised is the development of the work carried on in the Malnad area. As pointed out by Mr. Narasinga Rao, a great deal of work is being done in a quiet manner and Government mean to review the work done by the Malnad Improvement Committee so far, at the end of the year before taking further steps in the direction of the amelioration of this tract of our country.

Mr. Basavaiya has also said something about the Jail industries. As pointed out by the Financial Secretary, the industries in the Jail cannot be expected to be worked on a commercial basis but Government admit that there is a great deal of scope for further development of the industries in the Jail. Had it not been for the conditions occasioned by the war, Government had thought of attempting khaki weaving and dyeing on a large scale in the Central Jail.

With regard to the Kunigal Stud Farm, I have a word to say. Government are aware that the Farm has been working at a loss all these years. Perhaps it is a matter of common knowledge to many of you here that with the advent of the Arab and the Australian Horse into this country, the indigenous breed suffered greatly if not practically died out in many parts of the country. Had it not been for the foresight of the authorities then in charge of the department in establishing the Stud Farm for the purpose of experimental breeding in order to produce a horse that would be able to hold its own in a good many respects against the foreign breeds, we should not have been in a position today of having played a large and

leading part in the revival of horse-breeding in India, an industry the importance of which I need hardly emphasize considering the times, we are living in, when every means of quick transit is of such importance. Of course results from experiments in any live-stock rearing means time but with the general encouragement that is being given all over India within recent years, our stock, you will be glad to know, have already begun to fetch handsome prices in the open markets and Government hope the Farm will be a commercial success in course of time. Further the Farm will come in useful as a nucleus to a scheme Government have in view, of encouraging horse-breeding in the State by the people themselves.

In conclusion, I may not be considered to be merely platitudinizing when I express my impression which is no doubt shared by many a member here as to the high order of discussion that has prevailed in the deliberations of this Council during the last two days, disclosing as it has done a diligent study on the part of the non-official members of the financial position of the State and a warm appreciation in some cases of its general financial policy, in spite of the fear expressed from the Chair at the beginning of the discussions yesterday that there might be a repetition of the doleful strain in the reviewing of the budget this year by the non-official members as was done last year. Such frank and intelligent discussions can lead but to one thing, that is, there will be a better appreciation on the part of the people, of the position and difficulties of Government and on the part of Government, a better understanding of the want and aspirations of the people, leading to a sense of mutual confidence and respect so necessary for the prosperity of the State.

The non-official members, I think, on the whole, have every reason to congratulate themselves upon the able and dignified manner in which they have been able to acquit themselves during the proceedings of this Council.

**The Dewan.**—GENTLEMEN, my first duty on this occasion is to assure you that it will give me very great pleasure to convey to His Highness the Maharaja the loyal sentiments of gratitude, to which members gave expression in the course of this debate, for the several beneficent measures recently sanctioned by His Highness.

In his brief graceful speech, His Highness the Yuvaraja has just remarked on the advantages of frank discussion in regard to the budget. I have no doubt we all appreciate those advantages. In his comprehensive reply this afternoon our Financial Secretary likened the Mysore Finances to an ailing *purdah nashin* Sultana and he pointed out the difficulties under which the doctors formerly laboured whenever they wanted to understand the condition of the patient. Till a couple of years ago, the doctors could only diagnose the disease by examining the tongue put through a slit in the *purdah* or a hand thrust through a door chink. Now, however, the doctors have free access to the patient to the fullest extent permitted by civilised medical etiquette.

My colleagues and myself have listened to the speeches—some of them very eloquent ones—as well as to the criticisms and observations of the members on the budget with the keenest interest. His Highness the Maharaja's Government have reason to be gratified at the spirit of enquiry which these budget debates have aroused and the high sense of responsibility with which, as a rule, members approach public questions in this Assembly.

I hope the members concerned did not mind my interrupting them yesterday in the midst of their addresses. In doing so, my only object was to correct wrong impressions which might have escaped notice and which, had I not interposed, might have been conveyed to the public. On a perusal of some of these statements I fear any casual reader would conclude that the Mysore Government deliberately laid themselves out for multiplying blunders and irregularities.

I know how much time and labour members have bestowed on their work and at what sacrifice they are discharging this public duty. I gratefully acknowledge, on behalf of Government, the many valuable suggestions with which they have favoured us and I recognise that all honour is due to them for their unselfish and patriotic work.

The discussions opened yesterday with some severe strictures on certain supposed defects in the administration. I interfered and represented that the facts

adduced did not warrant the inferences drawn from them. Mr. Venkatakrisnaia who has an honourable record of public service extending over thirty years has all through his life been 'agin the Government.' He is, if anything, partial to the present administration but he cannot shake off his old habit. Has any one a grievance against Government? He supports the grievance and champions it impartially. He does not pause to enquire whether it is right or wrong. Is any irregularity hinted against a Government officer? His first impulse is to believe it to be true. Is there any increase of expenditure in a Government department? Then it must mean extravagance. When however the true state of things is brought to his notice he is candid and generous enough to acknowledge, as he did yesterday, that the truth may be very different.

Some few other members also have thought fit to criticise the budget in the same strain and in many cases the facts adduced did not support the allegations made. What I demand is that when public men set out in this way to attack Government in cold blood, they must at least be sure of their facts.

Messrs. K. P. Puttanna Chetty and B. V. Ramaswami Chetty had a few appreciative remarks to make of the work and the aims of Government. Mr. Krishnamurti Rao who is usually our severest critic seems to have relented and even the Economic Conference has passed through his hands unscathed on this occasion. Mr. Gulam Ahmed Kalam and Mr. Basavaiya have both spoken with eloquence and warmth. Several other gentlemen, including Mr. B. Narasinga Rao and Mr. H. Narasinga Rao, have made impressive speeches. The official members of the Council have effectively replied to most of the criticisms and Mr. Chakravarti has had quite a field day. After the replies which have been so ably given and the responsible statements of my colleagues, no apology is needed from me for confining my observations only to some of the larger issues connected with the budget.

The first question we have to ask ourselves is "Is the budget satisfactory? Are our finances sound?" Some members have drawn attention to the fact that the expenditure is growing. That is a fact. Expenditure must grow in any administration which claims to be progressive. In last year's budget debate, I referred to this aspect of the matter. Perhaps I had better quote the exact words used:—

"Now, gentlemen, I do not see why you should treat an increase of revenue and expenditure as if it were a calamity. If you look facts squarely in the face, you will find that in every civilised country, it is generally a sign of activity and prosperity. Increase of expenditure usually means increase of activities, increase of production and increase of earning power. If you study the figures of foreign countries, you will see that, in the United Kingdom, the public expenditure has gone up in the past 20 years by 140 per cent; in that luckless country, Belgium, it has gone up by 120 per cent; in the Colony of Canada by 300 per cent; in Japan by as much as 660 per cent; whereas, during the same period, the increase in Mysore has been only 60 per cent. To my mind, if there is to be any criticism, you must blame us for going slow."

From these figures you will see that the growth of expenditure in Mysore has not been abnormal. When you proceed to criticise a budget, you must go upon some standard. The standard which some of the members have adopted is to take the figures relating to expenditure in certain departments in previous years, and wherever there is an increase, to straightway conclude that there is extravagance. I told you the other day that we have spent over Rs. 2 crores on capital works within the past four or five years. That means that we have been creating an asset for the State which perhaps ten years hence will give Rs. 15 lakhs of additional income per annum and which has already begun to give over Rs. 6 lakhs.

Is there any danger threatening the finances in the future? Of course, there is the war, but we are recovering from the slight disturbance we experienced and at present there are no clouds on the horizon. We have taken additional precautions to reduce our capital expenditure from Rs. 66 lakhs last year to Rs. 40 lakhs, in the current one and, at the same time, we have amply provided for all the ordinary wants.

Comparing ourselves with conditions outside the State, you will notice that our financial statements are based on those of the Imperial Government and even the

nomenclature is nearly identical. The only difference is that, on account of our geographical and political position, ours has all the characteristics of what may be called Sub-National Finance. Mr. C. Narasimhaiya wanted to know what indirect contribution the people of Mysore made to the customs and salt revenues of British India. The proportionate share which the Mysore population seem to contribute roughly works out to Rs. 24 and Rs. 12 lakhs respectively, or a total of Rs. 36 lakhs. The recent addition of salt tax represents an increase of Rs. 1½ lakhs. The sister State of Hyderabad gets something like Rs. 72 lakhs from customs and Travancore Rs. 12 lakhs. Mysore derives no revenue whatever from this source.

If we go outside India and compare ourselves with distant countries, you will see that, in Ceylon, for instance, the bulk of the receipts is from railways and customs. The land revenue is insignificant. In Australia again, the customs revenue represents about 60 per cent of the total receipts. If we want to increase our revenues in this State, our best course is to develop industrial and commercial enterprises such as, railways, hydro-electric works, large irrigation works, industrial factories, etc.

Another test of the soundness of our finances is the incidence of taxation. The actual taxes as you know amount to about Rs. 176 lakhs or Rs. 3 per head after excluding non-tax revenues derived from railways, hydro-electric works, etc.

There is a further test which we may apply for this purpose. Some thirteen months ago, in the Economic Conference, we calculated that the total income of the Mysore people was Rs. 14 crores from agriculture and Rs. 4 crores from industrial and all other occupations. I have just stated that the revenue from taxes proper in the current year's budget comes to Rs. 176 lakhs. This represents a proportion between the Government demand and the income of the people of less than one-tenth. If we remember that, in other countries, the taxation occasionally goes up as high as 30 per cent of the net income of the people, ours must be considered a very moderate proportion. Test the budget how we may, the Council will see that it is a satisfactory one.

I now come to some of the individual criticisms of the members. As regards the charges for the establishment in the Public Works Department Mr. Chakravarti has explained how favourable the figures really are. I hope Mr. Garudachar is now satisfied that the Department is not over-manned as he feared it was.

As regards recent Railway appointments, some overt hints were dropped that the department was top heavy. It is nothing of the kind. We have one officer at the head who combines in himself three appointments. We have one Superintending Engineer for over 200 miles of construction work, and we have another Superintending Engineer for surveys for which the people have been clamouring in several districts of the State. It is a remarkable testimony to the keenness of the demand that the people up till now have come forward to contribute an additional sum of nearly Rs. 15 lakhs for railway construction. This is a critical time in the history of our railways. Four years ago, we had only 410 miles and within another six months we shall have increased the mileage by about 50 per cent.

The Muzrai improvements question is receiving attention and orders will issue very shortly.

One member suggested the abolition of the Industries Department. I fully concur with my colleague to the left that it would be a retrograde step to abolish this useful department at a time when other Provinces in British India are creating new ones. A promising source of revenue from sandalwood oil has been created mainly through the exertions of Mr. Chaterton and the revenue expected from this industry alone will probably suffice to cover the cost of the entire department five or six times over.

As regards the Institute of Science, I must cordially acknowledge the valuable help which the present management have given to our Director in the laboratory work connected with the promotion of our chemical industries.

Coming to the request for a Budget Committee and the representation of non-officials on the Finance Committee, I find that even official members have expressed themselves in favour of the proposals. I can only say at this stage that the request will receive the best consideration of Government.

With reference to the Malnad Improvement Scheme we have increased the budget provision by Rs. 50,000 in order to expedite progress.

The neglect of moffussil towns complained of is, I must admit, to some extent true but the fault is not all on our side. The real cause of delay is that people are accustomed to look to the central Government for everything, and the establishment in the Public Works Department is not adequate for preparing the necessary plans and estimates. If the Municipalities concerned consulted the local Public Works officers or other technical experts and sent up projects in a final form together with a statement of the financial assistance needed, there will be no delay on the part of Government in coming to a decision.

As regards irrigation works, we have made ample provision for the development of minor tanks on lines accepted by the Representative Assembly.

The irrigation major tanks are starved also because the Public Works Department is short handed. Several important Public Works Department divisions are at present in the charge of very junior officers.

You will be glad to hear that the question of the separation of judicial and executive functions is receiving consideration and my colleague, Mr. K. S. Chandrasekhara Aiyar, is giving the subject his special attention. In the current official year we hope to take some substantial step forward to make a beginning.

As regards Mr. Ahmed Kalami's request for help to Mahomedan education, Government will give their best attention if a brief statement of the requirements of his community mentioned yesterday is placed before Government. In any case, my colleagues and myself have agreed to recommend sanction to the amount he mentioned, *viz.*, Rs. 6,000.

Coming to the Bangalore City Municipal Improvements, Mr. K. P. Puttanna Chetty has made out a strong case. My colleagues and myself are willing to recommend that the annual grant of one lakh of rupees already given to the Municipality be utilised on drainage and that the Municipality may be permitted to begin work on the City Improvement Scheme by spending the 2 lakhs which they have in their possession on the understanding that Government will give them their promised share, as soon as they can conveniently do so. In the meantime, if necessary, they will pay interest if the Municipality chooses to borrow.

Proceeding to the question of the provision for the backward classes, there appear to be two schools of thought represented by Mr. Basavaiya on the one side and Mr. H. Narasinga Rao on the other. It would be nothing short of a calamity to the country if the question gave occasion for any permanent cleavage of interests. No country can be said to progress satisfactorily so long as the great majority of its population, from whatever cause, continue to be classed as backward. If the backwardness is acknowledged, is it not the duty of the more enlightened classes to take their less fortunate brethren by the hand and lead them up to the front? We must take a broader view of our responsibilities. So far as Government is concerned, my colleagues and myself propose to recommend an addition of one lakh of rupees for the education of the backward classes in the current official year. The amount, if sanctioned, will be utilised for giving scholarships in every taluk to members of backward communities for primary and secondary education. Part of this sum will be expended on the education, both general and vocational, of the Panchama community also.

There are some general considerations which I wish to bring to your notice before bringing these remarks to a close. It will be agreed that the public can have no reason to complain so long as the money taken from the people, or earned by the commercial enterprises of Government, is largely spent on the people for their benefit.

The objects on which public money could be most usefully spent are:—

- (1) the improvement of natural resources, and
- (2) the training of the people.

The former object is being carried out to the fullest extent permitted by public opinion and sometimes in spite of it. The development of resources will add substantially to our non-tax revenues. Even more important than this is the training and education of the people. We have increased the expenditure on education

within the past four years by about ten lakhs. Our energetic and much maligned Inspector-General of Education promised, in a scheme submitted a couple of years ago, that he would double the school-going population, that is, bring it up to 400,000 before the end of June 1917. He tells me that he has already reached 300,000 and that he will be able to produce the additional 100,000 in due course.

The best source of revenue in the long run comes of training the people; for after all, we must depend on the intelligence and the executive ability of the people for any permanent progress in the State. To some representatives the additional expenditure of Rs. 10 lakhs on the education of school-going population appears quite legitimate but they stoutly oppose any outlay on the education of grown up people; I have no doubt you all view with satisfaction the expenditure of about Rs. 15 lakhs on measures of development in various directions such as grants to village improvements, rural water-supply, malnad improvements, etc., included in the budget.

I make these observations because I want some of the gentlemen who hold the opinions I have set forth above if possible to change their view point and make up their minds to accept increase of establishment and expenditure wherever necessary in order to stimulate activities, both rural and urban. It is large developments that pay. It is commercial activities that pay. Agricultural and irrigation improvements, banks, railways, large industries, factories, extension of electricity works, etc., it is such enterprises that will bring in large returns. On the other hand, if you effect reduction of expenditure, if you stop the increase of appointments, the increase of salaries and travelling allowances, it only means stagnation or cessation of activities. The large developments may earn you tens of lakhs of rupees, but the savings which accrue from curtailment of establishments will not exceed a few thousands. Even on the lower ground of increase of Government revenues only, it is the larger measures that will bring money to the coffers of the State, besides adding to the prosperity of the people.

If you will forgive my saying so, my complaint is that a few of our respected non-official critics take small views of things and are content with modest ideals when the condition of the people is loudly calling for activity and effort. Without meaning it, they are encouraging retrenchment and reaction. A few years ago they were complaining that there were too many activities. Now the criticism is directed against establishment, travelling allowance and increase of expenditure in any shape or form. They do not know what a large amount of spade work is being done. They do not realise the prospective losses we shall suffer by adopting a policy of indifference and inaction at present. May I hope that our friends will reconsider their attitude? May I venture to invite them to leave their narrow groove of thought and aspiration and co-operate with Government to work on a higher level and a wider sphere?

I have said enough to show that all the refinements expected of a Government in dealing with the resources of the country are receiving attention. We do not pretend that there are no mistakes, and we are not by any means indisposed to accept well-considered suggestions for improvement from any quarter.

I may claim that our finances are in a sound condition. Happily the war is progressing favourably and there is every chance of further improvement. With the success of the Allies, a new era of activity and prosperity will dawn on Great Britain and India, in which we shall also participate.

Gentlemen, we have reason to congratulate ourselves on the high level of efficiency on which our finances are administered. If you examine the budget results of previous years, you will find that the actuals are invariably better than the forecasts. Our Financial Secretary is the very embodiment of caution. I hope I am not revealing a State secret if I add that he practises caution to the verge of timidity. With so able and cautious an officer at the head, we may feel sure that no hazardous experiments will be permitted. I know you will all join me in congratulating Mr. Chakravarti on the successful completion of his labours for this session.

**Mr. Venkatakrishnaiya.**—SIR,—The Government of His Highness the Maharaja have always been desirous of governing on enlightened and progressive lines. A Representative Assembly was given to us, local self Government was

given to us, a Legislative Council was given to us and economic activities were promoted. What was the object? It is merely that as all human institutions are imperfect, they are desirous of consulting public opinion at each step and suit the Government in consonance with that opinion. For these, we are extremely grateful to His Highness' Government. The other day when you said in connection with the discussion of the budget that Mr. Chakravarti would be our opponent, we simply thought that it was a joke. There was no antagonism between the Government and the people so far as Mysore was concerned. When you established a Legislative Council it was with the object of finding imperfections and seeking to remedy them. You ought to be proud that we are trying to approach your expectations, to the best of our ability. I do not mean to say that you do not appreciate our services. You, your colleagues in Council and the Financial Secretary have borne testimony to the good services rendered by the non-official members of this Council. If we have gone a little out of the way in the course of the debate, you can be confident that when the whole circumstances are placed before us, we may correct ourselves; and respond to your call to the best of our ability. We are on the high road to work in co-operation and mutual trust.

You have all heard us with patience. You have pointed out some defects which we will try to correct and rise to the level of your expectations. We have complete confidence in the enlightened Government of His Highness. If mistakes are pointed out to us we shall be thankful. At the same time it should also be the duty of Government to appreciate our efforts and opinions if they happen to be right.

In every Government there is a sort of antagonism between the Government and the people but that is not so here in Mysore. This is due more to His Highness the Maharaja's interest in the welfare of the people and also to the solicitude of His Highness' Government in the same direction. You want newspapers to be multiplied and all people to take interest in the good Government of the country. We have all been trying to respond to your call and there cannot possibly be any misunderstanding between the Government and the people. Because you want us to give expression to the more noticeable defects in the administration, we come forward. Let us understand each other and this gradual understanding will go a great way to promote the prosperity of the country.

Sir, on behalf of myself and my non-official colleagues in this Council, I beg of you, to convey our heartfelt thanks to His Highness the Maharaja and also to accept our thanks yourself. I once more request you to give up any misunderstanding, if you have formed any, in regard to our intentions for helping in the good Government of this State.

The meeting was then adjourned *sine die*.

By Order,

G. SREENIVASA IYER,

Secretary, Mysore Legislative Council.
